BROOKLINE TOWN RECORDS.

FOR THE MUNICIPAL YEAR 1894-5.

ANNUAL MEETING, MARCH 29, 1894.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Brookline, Greeting :—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Thursday, the twenty-ninth day of March, 1894, at seven o'clock in the forenoon, for the following purposes, to wit:

First, To choose a Moderator.

Second, To choose by ballot the following Town Officers: One Town Clerk for one year; five Selectmen for one year; one Collector of Taxes for one year; one Treasurer for one year; three Assessors for one year; three members of the School Committee for three years; four Trustees of the Public Library for three years; two trustees of Walnut Hills Cemetery for three years; one Commissioner of the Sinking Fund for three years; one Park Commissioner for three years; one member of the Water Board for three years; three Auditors for one year; a Committee for Planting Trees, of three members, for one year; five Constables for one year; two Fence Viewers for one year.

Also, upon the same ballot, to vote "Yes" or "No" upon the question, "Shall licenses be granted for the sale of intoxicating liquors in this town?"

For these purposes the polls will be opened at 7.15 o'clock in the forenoon, and may be closed at 5.15 in the afternoon.

Also, to choose or appoint all the other usual town officers, in such manner as the town may determine.

Third, To accept the list of jurors as revised by the Selectmen, and posted according to law.

Fourth, To hear and act upon the reports of Town Officers and Committees.

Fifth, To authorize the Selectmen to settle suits and claims against the town, and to employ counsel in cases where they shall consider it necessary.

Sixth, To appropriate \$75,000 for the widening of Harvard street, and the payment of land damages thereon; to authorize the Treasurer to borrow the same; also, to authorize its construction before all claims for land damages are settled.

Seventh, To appropriate an additional \$50,000 for the New High School house, and to authorize the Treasurer to borrow the same.

Eighth, To appropriate \$18,000 for Park Construction, and to authorize the Treasurer to borrow the same.

Ninth, To appropriate \$30,000 for additional Water Supply, and to authorize the Treasurer to borrow the same.

Tenth, To accept and allow Addington path as laid out by the Selectmen, and reported to the town at this meeting.

Eleventh, To accept and allow Colbourne path as laid out by the Selectmen, and reported to the town at this meeting.

Twelfth, To accept and allow Hill street as laid out by the Selectmen, and reported to the town at this meeting.

Thirteenth, To accept and allow the alteration and widening of Washington street as laid out by the Selectmen, and reported to the town at this meeting. To appropriate \$66,000 for the payment of land damages, and for the construction of said street, and to authorize the Treasurer to borrow the same; also, to authorize its construction before all claims for land damages are settled.

Fourteenth, To see if the town will adopt a by-law to authorize the Treasurer to make payments on account of the current expenses of the town between February 1st in each year and the time of making the annual appropriations.

Fifteenth, To see if the town will adopt a by-law to regulate the distribution of printed matter throughout the town.

Sixteenth, To see if the town will vote that all work done by the town of Brookline shall be done by the voters and tax-payers of the town; also, all work let by contract shall be done by voters and tax-payers of the town; that the Selectmen be authorized to have a clause to this effect inserted in all specifications given out by the town of Brookline.

Seventeenth, To see if the town will provide additional hospital accommodations for persons having diseases dangerous to the public health, and to make an appropriation therefor.

Eighteenth, To hear and act upon the report of the Selectmen upon Article 21 of the articles in the warrant for the annual town meeting of 1893.

Nineteenth, To adopt a by-law for the employment of a Town Engineer.

Twentieth, To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, or as may be required to defray the expenses of the town for the financial year ending February 1st, 1895, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any town officers or committees.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this nineteenth day of March, in the year of our Lord one thousand eight hundred and ninety-four.

HORACE JAMES,
TUCKER DALAND,
THEODORE PINKHAM,
JAMES B. HAND,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

NORFOLK, SS.

BROOKLINE, March 22, 1894.

By virtue of the within warrant I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time, and for the purposes herein named, by leaving a printed copy of the same at their last and usual place of abode; and also by posting printed copies of the same in three public places, in said Brookline, seven days at least before the day of said meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall, in said town, on Thursday, the twenty-ninth day of March, in the year of our Lord one thousand eight hundred and ninety-four, and were called to order at seven of the clock in the forenoon, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served it upon the inhabitants.

First Article taken up,—“To choose a Moderator.”

Voted, That the polls be kept open three minutes.

The Town Clerk then declared the polls were open for the reception of votes for Moderator and they were kept open three minutes, when they were declared closed. The votes were then sorted and counted, and the whole number was given as seventeen, as follows, to wit:

For Moderator,—Albert L. Lincoln, Jr., had seventeen, and was declared elected.

The meeting was then called to order, and prayer was offered by Rev. Jeremiah Taylor, D. D.

On motion of Mr. Alfred D. Chandler, it was—

Voted, That the consideration of each and all the articles in the warrant, except the second article, be postponed until the adjournment of this meeting.

Voted, That when this meeting adjourns it be to meet in this place on Monday, the sixteenth day of April next, at half-past seven of the clock in the evening.

Voted, That the Moderator of this meeting, with the Selectmen to be elected, the Town Clerk, the Town Treasurer, and twenty citizens at large to be appointed by the Moderator, constitute a committee to consider the appropriations recommended by the Selectmen, and the remaining articles in the warrant after the second article, and to report thereon in print with appropriate forms of votes, at the adjournment of this meeting. The Committee shall publish their report in *The Chronicle* previous to the said adjourned meeting.

In addition to the Moderator, the Town Clerk, the Town Treasurer, and the Selectmen to be elected, the Moderator appointed the following citizens to compose said committee, viz. :

William H. Lincoln.	Clement K. Fay.
Francis W. Lawrence.	Desmond FitzGerald.
Jerome Jones.	Barthold Schlesinger.
George F. Boynton.	William Lloyd Garrison.
James Driscoll, Jr.	Osborne Howes.
Jacob P. Bates.	Alfred Winsor.
Alfred E. Kenrick.	Thomas Aspinwall.
Moorfield Storey.	Theodore Pinkham.
James B. Hand.	Nathaniel Conant.
Alfred D. Chandler.	Emery B. Gibbs.

Second Article taken up,—“To choose by ballot the following Town Officers: One Town Clerk for one year; five Selectmen for one year; one Collector of Taxes for one year; one Treasurer for one year; three Assessors for one year; three members of the School Committee for three years; four Trustees of the Public Library for three years; two Trustees of Walnut Hills Cemetery for three years; one Commissioner of the Sinking Fund for three years; one Park Commissioner for three years; one member of the Water Board for three years; three Auditors for one year; a Committee for Planting Trees, of three members, for one year; five Constables for one year; two Fence Viewers for one year.

“Also, upon the same ballot, to vote ‘Yes’ or ‘No’ upon the question, ‘Shall licenses be granted for the sale of intoxicating liquors in this town.’

“For these purposes the polls will be opened at 7.15 o'clock in the forenoon, and may be closed at 5.15 in the afternoon.

“Also, to choose or appoint all other usual Town Officers, in such manner as the town may determine.”

On motion of Mr. Alfred D. Chandler, it was—

Voted, That the meeting now proceed to choose the town officers as specially enumerated in the second article in the warrant. Also to vote “Yes” or “No” upon the question, “Shall licenses be granted for the sale of intoxicating liquors in this town?”. Also to choose or appoint all other usual town officers.

Voted, That the board of Selectmen to be elected and Mrs. Henrietta G. Codman and Miss Martha W. Edgerly be the Overseers of the Poor for the ensuing year.

Voted, That the polls be kept open for voting under the second article in the warrant until fifteen minutes past six o'clock.

In conformity with the laws of this Commonwealth in relation to elections the Town Hall had been fitted up as a polling place, a space railed off and thirty shelves or compartments provided for the use and convenience of voters to examine and mark their ballots, each compartment being supplied with cards of instructions, and suitable conveniences for that purpose.

The Moderator appointed Constable Willard Y. Gross to have charge of the space inside of the railing, also as an assistant teller, and Harry H. Whitney to be a teller, and they were sworn by the Moderator.

The ballot clerks, Francis F. Muldowney and Frederic M. Bond, who had been appointed by the Selectmen, were sworn by the Moderator.

The ballot clerks were then stationed at the entrance to the polling place and furnished with duplicate lists of the registered voters of the town, one for men and one for women voters.

The Town Clerk, in conformity with the provisions of chapter four hundred and seventeen of the Acts of the year eighteen hundred and ninety-three, then delivered to the ballot clerks two sealed packages marked “Official Ballots for the Town of Brookline, March 29th, 1894,” one package marked “2065” and one package marked “2000,” and one package marked “Special Ballots for Women only,

March 29, 1894," marked "306," which he had caused to be printed and prepared for the purposes above named, and took their receipt therefor, said ballots to be delivered by them to the legal voters as called for, and to check their names on the list when so delivered. The cards of instructions and specimen ballots were also posted in different parts of the hall, outside the railing.

The ballot-box to be used at elections was then opened in the public meeting and examined by the Moderator and Town Clerk, and shown to be empty.

The register of the box was then set at zero (0) and locked; the key of the lower part was delivered to Constable Willard Y. Gross, and the key of the upper part to the Moderator.

The polls were then declared open for the reception of votes.

The Moderator appointed as tellers, to sort and count the votes, Edwin H. Bowker, Thomas F. Barrett, Willard E. Clough, Frank T. Fay, Bradford Kingman, Walter W. Paige and Frank T. Sullivan, and they were sworn by the Town Clerk. George S. Rich was appointed an additional teller, and was sworn by the Moderator; Alexander S. Arthur was appointed an additional ballot clerk, and was sworn by the Town Clerk.

After giving due notice of the closing of the polls they were declared closed at fifteen minutes past six of the clock in the afternoon.

During the time of voting the ballot-box was opened four times by consent of the Moderator and Town Clerk, for the purpose of counting the ballots, and again at the close of the polls, when the register of the box stood at eighteen hundred and one (1801).

During the voting the box failed to register the ballots cast nineteen times, but cancelled them correctly. The names on the lists of men and women voters which had been checked were then counted, and the whole number was eighteen hundred and twenty, which agreed with the number registered by the box after adding to the number registered the nineteen times the box failed to number the ballots that passed through.

The lists of voters used by the ballot clerks at the entrance to the polling place were then compared with those used by the Town Clerk at the ballot-box and found to agree.

The number of ballots left at the close of the polls, deducted from the whole number receipted for by the ballot clerks, showed that eighteen hundred ballots had been delivered to the men and twenty to the women voters.

The Moderator and tellers canvassed the votes thus given in, and the whole number was one thousand eight hundred and twenty, twenty of which were women's votes for School Committee, which were sorted, counted and recorded, and declaration thereof made in open town meeting; and the following persons, having a plurality, were declared elected, viz. :

Town Clerk :

Benjamin F. Baker had eight hundred and seventy and was declared elected. (Sworn by the Moderator.)

Selectmen :

James M. Codman, Jr., had nine hundred and eighty-eight. (Sworn by the Town Clerk as Selectman and Overseer of the Poor.)

Tucker Daland had eight hundred and fifty-three. (Sworn by the Town Clerk as Selectman and Overseer of the Poor.)

Charles H. Drew had nine hundred and fifty-eight.

Horace James had ten hundred and twenty-one. (Sworn by the Town Clerk as Selectman and Overseer of the Poor.)

William J. Seaver had nine hundred and thirty-four.

And they were declared elected.

Nathaniel Conant had eight hundred and forty-six.

James B. Hand had eight hundred and nineteen.

Theodore Pinkham had seven hundred and twenty.

Winand W. J. Toussaint had one hundred and nineteen.

Treasurer :

George H. Worthley had thirteen hundred and fifty-eight, and was declared elected. (Sworn by the Town Clerk.)

Collector :

George H. Worthley had thirteen hundred and two, and was declared elected. (Sworn by the Town Clerk.)

Assessors :

Rufus G. F. Candage had thirteen hundred and fifty.

Charles H. Stearns had thirteen hundred and sixty-nine. (Sworn by the Town Clerk.)

Thomas H. Talbot had thirteen hundred and seventy-two.

Auditors :

Gardner C. Brooks had thirteen hundred and fifty-two.

William E. Lincoln had thirteen hundred and ten. (Accepted.)

Charles A. W. Spencer had eleven hundred and ninety-nine. (Accepted.)

And they were declared elected.

Winthrop S. Scudder had three.

School Committee for three years:

George N. Carpenter had thirteen hundred and twenty-one.

William T. R. Marvin had twelve hundred and forty-one.

John D. Runkle had thirteen hundred and four.

Trustees of Walnut Hills Cemetery for three years:

Desmond FitzGerald had twelve hundred and thirty-nine.

Leonard K. Storrs had twelve hundred and seventy-five.

Trustees of the Public Library for three Years:

Benjamin F. Baker had twelve hundred and sixty-seven. (Accepted.)

Charles C. Soule had twelve hundred and seventeen.

Edward Stanwood had twelve hundred and ten.

Leonard K. Storrs had twelve hundred and seventy-eight.

Committee for Planting Trees:

James H. Bowditch had twelve hundred and forty-six.

William Stearns had twelve hundred and thirteen.

Edward W. E. Tompson had eleven hundred and sixty.

Sinking Fund Commissioner for three years:

Charles H. Draper had twelve hundred and eight. (Accepted.)

Park Commissioner for three years:

Henry M. Whitney had twelve hundred and ninety-nine.

Member of the Water Board for three years:

Oscar B. Mowry had eleven hundred and seventy-one.

Fence Viewers:

Willard Y. Gross had twelve hundred and ten. (Sworn by the Town Clerk.)

Burton W. Neal had eleven hundred and seventy-two.

Constables:

Willard Y. Gross had eleven hundred and ninety-six. (Sworn by the Town Clerk.)

George F. Johnson had eleven hundred and ninety-two.

Thomas J. Murray had twelve hundred and thirty-four.

Albert S. Paige had twelve hundred and six.

Eben W. Reed had eleven hundred and seventy-six.

On the question "Shall licenses be granted for the sale of intoxicating liquors in this town," the whole number of votes was fifteen hundred and sixty-five, as follows, to wit: "Yes," six hundred and twenty-one (621); "No," nine hundred and forty-four (944).

In voting the check-lists were used, one for men and one for women voters; and no person was allowed to deposit his or her vote until their names had been found on the list and checked.

The meeting then nominated and chose the following list of officers, to wit :

Surveyors of Lumber and Measurers of Wood and Bark : Francis H. Bacon, Merrill V. Brown, William K. Melcher (Sworn by the Town Clerk), John E. Cousens.

Sealer of Leather : William K. Melcher. (Sworn by the Town Clerk.)

Sealer of Weights and Measures : Willard Y. Gross. (Sworn by the Town Clerk.)

Field Driver : Eben W. Reed.

Pound Keeper : Eben W. Reed.

Committee on Brookline Cemetery : Henry S. Hatch. (Accepted.)

The votes cast and the lists of voters used at the polls were then sealed up and endorsed by the Moderator and Town Clerk, and the lists of voters used by the ballot clerks, and the damaged ballots returned to them, and the remainder of the ballots left over, were then sealed up, endorsed by the ballot clerks, and delivered into the custody of the Town Clerk.

Adjourned to meet in this place on Monday, the sixteenth day of April next, at half-past seven of the clock in the evening.

Adjourned. Attest : B. F. BAKER, *Town Clerk.*

In conformity with the laws of this Commonwealth, the Town Clerk forthwith made out his warrant and delivered it to Constable Willard Y. Gross, requiring him, within three days from the date thereof, to summon all officers chosen, and not qualified, to appear before the Town Clerk within seven days from the date of such notice, to be qualified for their several offices ; to be sworn where an oath is required, or to signify their refusal of the same ; also, to signify their acceptance or refusal of the office to which they had been chosen, where an oath is not required.

Attest : B. F. BAKER, *Town Clerk.*

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

Then personally appeared the persons below named, and were sworn to the faithful discharge of the duties of their office, at the time set against their names, or filed a certificate of having been sworn before a justice of the peace, or signified their acceptance or refusal of the office to which they had been chosen, viz. :

pumping station	1,000 00
New floor in cellar at low-service station	1,500 00

Voted, That the subject of the compilation, printing and distribution of the annual town report be referred to the Selectmen, with instructions to report, at a future meeting, upon a method of reducing the expense of the same.

The following vote was then presented to the meeting in relation to borrowing the money for the Longwood playground, to wit :

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Park Commissioners, the sum of four thousand dollars, appropriated at this meeting, at a rate of interest not exceeding four per cent per annum, the bonds or certificates of indebtedness to be given therefor to be denominated upon their face, "Public Park Construction Loan," and to be made payable in such annual proportionate payments as will extinguish the same in or within ten years from their date; the bonds or certificates to be signed by the Treasurer and countersigned by a majority at least of the Selectmen; and the said Park Commissioners are authorized to expend the said sum of four thousand dollars for the improvement of the Longwood Park Playground.

The Moderator appointed as tellers, Messrs. James M. Codman, Jr., and Thomas F. Barrett, and they were sworn by the Town Clerk. The vote was then put upon its passage, and the whole number of votes was three hundred and sixty-six, as follows, to wit :

Yes, three hundred and sixty-six (366).

No, none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Voted, That the sum of \$219,001 be appropriated to pay so much of the funded debt not provided for by the sinking fund as matures during the current fiscal year, including that which matures Feb. 1st, 1895.

Voted, That the sum of eight thousand dollars (\$8,000) be and the same is hereby appropriated to pay for the completion of the new covered channel for the brook in the village (so called) as laid out and accepted by the town at the town meeting May 15th, 1893.

The following vote was then presented in relation to borrowing the money for the completion of the covered channel of the brook in the village, to wit :

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of eight thousand dollars (\$8,000), paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen; such indebtedness shall be made payable in such annual proportional instalments as will extinguish the same within ten years from the date of delivery of said note or notes. The said sum is to be applied to the payment for the completion of the new covered channel for the brook in the village as accepted by the town on May 15th, 1893.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was one hundred and ninety-six, as follows, to wit :

Yes, one hundred and ninety-six (196).

No, none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Voted, That the various credits and receipts shall be used to reduce the amounts expended under the appropriations to which they respectively belong; but cash received for Water-rates and Meter rentals, Sewer assessments, Betterments, Rents, and on account of State Aid shall not be so treated.

Fourth Article taken up,—“To hear and act upon the reports of Town Officers and Committees.”

Voted, That the reports of Town Officers and Committees which have been printed and distributed through the town, be accepted.

The committee appointed at the last annual meeting, on a site for a police station, reported progress and asked for further time, which was granted.

Under the report of the Assessors relating to providing better accommodations, on motion of Capt. Candage, chairman of the board, it was

Voted, That the sum of \$1,000 be appropriated to fit up and furnish offices for the use of the board of Assessors, the same to be expended under the direction of that board. If the boards of Assessors and

Selectmen shall be of opinion that suitable accommodations for that purpose cannot be afforded in the Town Hall, said boards are hereby authorized to procure them elsewhere, at an annual rental of not more than \$800, which sum is hereby appropriated for that purpose.

Voted, That the report of the committee on the disposal of waste material be recommitted to the same committee, with instructions to report further thereon at a future meeting.

Fifth Article taken up,—“To authorize the Selectmen to settle suits and claims against the town, and to employ counsel in cases where they shall consider it necessary.”

Voted, That the Selectmen be authorized to settle any claims or suits against the town which in their opinion cannot be successfully defended, when such suit or claim does not exceed the sum of one thousand dollars (\$1,000), and that the Selectmen be authorized to employ counsel in suits against the town and to consult counsel in cases where they deem it necessary.

Voted, To adjourn to meet in this place on Friday next, the twentieth instant, at half-past seven of the clock in the evening.

Adjourned. Attest: B. F. BAKER, *Town Clerk*.

ADJOURNED ANNUAL MEETING, APRIL 20, 1894.

Pursuant to adjournment the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Friday, the twentieth day of April, in the year of our Lord eighteen hundred and ninety-four, and were called to order at half-past seven of the clock in the evening, by the Moderator, Albert L. Lincoln, Jr.

Seventh Article taken up,—“To appropriate an additional \$50,000 for the new High School house, and to authorize the Treasurer to borrow the same.”

Voted, That the Seventh Article be postponed to the next town meeting.

Eighth Article taken up,—“To appropriate \$18,000 for Park Construction, and to authorize the Treasurer to borrow the same.”

Voted, That the sum of nineteen thousand four hundred dollars (\$19,400) be and the same is hereby appropriated for the completion of Riverdale Park.

The following vote was then presented for borrowing the money for the completion of the Riverdale Park, to wit.:

Voted, That the Treasurer be and he is hereby authorized to borrow, when so directed by the Park Commissioners, as authorized by the provisions of Chapter 190 of the Acts of 1889, the sum of nineteen thousand four hundred dollars, (\$19,400) appropriated at this meeting, for the purpose of defraying the cost and expenses of constructing Riverdale Park, so called, in Brookline, in connection with the sanitary improvement of Muddy River; the negotiable bonds or certificates of indebtedness of the town to be given therefor bearing interest at a rate not exceeding four per centum per annum, payable semi-annually, to be denominated on the face thereof "Brookline Park Construction Loan," and to be made payable in such annual proportionate payments as will extinguish the same in or within twenty years from their date; the bonds to be signed by the Treasurer and countersigned by a majority at least of the Selectmen; and the said Park Commissioners are authorized to expend the said sum for said purpose.

The vote was then put upon its passage, the same tellers, Messrs. James M. Codman, Jr., and Thomas F. Barrett, who were appointed at the previous meeting, acting; and the whole number of votes was one hundred and nineteen, to wit:

Yes, one hundred and nineteen (119).

No, none (0),—and the vote was declared passed in the affirmative, by more than two-thirds of the voters present and voting thereon.

Ninth Article taken up,—“To appropriate \$30,000 for additional Water Supply, and to authorize the Treasurer to borrow the same.”

Voted, That the sum of \$30,000 be and the same is hereby appropriated to pay for the extension of the system of driven wells at Cow Bay.

Voted, That the sum of \$5,000 heretofore appropriated for the new force main be transferred to the appropriation of \$30,000 made by the last vote.

The following vote was then presented for borrowing the money for the extension of the system of driven wells, to wit:

Voted, That the Treasurer be authorized to borrow, when so directed by the Selectmen, to pay for the extension of the system of driven wells at Cow Bay the sum of thirty thousand dollars (\$30,000), paying there-

for a rate of interest not exceeding four per cent per annum, payable semi-annually, and giving therefor the notes of the town, to be denominated on their face "Brookline Water Script," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same within thirty years from the date of delivery of said notes.

The vote was then put upon its passage, the same tellers acting; and the whole number of votes was one hundred and seventy-eight, as follows, to wit:

Yes, one hundred and seventy-eight (178).

No, none (0),—and the vote was declared passed in the affirmative, by more than two-thirds of the voters present and voting thereon.

Sixteenth Article taken up,—“To see if the town will vote that all work done by the town of Brookline shall be done by the voters and tax-payers of the town; also, all work let by contract shall be done by voters and tax-payers of the town; that the Selectmen be authorized to have a clause to this effect inserted in all specifications given out by the town of Brookline.”

After considerable discussion in relation to the matter of the Sixteenth Article it was—

Voted, That the Sixteenth Article be referred to the Selectmen to bring in and report at the next town meeting, asking the citizens to amend the present By-Laws in regard to public works.

Tenth Article taken up,—“To accept and allow Addington path as laid out by the Selectmen, and reported to the town at this meeting.”

Voted, That the reading of reports on the laying out of townways presented at this meeting be dispensed with.

The Selectmen presented the following report on the laying out of Addington path, to wit:

We, the undersigned, Selectmen of Brookline, having given printed and written notices to Aspinwall Land Co., Harriet O. Emerson, Lewis Wight, Mary E. Bassett and H. J. Blodgett, being all the parties known to us to be interested in the subject-matter of the path to be laid out, of our intention to lay out a path from Addington road to Colbourne crescent on the southerly slope of "Aspinwall Hill," such notices requiring such persons to appear before us at our room in the Town Hall on Monday, February 12th, 1894, at 4 o'clock, P. M.; and having caused such notices to be actually served according to law upon all such persons by a constable

of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said path, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the proposed path having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that the path should be laid out and maintained by the town as hereinafter described by its centre line.

Beginning at a point on the southerly side line of Colbourne crescent, near its junction with Addington road and opposite Winthrop road, with which the side line of Colbourne crescent does not directly connect, the said point being distant, measured along said side line of Colbourne crescent in an easterly direction, forty-four and $\frac{24}{100}$ (44.24) feet from a point marking the change in curvature at the junction of Addington road with said Colbourne crescent; thence running in a southerly direction, south $19^{\circ} 12' 20''$, west two-hundred ninety-four and $\frac{45}{100}$ (294.45) feet to Addington road, at a point on the northerly side line of Addington road thirty-seven and $\frac{64}{100}$ (37.64) feet, measured along said side line in a westerly direction from a point marking the change in curvature in said side line opposite the land of the Aspinwall Land Trust, taking land of the Aspinwall Land Company. The said way having a width of seven and $\frac{5}{10}$ (7.5) feet on either side of the centre line above described. All as shown on a plan drawn by Aspinwall & Lincoln, 3 Hamilton place, Boston, dated March 22, 1893, entitled "Plan and Profile of Addington Path," approved by us, and such plan and profile are adopted as a part of this record.

No awards are made; the owners of the fee of the land over which said path is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land or grade damages.

And said path as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed, and recorded, is to be known as a footway called Addington path.

The path having been constructed by the owners of the fee, may be entered upon at once for use and travel.

The said plan, profile, and this record have this day been filed in the office of the Town Clerk.

HORACE JAMES,
TUCKER DALAND,
JAMES M. CODMAN, JR.,
THEODORE PINKHAM,

Selectmen of Brookline.

BROOKLINE, Feb. 12, 1894.

BROOKLINE, MASS., Feb. 12th, 1894.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Addington path as laid out by the Selectmen, and reported to the town at this meeting.

Eleventh Article taken up,—“To accept and allow Colbourne path as laid out by the Selectmen, and reported to the town at this meeting.

The Selectmen presented the following report on the laying out of said path, to wit :

We, the undersigned, Selectmen of Brookline, having given printed and written notices to Aspinwall Land Co., Aspinwall Land Trust, E. H. Fay and Samuel Sanford, being all the parties known to us to be interested in the subject-matter of the path to be laid out, of our intention to lay out a path from Colbourne crescent to Addington road on the northerly slope of “Aspinwall Hill,” such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, February 12th, 1894, at 4 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said path, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing :

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the proposed path having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that the path should be laid out and maintained by the town as hereinafter described by its centre line.

Beginning at a point on the northerly side of Colbourne crescent, the said point being distant fifty-two and $\frac{3}{10}$ (52.03) feet, measured along said side line of Colbourne crescent in a westerly direction from the westerly end of the straight line in said way opposite land of Harriet D. Emerson; thence running north $13^{\circ} 3' 20''$ east two hundred thirty and $\frac{8}{10}$ (230.88) feet to a point on the southerly side line of Addington road eleven and $\frac{1}{10}$ (11.31) feet west of a point opposite the land of H. J. Blodgett, marking the change of curvature in the said southerly line of Addington road, taking land from the Aspinwall Land Company, all as shown on a plan drawn by Aspinwall & Lincoln, 3 Hamilton place, Boston, dated March 22, 1893, entitled “Plan and Profile of Colbourne Path.” The said way having a width of seven and $\frac{5}{10}$ (7.5) feet on either side of the centre line above described, approved by us, and such plan and profile are adopted as a part of this record.

No awards are made; the owners of the fee of the land over which said path is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land or grade damages.

And said path as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a footway called Colbourne path.

The path having been constructed by the owner of the fee, may be entered upon at once for use and travel.

The said plan, profile and this record have this day been filed in the office of the Town Clerk.

HORACE JAMES,
TUCKER DALAND,
JAMES M. CODMAN, JR.,
THEODORE PINKHAM.

Selectmen of Brookline.

BROOKLINE, Feb. 12, 1894.

BROOKLINE, MASS., Feb. 12th, 1894.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Colbourne path as laid out by the Selectmen, and reported to the town at this meeting.

Twelfth Article taken up,—“To accept and allow Hill street as laid out by the Selectmen, and reported to the town at this meeting.”

Voted, That the Twelfth Article be indefinitely postponed.

Thirteenth Article taken up,—“To accept and allow the alteration and widening of Washington street as laid out by the Selectmen, and reported to the town at this meeting. To appropriate \$66,000 for the payment of land damages, and for the construction of said street, and to authorize the Treasurer to borrow the same; also, to authorize its construction before all claims for land damages are settled.”

Voted, That on account of special legislation now pending respecting the borrowing of money for the altering or widening of ways in the town of Brookline, Article Thirteen, together with the report of the Selectmen thereon, and the location of the proposed widening of Washington street as therein set forth, be referred for action to the next special town meeting.

Fourteenth Article taken up,—“To see if the town will adopt a by-law to authorize the Treasurer to make payments on account of the current expenses of the town between February 1st in each year and the time of making the annual appropriations.”

Under the foregoing article the following by-law was presented and read, to wit :

BY-LAW AS TO THE FISCAL YEAR AND CURRENT EXPENSES
PRIOR TO THE ANNUAL APPROPRIATIONS.

The financial year shall begin on the first day of February and end on the thirty-first day of January; and during the interval between the thirty-first day of January in each year and the time of making the next annual appropriations, the Selectmen, the School Committee, the Water Board and Park Commissioners, in order to meet the liabilities of their several departments incurred in the carrying on of the work entrusted to them, shall have authority to make expenditures and payments from the treasury from any available funds therein, and the same shall be charged against the said next annual appropriations, but such expenditures and liabilities incurred for any purpose shall not exceed one-third the entire amount appropriated for that purpose in the previous year.

Voted, To adopt the foregoing by-law.

Fifteenth Article taken up,—“To see if the town will adopt a by-law to regulate the distribution of printed matter throughout the town.”

Voted, That the Fifteenth Article be indefinitely postponed.

Seventeenth Article taken up,—“To see if the town will provide additional hospital accommodations for persons having diseases dangerous to the public health, and to make an appropriation therefor.”

Voted, That the sum of five thousand dollars be appropriated for the purpose of erecting a hospital building to accommodate persons having diseases dangerous to the public health.

The following vote was then presented for borrowing the money for the erection of buildings to serve as hospitals for persons having diseases dangerous to the public health, to wit :

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of five thousand dollars (\$5,000), paying therefor a rate of interest not exceeding four per centum per annum, payable semi-annually, giving therefor the note or notes of the town signed by the Treasurer and countersigned by a majority at least of the Selectmen; such note or notes to be made payable in such annual proportional instalments as will extinguish the same within ten years from the date of delivery of said note or notes. The said sum is to be

applied to the erection of buildings to serve as hospitals for persons having diseases dangerous to the public health, as appropriated at this meeting.

The vote was then put upon its passage, the same tellers acting; and the whole number of votes was one hundred and fifty-eight, as follows, to wit: "Yes," one hundred and fifty-eight (158); "No," none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Eighteenth article taken up,—“To hear and act upon the report of the Selectmen upon Article Twenty-one of the articles in the warrant for the annual town meeting of 1893.”

Voted, That the subject-matter of this article be referred back to the Selectmen, with authority to do so much of the work as they may judge necessary, and within the appropriation made for the Engineer's department.

Nineteenth Article taken up,—“To adopt a by-law for the employment of a Town Engineer.”

Under the foregoing article the following by-law was presented and read to the meeting, to wit:

BY-LAW ESTABLISHING AN ENGINEERING DEPARTMENT.

Beginning with the municipal year of 1894, the Selectmen shall annually appoint a Town Engineer at a fixed salary, who shall have authority to appoint such assistants as the town engineering work requires, subject as to number and compensation only to the approval of the Selectmen. The Town Engineer shall have charge of all town engineering, and no person connected with the engineering department shall engage in engineering work for any party other than the town of Brookline, without prior permission in writing in each instance of the Selectmen. The Town Engineer shall have charge of, and shall preserve, arrange and index, so as to be readily accessible to the public, all plans, surveys, field notes, records, documents and inventories, connected with the engineering department of the town. He shall keep an accurate set of books showing in detail the cost of his department and of all work done under his direction, all materials purchased and of whom, and all vouchers, orders and letters received and sent. The Town Engineer shall each year submit to the Selectmen, in time for publication in the Annual Town Report, a statement showing in detail the work of the engineering department for the year, the names of all persons employed, and a complete inventory of all town property in that department. The Selectmen shall have the power at any time to remove the Town Engineer.

Voted, To adopt the foregoing by-law.

Voted, That the sum of nine thousand dollars (\$9,000) be appropriated for the expenses of the Engineering Department for the ensuing year, this sum to include the cost of apparatus, equipment and the salary of the Town Engineer.

Voted, That the salary of the Town Engineer be three thousand dollars a year.

Sixth Article taken up,—“ To appropriate \$75,000 for the widening of Harvard street, and the payment of land damages thereon; to authorize the Treasurer to borrow the same; also, to authorize its construction before all claims for land damages are settled.

Voted, That the sixth article be referred to a future town meeting.

Twentieth Article taken up,—“ To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, or as may be required to defray the expenses of the town for the financial year ending February 1st, 1895, and especially to act upon all the appropriations asked for or proposed by the Selectmen, or by any town officers or committees.”

Voted, That the sum of seven thousand dollars (\$7,000) be appropriated for contingencies.

Voted, That the Town Treasurer be authorized to borrow in anticipation of the taxes of the current municipal year, such sums of money, not exceeding three hundred thousand dollars (\$300,000) in all, as may be needed from time to time for the expenses of the town, paying therefor such rates of interest as may be found necessary, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Said sums so borrowed are hereby expressly made payable from said taxes.

Voted, That the money voted at this annual town meeting and the adjournments thereof, together with that appropriated since the last annual assessment of taxes, not otherwise provided for, be assessed after deducting the balance in the treasury and the estimated receipts for the ensuing year, upon the polls and estates taxable in this town, and collected, as the town charges are usually assessed and collected.

Voted, That the Water Board be authorized to lay an eight-inch water main in Windsor road, a distance of about 750 feet.

Dissolved. Attest : B. F. BAKER, *Town Clerk*.

SPECIAL MEETING, MAY 29, 1894.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Brookline, Greeting :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Tuesday, the twenty-ninth day of May, current, at seven o'clock and thirty minutes in the evening, for the following purposes, to wit:

First, To choose a Moderator.

Second, To see if the town will vote to accept the provisions of Section 101 of Chapter 417 of the Acts of 1893, relating to the division of the town into voting precincts, and also Chapter 132 of the Acts of 1894, entitled: "An act relative to precinct voting in towns at annual elections."

Third, To see if the town will vote to accept the provisions of Chapter 267 of the Acts of 1894.

Fourth, To see if the town will vote to accept the provisions of Chapter 278 of the Acts of 1894.

Fifth, To see if the town will vote to accept the provisions of Chapter 324 of the Acts of 1894.

Sixth, To see if the town will appropriate the sum of seventy-five thousand (\$75,000) dollars for the construction of the widening of Harvard street, for the payment of land damages thereon, and to authorize the Treasurer to borrow the same; also, to authorize its construction before all claims for land damages are settled.

Seventh, To see if the town will vote to accept the alteration and widening of Washington street, as laid out by the Selectmen and reported to the town at this meeting. To appropriate the sum of sixty-one thousand (\$61,000) dollars for the payment of land damages and for the construction of the widening, and to authorize the Treasurer to borrow the same; also, to authorize its construction before all claims for land damages are settled.

Eighth, To accept and allow Hill street, as laid out by the Selectmen and reported to the town at this meeting.

Ninth, To accept and allow Philbrick road, as laid out by the Selectmen and reported to the town at this meeting.

Tenth, To see if the town will appropriate an additional sum of \$50,000 toward the cost of the erection of the new High School building, and to authorize the Treasurer to borrow the same.

Eleventh, To hear and act upon the report of the Committee on new Police Station. To see if the town will appropriate the sum of \$50,000 for the erection of a building for this purpose, and to authorize the Treasurer to borrow the same.

Twelfth, To see if the town will vote that all contracts with and for said town, in the various departments of labor, shall be given to the voters and tax-payers of said town, when no legal objection intervenes.

Thirteenth, To hear and act upon the reports of town officers and committees.

Fourteenth, To appropriate and raise by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen or by any town officers or committees.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-first day of May, in the year of our Lord one thousand eight hundred and ninety-four.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
JAMES M. CODMAN, JR.,
WM. J. SEAVER,

Selectmen of Brookline.

NORFOLK, SS.

BROOKLINE, May 23, 1894.

By virtue of the within warrant I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place herein named, by causing a printed copy of the same to be left at their last and usual place of abode, and also by posting printed copies of the same in three or more public places in said Brookline, all of which was done four days at least before the said day of meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall, in said town, on Tuesday, the twenty-ninth day of May, in the year of our Lord one thousand eight hundred and ninety-four, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up,—“To choose a Moderator.”

The meeting nominated and chose for Moderator Hon. Charles H. Drew.

Second Article taken up,—“To see if the town will vote to accept the provisions of section 101 of Chapter 417 of the

Acts of 1893, relating to the division of the town into voting precincts, and also Chapter 132 of the Acts of 1894, entitled 'An Act relative to precinct voting in towns at annual elections.'"

Voted, To accept the provisions of Section 101 of Chapter 417 of the Acts of 1893, relating to the division of the town into voting precincts, and also Chapter 132 of the Acts of 1894, entitled "An Act relative to precinct voting in towns at annual elections."

Third Article taken up,—“To see if the town will vote to accept the provisions of Chapter 267 of the Acts of 1894.”

Voted, To accept the provisions of Chapter 267 of the Acts of 1894, entitled “An Act extending the provisions of the Civil Service Act to towns having a population of twelve thousand inhabitants or over.”

Fourth Article taken up,—“To see if the town will vote to accept the provisions of Chapter 278 of the Acts of 1894.”

Voted, To accept the provisions of Chapter 278 of the Acts of 1894, entitled “An Act to extend the time within which certain debts incurred by the town of Brookline may be made payable.”

Fifth Article taken up,—“To see if the town will vote to accept the provisions of Chapter 324 of the Acts of 1894.”

Voted, To accept the provisions of Chapter 324 of the Acts of 1894, entitled “An Act relative to the preserving of spaces in public ways.”

Sixth Article taken up,—“To see if the town will appropriate the sum of seventy-five thousand dollars (\$75,000) for the construction of the widening of Harvard street, for the payment of land damages thereon, and to authorize the Treasurer to borrow the same; also, to authorize its construction before all claims for land damages are settled.

On motion of Mr. Horace James, it was—

Voted, That the sum of seventy-five thousand dollars (\$75,000) be appropriated to pay for land or other damages, and for the construction of the alteration and widening of Harvard street, as laid out by the Selectmen, and reported to and accepted by the town, at the town meeting held October 10th, 1893. And that the Selectmen be authorized to enter and construct the alteration and widening of said street before all claims for damages by reason thereof, shall have been finally adjusted and determined.

The following vote was then presented for borrowing the money for the payment of land or other damages and the construction of the alteration of said street, to wit :

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of seventy-five thousand dollars (\$75,000), paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same within twenty years from the date of delivery of said note or notes. The said sum is to be applied to the payment of land or other damages, and to pay for the construction of the alteration and widening of Harvard street.

The Moderator appointed as tellers Thomas Aspinwall and James M. Codman, Jr., and they were sworn by the Town Clerk.

The vote was then put upon its passage, and the whole number of votes was two hundred and three, as follows, to wit :

“Yes,” two hundred and three (203).

“No,” none (0),—and the vote was declared passed in the affirmative, by more than two-thirds of the voters present and voting thereon.

Seventh Article taken up,—“To see if the town will vote to accept the alteration and widening of Washington street, as laid out by the Selectmen and reported to the town at this meeting, to appropriate the sum of sixty-one thousand (\$61,000) dollars for the payment of land damages and for the construction of the widening, and to authorize the Treasurer to borrow the same; also, to authorize its construction before all claims for land damages are settled.”

Voted, That the reading of the reports on the laying out of townways presented to this meeting be dispensed with.

The Selectmen presented the following report on the alteration and widening of Washington street, as laid out by them and reported to the town at this meeting, to wit :

We, the undersigned, Selectmen of Brookline, having given printed notices to George F. Joyce, Henry M. Whitney, heirs of Michael Miskell, Clement K. Fay, Theodore P. Hall, James Driscoll, Ellen Nagle, James H. Maher, Jeremiah Guilfoyle, heirs of Patrick Rooney, Bridget McMahan, Michael O'Day, heirs of Michael Hickey, May Dooley, heirs of Hannah M. Gleason, heirs of Philip Duffy, Brookline Gas Light Co., Michael Cusick, heirs of Mary O'Day, heirs of Lemuel Foster, Benjamin F. Baker, Margaret Prendergast, Jacob Dashuck, James H. Curley, Francis H. Johnson, Nicholas Watson, Thomas McCullough, being all the parties known to us to be interested in the subject-matter of the street to be altered and widened, of our intention to alter and widen Washington street to a minimum width of ninety feet from the boundary line between the city of Boston and the town of Brookline near Pond avenue, to Morss avenue, such notices requiring such persons to appear before us in the lower Town Hall, on Monday, May 14th, 1894, at 7.30 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed notice in three public places in the town, seven days at least before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and having heard the remarks and objections of all the parties who desired to be heard in relation thereto, and the route of the street as hereinafter described having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public safety and convenience that the street should be so altered, widened and maintained by the town.

The southerly line is bounded and described as follows, viz.:—

Beginning at a point on the northeasterly line of Morss avenue situated 20.02 feet from Washington street as now located, thence running northerly by a curve to the right of 15 feet radius 27.69 feet; thence running easterly by a curve to the right of 139.20 feet radius 48.02 feet; thence running easterly by a curve to the right of 1500 feet radius 82.92 feet to a point radially opposite and ninety feet distant from the stone monument hereinafter mentioned as being situated at the northeasterly corner of Pearl street and said Washington street; thence running easterly by a curve to the right of 792.93 feet radius 218.16 feet; thence running easterly by a tangent 142.23 feet; thence running easterly by a curve to the left of 1848.77 feet radius 199.80 feet; thence running easterly by a tangent 19.53 feet; thence running southeasterly by a curve to the right of 30 feet radius 61.42 feet to the westerly side of Pond avenue.

The intersection of the westerly line of Walter avenue with the above described southerly line of Washington street is curved with a radius of ten (10) feet, and the intersection of the easterly line of said avenue and the said southerly line of said street is curved with a radius of twenty-five (25) feet.

The northerly line of Washington street is bounded and described as follows:—

Beginning at the stone monument hereinbefore mentioned as being situated at the northeasterly corner of Washington street and Pearl street; thence running easterly by a curve to the right of 882.93 feet radius 242.92 feet; thence running easterly by a tangent 130.50 feet to the northwesterly line of Brookline avenue. So much of the northerly line as is previously described is parallel with and ninety (90) feet distant from the previously described southerly line.

Also, beginning at a point on the southeasterly line of Brookline avenue, situated nine feet northeasterly from the intersection of the said line with the northerly line of Washington street, thence running south $25^{\circ} 14'$ east 7.79 feet to a point situated upon the northerly line of Washington street as now located; thence running south $89^{\circ} 37' 10''$ east by the said northerly line of Washington street 58.01 feet; thence running north $89^{\circ} 40'$ east, also by the said northerly line of Washington street, 105.58 feet to land taken by the Brookline Park Commissioners for the Muddy River Improvement, and taking land as follows, viz. :—

From the heirs of Patrick Rooney	485 square feet		
Jeremiah Guilfoyle	1,231	"	"
James H. Maher	621	"	"
Ellen Nagle	993	"	"
James Driscoll	3,071	"	"
Theodore P. Hall	2,238	"	"
Clement K. Fay	2,325	"	"
Michael Miskell (heirs of)	1,873	"	"
Henry M. Whitney	1,994	"	"
Owners of the fee of Villa lane	350	"	"
George F. Joyce	2,753	"	"

The location of said Washington street as altered and widened, is in accordance with a plan of the same made by Alexis H. French, C. E., dated May 21, 1894, approved by us, verified by our signatures, and adopted as a part of this record.

We have estimated the damages sustained by the owners of the land, rights and interests caused by the alteration and construction of said Washington street in manner aforesaid, whether by taking property or by injuring property in any manner whatsoever, and having allowed by way of set-off the benefits, if any, in the premises, do estimate and determine the amounts to be paid to said parties as follows, intending the same as entire damages to all parties entitled to damages in each case respectively :

To heirs of Patrick Rooney and H. G. Jordan & Co., lessees . .	\$1,500 00
Jeremiah Guilfoyle	6,000 00
James H. Maher	4,000 00

To Ellen Nagle	\$4,000 00
James Driscoll. and Joanna J. Quinlan, lessee	12,642 00
Theodore P. Hall, ...	3,500 00
Clement K. Fay	3,500 00
Michael Miskell (heirs of)	5,000 00
Henry M. Whitney	2,492 50
Owners of the fee of Villa lane	1 00
George F. Joyce	3,441 25

The estimated cost of construction is \$15,000.

We give the owners of the land two months from the date of the acceptance of this report by the town, in which to remove structures, walls, fences and trees, from the location.

The said street, so altered and widened, located and described, is hereby reported to the town for acceptance.

The said plan and this record have this day been filed by us in the office of the Town Clerk.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
WM. J. SEAVER,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

BROOKLINE, May 21, 1894.

BROOKLINE, MASS, May 21, 1894.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted. To accept and allow the alteration and widening of Washington steet as laid out by the Selectmen and reported to the town at this meeting.

On motion of Mr. Horace James it was—

Voted. That the sum of sixty-one thousand dollars (\$61,000) be appropriated to pay for land or other damages, and for the construction of the alteration and widening of Washington street as laid out by the Selectmen, and reported to and accepted by the town at this meeting. And that the Selectmen be authorized to enter and construct the said widening before all claims for damages by reason thereof, shall have been finally adjusted and determined.

The following vote was then presented for borrowing the money for the payment of land or other damages, and the construction of the alteration and widening of said street, to wit :

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of sixty-one thousand dollars (\$61,000) to pay for land or other damages, and for the construction of the alteration and widening of Washington street, as reported to and accepted by the town at this meeting, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same within twenty years from the date of delivery of said note or notes.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was two hundred and fifty-five, as follows, to wit: "Yes," two hundred and fifty-five (255); "No," none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Twelfth Article taken up,—“To see if the town will vote that all contracts with and for said town, in the various departments of labor, shall be given to the voters and taxpayers of said town, when no legal objection intervenes.”

Voted, That the twelfth article be indefinitely postponed.

“Yes,” one hundred and eighty-nine (189); “No,” one hundred and forty-eight (148.)

Eleventh Article taken up,—“To hear and act upon the report of the Committee on new Police Station. To see if the town will appropriate the sum of \$50,000 for the erection of a building for this purpose, and to authorize the Treasurer to borrow the same.”

Voted, That the subject-matter of the eleventh article be referred back to the same committee to report at a future meeting, and that they consider some other site.

Eighth Article taken up,—“To accept and allow Hill street, as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said street, to wit:

We, the undersigned, Selectmen of Brookline, having given printed and written notices to John H. Cabot, Mary H. Page, Henry Sayles, Brookline Land Co., and Henry W. Lamb, being all the parties known to us to be interested in the subject-matter, of our intention to lay out a street forty feet in width, from Allerton street to Cumberland avenue, such notices requiring such persons to appear before us at our room in the Town Hall, on Tuesday, May 15th, 1894, at 5 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any), who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notices in three public places in the town, seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and all the parties who desired having been heard in relation thereto, and the route of the street having been viewed and examined by us, do adjudge that it is necessary for the public convenience that said street should be laid out and maintained by the town, as hereinafter described by its northwesterly line.

Beginning at a point on the northeasterly side of Cumberland avenue situated 366.66 feet from High street, measured along said line of said Cumberland avenue; thence running north $24^{\circ} 20'$ east 606.24 feet, to the southwesterly side of Allerton street. The southeasterly line of said street is parallel with and forty (40) feet distant from the above described northwesterly line.

Taking from the owners of the fee of said street 24,250 sq. feet of land, and taking also the right to support said street by sloping where needful on the adjoining land, but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever, incident to the ownership of the fee of said slopes, that will not impair the security of the road-bed.

For a further identification of this description and location, reference is hereby made to a plan drawn by Alexis H. French, C. E., dated May 21st, 1894, approved by us, verified by our signatures and adopted as a part of this record.

No awards are made, the owners of the fee of the land over which said street is laid out, in consideration of the laying out by the Selectmen, and its acceptance by the town, have agreed to release all claims to land or other damages.

They further agree at their own expense to put the street in order for acceptance by the town.

And said street as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Hill street.

The said plan, profile and this record have this day been filed in the office of the Town Clerk.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
JAMES M. CODMAN, JR.
WM. J. SEAVER,
Selectmen of Brookline.

BROOKLINE, May 21, 1894.

BROOKLINE, MASS., May 21, 1894.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Hill street, as laid out by the Selectmen and reported to the town at this meeting, as a townway.

Ninth Article taken up,—“To accept and allow Philbrick road, as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said road, to wit:

We the undersigned, Selectmen of Brookline, having given printed and written notices to George A. Goddard, Goddard Land Co., and Edward W. Morse, being all the parties known to us to be interested in the subject-matter of our intention to lay out a street forty feet in width, from Boylston street to Clinton road, such notices requiring such persons to appear before us at our room in the Town Hall on Tuesday, May 15, 1894, at 4.45 o'clock, P. M., and having caused such notices to be actually served according to law upon all such persons, by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, when no person appeared to object, and the route of the street having been viewed and examined by us, do adjudge that it is necessary for the public convenience that said street should be laid out and maintained by the town, as hereinafter described by its centre line.

Beginning at a point on the northerly line of Boylston street, situated two hundred seventy (270) feet westerly from the centre of Clark road as now located, and running northerly by a line at right angles with the said northerly line of Boylston street 39.31 feet; thence running north-westerly by a curve to the left of 376.77 feet radius for a distance of

458.83 feet; thence curving to the left with a radius of 138.08 feet for a distance of 161.66 feet; thence curving to the left with a radius of 178.02 feet for a distance of 67.99 feet; thence running southwesterly by a tangent for a distance of 52.84 feet; thence curving to the right with a radius of 251.16 feet for a distance of 67.99 feet; thence running southwesterly by a tangent for a distance of 52.84 feet; thence curving to the right with a radius of 251.16 feet for a distance of 148.06 feet to Clinton road as now located.

The side line of the said Philbrick road are parallel with and twenty (20) feet distant from the above described centre line, and their intersection with the northerly line of Boylston street is curved with a radius of fifteen (15) feet.

The areas of land taken are

From George A. Goddard 30,844 sq. ft.

“ the Goddard Land Co. 6,400 “ “

and taking also the right to support said street by sloping, where needful, on the adjoining land; but this is not intended to affect or impair at all the right of any owner of such adjoining land, to use such slopes for building, or any other purpose or use whatever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

For a further identification of this description and location, reference is hereby made to a plan drawn by Alexis H. French, C. E., dated May 21, 1894, approved by us, verified by our signatures, and adopted as a part of this record.

The road having been constructed with a sewer therein by the abutters may be entered upon at once for use and travel.

No awards are made; the owners of the fee of the land over which said road is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, have released all claims to land or grade damages, but it is intended to purchase the sewer, paying for the same from the appropriation for sewers, and levying assessments for the same upon the abutters.

And said road as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Philbrick road.

The said plan, profile and this record have this day been filed in the office of the Town Clerk.

Voted, To accept and allow Philbrick road, as laid out by the Selectmen and reported to the town at this meeting, as a townway.

Tenth Article taken up,—“ To see if the town will appropriate an additional sum of \$50,000 toward the cost of the erection of the new High School building, and to authorize the Treasurer to borrow the same.”

Voted. Than an additional sum of fifty thousand dollars (\$50,000) be appropriated toward the cost of the erection of the new High School building.

The following vote was then presented for borrowing the money, to wit :

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of fifty thousand dollars (\$50,000), paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportionate payments as will extinguish the same within twenty years from the date of the delivery of said note or notes. The said sum is to be applied towards the payment of the cost of erecting the new High School building.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was one hundred and eleven, as follows, to wit :

“ Yes,” one hundred and eleven (111).

“ No,” none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Thirteenth Article taken up,—“ To hear and act upon the reports of town officers and committees.”

The Selectmen presented the following report, to wit :

REPORT OF THE SELECTMEN ON ARTICLE 16 IN THE WARRANT FOR THE
ANNUAL TOWN MEETING FOR 1894.

Article 16 of the warrant for the annual town meeting of 1894 was as follows :

Sixteenth, To see if the town will vote that all work done by the town of Brookline shall be done by the voters and tax-payers of the town ; also, all work let by contract shall be done by voters and tax-payers of the town ; that the Selectmen be authorized to have a clause to this effect inserted in all specifications given out by the town of Brookline.

After a somewhat extended discussion of the matter, and the meeting having failed to arrive at a satisfactory solution of the problem, it was voted "that the sixteenth article be referred to the Selectmen, to bring in and report at the next town meeting, asking the citizens to amend the present by-laws in regard to public works."

There is no by-law in relation to public works. The present one refers simply to the manner of letting contracts, and to accomplish the object sought requires new by-laws instead of amendments to the present ones. These we have not had time to properly consider. Moreover, as article 12 in this warrant covers the same ground, further action under the vote referred to seems to be unnecessary.

Dissolved.

Attest: B. F. BAKER, *Town Clerk.*

SPECIAL MEETING, OCTOBER 30, 1894.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Brookline, Greeting :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Tuesday, the thirtieth day of October, current, at half-past seven o'clock in the evening, for the following purposes, to wit :

First, To choose a Moderator.

Second, To accept and allow the widening of Harvard street as laid out by the Selectmen and reported to the town at this meeting, and to appropriate the sum of \$350 to pay for land damages and for the construction of the same.

Third, To accept and allow Mason path as laid out by the Selectmen and reported to the town at this meeting.

Fourth, To accept and allow Glen road as laid out by the Selectmen and reported to the town at this meeting.

Fifth, To accept and allow Highland road as laid out by the Selectmen and reported to the town at this meeting.

Sixth, To accept and allow Rawson path as laid out by the Selectmen and reported to the town at this meeting.

Seventh, To accept and allow Devon street as laid out by the Selectmen and reported to the town at this meeting.

Eighth, To see what action the town will take in relation to the petition now pending before the County Commissioners for a new highway from Boylston street to Goddard avenue.

Ninth, To see if the town will change the name of Devotion street to Edward Devotion street.

Tenth, To see if the town will vote to discontinue a portion of Harvard street at its junction with Beacon street opposite the estate of the late James S. Whitney.

Eleventh, To see if the town will take any action in relation to the vacancies now existing on the Committee having in charge the matter of a new Police Station.

Twelfth, To see if the town will accept \$6,150 in settlement of the Park betterment on the estate of Henry Sayles.

Thirteenth, To make an additional appropriation of \$1,000 for the extension of water mains and to authorize the Treasurer to borrow the same.

Fourteenth, To authorize the Water Board to contract for water pipe for the season of 1895 to the extent of \$5,000.

Fifteenth, To authorize the Water Board to lay a six-inch water main in Heath street, to appropriate \$5,000 therefor and to authorize the Treasurer to borrow the same.

Sixteenth, To accept and allow Westbourne terrace as laid out by the Selectmen and reported to the town at this meeting.

Seventeenth, To accept and allow Bartlett crescent as laid out by the Selectmen and reported to the town at this meeting.

Eighteenth, To appropriate the sum of \$4,500 to pay for the surface-water drains in Westbourne terrace and Bartlett crescent, the same to be taken from any money in the Treasury not otherwise appropriated.

Nineteenth, To reappropriate the sum of \$19,400 made at the last Annual Town Meeting for Park construction.

Twentieth, To make an additional appropriation of \$1,000 for Park maintenance.

Twenty-first, To appropriate the sum of \$2,200 for the construction of an underground electric lighting plant for the Parkway and to authorize the Treasurer to borrow the same.

Twenty-second, To see if the town will authorize the Treasurer to borrow the \$50,000 for the construction of the High School building appropriated by the town January 25, 1894, on 20 years instead of 10 years.

Twenty-third, To appropriate an additional sum of \$8,000 for highways.

Twenty-fourth, To see if the town will adopt the division of the town into voting precincts as made by the Selectmen and reported to the Town Clerk as required by law.

Twenty-fifth, To accept and allow a sewer through lands of Peter Graffam, James H. Beals, J. M. Seamans and others, trustees, and the trustees of the estate of Ebenezer Francis, from Abbotsford road to the town line near Commonwealth avenue, as laid out by the Selectmen and reported to the town at this meeting, and to appropriate \$4,500 to pay

for the construction of the sewer, the said amount to be taken from any money in the Treasury not otherwise appropriated.

Twenty-sixth, To hear and act upon the reports of town officers and committees.

Twelfth-seventh, To appropriate and raise by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen or by any town officers or committees.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-third day of October, in the year of our Lord one-thousand eight hundred and ninety-four.

HORACE JAMES,
WM. J. SEAVER,
CHAS. H. DREW,
TUCKER DALAND,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

NORFOLK, SS.

BROOKLINE, October 27, 1894.

By virtue of the within warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place and for the purposes within named, by causing a printed copy of the same to be left at their last and usual place of abode; also, by posting printed copies of the same in three or more public places in said town; all of which was done four days at least before the day of said meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Tuesday, the thirtieth day of October, in the year of our Lord eighteen hundred and ninety-four, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up,—“To choose a Moderator.”

The meeting nominated and choose for Moderator Charles A. Williams.

Second Article taken up,—“To accept and allow the widening of Harvard street as laid out by the Selectmen and

reported to the town at this meeting, and to appropriate the sum of \$350 to pay for land damages and for the construction of the same."

On motion of Mr. Horace James, it was—

Voted, That the reading of all reports on the laying out of townways made to this meeting be dispensed with.

The Selectmen presented the following report on the laying out of said street, to wit :

We, the undersigned, Selectmen of Brookline, having given printed and written notices to Benjamin M. Fiske and Cyrus E. Marshall, being all the parties known to us to be interested in the subject-matter of the street to be altered by widening, of our intention to alter, by widening, that portion of Harvard street which by a change of boundary line has been transferred from Boston to Brookline, such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, October 1st, 1894, at 4.30 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing :

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the street as hereinafter described having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public safety and convenience that the street should be so altered, widened, and maintained by the town as hereinafter described.

Beginning at the intersection of the westerly line of said Harvard street as laid out October 2, 1893, with the boundary line between Boston and Brookline as it then existed, thence curving to the left with a radius of 1,525 feet for a distance of about 18.5 feet, to the boundary line between Boston and Brookline as established April 13, 1894.

The easterly line is parallel with and seventy-five (75) feet distant from the above described westerly line, and taking from B. M. Fiske and C. E. Marshall about 350 square feet of land.

The Selectmen take the right to support the said way by sloping the banks upon the land of abutting owners, but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

The location of said Harvard street as altered by widening, is in accordance with a plan of the same made by Alexis H. French, C. E., dated October 11th, 1894, approved by us, and adopted as a part of this record.

We have estimated the damages sustained by the owners of the land, rights and interests, caused by the alteration and construction of said Harvard street in manner aforesaid, whether by taking property or by injuring property in any manner whatsoever, and having allowed by way of set-off the benefits, if any, in the premises, do estimate and determine the amounts to be paid as follows :

To B. M. Fiske and C. E. Marshall as joint owners, the sum of (\$175) one hundred and seventy-five dollars.

The estimated cost of construction is \$175.

The said street, so altered and widened, located and described, is hereby reported to the town for acceptance.

The said plan and this record have this day been filed by us in the office of the Town Clerk.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
WM. J. SEAVER,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

BROOKLINE, October 22, 1894.

BROOKLINE, MASS., October 22, 1894.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow the alteration and widening of Harvard street, as made by the Selectmen and reported to the town at this meeting.

Voted, That the sum of three hundred and fifty (\$350) dollars be appropriated to pay for land damages and for the construction of that part of the alteration and widening of Harvard street, as laid out by the Selectmen and reported to and accepted by the town at this meeting; the said amount to be charged to the appropriation previously made for the widening of said street.

Third Article taken up,—“To accept and allow Mason path as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said path, to wit :

We, the undersigned, Selectmen of Brookline, having given printed and written notices to William H. Allen and Henry M. Whitney, being the only parties known to us to be interested in the subject-matter of a foot-path to be laid out, of our intention to lay out a foot-path fifteen

feet in width, from Lancaster terrace to Mason terrace, such notices requiring such parties to appear before us at our room in the Town Hall, on Monday, October 1st, 1894, at five o'clock P. M., and having caused such notices to be actually served according to law, upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said foot-path, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing :

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the proposed path having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that the foot-path should be laid out and maintained by the town as hereinafter described.

Beginning at a point on the northerly line of Lancaster terrace situated 90.82 feet northwesterly from a point of curvature in the laying out of said Lancaster terrace, said point being also situated upon the division line between land of Henry M. Whitney and William H. Allen, thence running northerly by said division line 177.69 feet to the southerly side of Mason terrace, taking a parallel width of seven and one half (7.50) feet both sides of the above described centre line, and taking land as follows :

From Henry M. Whitney 1,333 square feet and from William H. Allen 1,333 square feet.

The location of said path is in accordance with a plan of the same made by Aspinwall & Lincoln, C. E., dated September 20th, 1894, approved by us, verified by our signatures and adopted as a part of this record.

The Selectmen take the right to support said path by sloping the banks on either side thereof upon the land of abutting owners, but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the pathway.

No awards are made. The owners of the fee of the land over which said path is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land or grade damages.

And said path as so laid out and located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a foot-way called Mason path.

The path having been constructed by the owners of the fee, may be entered upon at once for use and travel.

The said plan and this record have this day been filed in the office of the Town Clerk.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
WM. J. SEAVER,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

BROOKLINE, October 22, 1894.

BROOKLINE, MASS., October 22, 1894.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Mason path, as laid out by the Selectmen and reported to the town at this meeting.

Fourth Article taken up,—“To accept and allow Glen road, as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said road, to wit:

We, the undersigned, Selectmen of Brookline, having given printed and written notices to the Trustees of the Brookline Land Co., Thomas N. Hart, and Trustees of Free Hospital for Women, being all the parties known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a road forty feet in width, from Cumberland avenue to Highland road, such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, October 15th, 1894, at 4 o'clock P. M., and having caused such notices to be actually served, according to law, upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said road, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notices in three public places in the town, seven days at least before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the road as hereinafter described having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public safety and convenience that the road should be laid out and maintained by the town, as hereinafter described by its centre line.

Beginning at a point on the northerly line of Highland road, situated 245.56 feet southwesterly from Pond avenue, thence running north $14^{\circ} 50'$ east for a distance of 638.9 feet to the southerly line of Cumberland avenue, and taking a parallel width of twenty (20) feet on both sides of the centre line.

The southeasterly and the southwesterly corners of said Glen road and said Cumberland avenue are curved with radii of ten (10) and twenty (20) feet respectively.

The northeasterly and the northwesterly corners of said Glen road and said Highland road are curved with radii of ten (10) and one hundred twenty-five and $\frac{32}{100}$ (125.32) feet respectively,—and taking land as follows, viz: From the Brookline Land Co. about 26,800 square feet, and taking also the right to support said road by sloping the banks upon the land of abutting owners; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the roadbed.

No awards are made. The owners of the fee of the land over which said road is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land or grade damages.

A small amount of work is needed to complete the road. The abutting owners have filed an agreement to pay for the cost of this work.

And said road as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Glen road.

The said road as so laid out, located and described, is in accordance with a plan made by Alexis H. French, C. E., dated October 13, 1894, approved by us, and such plan and profile are adopted as a part of this record.

The said plan, profile, and this record have this day been filed in the office of the Town Clerk.

Attest: B. E. BAKER, *Town Clerk.*

Voted, That Glen road be accepted and allowed as a townway, as laid out by the Selectmen and reported to the town at this meeting.

Fifth Article taken up,—“To accept and allow Highland road, as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said road, to wit:

We, the undersigned, Selectmen of Brookline, having given printed and written notices to the Trustees of Brookline Land Co., the Trustees

of the Free Hospital for Women, and Robert S. Peabody, being all the parties known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street forty feet in width between Jamaica road and Pond avenue, such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, October 1st, 1894, at 4 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said road, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing :

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the proposed road having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that the road should be laid out and maintained by the town, as hereinafter described by its centre line.

Beginning at a point on the northerly line of the part of Highland road already laid out and accepted by the town, situated 228.91 feet easterly from the easterly line of High street, thence running southeasterly by a curve to the right of 521.7 feet radius for a distance of 20.76 feet; thence running southeasterly by a tangent 326.79 feet; thence running northeasterly by a curve to the left of 240.5 feet radius for a distance of 309.85 feet; thence running northeasterly by a tangent for a distance of 250.83 feet to the westerly line of Pond avenue, and taking a parallel width of twenty (20) feet on both sides of the centre line.

The southeasterly corner of said Highland road and Jamaica road, is curved with a radius of 25 feet.

The northeasterly corner of said Highland road and Glen road is curved with a radius of 10 feet.

The southerly and the northerly corners of Highland road and Pond avenue are curved with a radius of 12.97 feet and 50 feet respectively, —and taking land as follows, viz. :

From the Brookline Land Co. about 36,900 square feet, and taking also the right to support said road by sloping the banks upon the land of abutting owners; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

The said road as so laid out, located and described, is in accordance with a plan made by Alexis H. French, C. E., dated October 13, 1894, approved by us, and such plan and profile are adopted as a part of this record.

No awards are made. The owners of the fee of the land over which said road is laid out, in consideration of the laying out by the Selectmen, and its acceptance by the town, waive all claims to land or grade damages.

And said road as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Highland road.

The said plan, profile, and this record, have this day been filed in the office of the Town Clerk.

Voted, That Highland road be accepted and allowed as a townway, as laid out by the Selectmen, and reported to the town at this meeting.

Sixth Article taken up,—“To accept and allow Rawson path as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said path, to wit:

We, the undersigned, Selectmen of Brookline, having given printed and written notices to Lewis Wight, Otis Shepard and Ellen S. Burdett, being all the parties known to us to be interested in the subject-matter of a foot-path to be laid out, of our intention to lay out a foot-path from Gardner road to Rawson road, such notices requiring such parties to appear before us, at our room in the Town Hall, on Wednesday, October 17, 1894, at 5.30 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said foot-path, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the proposed path having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that the foot-path should be laid out and maintained by the town as hereinafter described.

Beginning at a point on the northwesterly side of Gardner road, said point being $7\frac{1}{2}$ feet measured along said line of Gardner road northeasterly from the boundary line of land of Ellen S. Burdett, said point being also 31.34 feet measured along said side-line in a southwesterly direction from a point marking the beginning of the curve, first northeasterly from Tappan street, thence running north $43^{\circ} 32' 30''$ west 352.10 feet; thence running north $28^{\circ} 7' 30''$ east 96.8 feet to the southerly side-line of Rawson road.

The said way hereinabove described having a uniform width of $7\frac{1}{2}$ feet on each side of the centre line described.

All as shown on a plan drawn by Aspinwall & Lincoln, dated October 10, 1894, entitled, Plan and Profile of Rawson Path, Aspinwall Hill, Brookline, approved by us, verified by our signatures and adopted as a part of this record.

No awards are made. The owners of the fee of the land over which said path is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land or grade damages.

And said path, as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded is to be known as a public foot-path called Rawson path.

The said plan, profile, and this record, have this day been filed in the office of the Town Clerk.

Voted, That Rawson path as laid out by the Selectmen, and reported to the town at this meeting, be accepted as a public foot-path.

Seventh Article taken up,—“To accept and allow Devon street as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said street, to wit:

We, the undersigned, Selectmen of Brookline, having given printed and written notices to Henry Lee, being all the parties known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street forty feet in width, from Norfolk road to the town line, such notices requiring such persons to appear before us at our room in the Town Hall, on Monday, October 1st, 1894, at 4.45 o'clock p. m. and having caused such notices to be actually served according to law upon all such persons, by a constable of this town,

at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing :

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the proposed street having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that the street should be laid out and maintained by the town, as hereinafter described.

Beginning at a point on the westerly side of Norfolk road, situated 676.40 feet from the northerly line of Boylston street, thence running westerly by a tangent 47.57 feet; thence curving to the left with a radius of 294.42 feet 126.75 feet; thence running southwesterly by a tangent 234.75 feet; thence curving to the right with a radius of 106.75 feet 157.31 feet; thence running northwesterly by a tangent 65.50 feet to the line between the town of Brookline and the city of Newton, taking a parallel width of twenty (20) feet on both sides of the above described centre line and curving the intersection of the westerly line of the said Norfolk road with the northerly and southerly lines of said Devon street with radii of ten (10) feet and thirty (30) feet respectively, and taking from Henry Lee 25,403 square feet of land.

The location of said street is in accordance with a plan and profile of the same made by Alexis H. French, C. E., dated October 5th, 1894, verified by our signatures and adopted by us as part of this record.

The owners of the land abutting upon said street, and of the fee of the land over which said street is laid out, in consideration of the laying out and its acceptance by the town, waive all claims to land or grade damages.

And said street as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway, called Devon street.

The street having been constructed, may be entered upon at once for use and travel.

The said plan, profile, and this record have this day been filed by us in the office of the Town Clerk.

A sewer has been laid in the street by the owner of the fee; we expect to pay for the same, and levy assessments upon the abutting land in the usual manner.

Eighth Article taken up,—“To see what action the town will take in relation to the petition now pending before the County Commissioners for a new highway from Boylston street to Goddard avenue.”

On motion of Mr. Horace James, it was —

Voted, That in the opinion of the town public convenience and necessity do not require the construction of a new highway from Boylston street to Goddard avenue, as petitioned for to the County Commissioners, by Joseph Hubbard and thirteen others, and that the Selectmen be instructed to oppose the same before the County Commissioners, employing counsel therefor if they deem it expedient.

Ninth Article taken up,—“To see if the town will change the name of Devotion street to Edward Devotion street.”

Voted, That the ninth article be indefinitely postponed.

Tenth Article taken up,—“To see if the town will vote to discontinue a portion of Harvard street at its junction with Beacon street opposite the estate of the late James S. Whitney.”

Voted, That so much of Harvard street at its junction with Beacon street, on the northerly side thereof, as is included in the following description, be and the same is hereby discontinued.

Beginning at a point on the northerly side of Harvard street, situated 41.98 feet from the point of intersection of the said northerly line of Harvard street with the northerly line of Beacon street, thence running easterly by a curve to the left with a radius of 75 feet for 76.54 feet to a point on the said northerly line of Beacon street, thence southwesterly on the said northerly line of Beacon street for 33.59 feet, thence curving to the right with a radius of 15 feet for 15.31 feet to a point on the aforesaid northerly line of Harvard street, thence westerly on said northerly line of Harvard street for 33.59 feet, to the point of beginning, containing 267 square feet.

All as shown on a plan of the same made by A. H. French, C. E., dated October 20th, 1894, and marked “Plan of the portion of Harvard street discontinued October 30th, 1894.”

Said plan is to be attached to and filed with the plan of the widening of Harvard street, as laid out by the Selectmen October 2, 1893, and accepted by the town October 10th, 1893.

Sixteenth Article taken up,—"To accept and allow Westbourne terrace as laid out by the Selectmen and reported to the town at this meeting."

The Selectmen presented the following report on the laying out of said terrace, to wit:

We, the undersigned, Selectmen of Brookline, having given a printed and written notice to Eben D. Jordan, being the only party known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street forty feet in width, substantially on the line of Westbourne terrace, so called, from Beacon street to the town line, such notice requiring him to appear before us at our room in the Town Hall, on Monday, October 15th, 1894, at 4.30 o'clock p. m., and having caused such notice to be actually served according to law upon him, by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to him and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing:

Pursuant to such notice we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the street as hereinafter described, having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public safety and convenience that the street should be laid out and maintained by the town as hereinafter described.

Beginning at a point on the northerly side-line of Beacon street, which point is 15 feet east of another point making a change in the radius of curvature of said side-line (said second mentioned point being approximately 275 feet from the northeasterly corner of Beacon street and Washington street), thence running in a general northerly direction curving to the left on a radius of 182.77 feet, 130.68 feet; thence running north $53^{\circ} 9' 27''$ west 60 feet; thence curving to the right on a radius of 531.10 feet, 177.30 feet; thence north $34^{\circ} 1' 47''$ west 150 feet; thence curving to the left on a radius of 745.10 feet, 220.42 feet; thence north $50^{\circ} 58' 37''$ west 88.98 feet; thence curving to the right on a radius of 487.60 feet, 93.66 feet; thence north $39^{\circ} 58' 17''$ west 177.61 feet; thence curving to the left on a radius of 1146.28 feet, 239.02 feet; thence north $51^{\circ} 55' 7''$ west 345.35 feet to the town line between Boston and Brookline.

The said street hereinabove described by its centre line having a uniform width of 20 feet on each side of its said centre line.

The corners with Beacon street being rounded each with a radius of 20 feet,—all as shown on a plan drawn by Aspinwall & Lincoln, entitled, Plan and Profile of Westbourne Terrace and Devon Crescent, Corey Hill, Brookline, dated October 10th, 1894, approved by us, and adopted as a part of this record.

The Selectmen take the right to support said street by sloping the banks upon the land of abutting owners, but this is not intended to affect

or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

No awards are made; the owners of the fee of the land over which said street is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land or grade damages.

And said street so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Westbourne terrace.

The street having been constructed by the owners of the fee, is open to the public for travel.

The said plan, profile, and this record, have this day been filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, That Westbourne terrace be accepted and allowed as a townway as laid out by the Selectmen and reported to the town at this meeting.

Seventeenth Article taken up,—“To accept and allow Bartlett crescent as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said Bartlett crescent, to wit:

We, the undersigned, Selectmen of Brookline, having given a printed and written notice to Eben D. Jordan, being the only party known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out a street, forty feet in width, substantially on the line of Bartlett crescent, so called, from Westbourne terrace, so called, to Washington street, connecting with Washington street at two points, such notice requiring him to appear before us at our room in the Town Hall, on Monday, October 15, 1894, at 4.30 o'clock P. M., and having caused such notice to be actually served according to law upon him, by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to him and all other persons (if any) who may be interested in the subject-matter of said street,

whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing :

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the street as hereinafter described, having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public safety and convenience that the street should be laid out and maintained by the town as hereinafter described.

Beginning at a point on the centre line of Westbourne terrace about 827.38 feet measured along said line of Westbourne terrace from the northerly side of Beacon street, said point being marked A on plan hereinafter referred to, thence curving to the left on a radius of 336 feet, 180 feet; thence curving to the left on a radius of 177.55 feet, 132.91 feet, to a point marked B on said plan; thence curving to the right on a radius of 91.8 feet, 120.22 feet; thence north $49^{\circ} 44' 47''$ west 50 feet; thence curving to the left on a radius of 222.27 feet, 65.43 feet; thence north $66^{\circ} 36' 47''$ west 50 feet; thence curving to the right on a radius of 593.42 feet, 159.82 feet; thence north $51^{\circ} 10' 57''$ west 41 feet; thence curving to the left on a radius of 257 feet, 37.03 feet; thence curving to the left on a radius of 122 feet, 56.50 feet; thence curving to the left on a radius of 87 feet, 83.83 feet; thence south $38^{\circ} 49' 3''$ west 24.04 feet to the side-line of Washington street. Also connecting with Washington street by another line as follows :

Beginning at the point B hereinbefore mentioned, thence turning to the left on a radius of 177.55 feet, 78.61 feet; thence south $30^{\circ} 3' 43''$ west 100.29 feet, to the side-line of Washington street.

The junction of said way with Westbourne terrace on its northerly side being rounded with a radius of 10 feet, and the two corners of said way at its first described junction with Washington street being rounded each with a radius of 24.04 feet. The corners of the second mentioned junction of said way with Washington street being rounded each with a radius of 20 feet.

The said way having a uniform width of twenty feet on each side of the centre line above described,—all as shown on a plan drawn by Aspinwall & Lincoln, entitled Plan and Profile of Westbourne Terrace and Bartlett Crescent, Corey Hill, Brookline, dated October 10, 1894, approved by us, verified by our signatures and adopted as a part of this record.

The Selectmen take the right to support said street by sloping the banks upon the land of abutting owners; but this is not intended to affect or impair at all the right of any owner of such adjoining land to use such slopes for building or any other purpose or use whatsoever, incident to the ownership of the fee in said slopes, that will not impair the security of the road-bed.

No awards are made. The owners of the fee of the land over which said street is laid out, in consideration of the laying out by the Selectmen and its acceptance by the town, waive all claims to land or grade damages.

And said street so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be known as a townway called Bartlett crescent.

The street having been constructed by the owners of the fee, is open to the public for travel.

The said plan, profile, and this record, have this day been filed in the office of the Town Clerk.

Selectmen of Brookline.

BROOKLINE, October 22, 1894.

BROOKLINE, MASS., October 22, 1894.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, That Bartlett crescent be accepted and allowed as a townway, as laid out by the Selectmen and reported to the town at this meeting.

Eighteenth Article taken up,—“To appropriate the sum of \$4,500 to pay for the surface-water drains in Westbourne terrace and Bartlett crescent, the same to be taken from any money in the Treasury not otherwise appropriated.”

Voted, That the sum of \$4,472.59 be appropriated to pay for the surface-water drains in Westbourne terrace and Bartlett crescent, the same to be taken from any money in the Treasury not otherwise appropriated.

Twenty-fourth Article taken up,—“To see if the town will adopt the division of the town into voting precincts as made by the Selectmen and reported to the Town Clerk as required by law.”

The following is the report of the Town Clerk, which he is required by law to make :

The Selectmen of the town of Brookline have filed the following statement of their arrangement of the town into voting precincts, to wit :

“OFFICE OF THE SELECTMEN, July 24th, 1894.

“IN BOARD OF SELECTMEN.

“Whereas the town by vote of May 29th, 1894, accepted Section 101 of Chapter 417 of the Acts of 1893 :

“*Voted*, That a division of the town into voting precincts be arranged by making the Newton Circuit of the Boston & Albany railroad the

boundary of the proposed precincts, as shown on a map to be filed herewith. The Northern and Southern precincts shall be designated by the letters 'N' and 'S' respectively.

"The number of registered voters in each precinct is as follows: In precinct 'N,' 1405; in precinct 'S,' 1176.

"*Voted*, That this paper, and the accompanying map, be filed with the Town Clerk as a report of the doings of the board under Section 101.

"A true copy. Attest: GEORGE F. JOYCE, *Clerk*."

"IN BOARD OF SELECTMEN,

"July 24, 1894.

"*Voted*, That if this division is adopted by the town it is the intention of the board to designate and appoint the Upper Town Hall as the polling place for precinct 'N,' and the Lower Town Hall as the polling place for precinct 'S.'

"A true copy. Attest: GEORGE F. JOYCE, *Clerk*."

A true copy. Attest: B. F. BAKER, *Town Clerk*.

Voted, That the division of the town into voting precincts, as reported to the town, be rejected.

Twelfth Article taken up,—“To see if the town will accept \$6,150 in settlement of the Park betterment on the estate of Henry Sayles.”

Voted, That the town will accept \$6,150 in settlement of the Park betterment on the estate of Henry Sayles.

Eleventh Article taken up,—“To see if the town will take any action in relation to the vacancies now existing on the committee having in charge the matter of a new Police Station.”

Voted, That the subject of the eleventh article be postponed to a future meeting.

Thirteenth Article taken up,—“To make an additional appropriation of \$1,000 for the extension of water-mains and to authorize the Treasurer to borrow the same.”

Voted, To make an additional appropriation of \$1,000 for the extension of water-mains, to be taken from any money in the Treasury not otherwise appropriated.

Fourteenth Article taken up,—“To authorize the Water Board to contract for water-pipe for the season of 1895, to the extent of \$5,000.”

Voted, That the Water Board be authorized to contract for water-pipe for the season of 1895, to the extent of \$5,000.

Fifteenth Article taken up,—“To authorize the Water Board to lay a six-inch water-main in Heath street, to appropriate \$5,000 therefor and to authorize the Treasurer to borrow the same.”

Voted, That the Water Board be authorized to lay a six-inch water-main in Heath street, and that the town appropriate \$5,000 therefor, the same to be taken from any money in the Treasury not otherwise appropriated.

Nineteenth Article taken up,—“To reappropriate the sum of \$19,400 made at the last Annual Town Meeting for Park construction.”

Mr. Horace James offered the following vote, to wit:

Voted, That the sum of \$19,400 be appropriated for Park construction.

The Moderator appointed as tellers Messrs. Alfred D. Chandler and James M. Codman, Jr., and they were sworn by the Town Clerk.

The vote was then put upon its passage and the whole number of votes was fifty-eight, as follows, to wit:

“Yes,” fifty-seven (57).

“No,” one (1),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Twenty-first Article taken up,—“To appropriate the sum of \$2,200 for the construction of an underground electric lighting plant for the Parkway and to authorize the Treasurer to borrow the same.”

Mr. Horace James offered the following vote, to wit:

Voted, That the sum of \$2,200 be appropriated for the construction of an underground electric lighting plant for the Parkway.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was forty-eight, as follows, to wit:

“Yes,” forty-eight (48).

“No,” none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Mr. Horace James offered the following votes in relation to borrowing money under the nineteenth and twenty-first articles, to wit :

Voted, (under authority of Chapter 427 of the Acts of 1892) That the Town Treasurer be authorized to issue from time to time, when directed by the Park Commissioners, negotiable bonds or certificates of indebtedness to the amount of twenty-one thousand six hundred dollars (\$21,600), bearing interest at a rate not exceeding four per centum per annum, payable semi-annually, to be denominated on the face thereof “Brookline Park Construction Loan,” and to be made payable in such annual proportionate payments as will extinguish the same in or within twenty years from their date, said bonds to be signed by the Treasurer and countersigned by a majority at least of the Selectmen. Said bonds are to be issued for the purpose of finishing the construction of Muddy River or Riverdale Park, and the Park Commissioners are authorized to expend said amount, as appropriated at this meeting, for the above purpose.

Voted, That the votes appropriating nineteen thousand four hundred dollars for Park Construction and authorizing the Treasurer to borrow the same, which were passed at the Annual Town Meeting held on March 29th, 1894, be and the same are hereby rescinded.

The votes were then put upon their passage, the same tellers acting, and the whole number of votes was forty-five, as follows, to wit :

“Yes,” forty-five (45).

“No,” none (0),—and the votes were declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Twenty-second Article taken up,—“To see if the town will authorize the Treasurer to borrow the \$50,000 for the construction of the High School Building appropriated by the town January 25, 1894, on 20 years, instead of 10 years.”

Mr. Horace James offered the following vote, to wit :

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of fifty thousand dollars, appropriated January 25th, 1894, towards the construction of a new High School Building, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority, at least, of the Selectmen; such indebtedness shall be made payable in such

annual proportionate payments as will extinguish the same within twenty years from the date of the delivery of said notes. This authority to be a substitute for the authority to borrow said sum so appropriated which was given by a vote of the town January 25th, 1894, which vote is hereby rescinded.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was forty-six, as follows, to wit :

“Yes,” forty-six (46).

“No,” none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Twenty-third Article taken up,—“To appropriate an additional sum of \$8,000 for highways.”

Voted, That an additional sum of \$8000 be appropriated for highways, to be taken from any money in the Treasury not otherwise appropriated.

Twentieth Article taken up,—“To make an additional appropriation of \$1,000 for Park maintenance.”

Voted, That an additional sum of \$1,000 be appropriated for Park maintenance, to be taken from any money in the Treasury not otherwise appropriated.

Twenty-fifth Article taken up,—“To accept and allow a sewer through lands of Peter Graffam, James H. Beals, James M. Seamans and others, trustees, and the trustees of the estate of Ebenezer Francis, from Abbotsford road to the town line near Commonwealth avenue, as laid out by the Selectmen and reported to the town at this meeting, and to appropriate \$4,500 to pay for the construction of the sewer, the said amount to be taken from any money in the Treasury not otherwise appropriated.”

Voted, That the Twenty-fifth Article be indefinitely postponed.

Dissolved.

Attest: B. F. BAKER, *Town Clerk*.

GENERAL ELECTION, NOVEMBER 6, 1894.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Tuesday, the sixth day of November next, it being the Tuesday next after the first Monday in said month, at forty-five minutes after six o'clock in the forenoon, at which place the polls will be opened at seven o'clock, and may be kept open until twenty-five minutes after four o'clock in the afternoon, to give in their votes for the following National, State and County officers, to wit:

One Member of the Congress of the United States for the Eleventh Congressional District; Governor of the Commonwealth; Lieutenant Governor; Councillor for the Second Councillor District; Secretary of the Commonwealth; Treasurer and Receiver General; Auditor of Accounts; Attorney-General; Senator for the Second Norfolk Senatorial District; a Representative to the General Court for the Second Norfolk Representative District; one County Commissioner for three years; a County Commissioner to fill the vacancy caused by the death of John Q. A. Lothrop to serve during the unexpired term for which said John Q. A. Lothrop was elected; a Treasurer for Norfolk County for three years; a Register of Deeds for the County of Norfolk for three years; also to give in their votes "Yes" or "No" on the following Article of Amendment to the Constitution relative to the Commissioners of Insolvency: "So much of article nineteen of the articles of amendment to the Constitution of the Commonwealth as is contained in the following words, 'Commissioners of Insolvency,' is hereby annulled."

All to be voted for on one ticket.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-ninth day of October, in the year of our Lord one thousand eight hundred and ninety-four.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

NORFOLK, SS.

BROOKLINE, October 30th, 1894.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to

meet at the time and place and for the purposes herein named, by causing an attested printed copy of the same to be left at their last and usual place of abode, and I also posted attested printed copies of the same in three or more public places in said Brookline, all of which was done seven days at least before the day of said meeting.

W. Y. GROSS, *Constable*.

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall in said town, on Tuesday, the sixth day of November, in the year of our Lord one thousand eight hundred and ninety-four, it being the Tuesday next after the first Monday in said month, and were called to order at forty-five minutes past six of the clock in the forenoon, by Horace James, chairman of the Board of Selectmen and presiding election officer. The Town Clerk then read the warrant calling said meeting and the return thereon of the officer who served the same upon the inhabitants.

In conformity with the laws of this Commonwealth in relation to elections, the Town Hall had been fitted up as a polling place, a space railed off, and thirty shelves or compartments provided for the use and convenience of voters to examine and mark their ballots, each compartment being supplied with cards of instruction and suitable conveniences for that purpose.

The Inspectors, Edwin N. Tyler and Francis F. Muldowney, and Deputy Inspectors Frederic M. Bond, Frank A. Hogan and Willard E. Clough, and the Tellers, Harry H. Whitney, Charles A. W. Spencer, Prescott F. Hall, Charles W. Morgan, Theodore Pinkham, A. Eugene Kenrick, William B. Tyler, Thomas F. Barrett, D. Edward Beede, Frank T. Sullivan, John W. Cantwell, Frank T. Fay, Walter W. Paige, Albert P. Briggs, Harry Young, Fred A. Flood, Edward F. Mahon and David F. Baxter, who had been appointed by the Selectmen, were then sworn by the Town Clerk to the faithful discharge of their duties, and with the Selectmen and Town Clerk making an equal number of election officers from the two leading political parties. Messrs. Edwin N. Tyler and Francis F. Muldowney were then stationed at the entrance to the polling

place, and were furnished with a list of the registered male voters of the town.

One package of the ballots supplied by the Secretary of the Commonwealth, marked "First set, three thousand three hundred ballots, Town of Brookline," was then delivered to the presiding election officer by the Town Clerk, who took his receipt therefor. The presiding officer then publicly broke the seal of said package and delivered said ballots to the Inspectors, who furnished them to the voters as they presented themselves, and checked their names on the list. The cards of instruction and specimen ballots were also posted in different parts of the hall outside of the railing.

The ballot-box to be used at elections was then opened in public meeting, and examined by the election officers and shown to be empty.

The register of the box was then set at zero (0) and locked; the key of the lower part was delivered to Mr. Willard Y. Gross, the constable having charge of the meeting, and the key to the upper part to Mr. Horace James, presiding election officer.

The polls were then declared open for the reception of votes, and were kept open until twenty-five minutes past four of the clock in the afternoon, when, after due notice, they were declared closed.

The election officers had charge of the election, and the ballot-box and check-list were in their care, and by unanimous consent the ballot-box was opened at ten minutes past one of the clock in the afternoon for the purpose of counting the votes, and again during the afternoon it was opened twice more for the same purpose, and again at the close of the polls, when the register stood at one thousand nine hundred and fourteen (1914). During the voting the box failed to register eighteen (18) times, but cancelled the ballots. The names on the list of voters which had been checked were then counted, and the whole number was one thousand nine hundred and thirty-two, which was found to agree with the register on the ballot-box after adding the eighteen times which the box failed to number, also with the list kept by the Inspectors

at the entrance to the polling place, and the number of the ballots cast.

The election officers then proceeded to canvass the votes given in, and the whole number was one thousand nine hundred and thirty-two, which were sorted, counted, and recorded, and declaration thereof made in open town meeting as required by law, and were for the following state and county officers, and article of amendment to the Constitution, viz :

Governor.

One thousand eight hundred and ninety.

George H. Carey, of Lynn, People's Party, had eighteen.

Frederic T. Greenhalge, of Lowell, Republican, had eleven hundred and forty-seven.

Alfred W. Richardson, of Springfield, Prohibition, had thirty.

John E. Russell, of Leicester, Democratic, had six hundred and ninety-three.

David Taylor, of Boston, Socialist Labor, had two.

Blanks, forty-two.

Lieutenant-Governor.

One thousand eight hundred and seventy-seven.

Wilbert O. Dwinell, of Danvers, People's Party, had sixteen.

Moritz E. Ruther, of Holyoke, Socialist Labor, had four.

Samuel B. Shapleigh, of Boston, Prohibition, had seventy-one.

Charles E. Stratton, of Boston, Democratic, had six hundred and eighteen.

Roger Wolcott, of Boston, Republican, had eleven hundred and sixty-eight.

Blanks, fifty-five.

Secretary.

One thousand eight hundred and forty-one.

Charles A. DeCourcy, of Lawrence, Democratic, had five hundred and fifty-two.

Wilbert D. Farnham, Jr., of Somerville, Prohibition, had twenty-seven.

Joseph F. Malloney, of Lynn, Socialist Labor, had seven.

William M. Olin, of Boston, Republican, had twelve hundred and thirty-eight.

Isaac W. Skinner, of Brockton, People's Party, had seventeen.

Blanks, ninety-one.

Treasurer.

One thousand eight hundred and fifty-five.

Emil Auerbach, of Adams, Socialist Labor, had seven.

John M. Fisher, of Attleborough, Prohibition, had twenty-nine.

James S. Grinnell, of Greenfield, Democratic, had six hundred and fifteen.

Martin W. Moran, of Boston, People's Party, had thirty.

Henry M. Phillips, of Springfield, Republican, had eleven hundred and seventy-four.

Blanks, seventy-nine.

Auditor.

One thousand eight hundred and forty-one.

John W. Kimball, of Fitchburg, Republican, had eleven hundred and eighty-four.

Maurice W. Landers, of Pittsfield, People's Party, had fourteen.

Wilbur M. Purrington, of Williamsburg, Prohibition, had twenty-four.

Charles N. Wentworth, of Lynn, Socialist Labor, had four.

Alfred C. Whitney, of Boston, Democratic, had six hundred and fifteen.

Blanks, ninety-one.

Attorney-General.

One thousand eight hundred and thirty-six.

Frank M. Forbush, of Natick, Prohibition, had thirty-one.

Henry F. Hurlburt, of Lynn, Democratic, had five hundred and eighty-nine.

Hosea M. Knowlton, of New Bedford, Republican, had eleven hundred and ninety-two.

Frederick August Nagler, of West Springfield, Socialist Labor, had three.

James Sumner, of Milton, People's Party, had twenty-one.

Blanks, ninety-six.

Councillor — Second District.

One thousand eight hundred and twenty-two.

Bushrod Morse, of Sharon, Democratic, had six hundred and sixty.

Cyrus Savage, of Taunton, Republican, had eleven hundred and sixty-two.

Blanks, one hundred and ten.

Senator — Second Norfolk District.

One thousand eight hundred and forty-four.

Robert S. Gray, of Walpole, Republican, had eleven hundred and forty.

Joshua B. Hanners, of Walpole, Prohibition, had twenty-seven.

Charles Warren, of Dedham, Democratic, had six hundred and seventy-seven.

Blanks, eighty-eight.

Representative in General Court — Second Norfolk District.

One thousand eight hundred and fifty-eight.

Charles T. Duncklee, of Brookline, Democratic, had six hundred and eighty-nine.

Charles H. Utley, of Brookline, Republican, had eleven hundred and sixty-eight.

E. E. Doran had one.

Blanks, seventy-four.

County Commissioners — Norfolk.

One thousand seven hundred and seven.

Thomas Blanchard, of Stoughton, to fill vacancy, Republican, had eleven hundred and seventy-one.

William W. Burke, of Weymouth, to fill vacancy, People's Party, had one hundred and ten.

Nelson W. Green, of Hyde Park, full term, People's Party, had twenty-seven.

Melville P. Morrell, of Hyde Park, full term, Republican, had one thousand and seventy-six.

Henry E. Ruggles, of Franklin, full term, Democratic, had six hundred and four.

Blanks, eight hundred and seventy-six.

County Treasurer — Norfolk.

One thousand six hundred and twenty-eight.

Robert C. Habberley, of Hyde Park, Prohibition, had seventy-two.

Charles H. Smith, of Dedham, Democratic, Republican, had fifteen hundred and fifty-six.

Blanks, three hundred and four.

Register of Deeds — Norfolk District.

One thousand six hundred and forty-four.

John H. Burdakin, of Dedham, Democratic, Republican, had fifteen hundred and seventy-two.

Louis W. Hodges, of Foxborough, Prohibition, had seventy-two.

Blanks, two hundred and eighty-eight.

Representative in Congress — Eleventh District.

One thousand eight hundred and forty-nine.

John F. Dowd, of Hyde Park, People's Party, Labor, had twenty-four.

William F. Draper, of Hopedale, Republican, had eleven hundred and sixty-two.

Bentley Wirt Warren, of Boston, Democratic, had six hundred and sixty-two.

Charles E. Miles had one.

Blanks, eighty-three.

Article of Amendment to the Constitution.

Shall the proposed Amendment to the Constitution relative to Commissioners of Insolvency be approved and ratified?

One thousand and twelve.

Yes, eight hundred and eighty-two.

No, one hundred and thirty.

Blanks, nine hundred and twenty.

In voting the check-list was used, and no person was allowed to deposit his vote until his name was found on the list and checked.

The business of the meeting being completed, the returns were filled up, signed by the Selectmen, countersigned by the Town Clerk, and sealed up in open town meeting as required by law, and delivered to the Town Clerk to forward to their several places of destination.

The votes cast were then sealed up and endorsed by the election officers; and the list of voters used by the Inspectors at the entrance to the polling place, the damaged ballots returned, and the list of voters used at the polls were also sealed up and endorsed by the Inspectors and Selectmen, and were delivered into the custody of the Town Clerk, in conformity with the law in such cases made and provided.

The meeting was then declared dissolved, by Mr. Horace James, presiding election officer.

Dissolved.

Attest : B. F. BAKER, *Town Clerk.*

SPECIAL MEETING, JANUARY 29, 1895.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Brookline, Greeting :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall in said town, on Tuesday, the twentieth-ninth day of January, current, at half-past seven o'clock in the evening, for the following purposes, to wit :

First, To choose a Moderator.

Second, To accept and allow Harvey street, as laid out by the Selectmen and reported to the town at this meeting.

Third, To accept and allow Sewall place, as laid out by the Selectmen and reported to the town at this meeting.

Fourth, To authorize the Selectmen to contract for lumber for sidewalks to an amount not exceeding \$3,000.

Fifth, To hear and act upon the report of the School Committee recommending the purchase of a school site on Druce street near Buckminster road, to appropriate \$30,000 therefor, and to authorize the Treasurer to borrow the same.

Sixth, To make an additional appropriation of \$3,000 for the support of schools, to be taken from any unexpended balances, or from money in the Treasury not otherwise appropriated.

Seventh, To see what action the town will take in relation to the building of a new Police Station.

Eighth, To appropriate the sum of \$18,000 to pay for land taken for additional water supply, and to authorize the Treasurer to borrow the same.

Ninth, To make an additional appropriation of \$15,000 to pay for St. Mary's street bridge.

Tenth, To make an additional appropriation of \$3,000 for the Health Department.

Eleventh, To make an additional appropriation of \$1,200 for the Contagious Hospitals.

Twelfth, To authorize the Selectmen to apply to the Legislature for an act to make the provisions of Chapter 404 of the Acts of 1890 applicable to Brookline.

Thirteenth, To authorize the Selectmen to apply to the Legislature for an act to repeal Chapter 476 of the Acts of the year 1893 and all acts and parts of acts in amendment thereof.

Fourteenth, To hear and act upon the reports of town officers and committees.

Fifteenth, To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, and especially to act upon all the appropriations asked for or proposed by the Selectmen or by any town officers or committees.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-first day of January, in the year of our Lord one thousand eight hundred and ninety-five.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
WM. J. SEAVER,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

NORFOLK, SS.

BROOKLINE, Jan. 25, 1895.

In pursuance of the within warrant, I have notified and warned the inhabitants of Brookline, qualified to vote in elections, to meet at the time and place and for the purposes herein named, by causing a printed attested copy of the same to be left at their usual place of abode, and I also posted printed attested copies of the same in three public places in said Brookline, all of which was done four days at least before the said day of meeting.

W. Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met in the Town Hall, in said town, on Tuesday, the twenty-ninth day of January, in the year of our Lord one thousand eight hundred and ninety-five, and were called to order at half-past seven of the clock in the evening, by the Town Clerk, who read the warrant calling said meeting, and the return thereon of the officer who served the same upon the inhabitants.

First Article taken up,—“To choose a Moderator.”

The meeting nominated and chose for Moderator Rufus G. F. Candage.

Second Article taken up,—“To accept and allow Harvey street, as laid out by the Selectmen and reported to the town at this meeting.”

Voted, That the reading of the reports on the laying out of townways presented at this meeting be dispensed with.

The Selectmen presented the following report on the laying out of said street, to wit :

We, the undersigned, Selectmen of Brookline, having given printed and written notices to George W. Wright, Mary E. Wright, Trustees of estate of Edward S. Philbrick, Arthur Mills, Caroline Sabine, Cyrus W. Ruggles, and Nathaniel C. Towle, being all the persons known to us to be interested in the subject-matter of the street to be laid out, of our intention to lay out as a townway, Harvey street, so-called, 40 feet in width, leading from Walnut street to Irving street, such notices requiring such persons to appear before us, at our room in the Town Hall, on Wednesday, January 16, 1895, at 5.30 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town, at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said street, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing :

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the way having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that the street should be laid out and maintained by the town as hereinafter described by its easterly line.

Beginning at a point on the southerly line of Walnut street, located opposite a point on the northerly line of said street, which itself is 488.92 feet from the northwesterly corner of High street, thence running south $31^{\circ} 20' 20''$ east 315.66 feet; thence running south $24^{\circ} 34' 30''$ west 209.50 feet, to the easterly line of Allerton street. The westerly line of said Harvey street is parallel with and forty (40) feet distant from the above described easterly line, excepting that the angle in said westerly line is curved with a radius of fifty (50) feet; and taking from the owners of the fee of said street 20,750 square feet.

All as shown on a plan of the same made by Alexis H. French, C. E., dated January 17th, 1895, approved by us, verified by our signatures and adopted as a part of this record.

No awards are made. The owners of the fee of the land over which said street is laid out, in consideration of the laying out of said street by the Selectmen and its acceptance by the town, release all claim to land or grade damages.

And said street as so laid out, located and described, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded is to be known as a townway called Harvey street.

The said plan and this record have this day been filed by us in the office of the Town Clerk.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
WM. J. SEAVER,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

BROOKLINE, January 21st, 1895.

BROOKLINE, MASS., January 21, 1895.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, That the name of said Harvey street be changed to Upland road.

Voted, To accept and allow said Upland road as laid out by the Selectmen and reported to the town at this meeting.

Third Article taken up,—“To accept and allow Sewall place, as laid out by the Selectmen and reported to the town at this meeting.”

The Selectmen presented the following report on the laying out of said place, to wit:

We, the undersigned, Selectmen of Brookline, having given printed and written notices to James Moloney, George E. Clark, Thomas Sloan, Thomas Donlan, Albert A. Cobb, Mary J. Williams, Michael Cain, William Jennings, Michael Cusick, Patrick Griffin, Thomas Mahan, Michael Lally, Lawrence Kelley, Michael Solan, Bernard McDonald, Francis Mealey, Mary McGrath, Guy H. Maynard, West End Street

Railway Co., being all the parties known to us to be interested in the subject-matter of the way to be laid out, of our intention to lay out as a townway, Sewall place, so-called, 35 feet in width, such notices requiring such persons to appear before us, at our room in the Town Hall, on Wednesday, January 16, 1895, at 5.45 o'clock P. M., and having caused such notices to be actually served according to law upon all such persons by a constable of this town at least seven days before the day so appointed for the hearing, and having given notice to them and all other persons (if any) who may be interested in the subject-matter of said way, whose names are not known to us, or who have no place of abode in the town, or who have no tenant or authorized agent known to us, by posting up copies of the printed and written notice in three public places in the town, seven days at least before the day appointed for the hearing:

Pursuant to such notice, we met at the time and place appointed for the hearing, and no person appearing to object, and the route of the way having been viewed and examined by us, after fully considering the subject, do adjudge that it is necessary for the public convenience that the way should be laid out and maintained by the town as hereinafter described by its centre line.

Beginning at a point on the easterly side of Sewall street, situated 17.94 feet northerly from the stone monument marking the northeasterly corner of said Sewall street and said Sewall place, thence running north $67^{\circ} 18' 26''$ east 306.97 feet; thence running south $35^{\circ} 14' 34''$ east 531 feet; thence running south $26^{\circ} 13' 4''$ west 250.87 feet, to the westerly side of said Sewall street; taking a parallel width of seventeen and one-half (17.5) feet on each side of the said centre line, and taking from the owners of the fee of said place 38,109 square feet.

All as shown on a plan of the same made by Alexis H. French, C. E., dated January 14th, 1895, approved by us, verified by our signatures and adopted as a part of this record.

We award to the owners of the fee of the place, being parties to us unknown, the sum of five dollars; no other awards are made, the benefits in all cases to the abutters being in our judgment equal to the damages.

And said way as so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded is to be known as a townway called Sewall place.

The said plan and this record have this day been filed by us in the office of the Town Clerk.

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
WM. J. SEAVER,
JAMES M. CODMAN, JR.,
Selectmen of Brookline.

BROOKLINE, January 21st, 1895.

BROOKLINE, MASS., January 21, 1895.

Filed in the office of the Town Clerk.

Attest: B. F. BAKER, *Town Clerk.*

Voted, To accept and allow Sewall place as a townway, as laid out by the Selectmen and reported to the town at this meeting.

Fourth Article taken up,—“ To authorize the Selectmen to contract for lumber for sidewalks to an amount not exceeding \$3,000.”

Voted, That the Selectmen be authorized to contract for lumber for sidewalks to an amount not exceeding \$3,000.

Fifth Article taken up,—“ To hear and act upon the report of the School Committee recommending the purchase of a school site on Druce street near Buckminster road, to appropriate \$30,000 therefor, and to authorize the Treasurer to borrow the same.”

The School Committee reported that they could procure a lot of land at or near the corner of Buckminster road and Druce street, sufficient for two school buildings, a primary and a grammar school, containing about fifty thousand square feet of land, for sixty cents a square foot, amounting to thirty thousand dollars; and that they recommend to the town to purchase the land for school purposes.

Voted, That the Selectmen be authorized to purchase, as recommended by the School Committee, from the estate of Arthur Rotch, a lot of land containing about fifty thousand square feet, at or near the corner of Buckminster road and Druce street, for Primary School and Grammar School buildings, and that the sum of thirty thousand dollars (\$30,000) be appropriated therefor.

Mr. Horace James offered the following vote, to wit:

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of thirty thousand dollars (\$30,000) appropriated at this meeting for the purchase of land at or near the corner of Buckminster road and Druce street for Primary School and Grammar School buildings, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportionate payments as will extinguish the same within twenty years from the date of delivery of said note or notes.

The Moderator appointed as tellers Messrs. Charles H. Stearns and Lepine H. Rice, and they were sworn by the Town Clerk.

The vote was then put upon its passage and the whole number of votes was sixty-four, as follows, to wit :

“ Yes,” sixty-four (64).

“ No,” none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Sixth Article taken up,—“ To make an additional appropriation of \$3,000 for the support of schools, to be taken from any unexpended balances, or from money in the Treasury not otherwise appropriated.”

Voted, That an additional appropriation of \$3,000 be made for the support of schools, to be taken from any unexpended balances, or from money in the Treasury not otherwise appropriated.

Eighth Article taken up,—“ To appropriate the sum of \$18,000 to pay for land taken for additional water supply, and to authorize the Treasurer to borrow the same.”

Voted, That the sum of eighteen thousand dollars (\$18,000) be and the same is hereby appropriated to pay for land taken under the provisions of Chapter 343 of the Acts of 1872 and Chapter 131 of the Acts of 1888, for procuring an additional water supply for the town.

Mr. Horace James presented the following vote, to wit :

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of eighteen thousand dollars (\$18,000), appropriated at this meeting to pay for land taken under the provisions of Chapter 343 of the Acts of 1872 and Chapter 131 of the Acts of 1888, for securing an additional water supply for the town, paying therefor a rate of interest not exceeding four per centum per annum, payable semi-annually, giving therefor the note or notes of the town, to be denominated on their face “ Brookline Water Scrip,” signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be payable in such annual proportionate payments as will extinguish the same within thirty years from the date of the delivery of said note or notes.

The vote was then put upon its passage, the same tellers acting, and the whole number of votes was sixty-four, as follows, to wit :

“ Yes,” sixty-four (64).

“No,” none (0),—and the vote was declared passed in the affirmative by more than two-thirds of the voters present and voting thereon.

Ninth Article taken up,—“To make an additional appropriation of \$15,000 to pay for St. Mary’s street bridge.”

Voted, That the sum of \$15,000 be appropriated to pay for land damages and legal expenses incurred on account of St. Mary’s street bridge; the same to be taken from any money in the Treasury not otherwise appropriated.

Tenth Article taken up,—“To make an additional appropriation of \$3,000 for the Health Department.”

Voted, That an additional sum of \$3,000 be appropriated for the Health Department, said amount to be paid from any unexpended balances, or any money in the Treasury not otherwise appropriated.

Eleventh Article taken up,—“To make an additional appropriation of \$1,200 for the Contagious Hospitals.”

Voted, That an additional appropriation of \$1,200 be made, to pay for the Contagious Hospitals and for furnishing; the same to be taken from any money in the Treasury not otherwise appropriated.

Twelfth Article taken up,—“To authorize the Selectmen to apply to the Legislature for an act to make the provisions of Chapter 404 of the Acts of 1890 applicable to Brookline.”

Voted, To authorize the Selectmen to apply to the Legislature for an act to make the provisions of Chapter 404 of the Acts of 1890 applicable to Brookline, and to employ counsel if they deem it necessary.

Thirteenth Article taken up,—“To authorize the Selectmen to apply to the Legislature for an act to repeal Chapter 476 of the Acts of the year 1893 and all acts and parts of acts in amendment thereof.”

Voted, That the Thirteenth Article be indefinitely postponed.

Seventh Article taken up,—“To see what action the town will take in relation to the building of a new Police Station.”

Voted, That the committee be increased by the addition of four, to be appointed by the Moderator; and that they report on the subject to the next annual town meeting.

The Moderator appointed Messrs. Nathaniel Lyford, Winand Toussaint, William J. Seaver and Thomas F. Barrett, to be the additional members of the committee.

Dissolved.

Attest: B. F. BAKER, *Town Clerk*.

Village Brook Channel,	4 %	5,350 00
Williams Street Drainage,	$3\frac{5}{8}$ %	1,400 00
Sewer from Boylston to Dudley St.,	4 %	1,250 00
Total		\$324,001 00

*Extinguished by operation of Sinking Fund.

†Final Payment.

The valuation of the real and personal estate is \$57,191,150 as compared with \$56,299,000 last year. The borrowing capacity of the town under the municipal indebtedness act is about \$425,000. The borrowing of \$30,000 for a school-house lot on Druce street has already been authorized and in the coming year \$100,000 must be borrowed for completing the High School, and more for furnishing it. A new Police Station, a new bridge at Longwood avenue, a school on Druce street, some treatment of the Whyte's Block problem, and expensive but important work on various brooks must soon require large expenditures.

The amount of debt to be paid off from taxes and receipts this year is \$169,611,—borrowed for the following purposes :

1890-92	Riverdale Park, land	\$8,250
1890-95	Riverdale Park, construction	18,830
1891	Longwood Playground, land	4,000
1894	Longwood Playground, construction	400
1887-9	Beacon Street widening	40,000
1894	Harvard Street widening	3,750
1894	Washington Street widening	3,050
1893	Morss Avenue land damages	10,700
1891	Sewall Avenue	1,300
1892	Dwight Street	600
1886	Washington Street Bridge	4,800
1891	Cypress Street Bridge	3,500
1891	Dean Road Bridge	1,000
1893	Aspinwall Avenue Bridge	1,900
1893-4	Village Brook Channel	6,150
1893-4	Sewer from Boylston to Dudley Street	1,250
1892	Williams Street drainage	1,400
1891-4	Increase and improvement of water supply	8,531
1892	Sundry Street mains	1,500
1888-91	Public Library additions	2,600
1894	Hospitals for contagious diseases	500
1886-8	Lincoln School	7,000
1887	Winthrop School	3,000
1888	Cabot School	4,000
1888	Pierce Primary School enlargement	2,000
1891	High School enlargement	500
1891	Lawrence School enlargement	1,500
1891	Sewall School	3,500
1891	Devotion Estate	6,100
1891-2	Devotion School	5,000
1893	Manual Training School	2,400
1893	High School lot	5,600
1894	New High School	5,000
Total		\$169,611

Nothing is paid by the sinking fund. The practice of borrowing money for long periods instead of short ones

lightens the burden of debt for a few years, but if adopted generally will ordinarily, after a time, simply increase interest charges. It is to be borne in mind, for instance, that the borrowing of \$200,000 for the High School, payable by installments for twenty years, involves the payment of some seventy-five thousand dollars in interest. Mere desire to shift payments onto other years, or to distribute large payments over many years, is not justifiable unless it be assumed that these other years are to have no exceptional burdens of their own. Borrowing for a long period is justifiable when the money is expended for something which of itself increases the town's wealth enough to bring in, without increase of burden, sufficient revenue to pay the interest and the principal as it matures. Of course an improvement which removes a source of future and continual expense may be just as effective as one which creates new values. The improvement of the Village Brook channel may be a productive investment, as well as the widening of Harvard or Beacon street. Less easy to comprehend, but none the less real, is the value of a handsome and appropriate bridge as compared with an ugly or unsuitable one. The municipal indebtedness act provides a wholesome check on extravagant and rapid borrowing, for an increase of \$100,000 in borrowing capacity requires an increase of three and one-third millions in valuation, or the payment of \$100,000 of debt, and if maturity is put off twenty or thirty years the latter is slow work. Our tax-rate in any year is affected by the debt we have to pay off rather than by that which we incur. Our annual expenditure for maintenance and extensions must continue to increase with the growth of the town.

State, County and Metropolitan Taxes.

This year the triennial reapportionment of State and County taxes is made. If the Commissioner's figures are accepted by the Legislature, as they doubtless will be, Brookline will pay for the next three years \$23.79 of every thousand dollars of the State tax, instead of \$23.25 as at present. The State tax this year is estimated at \$1,500,000, as against \$2,000,000 last year. Our proportion according

to these figures will be \$35,685, compared with \$46,500 this year.

Our proportion of the County tax is also based on this apportionment, but will be very nearly the same as at present, about $35\frac{1}{2}$ per cent of the whole County tax. If the tax this year is \$160,000, our share will be \$56,930.90,—a very large sum indeed.

Brookline pays 5.15 per cent of the interest and sinking fund requirements of the loan for \$5,000,000 issued by the state to pay the estimated cost of the Metropolitan Sewerage system, and 14.16 per cent of the cost of maintaining and operating the Charles River Valley portion of the system. Our proportion so far, with an estimate for the current year, follows :

	MAINTENANCE.	INTEREST.	SINKING FUND.	TOTAL.
1892	\$3,752 40		\$1,480 34	\$5,232 74
1893	3,752 40	\$2,294 36	1,480 34	7,527 10
1894	3,823 20	5,350 67	1,480 34	10,654 21
1895	3,964 80	7,725 00	1,480 34	13,170 14

The amount actually paid in 1894 was too large, owing to a misapprehension, and the excess will be deducted from the tax of 1895, making the estimated amount to be paid \$12,580.34. Gradual increase in the charge for maintenance may be expected as the district drained is developed. The interest charge was diminished at first by the premiums received for the bonds, but reaches its maximum in 1895. The Sinking Fund requirement increases once in ten years. Unless our proportion of the whole is increased by the new apportionment, which goes into effect in 1896, our annual tax for this purpose should not much exceed \$13,000 for some time to come.

There is also impending a Metropolitan Park tax, but no apportionment for this has yet been made, and it is doubtful if any money is required from us on this account this year.

Appropriations.

The appropriations asked for so far, which affect the tax-rate of 1895, amount to \$928,252.56, as compared with an expenditure of \$974,624.13 in the past year, and of \$898,162.51 in 1893-4. This indicates, in view of the probable receipts and allowing for some increase in valuation, a decidedly lower tax-rate than that of last year. The net expenditures from all sources, after deducting payments to Sinking Fund and for maturing debt, have been \$1,012,964.60 as compared with \$1,016,783.66 in 1893-4.

We repeat what was said by the Selectmen in 1885 and in 1890 :

“Nothing is more essential for the town’s success than a *low rate of taxation*. It is cheaper and better to defer improvements and keep the rate of taxation down, than to drive people away by improvements and a high rate. Improvements to a reasonable extent each year can be made consistently with a low rate of taxation. So-called ‘improvements’ on too great a scale will hurt the town and prevent the very growth they are designed to advance. Brookline now has a system of water works and a system of sewers, both of which can and should be judiciously extended as needs require. Beyond these, our improvements should be in moderation. Being a wealthy town is the very reason why its tax-payers should enjoy a low rate of taxation, and not, as some claim, carry a great debt and pay heavily for it. This problem can only be solved by the earnest coöperation of tax-payers and town officers, in scrutinizing every appropriation made.

“The situation of Brookline, its reputation, and its unrivalled attractions give the town an immense advantage. No municipality in the state has such an opportunity. The key to the town’s future success lies in the good sense with which its finances may be managed.”

The following table gives the amounts of the annual appropriations made during the past year, also the amounts expended, and amounts asked for by the various departments for the fiscal year of 1895-6. Most of the work for which the special appropriations of the last two or three years were made has been finished. Attention is called to the table of special appropriations, and to the special appropriations recommended for the ensuing year.

ANNUAL APPROPRIATIONS.

TITLE.	Appropriated for 1894-95.	Expended in 1894-95, less receipts.	Recommended for 1895-96, with receipts.
1. Highways	\$58,000 00	\$57,191 80	\$55,000 00
2. Sidewalks	16,000 00	12,269 88	14,000 00
3. Watering streets	16,000 00	15,853 18	17,000 00
4. Supt. of Streets and Sewers	2,500 00	2,500 00	2,500 00
5. Lighting streets	42,500 00	40,604 68	43,500 00
6. Planting trees	2,000 00	1,710 77	2,250 00
7. Care of Public Grounds	1,500 00	1,691 96	1,500 00
8. Park maintenance	5,000 00	4,884 29	5,000 00
9. Schools	93,850 00	93,795 72	101,750 00
10. School supplies and free text books	5,000 00	4,525 71	5,000 00
11. Evening School	600 00	524 05	1,000 00
12. Interior Repairs of Schools	3,000 00	2,892 60	3,000 00
13. Police	38,500 00	38,464 13	40,500 00
14. Fire and police alarm	5,000 00	4,390 39	2,500 00
15. Inspector of Wires			1,500 00
16. Fire department	25,000 00	24,713 06	25,000 00
17. Health department	14,500 00	14,543 21	14,000 00
18. Inspector of Buildings	1,500 00	1,500 00	1,500 00
19. Health and Plumbing Inspector	1,200 00	1,166 66	1,200 00
20. Bath-house	500 00	458 56	500 00
21. Sewers	25,000 00	23,619 25	25,000 00
22. Care of Sewers	4,500 00	4,090 26	4,500 00
23. Maintenance of Water Works	14,000 00	13,972 50	14,000 00
24. Water Registrar	1,500 00	1,500 00	1,500 00
25. Superintendent of Water Works	2,500 00	2,500 00	2,500 00
26. Water Board	900 00	900 00	900 00
27. Extension of Water Works	11,500 00	11,181 79	21,480 00
28. Library maintenance	12,000 00	12,000 00	12,000 00
29. Support of Poor	8,000 00	8,103 93	8,000 00
30. Disabled Soldiers and Sailors	600 00	307 50	450 00
31. State aid	700 00	968 00	1,000 00
32. Assessors	3,000 00	3,000 00	3,000 00
33. Assessors' clerk	1,500 00	1,500 00	1,500 00
34. Chairman of Selectmen	1,200 00	1,200 00	1,200 00
35. Selectmen, exclusive of chairman	2,400 00	2,400 00	2,400 00
36. Clerk of Selectmen and Ov. of Poor	1,350 00	1,350 00	1,800 00
37. Overseers of the Poor	1,050 00	1,050 00	1,050 00
38. Registrars of Voters	400 00	400 00	400 00
39. Town Clerk	1,800 00	1,800 00	1,800 00
40. Treasurer, Collector, and clerk hire	5,000 00	4,883 36	5,000 00
41. Auditors	150 00	150 00	150 00
42. Engineering department	9,000 00	7,272 90	7,250 00
43. Town Engineer		1,750 00	3,000 00
44. Contingencies	7,000 00	6,851 97	7,000 00
45. Printing and advertising	3,500 00	3,786 07	3,750 00
46. Care of Town Hall, and Janitor	3,500 00	3,026 70	3,500 00

8. Rent, etc., for Assessors' office	650 00
9. Westbourne terrace and Bartlett crescent	900 00

* \$5,000 transferred to appropriation for Driven Wells at Cow Bay.

New Streets.

The table of new streets laid out and accepted since the last annual report, being streets constructed by private parties and given to the town, will be found in the report of the Town Engineer.

Street Widening, Etc., Made by the Town.

CHAPEL STREET, the widening of a part of COLCHESTER STREET and CARLTON PATH, a work made necessary by the consolidation of the Longwood and Chapel Stations, have been completed, and the ways opened to travel. The land damages are not yet all paid and final settlement has not yet been made with the Boston & Albany Railroad. As preliminary surveys and other work, not included in the estimates, have been charged to these appropriations, \$450 more is needed to close up the matter.

HARVARD STREET WIDENING. At the special town meeting held May 29, 1894, an appropriation of \$75,000 was made, to pay for land damage and the construction of the widening of this street. The work was commenced about the first of July, and in this case, as also in that of Washington street, has been carried on by the Highway Department. This has been done for two reasons, partly because the character of the work to be done made it a difficult job to let by contract, but more especially for the purpose of furnishing employment for idle men and teams. The street has been finished, and while it is a great convenience to the travelling public, it has largely increased the value of the abutting estates. We have spent to date for construction, \$30,691.82, and we have paid land damages, \$36,437.25,—a total expenditure of \$67,129.07. There is now due for land damage as per the award to James H. Beals, \$2,208.00; to Thomas O. Selfridge, \$1,968.00; to Joshua L. Brooks, \$2.50; to Henry F. Shurtleff, \$40.00.*

WASHINGTON STREET, IN THE VILLAGE. This widening was accepted at the special meeting held May 29, 1894, and an appropriation of \$61,000 made, to pay for land damage

*Since this was written, Mr. Beals has begun a suit, and the others have taken their awards.

and construction. The work, like that on Harvard street, has been done by the Highway Department, commencing in the early fall and continuing until stopped by frost and snow. All but two claims for land damage are settled. These two are: Heirs of Michael Miskell, award, \$5,000; Heirs of Patrick Rooney, (H. G. Jordan & Co., lessees,) \$1,500. The whole amount expended to date is \$54,230.81. There was expended for rebuilding the sewer in this street, at a lower grade and with a new outlet, about \$2,500. This work was not included in the original estimate and makes necessary an appropriation of \$2,500 for finishing the work.

ST. MARY'S STREET BRIDGE. This bridge and its approaches was finished last summer, but the suits for damages on account of it have but recently been settled. We have disbursed \$64,751.96, 90 per cent of which should be returned to us. We have received one payment of \$31,334.61, the result of the first accounting, and as the whole matter is now in the hands of an auditor, it is hoped it may be closed up at once.

Change of Street Name.

The private way formerly known as Harvey street, having been laid out as a town way, the name was changed to Upland road.

Highway Department.

This department has been busy during the past year with repairs and the general work of keeping our streets in good condition for travel, under the excellent superintendence of Mr. Driscoll. The work caused by the widening of Harvard and Washington streets has been performed by the department economically and well. In September Mr. F. B. Richardson, formerly with Mr. French, was appointed as assistant to Mr. Driscoll, whose duties have greatly increased with the growth of the town. The clerical work of the department has likewise increased, and by this change the department can be represented at the Town Hall without interfering with Mr. Driscoll's work of general supervision. After some months' trial we think this appointment has been for the interest of the town.

A street-sweeping machine was purchased in the summer, but it was not delivered until too late to be of service that season ; also several push carts for the collection of rubbish and droppings. No other purchases were made, other than the necessary renewal of carts and implements.

There are now about sixty miles of streets in Brookline, and the cost of maintaining them in proper condition is necessarily great, and must become greater as our gravel roads become renewed with stone. Attention is called to the Superintendent's report as to the pressing necessity of obtaining a supply of stone suitable for our streets for some years to come, all of our sources of supply in the north part of the town being nearly exhausted. A considerable economy could be effected by changing the policy of the town in regard to clearing sidewalks from snow, a work which no other town or city that we know of does to an equal extent, and one which materially increases our appropriations.

Street Railways.

The following orders were passed by the board :

First—An order dated June 27th, 1894, requiring the West End Street Railway Company to move its tracks in Harvard street to the centre of said street as widened.

Second—An order dated July 2d, 1894, requiring the same company to move its tracks in Washington street, between Boylston street and the Boston line at the Parkway, to the centre of said street as widened.

Third—An order dated September 10th, 1894, directing the same company to remove its tracks from Longwood avenue, and restore the street to its original condition.

Fourth—An order dated September 17th, 1894, directing the same company to remove its tracks from Cypress street, between its junction with Sewall street and Chestnut street, and restore the street to its original condition.

On July 24th, 1894, locations for tracks were granted as follows: A single track, with the necessary turnouts, on Washington street, between Beacon and Park streets ; and also a single track with turnouts, on parts of Cypress street

and Sewall street, between Boylston street and the new car-house near the easterly junction of Sewall street and Sewall place, as shown on plans of the same made by A. L. Plimpton, engineer of the West End Street Railway Company, and filed with their petitions for said locations, with consent and permission to establish and maintain the overhead single trolley electric system of motive power in the operation of its cars on said tracks.

The foregoing orders and locations have been submitted to and approved by the board of Railroad Commissioners.

The petitions for these locations asked for double tracks. These streets are at present much too narrow for double tracks with electric cars, and after a hearing, at which plans for widening Cypress, Sewall and Chestnut streets were presented, single-track locations with turnouts were granted. The tracks have been laid and electrically equipped, and cars are running satisfactorily. Legislation is pending, which, if enacted, will enable a portion of the cost of widening streets to be assessed upon railway companies when the widening is made necessary by the railways' use of the streets.

The importance of the form of rail used in the streets is very great. Rails having a grooved head with both flanges flush with the street are much easier to cross than others, and afford comparatively little obstruction to travel. This form of rail is not popular with railway companies, but is in use to a large extent in Brookline, and has been insisted upon in Boston on retail streets. No other rail should be allowed in Brookline, except in reservations, and perhaps on very wide streets used largely for heavy travel. As the obnoxious rails wear out they should be replaced by others of the best possible type, and perhaps some of the worst ones on Harvard street should be replaced now. The precise form of rail to be laid should be approved before being ordered from the maker, and of course a considerable time before it is actually laid. A little firmness upon this subject by Selectmen and Superintendent of Streets in the future can be of the greatest possible benefit to the town.

October 22d, the following vote was passed :

Voted, That until further action by the board, the West End Street Railway Company be directed to lay no rails, either by way of new construction or of repairs, upon any of its present locations in the town, except upon Sewall street; but necessary repairs may be made with the written consent of the Superintendent of Streets in each case.

Street Lights.

Electric lights at 40 cents per night per light, gas lights at $8\frac{1}{4}$ cents including care of lamps and lighting, and oil lights at 7 cents, have been maintained as heretofore. The electric-light service has been quite poor at times, but is now considerably improved in consequence of changes made in the power-station at Allston. It is expected that the contract with the Brookline Gas Light Co. for arc lights can be renewed next summer at a lower rate; not more than 38 cents per night per light. There is room for improvement in the quality of the gas supplied throughout the town. The oil lights on Pond avenue, not being needed there since the Parkway has been lighted by electricity, have been removed to Hammond street. Quite a number of lights have been made more effective by comparatively slight changes in their position, and further changes of the same sort are needed. Suggestions from citizens, who see particular lights constantly and in all kinds of weather, will be very useful in this work, especially if made in writing. The cost of lighting our streets is very large, and increased supply of light seems only to increase the demand for still more.

The comparative numbers of the different kinds of lights for the last few years is as follows :

	Feb.,1891.	Feb.,1892.	Feb.,1893.	Feb.,1894.	Feb.,1895.
Electric . . .	127	150	178	212	228
Gas	267	248	251	241	221
Oil	98	100	103	101	101

The appropriation required for maintaining the present lights, considering the probable reduction in the price of arc lights, with some addition for new lights, a number of which have been ordered since February 1st, is \$43,500.00.

The usual table showing the location of all the lights is appended :

Street Lights in use, February 1, 1895.

Sewers.

The sewer from Boylston street to Dudley street, through land of Dr. A. F. Mason (mentioned in the last report) has been finished. The unexpended balance of the appropriation for this sewer was, on February 15th, 1894, \$7,870; amount since expended, \$6,795.45, leaving a surplus of \$1,074.55. The amount of the general sewer appropriation for the past year was \$25,000. The sum of \$23,619.25 has been expended, leaving a balance of \$1,380.75. For the purposes of general sewer construction we recommend an appropriation of \$25,000. The usual tables giving the details of sewer construction will be found in the Town Engineer's report, published herewith.

A sewer and surface-water drain in the north part of the town, leading from the low lands in rear of what was formerly the Babcock estate, is badly needed. An attempt was made last October to lay out a sewer for this district, but fell through on account of the failure of some of the land-owners to grant the right of way through certain streets which, it was understood, they proposed to lay out at some time in the near future. At present a large tract of land, which we are assured would be built upon at once, remains unoccupied for the want of suitable drainage facilities.

Telegraph, Telephone and Electric Light Poles.

These are as ugly and objectionable as ever. The telephone company continues its policy of gradual burying of wires in conduits, reserving space for the fire and police alarm wires of the town. This year an appropriation is asked to begin the work of putting the town's own wires into these conduits.

The first step towards getting the electric-light wires in the streets underground is an arrangement just made for laying a short piece of underground cable on Carlton street, to reach a single electric-light post to be placed at the corner of Ivy street. About one-half the expense is to be borne by the Brookline Gas Light Company and the other half, amounting to \$100, is to be divided between the town and the public-spirited citizens of that neighborhood, whose hostility to poles and wires takes this very practical form.

On that part of Harvard street recently widened the system has been tried of having a row of poles on each side of the street to carry all wires, including those of the West End railway. This system has found much favor in Cambridge and was adopted here after conference with the abutters. Some investigation was made of the probable expense of putting the electric-light wires on this street underground, but as the main trunk line from the power-house at Allston is here, the wires are numerous and the cost would be very great. Two years ago the Selectmen said :

“We have some hope that the wires on Beacon street may be put underground and we feel that this should be done in the near future, even if part of the expense is borne by the town. It is ridiculous to build such a fine avenue at large cost and then suffer its appearance to be ruined by the wires and poles.”

The contrast between Beacon street and the Riverdale Parkway in this particular is very striking. Negotiations upon this subject are now pending.

The following votes were passed by the board :

Voted, That, in the opinion of the board all wires should in the near future be buried, and that the various electrical companies be notified that they are expected to work to that end.

Whereas, Various locations have been given to different corporations at different times, which locations have not been used by such corporations, and as in the opinion of the board it is undesirable that locations should be for a long time outstanding and unused;

Voted, That all locations and parts of locations for tracks, poles or wires granted by the board prior to April 1st, 1894, which have not yet been used by the companies to which said locations were granted, be, and the same are, hereby revoked.

New Covered Brook Channel.

Such work in connection with this channel as remained unfinished, was completed in the early part of the season. As has been repeatedly stated in previous reports, this work should be continued from its present terminus to the Cypress street bridge. Every year new buildings are being built over it, and the cost of the work materially increased thereby. The open channel along the railroad, commencing a short distance below the depot and extending down to the Park Department yard, should be filled up. It will probably be necessary to place a large pipe in the bottom of the old channel to take the overflow, if there should be any, from the new covered channel, and also the surface-water which will collect alongside the railroad tracks, this drain to be connected with Muddy River at some point. A plan for this is now being made, which will be presented to the town later on. Plans for the surface drainage of Chestnut street and vicinity have been made, the brooks having been found insufficient to take care of the water which naturally or artificially flows there. If satisfactory arrangements can be made with interested parties this matter will probably be brought before the town.

Police Department.

The Police Department during the past year has maintained a satisfactory degree of efficiency. The officers and men have discharged their duties to our satisfaction, and, we believe, to that of all our citizens. The particulars of the work done by the force are set forth in the appended report of the Chief of Police. The board take pleasure in calling special attention to the promptness, energy and devotion to duty of Officers Watterson and McMurray, under circumstances set forth in the report.

During the past few weeks, upon the petition of many citizens of Longwood, additional police service has been given in that part of the town between 4 P. M. and 11 P. M. In view of the exposed situation of the districts embraced in police routes three and four, it seems to the board important that these routes should be more frequently patrolled. The district north of Winchester street, west of Beacon street and south of St. Paul street, in which many houses have recently been erected, should also have more attention from the police force than can now be given to it. In view of these facts, it seems to us desirable to establish an additional route embracing this district. By this means the objects above stated can be accomplished, as the establishment of the new route would permit the shortening of routes three and four. The new route, if established, will make necessary three additional patrolmen and an increase of the police appropriation by \$3,000.

Fire Department.

The past year has been uneventful in this department; it has continued to perform its usual effective service, and the apparatus and buildings are in good order. The number of alarms and details of fires are given in the Engineers' report. We are pleased to report that no serious losses have occurred during the year.

A harness for a team of three horses abreast and the necessary attachments were furnished to the hook and ladder truck for winter service, and have given satisfaction. There have been no changes of note during the year, and attention is again directed to the Engineers' report for further details.

In view of many more pressing demands on the town we do not feel like recommending any substantial increase or expensive changes.

Fire Alarm and Police Telegraph.

This department has been giving as good service as could be expected from an aerial system. It requires the constant supervision of a superintendent and an assistant. The

policy of gradually extending the service was recognized by the addition of three new fire boxes and two new police boxes. We think that the service, and also the appearance of some of the streets, could be improved by burying our wires wherever practicable. In all the underground conduits of the telephone company space has been reserved for the town wires, and we recommend that an appropriation be made sufficient to allow for the burying of our wires, so far as we can do so advantageously. From a full report made to us by the Superintendent, the cost of the whole would be about \$3,000.

Owing to the great increase of wires carrying both high and low tension currents, and the general use of electricity in lighting new houses, it seems to us desirable for the town to have a new department for the superintendence and inspection of all electric wires, and that this department be merged into the new one.

At the last town meeting the Selectmen were authorized to apply to the Legislature to extend the provisions of Chapter 404 of the Acts of 1890 to Brookline; this is being done, and it is hoped that the town will be in a position to take advantage of this act at the annual town meeting.

An appropriation of \$4,000 is necessary for maintaining our present system without additions or expensive changes. We recommend a special appropriation of \$1,000 for doing a part of the work of burying the wires as shown above; \$2,000 more could be expended in adding new boxes, recommended in various reports, and in placing a new 4,000-pound fire-alarm bell, with striker, on the Town Hall, together with other changes in the disposal of the different bells; but we do not recommend any increase of the system at present.

Public Grounds.

The grounds of the Public Library, school buildings and two playgrounds have been cared for by the Highway Department.

An iron fence has been placed around the grounds of the Winthrop school. The grading of the town lot on Tappan

street has been completed with material from the new High school site. The repairs on the driveway between the Pierce Grammar school and the Public Library have been finished, and the area in front of the Pierce Grammar school has been concreted.

Bath House.

The Bath House was opened June 11th, and closed September 29th. As usual it has been under the superintendence of Mr. Patrick Dillon. From his report it appears to have been used by 6,573 persons, a decrease of nearly 1,000 below the average for the past four or five years. The buildings are old and not what they should be, even if they were in good condition. When the brook channel is rebuilt, as it should be at once, they will have to be removed, and it may be a question whether they should be rebuilt on the present lot.

Guide-Boards.

Guide-boards, numbered from 1 to 78 inclusive, and heretofore reported, are still maintained, and in the opinion of the board are sufficient for the present.

Legislation.

The result of the various petitions for legislation sent to the Legislature of 1894 were reported to and acted upon by the town at the special town meeting held May 29, 1894. As authorized by vote of the town passed January 29, 1895, application has been made to the present Legislature for an act to make the provisions of Chapter 404 of the Acts of 1890 applicable to Brookline.

Licenses.

Licenses were granted as follows:—

Auctioneers.—Henry W. Jackson, Walter Jackson, William M. Snow, John J. McCormack, Willard Y. Gross, Charles P. Bancroft, Frank Moseley, John J. Henry, D. J. Dooley, William Binder.

Druggists.—Young & Brown, William H. Butler, Jeffers & Eddy, David F. Baxter, Arthur W. Bowker, A. J. Hayman.

Carriages.—John McGillicuddy, Denis McCarthy, John H. Burns, Eugene R. Knapp, Herbert O. Davis, Scott McNeilly, William F. Riley, Frank H. Flanders, Frank A. Carnes, J. T. Sanford.

Drain Layers.—Michael J. O'Hearn, Thomas J. Kelley, Bernard T. Malone, James Moloney, D. J. Dooley, Michael Casey, Thomas B. Sheehan, Francis F. Morton, Philip S. Allen, James Driscoll & Son, Johnson Brothers, Horace James.

Funeral Undertakers.—Henry S. Hatch, Thomas F. O'Day, Charles A. Bryant.

Victuallers.—Frank P. Baker, P. M. Ryan, Amanda M. Lavey, Vincent Cavicchi.

Employment Offices.—Mary A. Holmes, Annie Welch, Womans' Exchange.

Billiards.—David S. Sanford.

Pool Tables.—Antonio Carreiro, E. B. Wood.

Bowling Alley.—E. B. Wood.

Junk Dealers.—Thomas J. McGarry, William F. Carroll, Michael Hughes, James Murneghan.

Grease and Bones.—Patrick McCarthy.

Contracts.

Contracts were awarded as follows:—

To Brookline Gas Light Co., for street lighting—

For arc electric lights, per night	\$0 40
For gas lights, per night	08½

To Globe Gas Light Co.—

For naphtha lights, per night	07
---	----

To H. G. Jordan Coal Co.—

For furnace, egg and stove coal, per ton of 2240 pounds .	\$4 71
---	--------

To C. W. Lynam, for concrete sidewalks—

For new walks, per square yard	\$0 70
For skim-coating, cold work, per square yard	40
For hot work	55
For sidewalk crossings	90
For street crossings	1 50
For driveways	1 00

HORACE JAMES,
TUCKER DALAND,
CHAS. H. DREW,
WM. J. SEEVER,
JAMES M. CODMAN, JR.,

Selectmen of Brookline.

REPORT ON SUITS TO WHICH THE TOWN IS A PARTY.

HORACE JAMES, ESQ.,

Chairman Board of Selectmen:—

DEAR SIR,—We report as follows concerning the suits we have had charge of for the town :

First.

John Cleary vs. Brookline.

This was an action for an injury sustained by the plaintiff on Station street while that street was in process of construction.

The plaintiff, a boy, was injured by a curb-stone which had been left standing on its edge, and which fell, breaking the plaintiff's leg. There were grave doubts in our minds as to the liability of the town, but the injury was a severe one, and after consultation with your board we settled the case for \$157.31, deeming it wiser to pay this small sum than to incur the risk of a jury trial.

Second.

James McDonnell vs. Brookline.

No action has been taken by the plaintiff in this case and we have nothing to add to our last report.

Third.

Edward C. Wilson et al. vs. Brookline.

Petition for revision of betterment for the laying out of Freeman street.

The betterment assessed in this case was \$1,280.

Upon investigation by us, and a hearing of the claims of the petitioners, it was deemed proper to accept \$1,000, with interest amounting to \$189.67, and the case was settled, the petitioners paying \$1,189.67.

Fourth.

Mary E. Corbett et al. vs. Brookline.

Petition for assessment of land damages for land taken for the extension of the town's water supply.

We hope to be able to effect a settlement of this case, now that the Supreme Judicial Court has decided that we had a

right to take land under the statutes, and that the courts could not revise the action of the town in taking land.

A trial would be, in our opinion, a useless expense to both parties.

Fifth.

Daniel A. Lynch vs. Brookline.

Daniel A. Lynch vs. F. F. Forbes.

The first of these suits was a bill in equity filed in the Supreme Judicial Court, and the other was an action at law brought against the Superintendent of the Water Works.

Both were intended to test the right of the town to take land for its water works, the plaintiff claiming that the town had taken all the land that was necessary before it assumed to take the plaintiff's land.

The decision of the court of first instance was against the plaintiff in both cases.

The plaintiff, however, carried both cases before the full bench of the Supreme Judicial Court, and that court rendered a decision in favor of the town, holding that it could not revise the action of the officers of the town in their exercise of the right to say what lands were necessary for the purposes of the town, and declaring that the proceedings of the town officers in taking plaintiff's land, which had been questioned in one of the cases, were regular and in conformity with the statute.

Sixth.

Daniel A. Lynch vs. Brookline.

This is a petition for damages for the taking of the land which was the subject of the controversy in the two suits last mentioned. We think now that the right of the town to take the land is established we shall be able to adjust the question of damages without the expense of a trial, but we cannot, of course, speak positively upon this point.

Seventh.

Town of Brookline vs. City of Boston.

This was an action of contract brought to recover money expended by the town for relief furnished to the minor children of John J. Backus, a deceased soldier of the war of the Rebellion.

The statutes require that relief shall be furnished by the place of the children's settlement, and it being doubtful whether the settlement of the children was in Brookline or Boston, the Selectmen, acting under an arrangement made with the Committee on Soldiers' Relief of the Board of Aldermen of the city of Boston, paid the required sums and then sued the city for reimbursement.

The case was tried in the Superior Court at Dedham and resulted in a verdict in favor of the town.

The city, however, contended at the trial that the Committee on Soldiers' Relief had no authority to enter into the agreement which they made with the Selectmen, and purposed taking this question, together with certain other questions which arose in the course of the trial, to the Supreme Judicial Court.

There was, in our opinion, a good deal of doubt about the right of the committee of the Aldermen to make the agreement they did, and after consultation with your board we made the following settlement of the case:

The city gave us judgment on the verdict and paid us the amount sued for, with interest, amounting to \$580.98, and the costs, which amounted to \$104, and took upon itself the future payments of aid to the children, while the town assumed the payment of the sums it had expended for the children during the time while the action was pending in court.

Thus the principal object for which the town was contending, namely, the future support of the children, was settled in favor of the town.

Eighth.

1. *Edward C. Cabot vs. Brookline.*
2. *Helen N. Cabot vs. Brookline.*
3. *Clement K. Fay vs. Brookline.*
4. *Henry Sayles et al. vs. Brookline.*
5. *Eliza G. Stanwood vs. Brookline.*
6. *Cornelius O'Connor vs. Brookline.*
7. *Margaret F. Loring vs. Brookline.*
8. *James Hanlon vs. Brookline.*
9. *Amelia G. Candler vs. Brookline.*

These cases were all brought for revision of betterments assessed for Riverdale Park, and have all been settled as follows :

Edward C. Cabot paid the town	\$500.00 and interest.
Helen N. Cabot	“ 668.00 “ “
Henry Sayles et al.	“ 6,150.00
Eliza T. Stanwood	“ 359.10
Cornelius O'Connor	“ 680.00
Margaret F. Loring	“ 684.00
Amelia G. Candler	“ 400.00

Mr. Fay's case was settled by your board in connection with his claim for damages to his land caused by the widening of Washington street, and our only duty in that case was to see that the proper entry was made in the court.

In the case of James Hanlon *et al. vs.* the town, which was a suit brought by several parties, the only party who really contested her assessment was Margaret Beatty, and her case was settled as follows :

Mrs. Beatty had paid all but \$81 of her betterment assessment, but had not been settled with for her damages for land taken. She was paid \$150 for land damages and relieved of the balance unpaid on her assessment and of all interest accrued on her assessment.

The settlement of the Sayles case was made under a vote of the town.

Ninth.

Calvin W. Capin vs. Brookline.

Petition for a jury to assess damages for land taken for the water supply.

Negotiations for the settlement of this case are still going on.

Tenth.

George W. Chamberlain vs. Brookline.

We have had a great deal of negotiation for the adjustment of this case, in which we have been greatly assisted by Mr. Mowry of the Water Board, and it is believed that a

basis of settlement satisfactory to both parties has been reached, and we are now engaged in preparing the papers to carry this settlement into effect.

Eleventh.

Lizzie J. Lithgow vs. Brookline.

Francis B. Toppan vs. Brookline.

These are two actions for damages growing out of an accident which happened while the plaintiffs were driving on Essex street.

The cases are now on the trial list, and we expect to try them within a month.

Twelfth.

Richard H. Grogan vs. Brookline.

This was a petition to recover damages occasioned to the petitioner's stable by the raising of the grade of St. Mary's street and a private way leading thereto, on which the petitioner's land abuts.

It was tried at the last sitting of the Superior Court at Dedham, and the jury returned a verdict in favor of the petitioner for \$2,900.14, which has been paid, together with the costs, which amounted to \$56.11.

Thirteenth.

George Wheatland vs. Brookline.

This was a petition to recover damages to the petitioner's land on St. Mary's and Mountfort streets, occasioned by the raising of the grade of St. Mary's street.

The case was tried at the last October sitting of the Superior Court at Dedham.

The petitioner's witnesses put the damages at about \$38,000, the principal element of damages being the increased cost of building on the lot, which was a very large one, owing to the fact that extra foundations would have to be put in to meet the new grade.

The trial occupied nearly a week and resulted in a verdict for the petitioner of \$9,000 and interest and costs, a total of \$9,987.63, which has been paid.

*Fourteenth.**Luther M. Merrill vs. Brookline.*

This was another suit for damages arising out of the abolition of the grade-crossing at St. Mary's street.

The petitioner's land was on the corner of St. Mary's street and Mountfort street, in Brookline, directly opposite the land of Mr. Wheatland.

While it was not agreed that the decision in the Wheatland case should govern this case, both parties considered that the verdict in the former case might well be taken as a basis for the settlement of the Merrill case, and after consulting your board and the counsel for the Boston & Albany Railroad Company, and the Attorney-General representing the Commonwealth, we settled this case on the basis of the verdict in the Wheatland case, the amount paid being \$9,999.33, the slight difference between this amount and the sum paid Mr. Wheatland being due to the difference in the amount of interest.

It should be borne in mind in connection with these last three cases that though the town is the nominal party defendant, and in the first instance pays all the sums recovered, yet in the end it receives from the Commonwealth and the Boston & Albany Railroad Company all but ten per cent of all sums paid by it for damages, costs and counsel fees.

*Fifteenth.**Carrie K. Slocum et al. vs. Brookline.*

This was a petition for a writ of certiorari brought against the Selectmen for the purpose of quashing the levy of a sewer assessment on University road.

The case was heard before Justice Charles Allen of the Supreme Judicial Court, who decided in favor of the Selectmen.

The petitioners then appealed to the full bench of the Supreme Judicial Court, and the case was argued again. That court also decided against the petitioners and upheld the assessment.

*Sixteenth.**Cassius Clay Powers vs. Brookline.*

This is an action of contract brought to recover a sewer assessment levied on the petitioner's land on University road and paid by him, as he alleges, under protest, the plaintiff not having joined in the certiorari proceedings.

This case has not yet come up for trial.

*Seventeenth.**Dexter N. Richards vs. Brookline.*

Petition for damages for land taken in the laying out of Chapel street.

The petitioner was awarded \$500; he claimed \$1,500.

Upon investigation by us and by your board it was decided to allow him \$1,000, and this sum was paid him.

*Eighteenth.**John Ryan vs. Brookline.*

Action of tort for injuries sustained by the plaintiff while he was at work in a ditch being dug for the water pipes of the town at Dedham Island, by the fall upon his head of a heavy iron cap used to protect the end of sheet piling while being driven into the earth to hold up the sides of the trench.

While the plaintiff was at work in the trench and a man on a stage above was driving a plank into the earth by striking the cap on the end of the plank with a heavy hammer, the cap bounded off and fell upon the plaintiff, inflicting a scalp wound, which had to be sewed up, but not permanently injuring him.

The case was tried at Dedham a few weeks ago and resulted in a verdict for the plaintiff for \$75.

We were of the opinion that the town was not legally liable, and intended to take this question to the Supreme Judicial Court, but the smallness of the verdict disarmed us, as the expense of going to the full court would have much exceeded this sum, and the case was settled for the amount of the verdict and costs, amounting to \$37.92.

*Nineteenth.**John Moran vs. Brookline.*

This action for damages grew out of an accident which happened at Dedham Island on the Water Works on the same day that the plaintiff in the last preceding case was hurt.

The plaintiff was engaged with other men in driving wells and in coupling a piece of iron pipe to another piece of pipe which had been driven into the ground. For this purpose he was using an implement called a chain-tongs. While the plaintiff, with other men, was screwing the pipes together by means of the chain-tongs and walking around the pipe pulling on the tongs, a pin in the tongs broke and the plaintiff, who was walking backwards, was thrown down upon a short piece of iron pipe projecting from the ground and used as a fulcrum to assist in holding in place that part of the pipe which had already been driven into the ground.

The plaintiff struck on his back, the piece of pipe striking him in the region of the spine and injuring his spinal cord.

There was upon the facts as we know them considerable doubt as to the plaintiff's right to recover as matter of law; there was, however, no doubt as to his injury, which was severe.

The plaintiff was willing to settle the case for \$3,000, although he contended that he could reasonably expect to recover a larger sum.

After numerous conferences with your board the case was settled for \$1,500, and that amount has been paid.

*Twentieth.**Joanna J. Quinlan vs. Brookline.*

Petition for damages to the petitioner's estate as lessee of James Driscoll on Washington street, Brookline, owing to the widening of that street.

The Selectmen made a joint award to Mr. Driscoll and his tenant, Mrs. Quinlan.

Mr. Driscoll and Mrs. Quinlan differed upon the question how this award should be divided between them, and Mrs. Quinlan brought suit against the town.

The town paid Mr. Driscoll the whole amount of the award, taking from him an agreement to assume the defence of Mrs. Quinlan's suit and to pay all damages she might recover.

Mr. Driscoll and Mrs. Quinlan subsequently settled their differences, and the proper entry discharging the town was made in the suit.

Twenty-first.

Edwin N. Tyler et al. vs. Brookline.

This was a petition for damages for injury to the petitioners' land by the widening of Harvard street.

After a full and frank conference with the petitioners' counsel and a fuller statement of the Selectmen's position in this matter, the petitioners decided to accept their original award, and the case was settled upon that basis.

Twenty-second.

Henry P. Nawn vs. Brookline.

This is an action of contract brought to recover about \$13,000 which the plaintiff, who was the contractor for the macadamizing of the roads and walks of the Brookline part of the Riverdale Park, says he was obliged to expend in doing work which was not called for by his contract and would not have been necessary but for the failure of the town to do its part of the work properly.

This case has just been begun.

Twenty-third.

H. G. Jordan & Co. vs. Brookline.

Petition for damages for the widening of Washington street, just entered.

Twenty-fourth.

Free Hospital for Women vs. Brookline.

This is an action to recover a tax assessed upon the plaintiff last May by the Assessors.

The question at issue is mainly a question of law, the plaintiff claiming exemption on the ground that it is a charitable institution, and the Assessors claiming that the plaintiff

is liable for this tax upon its real estate in Brookline for the reason that it bought its land on Pond avenue for the purpose of removing thereto, but did not move in within two years from the time of its purchase of the land as required by law.

Twenty-fifth.

James Marley vs. Brookline.

Action of tort for injuries alleged to have been sustained by the plaintiff while at work for the town on a quarry on Washington street, Brighton.

This case has not yet been entered in court, and there is as yet no declaration showing what the plaintiff's claim is.

Twenty-sixth.

John Storer Cobb, petitioner for Certiorari.

This was a petition for a writ of certiorari to be directed to the board of Registrars or Voters.

The petitioner claimed that the Registrars erred in not permitting him to register as a voter, and in requiring him to produce as a prerequisite to registration evidence that he had been assessed for a poll-tax in the town of Brookline.

The petition was heard by Justice Morton of the Supreme Judicial Court and was dismissed by him.

As the Court was of the opinion that it did not appear that the petitioner had presented to the board legal evidence of his other qualifications, Mr. Cobb decided not to appeal to the full bench as he had at first intended.

Yours very truly,

M. & C. A. WILLIAMS.

REPORT OF THE CHIEF OF POLICE.

BROOKLINE, Jan. 31, 1895.

To the Honorable Board of Selectmen:—

GENTLEMEN,—I have the honor to submit my nineteenth annual report of the Police Department, for the year ending Jan. 31, 1895.

Organization.

Chief.—Alonzo Bowman.

First Lieutenant.—George F. Dearborn.

Second Lieutenant.—Charles B. McCausland.

Inspector.—Albert S. Paige.

First Sergeant.—B. Frank Bartlett.

Second Sergeant.—Alonzo W. Corey.

Third Sergeant.—Joseph J. O'Connell.

Patrolmen.

Alden A. Manley.

James Gleason.

Henry J. Graham.

Edward J. Mealy, Jr.

Peter Curry.

Andrew Creelman.

George W. Piper.

George E. Stitt.

Michael O'Day.

Emery E. Allen.

Fred. C. Gordon.

William H. Dee.

John J. Sullivan.

John Crory.

Patrick A. Kelleher.

Charles C. Watterson.

James J. Phillips.

Stephen D. Holleran.

Wilbur F. Merritt.

John Johnson.

James J. Powers.

John Carmody.

Charles G. Donahoe.

H. Allen Rutherford.

Joseph McMurray.

The force is divided into three divisions, covering eight routes or beats. The first division goes on patrol duty at 12.45 A. M.; the second division at 7.45 A. M.; the third division at 5.45 P. M. The routes are defined and officered as follows:—

Route No. 1 includes all territory south of the B. & A. R. R. to Cypress street, thence to the town line. The second division of this route is officered by Patrolman McMurray, and the first and third divisions by Patrolmen Allen and Crory.

Route No. 2 includes all north of the railroad, thence to Aspinwall avenue, to Francis, St. Paul, School, and Cypress streets, Gorham avenue to Tappan street, thence to Brookline Hills station. Patrolman Mealy is on the second division, and Patrolmen Gordon and Donahoe on the first and third divisions.

Route No. 3 includes all that part of the Longwood district north of Kent street, and is policed on the second division by Patrolman Creelman, and on first and third divisions by Patrolmen Dee and Kelleher.

Route No. 4 includes all south of Kent street to Francis street, Alton street to Harvard street, to town line, and is cared for on second division by Patrolman Graham, and on first and third divisions by Patrolmen Powers and Sullivan.

Route No. 5 is bounded on one side by Harvard street from Harvard avenue to town line; by Washington street on the south, from Cypress street to town line; on the west by Brighton district,—including all the territory lying between Harvard and Washington streets. Patrolled by Patrolman Manley on second division, and by Patrolmen Phillips and Rutherford on first and third divisions.

Route No. 6 includes Cypress street, from Boylston street to Chestnut street, all of Chestnut street, Sewall street and place, Roberts street and place, and streets and places in that vicinity; Walnut street from Cypress street to Boylston street, Boylston street from Cypress street to Fisher avenue, Fisher avenue, Sumner road, Clinton road, Buckminster road, and all roads and streets on White's Hill, so called, and Clark road, and is officered on second division by Patrolman O'Day, and on first and third divisions by Patrolmen Watterson and Johnson.

Route No. 7 includes Tappan street from Sumner road, Gardner road and path, Rawson road, Winthrop road, University road, Beacon street from Washington street to town line, south side of Washington street from Gardner path to town line, all streets and roads on Aspinwall Hill, and all streets and roads on the Corey Farm, so called, and is officered on second division by Patrolman Curry, and on first and third divisions by Patrolmen Merritt and Carmody.

Route No. 8 includes all that part of the town south of routes 6 and 7, and is policed by Patrolman Gleason (mounted) in the day time and by Patrolmen Holleran and Piper on the two night divisions. The out-lying streets are also policed by Patrolman Stitt (mounted) the first half of the night.

Each division is superintended by a sergeant. The second division is in charge of Sergeant Bartlett and the first and third divisions are in charge of Sergeants Corey and O'Connell.

Having a sergeant on active duty on the streets in charge of each division has very much increased the value and efficiency of the service. Lieutenants Dearborn and McCausland are in charge of the station on the first and third divisions alternately, at night.

Arrests for the Year 1894-5.

Arrests for the year	538

Lodgers.

Number of persons applying for lodgings at this station in the past year	4,014
Males	4,003
Females	11

Nationality of persons lodged :—

United States	1,804	Norway	7
Ireland	1,602	Denmark	5
England	304	Australia	4
Canada and Provinces	158	France	3
Scotland	99	Switzerland	1
Germany	27		

Occupation of persons applying for lodgings :—

Laborers	2,667	Machinists	106
Building trades	322	Printers	15
Mill operatives	228	Domestic servants	11
Shoemakers	202	Various other employments	302
Iron-workers	161		

Miscellaneous Work.

A large amount of miscellaneous work has been recorded the past year. Among the more important is the following :—

Ambulance calls--injured persons taken to hospitals or to their homes	77
Accidents reported and assistance rendered	83
Buildings found open and secured or owners or occupants notified	144
Complaints investigated	467
Disturbances suppressed by officers without arrests	73
Defects in streets and sidewalks reported	328

Gas leaks in street pipes reported	19
Water running to waste, and leaks in street pipes	21
Fires extinguished without an alarm in fields and woods	19
Stray animals running at large and cared for	71
Persons brought to station, reprimanded and released, (mostly juveniles)	93
Runaway horses and teams caught by mounted officers	30
Sick and disabled persons assisted	67
Lost children found and cared for	32
Nuisances reported	45
Dead animals reported to Superintendent of Streets and buried, (mostly dogs)	134
Dangerous places on streets and sidewalks discovered, and lanterns furnished at night	232
Street lights reported out Gas 1570, gasoline 320, electric	1260
Street lanterns reported broken	47
Residences reported temporarily vacant, and special police protection requested	226
Officers off duty reporting on alarms for fire	276
Officers detailed by request of citizens	172
Officers detailed for public occasions	52
Telegraph and telephone wires reported down	20
Disabled animals ordered from work	12
Dogs killed	68
Amount of property taken from arrested persons and returned to them and receipted for	\$4,219.32
Value of property reported stolen	7,273.00
Value of stolen property recovered	6,540.00
Value of property stolen out of town and recovered in Brookline	325.00
Amount of fines imposed in Police Court	1,309.00
Amount of fines paid to Town Treasurer. (See Treas. Report.)	
Total amount of imprisonment by sentence and in default of fines and costs, forty-nine years ten months.	

Violation of the Liquor Law.

I think there has been less illegal liquor traffic in the town than in former years. The several licensed Boston liquor stores on our border continue to furnish our residents with all kinds of intoxicating liquors, wholesale and retail, ad libitum, as in former years. Thirty-five search warrants have been served on as many suspected illegal dealers in intoxicants, and two hundred and thirty-five (235) gallons of intoxicating liquors have been seized, condemned and disposed of by order of court. Fines amounting to \$250, and four months imprisonment, have been imposed in our

court for violation of the liquor laws. One keeper of a so-called kitchen bar-room, and five wagon (or "express") dealers have given up the business, as without honor or profit in this jurisdiction.

Our Electric (Gamewell) Police Signal system has given better service the past year than ever before. This service, under Superintendent Davis' manipulation, has been about perfect the past year. With this system, the officer in charge at the station is enabled to see with a single eye events reported from different sections of the town,—perhaps only suspicions,—but when the different reports are brought together and compared, they indicate facts and conditions which require increased and united watchfulness. The arrest of a noted criminal, against whom seven indictments were found for breaking and entering dwelling houses, would probably not have been consummated as it was, without the aid of the signal-box and signal system.

Additional Patrol Boxes.

I recommend two additional patrol boxes the present year, one to be placed near the West End Railway car-house, Sewall and Chestnut streets, and one on or near Naples road, off Babcock street.

New Police Route.

That there should be a new police route established is, I think, a foregone conclusion. A section of the town bounded by St. Paul street on the north, by Commonwealth avenue (Boston) on the west, by Winchester street on the south and Beacon street on the east, with its rapid increase of population, the many new streets and dwellings, the two broad and much-travelled boulevards, with their lines of electric railroads, all combine to emphasize the necessity of more extended police service. This action would tend to considerably shorten two or three police routes now quite too large. It would require three additional patrolmen and an increased police appropriation.

The Mounted Service.

This continues to be, as in the past years, a very important branch of the police system. The service of a mounted

officer has been required on the Riverdale Parkway when the driving has been at its best, especially on Sunday afternoons. The pleasure driving has at times exceeded that on the Beacon boulevard. The southerly part of the town has also been policed principally by mounted officers.

Decrease in Drunkenness.

It is gratifying to note the great decrease in the number of cases of drunkenness before our Police Court—one hundred and thirty-six less than in 1894. This is explainable in part by the fact that there have been no large jobs of public work going on in the town, but I believe is due more to the improved law regarding drunkenness.

With the exception of seven or eight vacant houses burglarized last August, no serious offenses have been committed in the town during the past year. In these cases the offenders were arrested and are now serving time in the State Prison, while nearly all the stolen property was recovered.

From our peculiar situation, nearly surrounded by a large city, and with the many lines of street railway, we are exposed to many trespasses and many annoyances of a minor nature, requiring constant vigilance. I realize with much satisfaction that a new and much needed police station is an event of the near future.

The special police work has been done, as in former years, by the Inspector of Police, who has in many cases developed police detective qualifications of no mean order.

Patrolman Watterson is entitled to especial mention in this report for the prompt and fearless arrest of a notorious burglar in the night time, in a dwelling-house. Commendatory action was taken by the board of Selectmen, recognizing the officer's valuable service. Similar action was taken by the board in the matter of the brave action of Patrolman McMurray in rescuing a boy from drowning in Leverett Pond in December last. Patrolman McMurray was further hon-

ored by receiving the medal of the Humane Society, and in a more substantial manner by gentlemen who witnessed the rescue, and others.

There has been more illness among the men of the force than in any previous year. The conduct and discipline of the men of this force have been uniformly good. They have manifested a disposition to conform to the rules and regulations of the department, and have cheerfully and faithfully performed the many duties of their office.

My thanks are due to Dr. H. L. Chase for valuable suggestions and advice regarding the many cases of illness of the members of the force, as well as in other directions. I desire also to acknowledge many courtesies from the engineers of the fire department, and to thank the board of Selectmen and committee on police for their strong support and a well-equipped department.

Respectfully submitted,

ALONZO BOWMAN,

Chief of Police.

REPORT OF THE FIRE ENGINEERS.

BROOKLINE, Feb. 6, 1895.

To the Board of Selectmen:—

GENTLEMEN,—In compliance with the town by-laws the Board of Engineers herewith respectfully submit their annual report of the condition and operation of the department during the year ending January 31st, 1895. You will find annexed a statement of fires and alarms which have occurred during the past year, with the amount of loss and insurance, as near as could be ascertained.

Fire Record.

During the past year the department has answered eighty-two alarms; thirty-nine were bell alarms and forty-three were telephone or still alarms. The causes of these alarms were as follows:

Overheated furnace	2	Fire crackers	1
Rekindling of fires	1	Sparks from bonfires	1
Lamp explosion	4	Rats and matches	1
Grass fires	6	Careless use of naphtha and	
Dump fires	9	matches	2
Overheated boiler	2	Hot ashes in wooden barrel . .	1
Sparks from locomotive . . .	6	False box	4
Grass and fence fires	6	Escaping steam	1
Burning fat on stove	1	Defective fire-place	1
Chimney fires	7	Burning lime	2
Spontaneous combustion . . .	6	Unknown	1
Set by sparks from pipe . . .	3	No school	3
Fire in woods	3	Assistance to Boston	2
Electric car works	2	Gas setting fire to curtain . .	1
Boys and matches	3		

The loss, insurance and insurance paid, as nearly as could be ascertained, were:

Valuation of buildings and contents	\$306,250
Loss on buildings and contents	63,731
Insurance on buildings and contents	254,700
Insurance paid	59,886

Membership.

This department embraces a membership of sixty-six persons, as follows : One chief, two district chiefs, one engineer of steam fire engine, forty hosemen, thirteen laddermen and nine drivers of apparatus. They are divided as follows : Three hose companies, one hook and ladder company, one chemical company, and one combination chemical and hose company.

The discipline and morale of the members the past year has been good, and we wish at this time to respectfully call your attention again to the necessity of strengthening the force by the addition of more permanent men.

Apparatus.

The apparatus in active service is as follows : One hook and ladder truck, four hose wagons, one combination hose and chemical wagon, one steam fire engine, one chemical engine, and four hose pungs for winter use, all being in good condition, except the wheels of the steamer.

The fire department operations are unlike other business ; in times of general business depression the mercantile world studies economy, but it is just at this time that the fire department is most needed and is most frequently called into service. There is but one way to insure a successful fire department, and that is by keeping pace with the growth of the town. It is not enough that old worn-out apparatus be replaced by new and modern-constructed machines ; this is not increasing a fire department, it is only keeping in order the apparatus which is in commission without increasing the number. We would at this time recommend that for the better protection of property on both sides of Beacon street, between Washington street and Chestnut Hill avenue, a house be built, large enough for a chemical engine and a ladder truck, (which we will mention further on), as there is some very valuable property in that part of the town ; and also, for the better protection of the property in general, that another steamer of larger capacity be purchased and located in house on Devotion street, as then we should not

have to rely on one steamer, and an old one at that. We also recommend that a modern hook and ladder truck be purchased,—one whose extension ladders can be raised and operated in the quickest possible time,—and placed in the proposed new house on Beacon street. We recommend this truck because of the large number of high buildings that have been erected in the town. More will be added each year, and as our present truck's longest ladder is only sixty-five feet, it is clear that should a fire occur in any of these high buildings in the town a loss of life and property might be very great without the proper ladder service.

Hose.

This important branch of the service receives our constant and careful attention. There is on hand 10,000 feet of cotton hose in good condition, 2,000 feet having been added the past year.

Horses.

We have in this department the same number of horses as last year—fourteen,—which, owing to the good care that they receive, are all in good condition, except the one used to draw hose two, which is not considered reliable, as he stumbles badly; also the pair used on hose four, which are not adapted to the service, and should be replaced by a pair better suited to the quick work required of fire horses.

Houses.

We have to report that the houses in this department are in fair condition. We would again call your attention to the floor of the house occupied by the steam fire engine and hose three, which is in bad shape and should be replaced by a new one. Some painting will be required in some of the houses the coming year. Our wish is to have the houses so that they will bear inspection at all times.

Harnesses.

There is in use in this department at the present time six sets of double and three single harnesses, two sets of lead

harnesses, and one set of old harness used on watering-cart. We do not consider the use of a lead-horse the best means to provide for extra draft power, as it makes a clumsy and unsafe team to drive. To better improve the service we have put in use this winter what is known as a three-horse hitch for the ladder truck. In this way three horses can be harnessed abreast, giving more power and being under control of the driver. This would be used only in the winter months, and at no expense except for the first cost.

Hydrant Service.

During the past year 34 new hydrants have been added, making a total of 383 hydrants which can be used for fire purposes, and under the supervision of Superintendent F. F. Forbes, they are always in condition for immediate use.

Fire Alarm Telegraph.

During the past year three new boxes have been added to this system, making a total of twenty-seven boxes, which, under the watchful care of Superintendent E. N. Davis, have given perfect satisfaction. Two new boxes will be required the coming year, and for the location of same and other information in regard to this important arm of the service, we would respectfully refer you to the report of the Superintendent.

We had some trouble and annoyance the first part of the year by having to answer several false alarms of fire caused by some malicious person pulling the box and then getting out of sight before we arrived, but through good work done by Chief Bowman and Inspector Paige, we think the trouble has been stopped.

Recommendations.

We would again recommend steam heat for houses now heated by stoves; also, that the horses be not required to water streets,—especially truck horses. We would again recommend that three more permanent men be appointed to hose three, and the call men reduced to three. As there are no call men to be got in the Longwood district, and as the call men for the chemical are appointed from other parts of

the town, we would recommend that one more permanent man be added to that company.

We would also recommend that the matter of better alarm service be looked into, as it is impossible for our call members,—of which our force is chiefly composed,—to hear the alarm of fire at all times, or as quickly as they should, for it is in the first minutes that the most good is done.

Appropriations.

The Engineers would recommend the following amounts for the coming year :

Current expenses of Fire Department	\$25,500
Four permanent men	2,700

Conclusion.

To the board of Selectmen for interest taken in this department, to the committee on Fire Department for their hearty support, to the Police Department for the able manner in which they have aided us at fires, and to the officers and members of the Fire Department for their promptness and hearty coöperation, the Board of Engineers return their grateful acknowledgments.

GEORGE H. JOHNSON,
F. F. MULDOWNEY,
B. W. NEAL, JR.,

Board of Engineers.

RECORD OF FIRES AND ALARMS FOR THE YEAR ENDING JANUARY 31, 1895.

1894.

- Feb. 2. Telephone, 10.30 P. M. Frame house, Winthrop road, owned by John A. Curtin. Cause, smoke from chimney. No damage.
- Feb. 13. Box 22, 7.45 A. M. Signal for "no school."
- Feb. 15. Box 22, 7.40 A. M. Signal for "no school."
- Feb. 17. Box 4, 11.44 A. M. Frame dwelling, cor. Washington street and Brookline avenue, owned by heirs of Philip Duffy and occupied by tenants. Cause, spontaneous combustion—burning rags in closet. Value of building, \$1,600; insurance, \$1,200. No damage.
- Feb. 17. Box 12, 8.50 P. M. False alarm. Cause, some malicious person breaking glass in box and pulling alarm.

- Feb. 17. Box 12, 10.20 P. M. False alarm. Cause, some malicious person breaking glass in box and pulling alarm.
- Feb. 19. Box 31, 1.40 P. M. Lumber and barrels on Aspinwall avenue in front of unfinished house of Dr. Cutts. Cause, lime in barrels coming in contact with water. Damage, slight.
- Feb. 24. Box 18, 7 P. M. Frame dwelling on Warren street, owned and occupied by Louis Cabot. House totally destroyed. Cause, overheated furnace. A second alarm at 7.15 P. M. Assistance from Boston called at 8.13 P. M. Value of building, \$23,000; damage on building, \$23,000; insurance on building, \$23,000; insurance paid, \$23,000. Value of contents, \$62,000; damage on contents, \$30,000; insurance on contents, \$62,000; insurance paid, \$30,000.
- Feb. 25. Telephone, 4.10 A. M. Rekindling of the ruins of Louis Cabot's house. Extinguished by Hose 3.
- Feb. 28. Box 35, 5.30 P. M. Frame dwelling (The Hawthorne), Harvard street, owned by J. C. Ayer's heirs, Lowell, Mass., and occupied as a lodging-house by G. Viola. Cause, overheated furnace, setting fire to floor timbers. Value of building, \$6,000; damage, \$100; insurance on building, \$6,000; insurance paid, \$100. Value of contents, \$200; damage of contents, none.
- March 1. Box 5, 5.40 A. M. Frame dwelling, Walter avenue, owned by Michael Mahan and occupied by Mrs. John Mangan. Cause, kerosene lamp explosion, setting fire to table, window frame, curtains, etc. Value of building, \$2,800; damage, \$10; insurance on building, \$2,000; no insurance paid. Value of contents, \$800; damage, \$25; no insurance.
- March 6. Still, 2.45 P. M. Grass-land rear of Pond avenue, owned by Brookline Land Company. Extinguished by Hose 1. No damage.
- March 17. Telephone, 7.30 P. M. Burning of Richard Grogan's stable, St. Mary's street, near Commonwealth avenue, Boston. Rendered assistance to Boston. Responded to by Hose 1, Chemical 1 and Combination 1.
- March 19. Telephone, 8.55 P. M. Dump fire on St. Paul street, near Francis. Extinguished by Hose 2. No damage.
- March 21. Automatic, 5.30 P. M. Holtzer-Cabot Electrical Factory, Station street. Cause, overheated boiler-room. Answered by Hose 1. No damage.
- March 21. Box 37, 10.27 P. M. Frame dwelling, Aspinwall avenue, owned by Hugh O'Brien and occupied by Thomas C. O'Brien. Cause, lamp exposition, igniting furniture, carpets, wood-work, etc. Value of building, \$7,000; damage, \$150; insurance on building, \$7,000; insurance paid, \$150; value of contents, \$1,500; damage to contents, \$100; insurance on contents, \$1,000; insurance paid, \$100.
- March 27. Still, 2.30 P. M. Brush fire, rear of Hawthorne House, Harvard street. Cause, spark from stationary engine. Extinguished by Combination 1. No damage.
- March 27. Telephone, 2.30 P. M. Grass and fence fire at Country Club estate, Clyde street. Answered by Hose 3. Damage, slight.

- March 31. Telephone, 7 P. M. Brush and grass fire on Dean road. Cause, sparks from locomotive. Extinguished by Hose 4. No damage.
- April 2. Telephone, 3.30 P. M. Fire in pile of sleepers, Dean road, near B. & A. R. R., also burning over 4 acres of grass land. Cause, sparks from locomotive. Extinguished by Hose 4. Damage, slight.
- April 2. Box 15, 3.40 P. M. Grass fire on Clark road. Cause, sparks from locomotive. Damage, slight.
- April 4. Box 5, 8.43 A. M. Frame dwelling, White place, owned by Jeremiah F. Hayes and occupied by Ellen Shannon. Cause, burning fat on stove. Value of building, \$3,000; value of contents, \$200; insurance on building, \$1,800. No damage.
- April 6. Still, 11 P. M. Rubbish and grass-land, rear of Mrs. W. R. Lawrence's stable, Carlton street. Extinguished by Chemical 1. No damage.
- April 8. Box 14, 8.43 P. M. Burning soot in chimney on house of Rev. W. O. White, corner of High and Chestnut streets. No damage.
- April 20. Box 15, 4.53 P. M. Frame dwelling on Cypress street, owned by W. C. Bowker and occupied by H. J. Lord. Cause, curtain coming in contact with gas jet. Value of building, \$5,000; damage to building, \$50; insurance on building, \$5,000; insurance paid, \$50. Value of contents, \$700; damage to contents, \$50; insurance on contents, \$500; insurance paid, \$50.
- April 29. Telephone, 3 P. M. Brush fire on land between Hammond and Heath street. Cause, unknown. Extinguished by Hose 3. No damage.
- May 1. Box 24, 9.52 A. M. Frame dwelling on Chestnut Hill avenue, owned by West End Railway Company and occupied by Jeremiah O'Leary. Cause, spontaneous combustion in closet and cellar. Value of building, \$2,000; damage to building, \$500; insurance on building, \$2,000; insurance paid, \$500. Value of contents, \$300; damage to contents, \$100; no insurance on contents.
- May 2. Box 31, 8.05 A. M. Frame stable on St. Paul street, owned by Eliza B. Worthley. Cause, sparks from pipe. Value of building, \$1,500; damage to building, \$25; insurance on building, \$1,000; insurance paid, \$20. Value of contents, \$700; no damage to contents.
- May 2. Automatic, 7.30 P. M. Holtzer-Cabot Electrical Factory. Cause, overheated boiler-room. No damage. Answered by Hose 1.
- May 3. Box 9, 11.03 A. M. Shed, rear of Cameron street, owned by Nellie B. Munroe. Cause, sparks from locomotive. Damage, slight.
- May 8. Still, 8.45 P. M. Pile of railroad ties, off Kent street. Cause, sparks from locomotive. Extinguished by Hose 1. No damage.
- May 10. Still, 5.15 P. M. Fire in Wright's woods. Answered by Hose 3. No damage.
- May 12. Box 25, 9.45 A. M. Stone and brick block on Tappan street, owned by C. A. Haserick and occupied by same. Cause, spontaneous combustion. Value of building, \$16,000; damage to building, \$142; insurance on building, \$16,000; insurance paid, \$142. Value of contents, \$4,000; damage, \$25; insurance, \$4,000; insurance paid, \$25.

- May 12. Telephone, 12.55 P. M. Electric car at Coolidge's Corner. Cause, burning out fuse. Answered by Combination 1. Damage, slight.
- May 12. Box 5, 3.30 P. M. Frame dwelling on Juniper street, owned by Edward Murnan and occupied by several families. Cause, boys setting fire to rubbish in cellar. Damage, slight.
- May 13. Telephone, 3.30 P. M. Grass fire on Dean road. Cause, sparks from locomotive. Extinguished by Hose 2 and 3. No damage.
- May 15. Telephone, 12.30 P. M. Fire in woods, rear of Mrs. J. S. Warren's, Heath street. Extinguished by Hose 3. Damage, slight.
- May 15. Still, 1.30 P. M. Fire in woods off Newton street. Extinguished by Hose 3. Damage, slight.
- May 15. Box 5, 6.30 P. M. Call for help from Boston for fire in Roxbury district. Hose 1 and Engine 1 were sent. Were in service $2\frac{3}{4}$ hours, on Cabot street.
- May 15. Box 14, 9.15 A. M. Frame dwelling on Sewall place, owned by Mary F. Gallagher. Cause, lamp explosion. Value of building, \$1,500; insurance, \$1,000. Value of contents, \$500. No damage.
- June 30. Still, 7.55 P. M. Dump and peat fire off High street, on land owned by the West End Street Railway. Extinguished by Hose 4. No damage.
- July 4. Still, 10.30 A. M. Burning soot in chimney of frame dwelling, owned by Mrs. Jacob Dashuck. No damage.
- July 4. Box 6, 11.30 A. M. Awning and framework of show-window on brick block, owned by heirs of John Panter and occupied by Felix R. King. Cause, fire crackers. Value of building, \$25,000; damage, \$85; insurance, \$18,000; insurance paid, \$85. Value of contents, \$2,300; damage, \$27; insurance, \$1,500; insurance paid, \$27.
- July 11. Box 39, 10.53 A. M. Frame barn on Washington street, owned by Thomas B. Griggs, also slight fires on roofs of farm-house and private dwelling. Cause, sparks from bonfire. Stable and contents totally destroyed, including forty tons of loose hay. Value of building and contents, \$2,500; damage, \$2,500. Insurance on building, \$550; insurance paid, \$550. Second alarm at 10.59 A. M.; third, 11.03.
- July 11. Telephone, 11.30 A. M. Stone and brick block on Tappan street, No. 5 Marguerite terrace, owned by Edward C. Briggs, burning vestibule and outside screen doors; supposed to be incendiary. Value of building, \$17,000; damage, \$100; insurance, \$17,000; insurance paid, \$100.
- July 13. Telephone, 11.20 A. M. Dump fire, rear of Grogan's stable, off St. Mary's street. Extinguished by Chemical 1.
- July 16. Still, 9.42 A. M. Planking near Brookline railroad station. Cause, sparks from locomotive. No damage.
- Aug. 11. Still, 10.30 A. M. Chimney fire at house owned and occupied by Arthur Smith, Boylston street. Answered by Hose 3. No damage.

- Aug. 16. Box 42, 7 P. M. Brick block (unfinished) on Monmouth street, owned by James L. Karrick. Partial loss in two houses. Cause, sparks from pipe. Value of building (two houses), \$30,000; damage, \$4,700; insurance, \$14,000; insurance paid, \$4,700. Second alarm at 7.05.
- Aug. 27. Still, 9.50 P. M. Frame dwelling, cor. Pearl and Washington street, owned by Marguerite Prendergast. Cause, smoking lamp. Answered by Hose 1. No damage.
- Sept. 4. Box 6, 9.55 A. M. Frame dwelling on Washington street, owned by Dr. Trull and occupied by David Nadel. Cause, careless use of naphtha and matches. Value of building, \$2,500; damage, \$10; insurance, \$2,500; insurance paid, none. Value of contents, \$2,000; insurance, \$1,000.
- Sept. 11. Box 4, 7.53 P. M. Brush fire, Villa lane. No damage.
- Sept. 24. Still, 4.45 P. M. Brush fire on land on Chestnut street, owned by T. J. Kelley and M. J. O'Hearn. Extinguished by Hose 4. No damage.
- Sept. 25. Still, 7.30 P. M. Brush fire rear of J. H. White's stable, Buckminster road. Extinguished by Hose 2. Damage, slight.
- Sept. 26. Still, 6.15 P. M. Brush fire off Goddard avenue. Answered by Hose 3 and 4. No damage.
- Sept. 27. Still, 8.30 P. M. Dump fire near new house, Brook street. Extinguished by Hose 2. No damage.
- Oct. 2. Still, 6.30 P. M. Dump fire, corner Dwight and Pleasant streets. Extinguished by Combination 1. No damage.
- Oct. 3. Still, 6.05 P. M. Dump fire, Longwood avenue. Extinguished by Chemical 1. No damage.
- Oct. 10. Box 22, 8.20 A. M. Signal for no school.
- Oct. 18. Telephone, 8 A. M. Frame dwelling on Buckminster road, owned by Wm. Bacon. Cause, hot ashes in wooden barrel setting fire to floor timbers. Value of building, \$12,000; insurance, \$8,000; damage, \$10. Value of contents, \$1,500; insurance, \$1,000; insurance paid, none.
- Oct. 24. Box 17, 3 P. M. False alarm. Cause, some malicious person breaking glass in box and pulling alarm.
- Nov. 2. Box 21, 3.30 A. M. Frame shed rear of house, owned by Edward Atkinson. Cause, spontaneous combustion. Value of building, \$50. Damage, \$10.
- Nov. 10. Box 12, 9.45 P. M. False alarm. Cause, some malicious person breaking glass in box and pulling alarm.*
- Nov. 21. Box 4, 7.47 P. M. Frame dwelling on Brookline avenue, owned by James J. Lynch. Cause, careless lighting of pipe. Lower portion used as a grocery and provision store; badly gutted. Value of building, \$2,400; damage, \$390; insurance, \$2,400; insurance paid, \$390. Insurance on fixtures, \$200; insurance paid, \$175. Value of stock, \$800; damage, \$800; no insurance. Value of furniture, \$300; damage, \$75; insurance, \$300; insurance paid, \$75.
- Nov. 24. Still, 12.15 P. M. Grass fire on Freeman street. Extinguished by Combination 1. No damage.

- Nov. 25. Still, 11 A. M. Electric car on Washington street. Cause, burning out of fuse. Extinguished by Hose 1. No damage.
- Nov. 29. Telephone, 4.55 P. M. Dump fire on Buckminster road. Extinguished by Hose 4. No damage.
- Dec. 14. Box 7, 7.10 A. M. Chimney fire in frame dwelling, Washington street, owned by heirs of Elizabeth Chandler and occupied by Mrs. Susan Lyman. Cause, burning soot. Damage, slight.
- Dec. 19. Box 42, 6.28 A. M. Brick block on Beacon street, owned by Sarah C. Woods and occupied by S. A. Woods. Cause, lighting fire with naphtha, burning wood-work, etc., in kitchen. Value of building, \$15,000; damage, \$147; insurance, \$8,000; insurance paid, \$147. Value of contents, \$5,000; no damage.
- Dec. 21. Box 29, 1.40 A. M. Frame dwelling on Gardner road, owned and occupied by Prentiss Cummings. Cause, oil rags in cellar setting fire to lumber, gas meter, etc. Value of building, \$17,000; damage, \$30; insurance, \$17,000; insurance paid, \$30. Value of contents, \$8,000; no damage; insurance, \$8,000; no insurance paid.
- Dec. 26. Box 4, 5.05 P. M. Chimney fire in wooden block on Brookline avenue, owned by James Lynch. Cause, burning soot. No damage.
- Dec. 28. Telephone, 10 A. M. Chimney fire in frame dwelling on Wellington terrace, owned by Mrs. D. H. Rice and occupied by F. C. Hood. Cause, burning soot. Extinguished by Hose 4. No damage.
- Dec. 29. Box 13, 8.05 A. M. Stone building on Pond avenue, used for Free Hospital for Women. Cause, escaping steam. No damage.
- Dec. 30. Still, 5.05 P. M. Shed rear of Morlock's Hotel. Cause, boys and matches. Extinguished by Hose 1. Damage, slight.
- Dec. 31. Box 14, 9.15 A. M. Frame dwelling on Wellington terrace, owned by Mrs. D. H. Rice and occupied by Mrs. C. F. Smyser. Cause, defective fire-place, setting fire to floor timbers. Value of building, \$7,000; damage, \$33; insurance, \$7,000; insurance paid, \$33.
- 1895.
- Jan. 7. Box 15, 1.57 P. M. Frame dwelling on Cypress street, owned by W. I. Taylor and occupied by F. H. Osgood. Cause, boy and matches, lighting curtain and burning contents of room. Value of building, \$7,000; damage, \$50; insurance, \$7,000; insurance paid, \$50. Insurance on contents, \$2,000; damage, \$100; value of contents, \$2,000; insurance paid, \$100.
- Jan. 9. Telephone, 5.55 P. M. Dump fire off Longwood avenue. Extinguished by Hose 2. No damage.
- Jan. 10. Telephone, 11.15 A. M. Dump fire off Longwood avenue. Extinguished by Hose 4. No damage.
- Jan. 14. Telephone, 6.45 P. M. Frame building in process of construction on Fisher avenue, owned by Mr. Perrin. Cause, slaking lime in barrels in cellar. Value of building, \$3,000; insurance, \$3,000; damage, \$15.
- Jan. 22. Telephone, 9.23 A. M. Brick block on Beacon street, owned by George F. Bingham. Cause, smoke from wood fire in basement. Answered by Chemical 1 and Hose 4.
- Jan. 25. Box 6, 10.45 P. M. Brick building, Station street, owned by C. W. Holtzer and occupied by J. H. Boody as a paintshop. Cause, oil rags. Value of building, \$3,000; damage, \$75; insurance, \$3,000; insurance paid, \$75. Value of contents, \$2,300; damage, \$172; insurance, \$1,900; insurance paid, \$127.
- Jan. 26. Still, 7.30 P. M. Frame dwelling, Ivy street, owned by Frederic Cunningham and occupied by Charles P. Coffin. Cause, lamp explosion partially burning contents of room. Answered by Chemical 1. Damage, slight.

REPORT OF THE SUPERINTENDENT OF FIRE ALARM AND POLICE TELEGRAPH.

BROOKLINE, January 31, 1895.

To the Honorable Board of Selectmen:

GENTLEMEN,—I have the honor to submit the sixth annual report on the Fire Alarm and Police Telegraph.

Fire Alarm System.

The number of boxes connected and working in the fire alarm circuits, is thirty-six, three having been added during the past year. The locations are given on cards printed by the board of Engineers. The work of wiring for the new boxes was begun in May, and some of the boxes were changed in order to keep the numbers together. Box 39 was changed from Carlton street to the junction of Washington street and Gardner road. Box 27 was removed from Washington street and Gardner road to Winthrop road, opposite Addington road. A new box, No. 42, was placed on the Chemical Engine house.

Wires were extended from Carlton street to the corner of Essex and Mountfort streets, to connect box 45. The desired location was at the corner of Prescott and Mountfort streets, but as objections were made to poles being set on Mountfort street, it was decided to place the box in its present location.

The residents of Norfolk road and vicinity petitioned for a box, the nearest one being at the corner of Boylston and Hammond streets. Your committee approved the location and No. 212 was placed on Norfolk road near Circuit road.

Complaints are still made by call men, and by school children and their parents, that they are not able to hear the alarms, especially on stormy days. I would therefore again recommend that a large bell be placed on the Town Hall. I would also recommend that the striking machine in Hose 2

be moved to Hose 3, the latter being too light for the weight of the bell. The machine in the latter house can be exchanged in part payment for one to be placed in the Town Hall. A bell of the required size (4,000 pounds) can be bought for about \$700.

The work of changing wires from old poles to new occupied considerable time during the summer; and the widening of Harvard and Washington streets required new poles and new locations.

The Engineers in their report recommend that two new boxes be added this year.

I have received for old zinc and copper \$92.50, and for some No. 12 iron wire, which was removed at the time the copper line-wire was changed, \$13.32.

Police Telegraph.

Very little has been added to the police system this year. Two new boxes were added—one placed on the corner of Harvard and Harris street, and the other on Beacon street, at Kent street. A new register was added to the table equipment.

The changing of the wires from old poles to new was made at the time those of the fire alarm were changed, and a great many of the boxes have had a half-inch iron pipe run from the box to the top of the pole, in which the wire is run to connect with the line-wire, instead of having the line-wire come down the pole.

The Chief of Police recommends the addition of two new boxes.

The total estimate for additions suggested in this report, together with salary and maintenance, is \$6,000.

Respectfully submitted,

E. N. DAVIS.

REPORT OF THE INSPECTOR OF BUILDINGS.

OFFICE OF THE INSPECTOR OF BUILDINGS,
TOWN HALL, BROOKLINE, MASS., January 31st, 1895.

To the Selectmen:—

Gentlemen,—The Inspector of Buildings has the honor to submit his sixth annual report, comprising the work performed from February 1st, 1894, to January 31st, 1895.

The whole number of permits granted was 471. Of that number—

30 were for brick and stone buildings, costing	\$922,000 00
131 were for wood and frame buildings, costing	1,009,500 00
33 were for additions and repairs, costing	59,725 00
277 were for plumbing, costing	104,007 00
	\$2,095,232 00

Number of visits of inspection, 674.

These figures show an increase of \$703,532 over the report of last year.

The average cost of brick and stone buildings was	\$30,733 33
The average cost of wood and frame buildings was	7,706 12
The average cost of additions and repairs was	1,809 84
The average cost of plumbing was	375 47

The Inspector has received for licenses, as authorized by Chapter 455 of the Acts of 1894, as follows:—

From nine master plumbers, at \$2.00 each	\$18 00
From 21 journeyman plumbers, at \$0.50 each	10 50
	\$28 50
Paid C. A. W. Spencer for registers and printing	\$22 50
Paid for record book	25
	22 75
Balance paid Treasurer	\$5 75

For further information in regard to plumbing, see report of Inspector of Plumbing, which is appended.

Respectfully submitted,

W. K. MELCHER,

Inspector of Buildings.

REPORT OF THE INSPECTOR OF PLUMBING.

BROOKLINE, January 31, 1895.

Mr. Wm. K. Melcher, Inspector of Buildings:—

DEAR SIR,—I herewith submit my annual report as inspector of plumbing, for the year ending January 31, 1895.

The whole number of permits granted to do plumbing was 277. Of this number—

Thirty-two were for brick and stone buildings, costing . . .	\$31,690 00
Average cost, \$990.31.	
One hundred and seven were for wood and frame buildings, costing	55,660 00
Average cost, \$520.18.	
Ninety-four were for additions and repairs, costing	14,150 00
Average cost, \$150.53.	
Forty-four were for improved drainage, costing	2,507 00
Average cost, \$57.00.	
Total cost	\$104,007 00
Number of visits of inspection, 978.	
Number of water tests made, 208.	

As may be seen from the above summary, some 139 new buildings containing plumbing have been erected in the town during the year just closing. All of these have been water-tested and all defective pipes and fittings detected were removed. In some cases seven or eight visits of inspection have been made to jobs before the work was finished.

Inspection of the additions and repairs to plumbing in the older buildings has not been neglected, but has received a due share of attention.

Much time and labor have been directed towards improving the drainage and plumbing ventilation. This has not been without results and a marked improvement is manifest.

In conformity with the statute, no plumbing has been done in the town since the 6th of September, 1894, by other than registered and licensed plumbers.

Some violations of the requirements of the plumbing ordinances have occurred, but these have been settled without the enforcement of severe measures.

For further details see report of Board of Examiners of Plumbers, which is appended.

I am pleased to report that substantial improvement and progress has been made, especially in the departments of sanitary plumbing, and it is to be hoped will continue until a fitting standard is reached.

For your unfailing kindness and hearty coöperation, I am deeply grateful.

Respectfully submitted,

M. DUFFLEY,
Inspector of Plumbing.

REPORT OF EXAMINERS OF PLUMBERS.

The membership of the board is the same as last year. Soon after our appointment we met and organized by the choice of Horace James as chairman and Michael Duffley as secretary. The board designated the first Thursday in each month at 7.30 P. M., in the Selectmen's room at the Town Hall, as the time and place for the examination of all applicants desiring to engage in or work at the business of plumbing within their respective jurisdictions.

The following is the list of plumbers who have been certified to the Inspector of Buildings, for a license, or if employed as plumbers prior to July 10th, 1893, for a certificate to that effect :

MASTER PLUMBERS.

Edwin F. Crosby . . . Brookline	Francis F. Muldowney . Brookline
John Keegan "	H. K. Paine, Paine Bros. . . "
John J. Keefe . . . Wellesley Hills	Frank E. Small, Murray & Small "
Kenrick Bros. Brookline	Frank T. Sullivan "
Thomas Mahon "	

JOURNEYMEN.

1. Thomas Burke . . . Brookline	12. Michael Keegan . . Brookline
2. Frank E. Bonney . . . "	13. Chas. A. Lunney . . . "
3. John H. Bannon, New Bedford	14. Wm. E. Maynard . . . "
4. John B. Curry . . . Brookline	15. John J. McDavitt . . . "
5. Wm. A. Courtney . . . "	16. Jas. McGrath "
6. Bernard J. Cunniffe . . Boston	17. John F. Norton "
7. Dennis J. Doherty . Brookline	18. James A. Pinner "
8. Martin Downey "	19. Augustus A. Roth "
9. Hugh P. Furfey "	20. Samuel G. Trainor "
10. Wm. J. Gorman "	21. Frank Wentworth "
11. Dennis T. Harrington "	

These licenses must be renewed yearly. The Act of 1893, Chapter 477, under which Boards of Examiners of Plumbers were created, was considerably changed by the enactment of Chapter 455 of the Acts of 1894. For the benefit of the public this act is printed herewith.

[CHAPTER 455.]

AN ACT RELATIVE TO THE LICENSING OF PLUMBERS AND THE SUPERVISION
OF THE BUSINESS OF PLUMBING.

Be it enacted, etc., as follows:

SECTION 1. No person, firm or corporation shall engage in or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber, unless such person, firm or corporation has received a license or certificate therefor in accordance with the provisions of this act. The words "practical plumber," as used in this act, shall be deemed to mean a person who has learned the business of plumbing, by working for at least two years either as an apprentice or under a verbal agreement for instruction, and who has then worked for at least one year as a first-class journeyman plumber. The word "journeyman," as used in this act, shall be deemed to mean one who personally does any work in plumbing which is subject to inspection, under chapter four hundred and nineteen of the acts of the year eighteen hundred and ninety-two, or under any ordinance, by-law, rule or regulation made under the authority of this act.

SECTION 2. Any person not engaged in or working at the business of plumbing prior to the tenth day of July in the year eighteen hundred and ninety-three, and desiring to engage in or work at said business, either as a master or employing plumber, or as a journeyman plumber, shall apply to the board of health having jurisdiction in the locality where he intends to engage in or work at said business, except in cities or towns where the inspector of buildings has control of the enforcement of the regulations regarding plumbing, where such application shall be made to the inspector of buildings, and shall, at such time and place as may be designated by the board of examiners hereinafter provided for, to whom such applications shall be referred, be examined as to his qualifications for such business. On or before the first day of September in the year eighteen hundred and ninety-four every master or employing plumber, and every journeyman plumber, engaged in or working at the business of plumbing in this Commonwealth prior to the tenth day of July in the year eighteen hundred and ninety-three, and desiring to engage in or work at said business in any city or town where licenses for plumbers are required, shall personally register his name and address at the office of the board of health or of the inspector of buildings to whom applications for licenses are to be made in such city or town, and state after being sworn where and how long he has been engaged in or worked at said business and whether as a master or employing plumber, or as a journeyman plumber. Said board of health or inspector of buildings, if satisfied that the person so registering was actually engaged in or working at said business prior to said date shall thereupon issue to him a certificate, setting forth that he was engaged in or working at the business of plumbing either as a master or employing plumber, or as a journeyman plumber, as the case may be, prior to the tenth day of July in the year eighteen hundred and ninety-three, and authorizing him to engage in or work at said business, either as a master or employing plumber, or as a journeyman plumber. The fee for a certificate for a master or employ-

ing plumber shall be two dollars; for a journeyman plumber it shall be fifty cents. Said certificates shall be valid and have force throughout the Commonwealth. In the case of a firm or corporation the examination and licensing of, or the registration of and granting a certificate to, any one member of the firm or the manager of the corporation shall satisfy the requirements of this act.

SECTION 3. There shall be in every city, and in each town of five thousand inhabitants or more, and in each town having a system of water supply or sewerage, a board of examiners of plumbers, consisting of the chairman or such other member of the board of health as said board may designate, and in cities or towns having an inspector of buildings, the inspector of buildings of said city or town, who shall be members ex-officio of said board and serve without compensation, and a third member, who shall be a practical plumber of at least five years' continued practical experience either as a master or as a journeyman during the years next preceding the date of appointment. Said third member shall be appointed by the board of health of said city or town within three months from the passage of this act, for the term of one year from the first day of May in the year of appointment, and thereafter annually before the first day of June, and shall be allowed a sum not exceeding five dollars for each day of actual service, to be paid from the treasury of said city or town: *provided*, that if in any city or town there is no inspector of buildings, said board of health shall also appoint the second member of said board of examiners, whose term of office and compensation shall be the same as is heretofore provided for said third member.

SECTION 4. Said board of examiners shall, as soon as may be after the appointment of said third member, meet and organize by the selection of a chairman, and shall then designate the times and places for the examination of all applicants desiring to engage in or work at the business of plumbing within their respective jurisdictions. Said board shall examine said applicants as to their practical knowledge of plumbing, house drainage and plumbing ventilation, and shall submit the applicant to some satisfactory form of practical test, and if satisfied of the competency of the applicant shall so certify to the board of health or inspector of buildings in their respective city or town. Said board or inspector shall thereupon issue a license to such applicant, authorizing him to engage in or work at the business of plumbing, either as a master or employing plumber, or as a journeyman plumber. The fee for a license for a master or employing plumber shall be two dollars; for a journeyman plumber it shall be fifty cents. Said licenses shall be valid and have force throughout the Commonwealth, and shall be renewed annually upon a payment of a fee of fifty cents. In case of removal beyond the jurisdiction of the board or inspector issuing the original license it may be renewed by any board having like authority.

SECTION 5. The board of health, or inspector of buildings where such inspector has control of the enforcement of the regulations regarding plumbing, of each city and town mentioned in section three of this act, shall, within three months from the passage of this act, appoint one or more inspectors of plumbing, who shall be practical plumbers of at least

five years' continued practical experience, either as masters or as journeymen, during the years next preceding the date of appointment, and who shall hold office until removed by said board or inspector for cause, which must be shown. All such inspectors shall before appointment be subjected to an examination before the civil service commission. The compensation of such inspectors shall be determined by the board or inspector appointing them, subject to the approval of the city council or selectmen, and shall be paid from the treasury of their respective cities or towns. Said inspectors shall inspect all plumbing work for which permits are hereafter granted within their respective jurisdiction, in process of construction, alteration or repair, and shall report to said board or inspector all violations of any law, ordinance, by-law, rule or regulation relating to plumbing work; and also perform such other appropriate duties as may be required. The approval of any plumbing by any other inspectors than those provided for under this act shall not be deemed a compliance with the provisions thereof.

SECTION 6. No inspector of plumbing in any city or town shall inspect or approve any plumbing work done by himself, or any person by whom he is employed, or who is employed by or with him, but in each city or town subject to the provisions of this act the board of health shall appoint an additional inspector of plumbing, in the same manner and subject to the same qualifications as the regular inspector of plumbing, whose duty it shall be to inspect, in the manner prescribed in this act, plumbing work done by the regular inspector or any person by whom he is employed, or who is employed by or with him. Said additional inspector shall have authority to act in case of the absence or inability of the regular inspector, and shall receive for his services such compensation as the regular inspector would for a like duty. The provisions of this section shall not apply to any city or town which has heretofore established or may hereafter establish an annual salary for the position of inspector of plumbing, and in any such city or town no inspector of plumbing shall engage in or work at the business of plumbing.

SECTION 7. Each city or town of five thousand inhabitants or more, and every town having a system of water supply or sewerage, shall by ordinance or by-law, within six months from the passage of this act, prescribe rules and regulations for the materials, construction, alteration and inspection of all pipes, tanks, faucets, valves and other fixtures by and through which waste water or sewage is used and carried; and provide that no such pipes, tanks, faucets, valves or other fixtures shall be placed in any building in such city or town except in accordance with plans which shall be approved by the board of health of such city or town, or the inspector of buildings, where such inspector has control of the enforcement of the regulations regarding plumbing; and shall further provide that no plumbing work shall be done, except in the case of repair of leaks, without a permit being first issued therefor, upon such terms and conditions as such cities or towns shall prescribe. But nothing in this section shall prevent boards of health from making such rules and regulations in regard to plumbing and house drainage hitherto authorized by law, which are not inconsistent with any ordinance or by-law made under the authority of this section by the respective cities

or towns within which such boards of health have jurisdiction. The provisions of this section shall not apply to the city of Boston or to any officer or board thereof.

SECTION 8. Any person violating any provision of this act, or any ordinance, by-law, rule or regulation made thereunder, shall be deemed guilty of a misdemeanor, and be subject to a fine not exceeding fifty dollars for each and every violation thereof, and if such person has received a license under this act his license may be revoked by the board or inspector issuing the same; and if such violation was committed in a city or town other than that where he received his license, the board of health or inspector of buildings having jurisdiction may forbid him to engage in or work at the business of plumbing for a period not exceeding one year in the city or town where the violation was committed. If any person to whom a certificate has been issued under this act violates any provision thereof, or any ordinance, by-law, rule or regulation made thereunder, either the board of health or inspector of buildings issuing his certificate, or the board of health or inspector of buildings having jurisdiction where such violation was committed, may forbid him to engage in or work at the business of plumbing in such city or town for a period not exceeding one year. Any person engaging in or working at the business of plumbing in any city or town where he has been forbidden so to do under this section shall be deemed guilty of a misdemeanor, and be subject to a fine not exceeding one hundred dollars for every such offence. Any city or town mentioned in section three of this act refusing to comply with any of the provisions of this act shall forfeit the sum of fifty dollars to the use of the Commonwealth for every month during which such neglect may continue.

SECTION 9. The provisions of this act shall apply to all persons who are now or may be hereafter learning the business of plumbing, when they are sent out to do the work of a journeyman plumber.

SECTION 10. Any person now holding an appointment as inspector of plumbing may retain his position, and, without further examination, be deemed to have been appointed under this act.

SECTION 11. The boards of health and inspectors of buildings hereinbefore mentioned may expend such portion of all fees collected by them under this act as shall become necessary to properly perform all duties imposed by the passage of this act. The said boards or inspectors shall annually, before the first day of June, make a full report in detail to their respective cities or towns of all their proceedings during the year under this act.

SECTION 12. All acts or parts of acts inconsistent herewith are hereby repealed. The provisions of this act so far as they are the same as those of chapter four hundred and seventy-seven of the acts of the year eighteen hundred and ninety-three shall be construed as a continuation of that chapter and not as new enactments. [*Approved June 6, 1894.*]

HORACE JAMES,
W. K. MELCHER,
MICHAEL DUFFLEY,

Board of Examiners of Plumbers.

REPORT OF THE SUPERINTENDENT OF STREETS AND SEWERS.

BROOKLINE, February 15, 1895.

To the Honorable Board of Selectmen: —

GENTLEMEN,—I respectfully submit my nineteenth annual report of the work done, and the expense incurred, in the Highway department, for the year ending January 31st, 1895.

The amount appropriated at the annual meeting for the support of highways was \$50,000 and receipts. At the special meeting held October 30th, 1894, an additional sum of \$8,000 was appropriated. The amount received from outside parties for labor and materials furnished, and from other departments and from special appropriations, for use of horses, and for material prepared at the expense of the highway department, was \$3,998.37. The gross amount expended was \$62,090.17, and the details of this expenditure are as follows:

Allandale road: stoned and gravelled	\$524 20
Aspinwall avenue: macadamized	1,700 28
Beacon street: sundry repairs, cleaning, etc.	1,840 16
Beech road: graded and macadamized	419 16
Boylston street: sundry gravelling, macadamized, etc.	1,532 07
Brookline avenue: macadamized	1,548 89
Brighton ledge: blasting and crushing stone, now on hand	1,293 36
Carlton street: macadamized in part	142 09
Chestnut Hill avenue: repaired	71 37
Cleaning street crossings	267 28
Cleaning gutters, streets and sidewalks, and sundry small repairs	4,970 10
Colbourne crescent: repaired	27 46
Colchester street: repaired	91 04
Cottage street: gravelled	79 15
Crossings: labor and material for new crossings, repairs, etc.	1,891 44
Cutting grass and weeds, etc.	631 02
Cypress street: macadamized and bridge replanked	610 00
Dudley street: gravelled and repaired	245 25
Engineering	31 00
<i>Amount carried forward</i>	<i>\$17,915 32</i>

<i>Amount brought forward</i>	\$17,915 32
Fisher avenue: repaired	50 22
Flora street: macadamized	165 51
Francis street: gutter repaved and sundry repairs	119 54
Gardner road: sundry repairs and gravelled in part	235 95
Glen road: graded at expense of abutters	437 08
Goddard avenue: gravelled in part, macadamized in part	523 84
Gravel, etc.: cash paid for gravel and stone	1,461 75
Grove street: macadamized	1,028 00
Guide boards, street signs, etc.	217 53
Hammond street: repaired	183 56
Harvard street: repaired	113 35
Hawes street: macadamized	405 35
Heath street: gutter repaved, etc., macadamized in parts and sundry repairs	2,314 19
Hill street: graded and gravelled at expense of the abutters	294 81
Horses and stable: care and maintenance, including repairs on carts, harnesses, etc.; new harnesses, etc.	6,233 28
Cash paid for new horse	275 00
Cash paid for new double sled	87 50
Cash paid for three new carts	380 00
Cash paid for four new snow-plows	160 00
Cash paid for street sweeper, and two push-carts with four buckets, etc.	480 57
(Received from Health department \$1,165.00, and from Sewer department \$422.00, for use of horses and carts.)	
Ice: picking ice on streets, etc.	900 56
Juniper street: macadamized	262 09
Kent street: macadamized and repaired	1,168 53
Labor in gravel banks not elsewhere charged	182 17
Lagrange street: macadamized, etc.	336 66
Linden street: macadamized in front of church, etc.	169 71
Longwood avenue: macadamized after rails were removed	889 69
Marion street: gravelled in part	25 05
Mason terrace: grading sidewalks, etc.	159 13
Miscellaneous work not elsewhere included	1,182 05
Monmouth street: macadamized, etc.; gutter paved, etc.	861 17
Morss avenue: macadamized	370 69
Newton street: macadamized in part and repaired	625 37
Newton-street ledge: preparing material, now on hand	150 00
Pearl street: repaired	32 50
Plowing out gutters in winter	421 84
Plowing snow, etc.	1,467 77
Prospect street: dressed with fine stone, etc.	71 89
Repairing sundry streets, etc.	418 31
Sanding sidewalks and streets in winter	575 92
Seaver street: repaired	184 25
Sectional care of streets	4,570 67
<i>Amount carried forward</i>	\$48,108 37

<i>Amount brought forward</i>	\$48,108 37
Sewall street: building two catch-basins and drain	290 64
Shovelling snow off sidewalks, etc.	6,229 42
South street: macadamized	1,018 60
Station street: repaired	34 62
Steam roller: sundry work on streets not elsewhere charged, coal, oil, waste, supplies and repairs	567 47
Summit avenue: repaired	103 86
Sundry winter work, breaking out roads, levelling, etc. . .	1,824 40
Tools: new tools, etc.; repairs and sharpening, etc. . . .	557 75
Trees: sundry work on trees	122 07
University road: grading sidewalk	24 38
Walnut street: repaired	60 35
Walter avenue: macadamized	262 09
Warren street: repaired	144 08
Washington street: macadamized between Harvard square and School street; new crossings laid, etc.; gutter re- paved, etc.; and sundry work beyond Gardner path . .	2,442 67
White place: macadamized	219 04
Winthrop road: making loam edges and repairs	90 36
	\$62,090 17

Less Amounts Received, viz.:

West End Street Railway Company, for work, etc., on Longwood avenue, Cypress and Sewall streets	\$1,340 64
Brookline Land Company, one-half cost of mak- ing Glen road	246 41
Health department, for use of horses	1,165 00
Care of sewers, for use of horses	422 00
Widening Harvard street, for material	552 77
Monmouth street, for material	81 42
Pond avenue, for material	31 53
Sundry parties, for labor and stock	158 60
Total amount received	3,998 37
Total net amount expended and charged to ap- propriation for support of highways	\$58,091 80

There was also received from Mr. E. D. Jordan the sum of \$900, which was the estimated cost of putting Westbourne terrace and Bartlett crescent in order. It was so late in the season that nothing was done, and as the money has not been used, I suggest that it be specially appropriated for the purpose for which it was paid in.

One horse has been bought, making the number of working horses twenty, and one driving horse used by the superintendent. They are generally in good condition, but the

policy of disposing of the older and poorer horses yearly should be continued. The exterior wood-work of the stable has been painted, and the equipment has been increased by the addition of one wooden cart, two steel carts, one double sled, one sweeping machine, two patrol push-carts with extra buckets, and four snow-plows. A blacksmith's shop has been equipped, and set up in the school building, in which repairs can be made at short notice.

It has been evident for some time past, that some clerical assistance was necessary in the office; as the clerical work is light at some seasons, it was deemed best to get some one who could assist in the outside work. Accordingly, on the 24th of September last, the position of Assistant Superintendent of Streets was established, and Mr. Fred. B. Richardson was appointed to fill it. He had been employed in Mr. French's office for more than four years, and for the last two years had charge of the grading and road construction in the Parkway, so that his past experience well fitted him for the position. During the time Mr. Richardson has been with us, he has shown marked interest in his work, and his services have been of great assistance.

Last year I spoke of the great need of a suitable ledge lot with modern appliances for crushing and loading stone. The need is greater now, as Mr. Learnard's ledge in Brighton, which we have been using for the past eight years, is practically exhausted, and the owner of the adjoining land is not willing to have the stone removed. Mr. Codman, of your board, was appointed to look into this matter with me, and we have been for some time trying to find a suitable place, which can be bought or leased for a term of years, but so far we have not found just what we want. There is plenty of stone in the southerly part of the town, but if we cart our material such a long distance, it ought to be of the very best quality. The question of a supply of gravel will very soon confront us, as Babcock hill is nearly all cut away; perhaps both stone and gravel may be found along the line of the railroad, and if suitable dumping places can be secured, and favorable rates for transportation be had from the rail-

road, it will be well to inquire in that direction. Our broken stone cost us last year, at Brighton, when loaded into carts, $92\frac{6}{10}$ cents per cubic yard. With a modern set-up for our crusher, this cost could be reduced at least ten cents per cubic yard.

For the last three years, just before the caterpillars left their nests, men were sent over all the streets in the town, with instructions to destroy all the nests and caterpillars, and last year all the wild-cherry trees in the street limits were cut down. The results were very satisfactory, and if the abutters would coöperate in this work, the mischief done by these pests would be very much lessened.

The guide boards numbered from 1 to 78, mentioned in the reports for the years 1885, '86, '89, 92, and '93, are maintained, and seem to be all that are required. A few have been destroyed; we are now repainting several, and hope in a few weeks to have them all replaced in good condition.

Two years ago the board of Selectmen had all the bridges in the town examined, and a report on their condition, with certain recommendations, was made. Nothing has been done toward carrying out the recommendations then made, and as the bridges over Longwood avenue, Washington street and Chestnut Hill avenue demand attention, I suggest that the Engineering department be requested to examine into their condition and report what may be necessary to do.

It was contemplated last year to resurface many portions of Beacon street during the midsummer months, but after beginning on the Harvard-street widening it was evident that the full capacity of the stone-crusher would be needed to complete that work. In addition to the resurfacing it will be necessary to repave the gutters in many places, as the proper cross-section is destroyed. This work will probably be the most important item in the schedule for the coming season, and will draw very largely on the appropriation.

The horse railroad tracks in the remaining portion of Longwood avenue, and in Cypress street between Sewall street and Chestnut street, were taken up early in November, and both streets were put in order by this department. The West End company paid the estimated cost of the work,

which amounted to \$1,050. The tracks in Washington street, between Harvard square and Cypress street, were raised to a grade, given by Mr. French, before the roadway was macadamized, and are now in good condition. The tracks in Harvard street were moved to the middle of the street, as widened, and in Washington street, where widened, an entirely new double track was laid. In Washington street, from Gardner path to Beacon street, and in Sewall street, from Cypress street to the new car-stable, single tracks with turnouts were laid. The double track on Boylston street was carried around the corner into Cypress street. In laying the tracks from Sewall street into the new car-house it was found necessary to build two catch-basins with a drain into the culvert near by. The cost of this work, amounting to \$290.64, was paid by the West End company. The question of what form of rail shall be used in our streets has received considerable attention during the year. In Washington street, both in the part widened and the part above Gardner road, the girder pattern with a tram head has been used, but has never been approved, either by your board or myself. I see no objection to the use of this rail in streets of a generous width, particularly where the traffic is heavy, but in narrower streets it should not be allowed. In Sewall street a girder rail with a grooved head was approved, though somewhat unwillingly, as the groove is just wide enough to admit a narrow tire, and the flange is $\frac{5}{8}$ " below the level of the bearing part of the rail. The rail should be of such a pattern, and should be so laid, as to offer as little obstruction to ordinary street traffic as possible, and we have such a rail in Washington street between Morss avenue and Gardner path. The company says this rail is no longer rolled. It will not be rolled until there is a demand for it, and there will be no demand for it until we, and other municipalities, insist on its use. The interest of the railway company in the construction of its track is not always identical with that of the public in the use of the streets, and we should insist that the form of rail used should be that which conforms to our ideas, and not to those of the railway company.

Street Crossings.

New cross-walks of North-river stone and small granite blocks were laid at the following places :

- Across Beacon street at Charles street.
- “ “ “ at Center street.
- “ “ “ at Jordan's steps.
- “ “ “ at Dean and Corey roads.
- “ “ “ at Kilsyth road.
- “ Boylston street above Brington road.
- “ Hawes street at Beech road.
- “ Gorham avenue at Cypress street.
- “ Mason terrace at Mr. Blodgett's.
- “ Devotion street at Babcock street.
- “ Stetson street at Dwight street.
- “ Dwight street at Green street.
- “ Sewall avenue at Charles street.
- “ Mountfort street at A. P. Howard's.
- “ Alton place at St. Paul street.
- “ Francis street at Toxteth street.
- “ Longwood avenue at Kent street.
- “ Marshal street at Longwood avenue.

In addition to the above, flagstone crossings were laid where necessary in the widening of Harvard and Washington streets, and in the extension of Morss avenue. The crossings on Washington street, between Harvard square and Cypress street, were repaved when the roadway was macadamized, and repairs were made in many other places. One crossing of coal-tar concrete was laid across Sewall avenue at William Stearns's.

New Streets and Special Appropriations.

WIDENING HARVARD STREET. This work was done by the Highway department during the summer, and the result is very satisfactory. For the most part the Telford style of construction was followed, but in some portions, where the subsoil was good and where the old roadbed had been consolidated by years of use, the bottom paving was omitted, and the broken stone was laid directly on the old road. A surface-water drain was put in from Shailer street to Thorndike street, and twelve new catch-basins were built. A new water-main was laid from the summit near Thorn-

dike street to the town line, and the various hydrants, water-gates, sidewalk stops, etc., were changed to suit the new lines. The city of Boston desired to lay a water-main from Beacon street to the town line, but as this would delay the completion of the work, another location was offered them through Fuller and Centre streets, which they accepted, and the pipe was laid there. The sidewalks were made ten feet wide, and edgestones were set on both sides the entire length, existing edgestones being reset. The gutters were paved three feet wide with beach-stones, and concrete walks were laid the entire length on the westerly side and from Beacon street nearly to Williams street on the easterly side. Cross-walks were laid where necessary. The work is completed, with the exception of that part of the street, about eighteen feet in length, which was formerly in Boston, and which was accepted as a public way October 30th, 1894. The cost was as follows :

Land damages	\$36,627 10
Sewers, drains and catch-basins	3,656 26
Water-pipes	606 06
Edgestones	3,159 15
Paved gutters	2,064 63
Concrete sidewalks	2,891 67
Street-crossings	1,937 65
Grading, macadamizing and sundries	16,186 55
Total	\$67,129 07

WIDENING WASHINGTON STREET. The work of widening Washington street in the village, from the Boston line to Morss avenue, was done by this department, and is not yet finished. A new double track for the electric cars was laid. On the southerly side of the railroad, edgestones were set, all the old stone less than eighteen inches in depth being thrown out, and the roadway was very thoroughly built on the Telford principle. If there is any fault in the construction of this roadway it is in the quality of the broken stone, which is not as hard as we could wish. On the northerly side the roadway was macadamized, and in this part of the work two hundred and twenty-five tons of trap rock were used. The broken trap was furnished by the Massa-

chusetts Broken Stone Company, f. o. b. cars at Brookline station, for \$1.90 per ton. Suitable cross-walks were laid where necessary. To avoid cutting across the street for house connections, a new water-main was laid on the southerly side. The sewer was originally intended for a surface-water drain only, and was at a very shallow depth, nearly under the new railroad tracks. It was therefore decided to construct a new sewer at a sufficient depth to drain any building on the south side of the street. Five new catch-basins were also built. A retaining wall was built at the corner of Pond avenue; it was found necessary to drive piles for the foundation. The sidewalks were made twelve feet wide. The line and grade of the edgestones on the northerly side are not good, and it is desirable to set them so as to conform to those now on the southerly side.

The remaining work consists of paving the gutter and sidewalk on the southerly side, some additional rolling on the northerly side, and such changes in the curb and gutters on that side as may be deemed advisable. The cost was as follows :

Land damages	\$40,325 75
Sewer and catch-basins	3,210 78
Water-pipes	582 88
Edgestones, etc.	491 84
Street-crossings	1,290 23
Grading, macadamizing and sundries	7,680 94
Retaining-wall and piling	648 37
Total	<u>\$54,230 81</u>

POND AVENUE. The estimated cost of rebuilding this street was \$12,000. The committee which reported to the annual meeting thought the road could be dressed up with gravel so as to meet all requirements for some years to come, and accordingly recommended an appropriation of \$2,000, which was made. This seemed a large amount to spend in simply gravelling the road, and it was decided by your board and myself to reshape the worst part of the road and to thoroughly rebuild as far as the appropriation would allow. The road was subgraded and rebuilt on the Telford principle from Washington street to Flora street. The

remaining portion of the road was reshaped and can be finished with gravel at a small outlay. If it is desired to continue the improvement, I would recommend that a thin macadam road, which has answered very well in other places, be tried. The sewer north of Flora street had settled so much that it was rebuilt on a pile foundation; the cost of this work was paid out of the appropriation for sewers.

COLCHESTER STREET WIDENING, ST. MARY STREET BRIDGE, CARLTON PATH AND CHAPEL STREET. The work on these streets, which was begun last year, has been finished. They were under the charge of the Town Engineer, who will treat of them in his report.

ADDINGTON PATH AND COLBOURNE PATH were accepted as public ways at the annual meeting. Nothing has been spent on them.

HILL STREET, accepted as a public way, May 29, 1894, was graded and gravelled, and the abutters agreed to pay the cost.

PHILBRICK ROAD, accepted as a public way, May 29, 1894, was built by the owners, and offered to the town free of cost. A plank walk has been laid in a portion of the road.

MASON PATH, accepted as a public way, Oct. 30, 1894, was offered to the town free of cost, and has had nothing done to it.

GLEN ROAD, accepted as a public way, Oct. 30, 1894, was graded and gravelled, and the abutters agreed to pay the cost.

HIGHLAND ROAD, accepted as a public way, Oct. 30, 1894, was finished by the owners, and has cost the town nothing.

RAWSON PATH, accepted as a public way, Oct. 30, 1894, has had new steps, and a plank walk, six feet wide, the whole length. The cost was charged to the sidewalk appropriation.

DEVON STREET, accepted as a public way, Oct. 30, 1894, was built without expense to the town. A plank walk has been laid on one side the entire length.

WESTBOURNE TERRACE AND BARTLETT CRESCENT were accepted as public ways, Oct. 30, 1894. The estimated cost of putting them in order was \$900, which amount has been paid in to the Treasury. As winter set in so early, the work was necessarily postponed until spring.

HARVEY STREET was accepted as a public way, Jan. 29, 1895, and the name was changed to UPLAND ROAD. No appropriation was made for it. It will be necessary to make some change at the junction of Walnut street, which it is proposed to pay for out of the Highway appropriation.

SEWALL PLACE was accepted as a public way, Jan. 29, 1895, and no appropriation was made for it. Some repairs are necessary which will be paid for out of the highway appropriation.

Watering Streets.

The same number of teams, twenty-one, were employed in this work as last year, and the teams of the fire department continue to sprinkle limited sections near the houses. The route of each hired team was considerably lengthened to enable us to sprinkle several newly accepted streets with the same number of teams. Two of the main thoroughfares have been widened this year, and new streets have been opened. There will very likely be a demand to have some of these streets sprinkled, and it is quite likely that at least one additional team must be engaged. The quality of the work has been somewhat improved; there is still room for further improvement, which can be secured only by constant oversight. The appropriation for watering streets was \$16,000, and \$15,878.18 was expended.

Sidewalks.

The kind and amount of work done on sidewalks is shown in the following table, which does not contain the small patching on brick and concrete walks, nor the repairs of plank walks. When plank walks have been rebuilt with old stock, the work has been considered in the nature of repairs, and is not included in the table:

STREETS.	Lin. feet New Plank Walks.	Lin. feet New Edge- stones.	Lin. feet Edge stones Reset.	Sq. yds. New Concrete.	Sq. yds. Concrete Repaired.	Sq. yds. Brick.	Sq. yds. Sundries.	Sq. yds. Gutters.

Several long stretches of plank walk must be renewed this year. A low price has been named for hard-pine lumber, which I suggest should be accepted, so that no more short-lived spruce walks may be laid.

The appropriation for sidewalks amounted to \$12,540.77, and the expenditure given in detail in the Treasurer's report was as follows :

Edgestones	\$3,317.46
New concrete walks	3,281.38
Repairing concrete walks	1,673.91
New plank walks	2,254.44
Repairing plank walks	1,275.49
Brick walks and sundries	738.09
Total	\$12,540.77

Care of Sewers.

The usual work of caring for the sewers, catch-basins and drains was done at a cost of \$4,090.26. No special outlay has been made, and no trouble has been experienced except in the case of a few leaky catch-basins. Some of the older brooks have been cleaned, and more work of this kind is before us. For instance, the brook in Boylston street, which drains a very large territory, as well as the reservoirs on Fisher Hill, runs for a long distance under a concrete sidewalk, and needs to be cleaned. In other parts of the town, building operations have closed up some culverts, and new channels for the storm-water must be provided. The

question of proper and adequate surface drainage for many parts of the town is a very important one, which must be met in the immediate future.

Collecting Ashes.

The cost of collecting ashes and dry dirt throughout the town was \$5,134.11. Men were kept on the dumps regularly, and complaints of their condition have been very few as compared with former years. . The amount collected last year was 12,019 loads.

Public Grounds and Sundries.

The usual work on these grounds, which include the playgrounds, open areas, and school-house lots, was done at a cost of \$1,691.96. The Tappan-street lot was finished with loam from the site of the new High School building, and the Brookline-avenue playground was made to conform to the grade of Aspinwall avenue and Brookline avenue. The repairs on the driveway between the Public Library and the Pierce Grammar school-house were finished; the loam was removed from the areas in front of the latter building, and they were graded with stone and gravel, and concreted. A neat, iron fence was set in front of the Winthrop school-house, and with a little labor in the spring the grounds can be made quite presentable.

The grounds of the new Manual Training School were graded, costing \$978.63, which includes the cost of twelve additional stone steps for both entrances.

A new fountain, like that in Harvard square, has been bought, and will be set up at the intersection of Boylston street, Chestnut Hill avenue, and Heath street as soon as the frost is out of the ground.

The bath-house was cleaned as usual, costing \$87.25.

Some grading, and other work in connection with the Board of Health Hospitals, was done at a cost of \$323.30.

Sundry work in connection with the new Village brook, which was not included in the contract, was done, and the cost, \$1,641.03, was charged to that appropriation.

Sundry work in connection with building the new sewers, amounting to \$344.04, was done, and the cost was charged to the appropriation for sewers.

Sundry other work, amounting in the aggregate to \$980.58, was done, and the cost was charged to the proper appropriations.

The customary schedule of property belonging to the department is on file at this office.

Respectfully submitted,

MICHAEL DRISCOLL,

Superintendent of Streets and Sewers.

REPORT OF THE TOWN ENGINEER.

To the Honorable Board of Selectmen of Brookline:—

GENTLEMEN,—In compliance with the by-law establishing the Engineering department, the following report of its operations and expenses for the year ending January 31, 1895, is respectfully submitted :

Amount of appropriation for the year	\$9,000 00
Less the amount paid for engineering purposes previous to July 1st, 1894, when the department was established	1,517 09
	\$7,482 91
Overdrawn	22 90
	\$7,505 81

Classification of Expenditures.

For salaries of Town Engineer, assistants, draughtsmen and rodmen	\$5,542 32
For office furnishings	254 13
For instruments and repairs	922 20
For board of horse provided by the Town Engineer, and horse hire	204 52
For supplies, drawing materials, etc.	447 99
For incidental expenses	134 65
	\$7,505 81

The item of salaries of Engineer and assistants may be divided as follows :

For defining street lines and grades for the Highway department for the purpose of constructing new streets and repairing old ones, for giving lines and grades to abutters, setting street bounds, making street plans for office use, making surveys and record plans of new streets, preparing testimony in suits brought against the town and attendance at court in cases brought to trial, and doing all work relating to highways	\$1,664 05
For defining the lines and grades of curbstones, for measurement of work done by contractors, and for all work relating to sidewalks	122 50
For making surveys, maps, profiles, estimates, designs, calculations, reports, the engineering and clerical work connected with the levying of sewer assessments, and the superintendence of construction of all work relating to sewers and surface-water drains	1,400 39
<i>Amount carried forward</i>	\$3,186 94

<i>Amount brought forward</i>	<i>\$3,186.94</i>
For making plans and specifications and superintending all construction work, having general oversight of maintenance, and doing all other work relating to the Parkway and Longwood playground	432 00
For considering the question of the proposed metropolitan water supply with reference to the requirements of the town, and attendance at hearings where the matter was under discussion	30 00
For all work relating to the topographical survey of the town	1,466 33
For all work relating to plans for use of the Assessors	217 85
For all work relating to Walnut Hills cemetery	16 00
For all work relating to the location and grades of the tracks of the West End street railway	31 00
For surveys relating to the change of the boundary line between Brookline and Boston, as established by Chapter 242 of the Acts of 1894	74 20
For all work relating to street-numbering plans	53 00
For all work relating to the laying out of school and hospital buildings and grading of grounds about the same	35 00
Total for salaries	<u>\$5,542 32</u>

The regular work of the department, consisting of construction and special matters, has been so large as to require the whole office force almost constantly, so that less has been accomplished than was expected by the writer in the way of compiling and indexing street plans, sewer plans, notes, etc., and deciding upon the best methods of organization in some of its minor details. The work is well started, however, and should be continued as the more urgent matters will allow.

Streets and Paths.

HARVARD STREET. This street has been widened from a width of fifty-five feet to seventy-five feet, from Beacon street to the Boston line. The work of construction has been done by the highway department, and the work of surface-water drainage by this department. The details and cost of the latter are presented in the table of "Sewers and Drains."

WASHINGTON STREET. This street has been widened from a width of fifty-seven to sixty feet to one of ninety feet, from Walnut street to the Parkway. The street work was done by the Highway department. The sewer in

this part of Washington street was built before the present system was adopted, was governed in depth by the old channel of Muddy river, and, as a consequence, was too shallow to be of much value to the abutting property. After consideration it was decided to abandon a part of the old sewer, and build a new one in the proper location for the widened street. The details, cost, etc., are given in the table.

CHAPEL STREET. This street has been completed as an approach to the new Longwood station. The work has been done by the Boston & Albany Railroad Company with the understanding that it would pay the entire cost of land damages and construction for a street forty feet in width and that the town would pay the additional cost due to making the street fifty feet wide. Settlement has not been made with the railroad company, but it has been agreed that the amount which the town is to pay toward the street is \$2,737.60. The estimate and appropriation for the same was \$2,627.00.

COLCHESTER STREET. This street has been widened ten feet from Chapel street to Carlton street, making this portion of the street fifty feet wide. The trees were allowed to remain in a broad tree-lawn, and the street has been finished with a concrete walk. The embankment is protected with an ornamental fence. The cost of the construction in 1893 was \$288.60, and in 1894, \$646.45; total, \$935.05.

CARLTON PATH. This path extends from Carlton street to Monmouth court and is ten feet wide. It is finished with concrete and neatly fenced. The cost for construction was \$227.85 in 1893, and \$829.92 in 1894; total, \$1,056.77.

ST. MARY STREET R.R. CROSSING. The construction work was completed early in the season. The land damages have been settled, but as the accounting has not yet been done the cost to the town cannot be stated. Aside from the interest on the money which the town furnished temporarily for paying the entire cost of this improvement exclusive of the bridge, its share will be about \$8,250, in a total outlay of about \$82,500.

Surveys and record plans have been made by this department, of six of the streets given in the table as having been accepted during the year past. The others were furnished by the engineers acting for the owners of the land over which the ways had been laid out.

Surveys and estimates of cost were made for widening and extending Cypress street from Boylston street to the junction of Chestnut street and the Parkway. Surveys were also made for widening Washington street from Harvard square to the Brighton line.

When called upon, this department has given street lines and grades to the Highway department for the purpose of repairs, and to abutters who were improving their estates.

STREET PLANS. A set of plans for the purpose of showing lines and grades of streets has been commenced. At the present time the information relating to such matters is very much scattered, and it is obviously desirable that it should be collected and arranged so that it will be readily accessible.

STREET BOUNDS. About one hundred and fifty monuments have been set for the purpose of marking street lines, but a large amount of this work remains to be done; it should be continued as rapidly as possible, in order to get rid of the uncertainty attaching to the location of many of the older streets. In some cases it will be necessary to relocate the streets, the records are so incomplete and indefinite.

PIPES, CONDUITS, ETC. It is a matter of every-day observation that our public streets are being more and more used for pipes, sewers, etc., all of which are more or less essential to the convenience and comfort of the tax-payers. It is also true, as to many of them at least, that either no records at all or else very poor ones are preserved showing the location of the structures. For the purpose of facilitating future operations, I think it very desirable that records relating to such matters should be preserved in this office.

The new streets and paths laid out by the Selectmen and accepted by the town since the last annual report, are as follows:

STREETS AND PATHS.

NAMES.	Streets.		Paths.		ACCEPTED.	Cost to the Town.	
	Length in Feet.	Width in Feet.	Length in Feet.	Width in Feet.		Lahd Damage.	Construction.
Addington path			294.45	15	March 29, 1894	None	None

Sewall place	1,088.84	35			" "	None	+
Totals	8,037.15		1,151.92				

* Repaired by the Highway department at the expense of the abutters.

† This amount has been paid into the Town Treasury by the abutters, said sum being the estimate made by the Superintendent of Streets, of the cost of putting Westbourne terrace and Bartlett crescent into good condition.

‡ No appropriation made for construction, it being the intention that such work as is necessary can be paid for from the highway and sidewalk appropriations.

Sewers.

In the sewer and drain construction work the same method has been followed as in past years, viz., the town furnishing the materials and contracting for the labor, excepting when the sewers were acquired by purchase.

In addition to the actual work of construction, surveys, studies and estimates have been made of several drainage problems which will soon have to be taken up. One of them is the Chestnut-street brook, so called, which has its rise in a spring near the junction of Chestnut street and Chestnut place and flows easterly in a shallow channel, mostly open, to the junction of Pond avenue and Chestnut street, where it discharges into a brick conduit built by the Park department. The district through which it flows is rapidly building up, and the location of the West End Street Railway Company's car-house in that neighborhood will probably tend to increase the development. The present level of the ground-water is so high, especially during the winter, as to endanger the health of the community, and this water-level can and should be lowered by extending the Parkway conduit at an elevation which will accomplish it.

Plans and estimates have also been made for filling up the open brook channel along the railroad from the service-yard in the Parkway to a point near the Brookline railroad station. The brook, which formerly flowed through this channel, has been diverted into Leverett Pond by the way of Washington street and Morss avenue, so that at present the only reason for its continuance is to remove a small amount of surface water and an occasional overflow from the main sewer at a point opposite the Brookline avenue playground. The maintenance of the present or of some other channel as a sewer overflow is an absolute necessity in order to prevent the flooding of cellars in the lower part of the town during freshets.

On the other hand, the elevation of the present channel is such that the ordinary level of water in the Parkway fills it, and as there is no current, it soon becomes a stagnant pool, offensive to both sight and smell, and doubtless a menace to

public health. I think the old channel should be filled up and so graded that the surface water would flow to catch-basins to be provided for it, and, for the purpose of the main sewer overflow, a new covered channel should be built through the playground from the end of Brook street to the Parkway channel. I regard this matter as of the most vital importance, and think that it should be taken up as early as possible in the coming season.

Plans and estimates have also been made for the house and surface drainage, of which Smelt brook is the natural outlet, lying between Harvard street, Babcock street and the Boston line. If the present rapid growth of this part of the town is to be encouraged, it will be necessary to take up a part of this work at an early day.

The drainage of this district will discharge into channels owned by the city of Boston, which have just been completed. As yet, however, no arrangements have been made whereby we shall be allowed to connect with the city drains, although the matter has been under consideration by the city authorities for six months past. In anticipation of such an arrangement being consummated, a sewer has been laid in Osborne road and Naples street to the southerly line of Commonwealth avenue.

The following table gives a list of sewers and drains built or acquired by purchase the past year :

List of Sewers Laid in 1894.

Topographical Survey.

This work has been in progress constantly since the inauguration of the department, with as large a force as the requirements in other directions would permit. A large amount of work has been done, and at the date of this report a force of ten men is employed upon it, mainly upon the field work, in order to take advantage of the absence of foliage. With favorable weather it is expected that the field notes of 2,000 acres will have been obtained by the first of May, and that the office work of the same will be completed by July 1st. The acreage mentioned covers about half of the town and lies south of Boylston street, and west of Cypress and Chestnut streets. As opportunity offers, the survey should be continued over the entire town, for drainage and other questions are continually arising, for the settlement of which a reliable topographical survey is an absolute necessity.

Assessors' Plans.

These plans were made about ten years ago, and since that time it has been the intention of the writer to keep them up to date, by entering upon them, from year to year, the changes in ownership, new streets and buildings, sub-division of estates, street widenings, etc. The very numerous alterations have of necessity mutilated many of the sheets, especially those which lie within the area of the greatest changes as regards development and ownership, so that the information they are intended to give is no longer as clear as it should be for such an important matter as the levying of taxes.

It is evident to the writer that, for a while at least, a much larger expenditure of time and money should be given to this work than has been done in the past.

Parks.

The Parkway construction from St. Mary street to Chestnut street has been completed, excepting a small amount of planting which was omitted last spring in consequence of the shortness of the planting season. The remaining work can

be done the coming spring, from the maintenance appropriation, with plants now in stock.

The service-yard building of the department, a brick structure fifty feet by sixteen feet in dimensions, has been completed. The service yard itself, within which the building is located, has been graded and fenced, and on the Parkway side has been provided with an ornamental wall, gate-posts and gate.

To furnish the Longwood section of the town with access to the Parkway, and incidentally to provide a means of crossing between Brookline Longwood and Roxbury Longwood, an iron foot-bridge, one hundred and eight feet in length and ten feet in width, has been placed over the tracks of the Boston & Albany railroad at Carlton street. The work was done by contract, the foundations being laid by the Messrs. Johnson Brothers of Brookline, and the superstructure by Mr. R. F. Hawkins of Springfield, Mass. The total cost, exclusive of engineering, was \$2,567.20.

The part of the Parkway between Aspinwall avenue and Chestnut street has been lighted by electric lamps, those south of Washington street being located so as to light both the Parkway and Pond avenue, displacing the oil lamps which formerly lighted the latter.

The total cost for construction in 1894, including balances due contractors for work nearly finished last year, was \$23,670.08.

The maintenance of the Parkway has been in charge of the gardener, Mr. David H. Sheehan. He has done his work creditably alike to himself and the town. The driveway has been kept up by what is known as the system of constant repairs, which consists in a frequent application of a thin coat of crushed stone before the surface shall have become much worn. The cost of maintenance has been \$4,884.29.

LONGWOOD PLAYGROUND. The work done consists in the drainage of the ground to the extent of providing a lower and more ample outlet than formerly existed, by extending the Toxteth-street sewer through land of Mrs. E. I. Thomas, and filling up the easterly section from

Francis street to Longwood avenue. As the sewer mentioned will constitute a part of the drainage system of the town, the work was done by the Selectmen and paid for from the sewer appropriation. The work of filling was done by the Park department with such odd lots of filling as could be obtained at a reasonable rate, with the surplus from the Harvard-street widening, and with ashes. A much larger amount of filling has been required than was expected, in consequence of the great amount of settlement of the filling into the underlying mud. Still, the appropriation of last year, viz., \$4,000, has accomplished about what was expected, taking into account the large amount of loam stored near by for use when the filling shall be finished to subgrade. A considerable part of the filling has already been covered with loam. The cost of the work has been \$3,835.18.

The following is a list of the assistants and rodmen connected with the department at the date of this report :

L. R. Cobb,	F. A. Leavitt,	H. Chase,
H. A. Varney,	E. N. Colburn,	J. F. Driscoll,
G. H. Hayward,	D. W. Robbins,	N. Christensen.
E. S. Phelps,	H. J. Hughes,	

A schedule of the property belonging to the department is hereto attached, and a copy of the same placed on file in this office.

Respectfully,

ALEXIS H. FRENCH,
Town Engineer.

Veterinary Inspector and Inspector of Milk.

ALEXANDER MARSHALL, M. R. C. V. S.,
Inspector of Animals and Provisions.

WILLARD E. WARD, *Disinfecter.*

REPORT OF THE BOARD OF HEALTH.

OFFICE OF THE BOARD OF HEALTH,
BROOKLINE, MASS., January 31, 1895.

The following report, prepared by the agent of the board, is respectfully submitted :

The board organized with Horace James as chairman. George F. Joyce was appointed clerk ; H. Lincoln Chase, M. D., agent ; Michael Duffley, sanitary inspector and inspector of plumbing ; Frederick H. Osgood, M. R. C. V. S., veterinary inspector and inspector of provisions and milk.

November 19th, Dr. Osgood having been appointed chairman of the State Cattle Commissioners, resigned as Inspector of Animals and Provisions, and Alexander Marshall, M. R. C. V. S., was appointed to that position.

The licenses of O'Day Brothers and of H. S. Hatch, funeral undertakers, were renewed, and a similar license was granted Charles A. Bryant. The license of Patrick McCarthy for the exclusive right to collect grease and bones for one year was renewed.

It was voted that a contract be made with D. B. Morrill for the collection of garbage for the year ending April 30, 1895, at the rate of \$350 per month, the garbage to be collected daily, except Sundays and legal holidays, from May 1st to November 1st, and three times a week for the remainder of the year, except that from markets and large boarding houses it shall be collected daily throughout the year. The subject of the proper disposal of garbage has continued to be of such importance that the special committee appointed year before last to gather information and advise with the Selectmen was reappointed, and attention is called to its report.

The usual orders relating to contagious diseases were passed.

During the year ending December 31, 1894, there were reported to the board one case of small-pox, forty-nine cases

of scarlet fever, twenty-nine cases of diphtheria, eleven cases of typhoid fever and eleven cases of measles, occurring as follows :

	Small-pox.	Scarlet Fever.	Diphtheria.	Typhoid Fever.	Measles.
January	1	4	0	0	2
February	0	4	0	0	4
March	0	3	1	0	1
April	0	6	2	0	1
May	0	12	0	0	0
June	0	2	0	0	0
July	0	1	0	0	1
August	0	2	0	4	0
September	0	2	6	2	0
October	0	5	3	3	0
November	0	3	4	1	0
December	0	5	13	1	1
	1	49	29	11	11

The following table shows the number of cases of scarlet fever and diphtheria reported during the last eighteen years and the number of cases of typhoid fever during the last thirteen :

	Scarlet Fever.	Diphtheria.	Typhoid Fever.
1877	46	29	
1878	15	19	
1879	16	12	
1880	17	25	
1881	5	26	
1882	12	7	4*
1883	24	7	23
1884	38	19	12
1885	40	3	9
1886	79	9	13
1887	27	1	9
1888	21	7	9
1889	3	11	4
1890	8	15	5
1891	39	7	9
1892	74	8	13
1893	44	18	10
1894	49	29	11

The single case of small-pox (or varioloid, as cases favorably modified by an old vaccination are sometimes called,) was provided for by the board in the building kept for such cases.

The forty-nine cases of scarlet fever were widely distributed through the town; there was but one fatal case.

The twenty-nine cases of diphtheria, of which six were fatal, were distributed as follows: One each on Harvard

*No record kept of Typhoid Fever cases until 1882.

street near Auburn street, Longwood avenue near Kent street, Cypress street near Boylston street, Lancaster terrace, Cypress street near Sewall street, Walter avenue, Davis avenue, Juniper street, Clark road, Pearl street, Kent street near Harvard square, Heath street near Hammond street, Washington street near the Public Library, Beacon street near Corey road, Emerald street and Pond avenue; two each on Beacon street near Carlton street, Roberts street and Thayer place, and seven in Boylston place.

The eleven cases of typhoid fever, of which three were fatal, were distributed as follows: One each on Beacon street near Washington street, Brookline avenue near Pearl street, Fairbanks street, Washington street near Public Library, Washington street near Fairbanks street, Boylston street near Cypress street, School street, Walnut street corner Cypress street, Summit avenue, and Rawson road.

Eleven cases of typhoid fever in a year in a town of over fifteen thousand inhabitants is a very small number, and strong evidence of the purity of the public water supply. There were three deaths from whooping-cough.

The number of deaths from all causes from January 1, 1894, to December 31, 1894, inclusive, was 247*, as against 254 in 1893, 223 in 1892, 213 in 1891, 170 in 1890, 186 in 1889, and 123 in 1888. Deducting the still births, 13 in number, it leaves 234 deaths during the year, the population, as estimated by the Town Clerk, July 1st, being 15,000. This shows a mortality of 15.60 per 1,000 of inhabitants for 1894, as against 16.28 for 1893.

There were 34 deaths (about 14 per cent of all the deaths) reported due to tuberculosis as against 30 in 1893, most of the cases taking the form of pulmonary consumption. As a means of spreading information about this too common disease, the State Board of Health suggests that local boards can accomplish much toward its prevention by issuing a circular like the following:

* These figures include, as is usual in the reports of this board, the number of deaths which actually occurred in the town, and also those of inhabitants who died away from home; so the number of deaths, small as it is, is rather over- than under-estimated.

THE PREVENTION OF CONSUMPTION.

Consumption is the most destructive disease of New England, the number of persons dying annually from this cause in Massachusetts alone amounting to nearly six thousand.

The disease is infectious, and can be communicated from one person to another. The chief danger exists in the expectoration of the sick, and if this expectoration is carefully destroyed little danger need be feared.

Consumptives should be instructed not to spit upon the floors of rooms, public halls, street and railway cars, nor in the streets, but into pieces of cloth, or receptacles made for the purpose, containing water or a disinfecting solution. Such bits of cloth should be destroyed by fire before the sputa becomes dry, and other receptacles should be cleansed with scalding water, their contents having been destroyed or otherwise carefully disposed of. Handkerchiefs which may have been used from necessity should be boiled half an hour before washing.

A healthy person should not sleep in the same room with a consumptive.

Remember that sputa must never be allowed to become dry.

OFFICE OF THE STATE BOARD OF HEALTH, BOSTON.

Revised January, 1895.

The public swimming-bath on Boylston street was open as usual during June, July, August and September. Early in June the portion of the brook above the bath-house was inspected and cleaned out, and throughout the bathing season measures were taken to keep the water pure. Superintendent Dillon reports that 6,573 baths were taken in 1894, a falling off from 1893. This is the only place within or near the town limits where outdoor bathing is allowed, and the accommodations, though adequate thirteen years ago, are utterly inadequate now. More commodious quarters, an instructor in swimming, and a better water-supply are needed. Here is a splendid opportunity for philanthropic individuals. The Board of Health fully recognizes the importance, as a health measure, of frequent bathing in hot weather, and the value of a public swimming bath, both as a means of physical culture and of acquiring an art the possession of which often saves human life; but it cannot ask the town to appropriate the money necessary for the purpose, useful as it is, without departing from its custom of asking only for what is absolutely necessary to the public health.

At the annual town meeting it was voted to appropriate \$5,000, asked for by the board, to construct suitable buildings for the shelter and care of persons ill with dangerous contagious diseases and needing isolation. Under this vote the board, after conferring with competent authorities,

had constructed, in one of the least densely populated parts of the town, two buildings, a safe distance apart and sufficiently remote from all other buildings. The special committee consisted of Messrs. James and Daland with the agent of the board. The hospitals stand on high ground, in a location of great natural beauty, with plenty of space about them for the erection of tents or portable huts in case of an extensive epidemic. Dr. Abbott, of the State Board of Health, who visited the proposed location, says the town is to be congratulated on owning so desirable a lot of land for such a purpose.

The hospitals were built without haste and in a thorough manner by a well-known Brookline contractor. The chairman of the board gave a great deal of time and attention to the many details of construction and equipment, to the grading of the grounds and other matters, and the Superintendent of Buildings and the Sanitary Inspector of the board also assisted.

The buildings are of wood, single-story, pavilion style, each having three small wards, with a hallway through the middle of the building, a kitchen, cellar and attic, and can together accommodate from twenty to twenty-five patients and attendants. They were planned with special attention to securing ventilation and sunlight, have plastered walls covered with Windsor cement, to permit of thorough and easy cleansing, and all the rooms except the kitchens have open fireplaces. Both buildings have modern sanitary arrangements, public water supply and good piazzas. One of the buildings, the smaller one, is for diphtheria patients, the other for scarlet fever. At one end of the larger building are a kitchen and small ward wholly separate, and available when necessary as a probationary ward for the observation of any doubtful case. It is often very difficult to make a correct diagnosis at the outset of a case of infectious disease, and meanwhile great danger is sometimes incurred by the family or household with whom the patient may be residing. It is, therefore, a matter of great importance to provide a place for the patient where he will not endanger others if he proves to be infectious, and at the same time avoid the infection of

the probationer if his illness proves to be either non-infectious or a less dangerous infectious disease. These rooms will also prove useful at times for laundry and cooking purposes, or for occupancy by convalescents before going among children, or in times of epidemic as a reserve ward. Both hospitals have now been occupied, and have been found comfortable and convenient for patients and nurses. The hospitals can be communicated with by telephone, and are kept always ready for immediate use.

In August the first cases of typhoid fever of the year appeared, and their distribution and the milk supply suggesting possible contagion from milk, the agent of the board, assisted by the Inspector of Milk, made a thorough investigation, which relieved the milk from all suspicion and assigned other causes for the origin of the cases, some of which were found to have been imported.

During the summer and autumn a smaller number than usual of cases of malaria were met with in the Holyhood district, and but a few cases in other parts of the town. As a result of the meeting of the Newton and Brookline Boards of Health, held at Hammond's Pond, September 12, 1893, surveys and estimates of cost were made by the civil engineers of the two municipalities with reference to drying up the swamp-land about Hammond's pond and draining the stagnant pools in that neighborhood. As there has been a decided decrease of malaria in Brookline the past season, the board has not yet asked for any appropriation for carrying out the plans of the engineers, but has served a notice on the parties responsible for the stagnant pools in the Holyhood district that said pools are a nuisance and must be abated.

Scarlet fever and diphtheria were almost unknown in the town during the summer vacation, only three cases occurring during that period, but with the opening of the schools in September both diseases began to be more common in this town and in the neighboring cities and towns. In September there were two new cases of scarlet fever and six of diphtheria, and October and November furnished about the

BOARD OF HEALTH HOSPITALS

same number, while in December the number of new cases of scarlet fever was five, and of diphtheria was thirteen, with a number of fatal cases. The board early decided on the most rigid enforcement of existing regulations, and also adopted a number of important new measures to prevent, if possible, an epidemic of either disease. Recognizing the fact that the proper isolation of the very first cases of contagious disease in crowded tenements often prevents an epidemic, on October 8th, when three cases of scarlet fever appeared on the first* and second floors of a certain tenement and thereby exposed some twenty other children, the board provided for the immediate removal of the patients to a suitable building, as the hospital buildings were not promised by the contractor until November 1st. Four other patients were admitted to the temporary hospital before the permanent hospitals were ready, all going voluntarily, or with the written consent of their parents,—the latter, in two instances, even requesting the board to take care of their sick children in the hospital in order to protect their other children. In due time all the patients were discharged well, and meanwhile, in no instance did another case appear in their tenements or houses after their removal, while by their removal the school attendance of all the other children was interrupted but a fortnight, instead of till six weeks from the commencement of the last case in the house, whenever that might be.

The new hospital buildings had been in readiness only a month when they were urgently needed for two diphtheria patients from two populous tenements. A few days later they were joined by a third patient from the first floor of still another crowded tenement in a densely populated district. This patient's little brother, too ill for transportation to the hospital, died at home of diphtheritic croup a day or two before, though having good medical attendance and being nursed by his mother. In December a domestic in a family residing on Beacon street was admitted to the hospital. One of the diphtheria patients, after two days in the hospital,

* As air currents in tenements usually ascend, contagious cases on the first floor are most apt to spread the disease.

proved to have scarlet fever also, and was removed at once to the other new building, and was given a special nurse. This was the only patient removed to the hospital with the assistance of a constable and warrant, and was the boy whose brother died in his tenement home. Fortunately all of the eleven hospital patients, thanks to their good accommodations and faithful, skillful nursing, made good recoveries.

In November the agent of the board was authorized to arrange with Professor Harold C. Ernst, director of the bacteriological laboratory of the medical department of Harvard University, to supply to any registered physician, on application, free, a diphtheria test culture outfit, a sufficient number of the latter to be kept constantly on hand at Messrs. Young & Brown's drugstore, each outfit, when used, to be taken to the laboratory from said station by a special messenger. In this way mild cases of diphtheria, the most dangerous for spreading the disease, can with certainty be detected, and both light and severe cases can be diagnosed without waiting for the unmistakable signs that may or may not appear later, and when it might be too late for the best antitoxin to be of any service.

As the probability of an epidemic seemed, from the alarming prevalence of diphtheria in November in the neighboring city, to be very strong indeed, the board voted, December 10th, that the agent should secure a sufficient number of physicians to make daily medical inspections of the schools. Six inspectors and four substitutes were at once appointed. All accepted, were assigned to schools, and on the 11th all were at their posts. The appointments and assignments were as follows: Benjamin S. Blanchard, M. D., High, Pierce Grammar and Pierce Primary schools; J. Henry Woods, M. D., Cabot and Devotion schools; Harry M. Cutts, M. D., Lawrence and Longwood schools; George H. Francis, M. D., Sewall-street and Heath-street schools; Almon Cooper, M. D., Winthrop and Parsons schools and Union-building kindergarten; Everett M. Bowker, M. D., Lincoln and Boylston-street schools.

The duties of the inspectors were mainly confined to the examination of children found by their teachers to be ill, and

also any noticed by the inspectors, and advice as to the disposal of sick children. In making a success of this precautionary measure the School Committee, Superintendent Dutton, Truant Officer Robinson, and, with very few exceptions, the teachers, heartily coöperated. The inspectors performed their duties judiciously, and the daily inspection was suspended January 23d only because of the decrease in the number of contagious cases.

During the whole year, but especially in the summer and autumn, much work was done in the Sanitary Inspector's department and in that of the Inspector of Milk, and attention is called to their reports. A number of complaints of nuisances received the attention of the board, and such action was taken as seemed appropriate.

The agent of the board wishes to thank Dr. George K. Sabine, formerly agent of the board, for valuable suggestions and advice. His thanks are also due Dr. Tappan E. Francis, Dr. Abbott of the State Board, Dr. Rowe, Superintendent of the Boston City Hospital, for suggestions as to hospitals, and to Dr. Durgin of the Boston Board of Health, for valuable suggestions as to school inspections. He is also under obligations to Chief of Police Bowman and members of his department for assistance, especially in ambulance service for contagious patients and almost daily communication, when necessary, with the hospitals by a mounted officer.

Special attention is respectfully called to the following extracts from the Public Statutes and Orders of the Board of Health, relating to contagious diseases, also to the appended reports :

[ACTS OF 1884, CHAPTER 98.]

AN ACT CONCERNING CONTAGIOUS DISEASES.

SECTION 1. [As amended by Act of 1890, Chap. 102.] When a householder knows that a person within his family or house is sick with small-pox, diphtheria, scarlet fever, or any other infectious or contagious disease dangerous to the public health, he shall immediately give notice thereof to the Board of Health of the city or town in which he dwells, and upon the death, recovery, or removal of such person, such of the rooms of said house and such of the articles therein as, in the opinion of the Board of Health, have been subjected to infection or contagion shall be disinfected by such householder to the satisfaction of said Board of

Health.* Any person neglecting or refusing to comply with either of the above provisions shall be punished by a fine not exceeding one hundred dollars.

SECT. 2. When a physician knows that a person whom he is called to visit is infected with small-pox, diphtheria, scarlet fever, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Selectmen or Board of Health of the town; and if he refuses or neglects to give such notice, he shall forfeit for each offense not less than fifty nor more than two hundred dollars.

SECT. 3. The Boards of Health in the several cities and towns shall cause a record to be kept of all reports received in pursuance of the preceding sections, and such record shall contain the names of all persons who are sick, the localities in which they live, the diseases with which they are affected, together with the date and names of the persons reporting any such cases. The Board of Health shall give the School Committee immediate information of all cases of contagious diseases reported to them according to the provisions of this act.

SECT. 4. The Secretary of the Commonwealth shall furnish the Boards of Health with blank books for the record of cases of contagious diseases as above provided.

[The Board of Health considers small-pox, scarlet fever, measles, diphtheria, membranous croup, cholera, typhus fever and typhoid fever to come within the meaning of sections one and two of the above, but disinfection after measles and typhoid is not insisted upon.]

EXTRACTS FROM THE PUBLIC STATUTES CONCERNING VACCINATION.

CHAP. 80, SEC. 51. Parents and guardians shall cause their children and wards to be vaccinated before they attain the age of two years, and revaccinated when the Selectmen or Mayor and Aldermen shall, after five years from the last vaccination, require it. For every year's neglect the party offending shall forfeit five dollars.

CHAP. 80, SEC. 53. Towns shall furnish the means of vaccination to such of their inhabitants as are unable to pay for the same.

CHAP. 47. SEC. 9. The School Committee shall not allow a child who has not been duly vaccinated to be admitted to or connected with the public schools.

[Application for vaccination, by persons who are unable to pay for it, may be made to any member of the board or to its clerk or agent.]

ORDERS OF THE BOARD OF HEALTH.

1. *Ordered*, That no child be allowed to attend school from any house where there is or has been a case of diphtheria, scarlet fever or measles, until the expiration of at least four weeks from the commencement of the last case in the house if diphtheria, six weeks if scarlet fever, and if measles, two weeks after the disappearance of the eruption, and till a certificate of the attending physician is furnished to the Board of Health that all danger of infection has passed; said certificate in cases of diphtheria to be based on the result of a bacteriological examination.

* In Brookline, disinfection after scarlet fever and diphtheria is in all cases done by the Board of Health, and is done free of expense where the householder is unable to pay for it.

2. *Ordered*, That no child that has visited a house in which there was at the time a case of scarlet fever shall attend school till the expiration of two weeks following exposure.

3. *Ordered*, That every house infected with diphtheria, scarlet fever or small-pox, shall have affixed on or near the front door a card, furnished by the Board of Health, stating the disease to be avoided, and any unauthorized person removing such card shall be liable to a fine not exceeding \$100.

4. *Ordered*, That no child, from any house where there is a case of scarlet fever or diphtheria, shall be allowed to mingle with those from any other house, until after the recovery or death of the patient and the disinfection of the premises and the removal of the card.

5. *Ordered*, That the clerk of the Board of Health be directed to notify the Trustees of the Public Library of the existence of any case of contagious disease as soon as reported.

6. *Ordered*, That such rooms and such articles in any house as in the opinion of the Board of Health have been subjected to infection or contagion from scarlet fever, diphtheria, or any other infectious or contagious disease dangerous to the public health, shall be disinfected by the board. The attending physician or the agent of the board shall decide in each case as to the proper time for disinfecting, and shall notify the board without delay; but in no case of scarlet fever or diphtheria shall disinfection be done in less than four weeks from the commencement of the last case in the house (except by special permit of the board); and in all cases a certificate of the attending physician shall be required, stating that all danger of infection has passed; said certificate, in case of diphtheria, to be based on the result of a bacteriological examination.

7. *Ordered*, That no public funeral shall be held over the remains of any person having died of small-pox, scarlet fever or diphtheria without the written permit of the Board of Health, and under such regulations as may prevent the spread of either of said diseases. *Ordered*, further, that the remains of persons dying of either of said diseases shall at once be placed in a tight or sealed coffin, and shall not thereafter be exposed to view, or disturbed except for burial.

8. *Ordered*, That the undertakers of the town be notified to warn families, in case of the death of a member from contagious disease, against a public funeral.

9. *Ordered*, That circulars suggesting means for preventing the spread of scarlet fever and diphtheria be sent to every house in which a case of said fever or diphtheria shall be reported.

10. *Ordered*, That no child ill with whooping-cough be allowed to attend school.

REPORT OF THE VETERINARY INSPECTOR AND INSPECTOR OF MILK.

BROOKLINE, MASS., Jan. 31, 1895.

To the Board of Health:—

GENTLEMEN,—I have the honor to submit the following report:—

At the time I submitted my annual report for 1894, I called your attention to the fact that all samples of milk collected, were subjected to a chemical analysis, and that arrangements were made with C. Brigham & Co., whereby their chemist, Mr. Blair, made such analyses. This, however, caused an unnecessary expenditure of money; consequently, by authority of the board, a small laboratory was fitted up where such analyses could be made by myself without entailing further expense.

During the past year we have collected and examined 301 samples of milk, showing an average of 12.83 per cent of solids,—a remarkable improvement over that of the preceding year. Many other samples of milk have been examined at the request of private individuals.

No prosecutions have been made the past year, owing to the fact that no samples have been collected which were much below the standard required by law. In a few instances, where samples were taken that proved to be below standard, a notice to the interested parties corrected the matter at once, so that during the entire year the average has been 12.83 per cent.

During the year my attention has been called to two horses suspected of being affected with glanders, one of which was condemned and destroyed.

My attention has been called to 131 cattle suspected of being infected with tuberculosis, of which 45 were found to be diseased, and destroyed. Aside from these, Dr. Austin Peters has reported two cases destroyed by him, and found to be affected with tuberculosis.

In many of the buildings where cattle are kept the sanitary conditions are far from what they should be. I would recommend for your consideration, some regulations as to the sanitary conditions under which animals shall be kept, whose products are to be sold for food.

Owing to the increased amount of work thrown upon me during the past year, I felt obliged to tender my resignation as Inspector of Animals and Provisions, which was done early in November, at which time I suggested the appointment of Dr. Alexander Marshall for such position.

I wish to acknowledge with thanks the valuable assistance rendered me in my work by the medical officer of the board, H. Lincoln Chase, M. D., Mr. George S. Rich, collector, Dr. Alexander Marshall, Inspector of Animals and Provisions, and Alonzo Bowman, Chief of Police.

Respectfully,

FREDERICK H. OSGOOD, M. R. C. V.S.

REPORT OF THE SANITARY INSPECTOR.

BROOKLINE, January 31, 1895.

To the Honorable Board of Health:—

GENTLEMEN,—I herewith respectfully submit the following annual report as Sanitary Inspector for the year closing January 31, 1895.

The number of visits of inspection was 284. All complaints alleging nuisances have been fully investigated, and all actual nuisances have been abated. These embraced offensive stables and privies, overflowing cesspools, defective house-drainage, smoke nuisances, filthy yards, stagnant pools, and other nuisances of like character.

During the bathing season the portion of the village brook from the bath-house to Cypress-street bridge was inspected weekly or oftener, and any objectionable material detected in the stream was promptly removed.

Fortnightly inspections of the yards and out-buildings in the more densely populated parts of the town were made regularly during the warm months. Much good resulted from these inspections, as the yards were kept constantly clear of kitchen refuse and decomposing material of all kinds.

Forty-four permits have been granted for improving the drainage. Three house owners have complied with the order of the board to abandon their privies and connect their buildings with the sewer.

Each year the demand for the inspection of plumbing in the older buildings increases and many more inspections have been made than during the previous year. With the assistance of the Inspector of Buildings, peppermint tests have been made in seven houses,—in five, by request of the owners, and in two, by request of the agent of the board, where there were cases of diphtheria.

During the year Mr. Willard E. Ward disinfected the infected rooms in forty houses where there had been scarlet fever, in twenty-nine where there had been diphtheria, and in one, by request of the householder, where there had been cancer. He also disinfected the small-pox hospital once, the temporary hospital on Clyde street once, and the new diphtheria and scarlet fever hospitals once each.

I am indebted to the agent of the board, Dr. H. Lincoln Chase, for valuable information and assistance.

Respectfully submitted,

MICHAEL DUFFLEY,

Sanitary Inspector.

REPORT ON THE VITAL STATISTICS.

To the Selectmen of the Town of Brookline:

The undersigned herewith submits the report of the vital statistics of the town for the year ending December 31, 1894.

Marriages, by Months.

MONTHS.	Whole Number.	First.	Second M.	Second F.	Third M.	Third F.
January	8	15	1			
February	8	13	3			
March	16	30	1	1		
April	19	35	1	1	1	
May	11	21	1			
June	25	47	3			
July	9	18				
August	11	20	2			
September	10	17	1	1	1	
October	33	61	3	2		
November	19	38				
December	8	15	1			
	177	300	17	5	2	

Of the above marriages, three were the first of the groom and second of the bride; sixteen were the second of the groom and first of the bride; one was the second of the groom and second of the bride; two were the third of the groom and first of the bride; one hundred and fifty-five were the first of the groom and first of the bride.

Births by Months.

MONTHS.	Whole No.	Males.	Females.
January	34	16	17
February	27	16	11
March	34	18	16

ALMSHOUSE—Miss Edgerly, Mrs. Codman, Mr. Daland.

POOR—The Board.

SICK POOR—Miss Edgerly, Mr. James.

REPORT OF THE OVERSEERS OF THE POOR.

The work of the board varies so slightly from year to year that there seems little to report beyond mere statistics.

The Almshouse has continued under the watchful care of Mrs. Campbell, and has been well and economically managed. The number of inmates is now six, and four of these have remained throughout the year. Three other persons have been received for short periods.

In the list of those receiving regular out-door relief we find some changes. Three women, Mrs. Moran, Mrs. Quinn and Mrs. Ryan, have, with the aid of their children, become self-supporting, and one widow has gone to live with a married daughter. But, on the other hand, we have a few new cases, and some families who last year received only occasional relief, now seem to think it necessary to apply for it every week. And there is one decided change to be noticed ; a few years ago we had no men on our list, except those at the Almshouse, and we were able to say that, except in cases of temporary illness, we gave help only to widows and children. This is no longer the case, and five of the families receiving regular relief are not of this class, and in all these cases the need is caused by intemperance. In one, the father, an able-bodied man, has deserted his family, one is in the Hospital for Dipsomaniacs at Foxboro, and the other three, though still able to do some work, are more or less incapacitated by long-continued habits of intemperance. It does not seem just that the tax-payers should be called upon to support such men in idleness.

One widow has been added to the number of those receiving regular relief.

Three children still remain permanently in the care of the board, and two others were supported for a time while both parents were in the House of Correction. Five boys have

been at the various correctional institutions, and two now remain at the Truant School and two at the Westboro Reform School. Two of these are, however, chargeable to Cambridge.

Temporary aid for the sick has been given in many cases, at an expense of \$1,187.17, a slight decrease from last year.

Some of the most troublesome cases that come under our care are those of persons who have recently come into the town and have acquired no settlement. They are often extremely destitute, and while the actual cost of relieving them does not fall upon the town, they require many visits and excite much sympathy in the community by their pressing needs.

The number of insane supported at the state hospitals, at an expense of \$3.25 per week, is now nineteen; an increase of two during the year.

Among the families regularly relieved there have been no deaths.

We have expended \$8,103.93, about \$500 less than last year, which is, however, partly accounted for by the fact that the expenses of truant children are no longer paid out of this appropriation. The usual tables are given below.

Inmates at Almshouse.

Michael Doyle, 61 years, admitted June 14, 1894.

Martin Flanigan, 66 years, admitted November 21, 1893.

Patrick Griffin, 60 years, admitted October 25, 1894; discharged November 18, 1894.

Michael Mahoney, 74 years, admitted July 8, 1891.

Bernard McDermott, 31 years, admitted July 11, 1893; discharged March 7, 1894.

Denis McNamara, 45 years, admitted November 24, 1894.

Catherine Owens, 70 years, admitted October 24, 1894; discharged November 2, 1894.

Ann Roy, 61 years, admitted February 25, 1886.

Joseph Roy, 66 years, admitted February 25, 1886.

Children.

George Close, $4\frac{1}{2}$ years; William Close, 9 years—under the care of Boston Children's Aid Society; amount of aid, \$226.21.

Mary Conley, 15 years, at Brookline; amount of aid, \$78.

Helen Morrissey, 8 years; Margaret Morrissey, 12 years; amount of aid, \$45.

Henry J. Thing, 15 years, at Wellfleet; amount of aid, \$104.

Truants and Juvenile Offenders.

James Lynch, 12 years, Walpole; time served; \$63.71.

William Minnick, 9 years, Walpole; \$26.85.

William L. White, 14 years, Walpole; \$88.56.

Patrick Burke, 12 years, State Reform School, Westboro.

Charles G. White, 15 years, State Reform School, Westboro.

THE PARK COMMISSIONERS.

THE PARK COMMISSIONERS.

ORGANIZATION, 1894-95.

CHARLES S. SARGENT Term expires 1895.
WILLIAM H. LINCOLN Term expires 1896.
HENRY M. WHITNEY Term expires 1897.

HENRY M. WHITNEY, *Chairman.*
GEORGE F. JOYCE, *Clerk.*

REPORT OF THE PARK COMMISSIONERS.

The Park Commissioners have the honor to submit the following report :

During the year a settlement has been made with James Patterson for land taken for the Park, for which, with legal expenses, we have paid \$385.00, which has overdrawn our appropriation for this purpose \$41.31. There remains to be settled with, Margaret Roach, from whom we have taken 109 feet of land.

The expenditure on account of construction, including the cost of introducing the system of lighting by electricity, for which a special appropriation of \$2,200.00 was made, has amounted to the sum of \$23,670.08, leaving a balance in the treasury of \$20.68.

The work of construction is substantially finished, and no further appropriation is desired during the coming year on this account.

A suit has been brought by Mr. H. P. Nawn, the contractor for macadamizing the walks and drives. He claims to have done work to the value of \$13,784 more than has been allowed him in the Engineers' estimates, which, under the contract are final and binding upon both parties. According to these estimates he has been paid in full.

The maintenance of the Park system will require not less than \$5,000.00 per year hereafter, and the Commissioners hereby request an appropriation of that sum for this year, on this account.

The sum of \$10,678.33 has been received this year on account of betterments, making the total amount thus far collected \$61,702.98.

The total cost of the Park, including maintenance, to date, less the amount received for betterments, is \$457,069.97.

11

For details of expenditures reference is made to the accompanying statement, and for further information, to the report of the Town Engineer, printed on page 166.

An appropriation of \$4,000.00 for the improvement of the Longwood playground was made last year, of which \$3,835.19 has been expended, and the Commissioners ask for another appropriation of \$4,000.00 for the ensuing year, with which to continue the work.

Mr. Leonard Stone has addressed the board, and offered to present to the town free of all charge, the lot of land known to many as the horse-shoe lot, situate on Linden place, upon condition that the town will assume the care of the lot. This lot contains about 9,500 feet, and was assessed last year for \$3,600. We recommend the acceptance on the part of the town, of Mr. Stone's offer.

HENRY M. WHITNEY,
CHARLES S. SARGENT,
WILLIAM H. LINCOLN,
Park Commissioners.

THIRTY-EIGHTH ANNUAL REPORT
OF THE
TRUSTEES OF THE PUBLIC LIBRARY.

The results of the past year in the work of the Public Library, as shown in the statistics herewith presented, are regarded by the Trustees with much satisfaction. Library science is still new and continually growing. We have taken advantage of improvements which the experience of others has approved, and we have ourselves inaugurated one important change which is likely to be adopted by other public libraries throughout the country. This is the permission to have two books charged on one card at the same time, providing one of them is other than a work of fiction.

This new regulation is in part to be credited with the large gain in our total circulation. But aside from this, all tests show a natural and steady growth. 15,318 more books than ever before were taken from the Library for home use, and 3,084 more books than during the preceding year were called for to be read within the Library. It must always be borne in mind, in comparing our statistics with those of other Libraries, that we make no record of the use to which the books in our Reference room are put. This room is one of the busiest parts of our Library, and were it possible to tabulate the results of its usefulness, the figures which tell our total circulation would be carried to a much larger sum. The convenience to the public in having direct access to these books is very great, and learning the use of them is now made a part of the training of the older school children of the town. We are glad to report that during the past year no single case of abuse of this important privilege has been brought to our notice.

The friends and patrons of the Library are rapidly increasing. During the year we have made a total gain of 652 card-holders; and in this, we are sure, we have more

than kept pace with the growth of the town in population. We have constantly sought to interest older residents not heretofore readers of our books, and we trust that the means that we have employed to this end have been in a measure successful. Many of our citizens, of course, are entirely independent of the advantages we thus offer them, but there are others who have never formed a habit of reading, whom it is our problem to reach, if we can.

That for a number of years we have been making a steady advance in rendering the Library more useful to those who do seek its help, is proven when we divide the total circulation by the total number of books. This shows, approximately, the average number of times that the individual book is called for; or, to put it another way, it shows how many times the public, if it had been one reader, might have read the Library completely through. Beginning with the year 1891, that quotient has risen by small fractions from 1.8 % to 2.4 %, where it now stands.

This year the statistics of the suggestion-box have been kept. We are therefore able to make a more definite report of the extent to which readers have availed themselves of this method of making their wants known, and of the action of the Trustees in response thereto. One hundred and seventy-two suggestions have been received. Eighty-two of the books thus asked for, not quite half the whole number, have been purchased. We have declined to purchase sixty-seven for various reasons. Many of these were juvenile books of a character which we have hitherto excluded from the Library. Others seemed too expensive to warrant the outlay for the very limited use they would serve. Seventeen have not been definitely accepted or rejected. Most of these are either foreign books or books out of print, some of which we have been unable to find, while the names of others have been put upon a waiting list to be secured when a favorable opportunity shall present itself. Six requests were made for books already in the Library. The Trustees do not wish to evade the responsibility placed upon them for the selection of books, and therefore reserve the

right of ultimate decision in all cases ; but they welcome these indications of the preferences of readers, and only wish they might have more of them.

An important piece of work accomplished during the year is the new arrangement and classification of the fiction department. This work was made necessary by the crowding of the alcoves before the building was enlarged, and the consequent location of many books out of their proper place. As this rearrangement involved changing the numbers on many thousands of cards in our catalogue, it was a laborious undertaking. That it has been accomplished without the employment of special help, and without any withdrawal of books from circulation, of which the public could be made aware, reflects much credit upon our Librarian and his assistants. A complete new finding-list of works of fiction is now in the hands of the printer, and will soon be ready for delivery. For home use, and for ease of reference at the Library, we expect this to prove of much value to the public.

Many pamphlets have accumulated in past years which have been stored away in idleness. It was the purpose of our late Librarian to put these in order, and she had talked of undertaking the task during what proved to be the last year of her life. Our new Librarian could not at once attack this formidable and wearisome work, but now it has been successfully carried through. The pamphlets have all been sorted, and those of sufficient value have been arranged in boxes under appropriate titles. Our card-catalogue will soon direct readers to these sources of information on many interesting topics, and much of this hitherto idle literature will then come into active use.

An excellent portrait of Miss Bean has been procured and now hangs in the Reference room. Her pleasant face thus looks down upon a scene which she herself loved to contemplate,—the busy children from the schools searching out references for their studies and compositions. It is a pleasure to us, as we are sure it must be to all her many friends, to have her memory thus associated with the growth and

prosperity of the institution to which she so long devoted her life.

We record our grateful sense of the fidelity and zeal of the employees of the Library, who take pride in all that makes for its welfare, and work for its good, not merely for their own reward. Further information is given by the reports hereto appended, and we invite a careful reading of the detailed account of our work, presented by the Librarian.

This certifies that I have examined the foregoing account, with vouchers, find same correctly cast, properly vouched and balances as follows: Town appropriation, \$1,911.12; Hall Fund, \$12.55; Gardner Fund, \$657.43; and evidences of investments as above stated.

TAPPAN E. FRANCIS, *Auditor.*

REPORT OF THE LIBRARIAN.

BROOKLINE, Feb. 1, 1895.

To the Trustees of the Brookline Public Library:—

GENTLEMEN,—My second annual report, for the year ending January 31st, 1895, is herewith respectfully submitted. The last twelve months have offered exceptional opportunities for increasing the usefulness and influence of the Library. In the midst of a rapidly growing community, naturally attracted to good literature, there has been a continual stimulus to better work.

We have tried not to forget on the one hand the student who needs special conveniences, quiet, and some liberty in the use of books; while on the other hand we have striven to make the Library attractive to the occasional visitor, through pictures of authors, notes on current events, exhibitions, and the simpler reference aids, like the local directories, the town map, railroad and street-car time tables, weather bulletins, and lists of popular books for old and young.

Accessions.

The catalogue of accessions for the year records 1,655 volumes and 486 pamphlets, besides a number of drawings, photographs, and portraits.

Books added by purchase	1,273
“ “ “ gift	142
“ “ “ binding periodicals	240
Total	1,655

Of the books purchased (1,273) there were 32 to replace books withdrawn, leaving a gain in new books of 1,241.

New books added	1,241
Gifts added	142
Bound periodicals added	240
Net gain	1,623
Number of volumes in the library (1894)	40,332
Number of volumes in the library (1895)	41,955

Circulation.

The statistics for the Library year of 305 days show the following figures :

Home use (desk account)	81,423
Home use (trustees' account)	1,730
Home use (special privilege—17 people)	31
Home use (reference books over night)	38
Total home use	83,222
Library use (on hall slips)	4,203
Total home and hall use	87,425
Library use (children's reading room)	16,671
Total registered use	104,096

The total circulation for home use exceeds that for last year by 15,318, and for use in the library by 3,084, or in all an increase in circulation of 18,402 over last year. The average number of books circulated to each inhabitant (home use) was 5.2 against 4.52 last year.

The average daily circulation from the desk for home use was 272, and including the Trustees' account, 278 ; the average for home and hall use was 287, and including books used in the children's reading room, 341. The largest circulation in one day, March 3, was 536, against 412 last year. The circulation for March was 9,252. A larger Reference room and a larger Reference library are needed if we are to increase the use of books on hall slips, without encroaching too far upon the space in the reading room.

This year 788 new cards have been issued to borrowers, making a total of 6,552 names now registered. The Library has sent 7,027 notices for books overdue ; the increase was occasioned in part, no doubt, by the natural misunderstandings which arose from changing the form of the borrowers' cards. The number is larger than it should be, and the amount of money collected in fines (\$276.43) is not as large as it would be were the rules for payment rigorously enforced.

The record of books bound and rebound is 240 and 387 respectively. During the year 2,678 volumes of fiction were covered, against 12,505 last year. The reduction, by

10,000, in the number of books covered, saved the time of one attendant about 32 days, which materially hastened the preparation of the fiction-list. Many of the books, however, were allowed to go without attention longer than would under ordinary circumstances be permissible.

The Children's Reading Room.

Mr. Orcutt has had a crowded children's room to oversee, and has performed the difficult duty of attracting the children and at the same time enforcing order. During the year just completed, 9,993 boys and girls used the room. The number of books that were looked at and read reaches 16,671; a record which proves how ready children are to find amusement in books and pictures, and to substitute for the questionable influence of the streets the helpful surroundings of our Public Library. The number of books allowed each child is limited to two on any one day, to insure more than a wholly careless examination of the books.

THE WORK OF THE YEAR.

The Two-Book System.

Undoubtedly the most important innovation of the year for our Library has been the privilege of taking two books on a card. The result may be seen by consulting in another part of this report the statistics for the year. In February, 1894, I read that the Clerkenwell (England) Public Library was accustomed to grant a special card, or "ticket," to anyone who asked for it, not good for fiction. The idea appealed to me at once, but there is an objection to making the borrower take the initiative to get two books. Those who most appreciate privileges are often least likely to push forward to obtain them. With this in mind I suggested the two-book system, which was recommended by the Library Committee and adopted by the Trustees, February 20th. The charging systems of some libraries present obstacles to charging two books on one card, but if a non-fiction card is given as a matter of course to each borrower, the same end is attained. Where the slip system is used, as at Brookline, two-books-on-a-card is, I think, preferable.

After a month's trial I described the plan in the *Library Journal* for May. The following statements I copy from that article. "A reader may keep a history a month (by renewal), and read 20 novels during the same period; or, he may take two books other than fiction. But, as our 'new books' are limited in number (designated by a red star), but one of these may be kept out on the card at a time." Since the above was written we have found that the restriction to one new book kept people from taking a new novel and a new "other work" at the same time. To allow this (since they would take the new novel and leave the other work) all fiction is treated as old, although the books stand on the new-book shelves.

There would be an advantage in having the name and number of the borrower on the same side with the spaces for charging, to save turning over the card.

Lancaster, Norwich, New Haven, Hartford, Bayonne, Newark, and Philadelphia were among the first to unite with Brookline in granting this extension of privileges to the public. Miss Wood, of Lancaster, writes in the November *Library Journal*: "The card grows in favor, and it is gratifying to see that each successive month the proportion of solid reading is greater, that of novel reading less."

Fiction List.

The rearrangement of fiction alphabetically by authors is now complete. The work has been done by the regular Library force, with the addition of a boy for a part of each day to run for books. The increase in circulation, caused by the two-book system, made it impossible during the busy hours of the afternoon and evening for the attendants to leave the desk to get books. Much of the desk work has been done by the two boys who come on alternate days, allowing more rapid preparation of the fiction-list for the printer. The list, which is now being printed, will give all the English fiction in the Library, by authors and titles, with the historical and juvenile works indicated. The shelf-numbers of over 30,000 cards have been changed, and the cards put under the pseudonyms where they are better known than the real names.

French Books.

A typewritten list of works in French has been prepared, to be used at the desk.

Lists of 100 Books.

The first list "100 good novels; authors A-M," was issued in October. The second list "100 good books for boys and girls (not fiction)" appeared in December. Other lists will follow.

Brookline Room.

The Trustees voted on February 24th to establish an Historical room. An alcove has been set apart to which anyone may go upon application to the Librarian. The collection has already outgrown the alcove and will soon, it is hoped, find a place within easy access for the public. The pictures, papers, autographs, and pamphlets form a creditable nucleus, but there is so much that Brookline citizens might give that the collection should become treble the size at the end of another year. The Librarian has prepared an index to Miss Woods' "Historical Sketches of Brookline." It will soon be in print.

Events of the Day.

The bulletin board, devoted to current events, was established in January. Besides pictures of public men like President Faure, Lord Rosebery, and the Czar, there have been: A map of Japan, with a bibliography of Japan and China; pictures of the Kearsarge and Alabama, (15 Feb.); lists of articles for teachers, and general lists for women; besides the references, from day to day, to important events chronicled in papers and magazines. A map of Brookline, time-tables, and directories are near at hand.

Picture Board.

Finding that people were interested in portraits of authors and occasional criticisms of books placed on a special bulletin board, the plan has been continued. It may safely be said that a portrait has been exhibited of the author of every

important book issued during the year. Groups of pictures relating to Conan Doyle were posted when he lectured in Boston; of R. L. Stevenson, Dr. Holmes, and President Carnot, when they died. Among the single portraits, those of Mr. and Mrs. Le Gallienne, Miss Sewall the author of *Black Beauty*, Dean Hole, Froude, Crockett, Mrs. Ward, and Miss Harraden, may be mentioned as representative. In all 28 portraits with biographies, 107 portraits simply, or 135 portraits in all, with 22 criticisms, and 7 drawings by Aubrey Beardsley, Gibson, and others, were posted on the board during the year.

Catalogue.

The card at the beginning of each drawer, carrying the catchword, has been replaced by a more durable zinc guide. The cards under Dictionary and Encyclopædia, have been given subject sub-headings. English and French history have been rearranged, grouping the cards by historical periods. Many English translations of Dumas and Hugo bear the original French titles. These translations have been distinguished from the editions in French. Title cards have now been made for every periodical in the Library.

Analytical Cards.

Believing that a small library well catalogued is superior to a large one imperfectly catalogued, duplicate cards have been printed for books containing many essays and biographies, with the title given below the first line, the subject of the essay or biography being written above this title with the typewriter.

College and School Catalogues.

The larger colleges and schools have been asked to keep the Library on their mailing lists, that parents and children may find annual catalogues in the Reference room for examination. They have proved of interest to many.

Pamphlets.

From time to time, during the latter half of the year, the 15,000 pamphlets which form the accumulation of a quarter

of a century, have been examined and arranged. Those of value are being placed in boxes, labelled, given numbers, and put on the shelves with the books on like subjects. A subject-card for each box will be placed in the catalogue, bearing the following printed note :

A collection of pamphlets relating to the above subject may be consulted in the Library. Upon examination, any pamphlet may be taken out by giving on a slip the shelf number of the box followed by the number written on the title page of the pamphlet.

Biographical pamphlets have been arranged alphabetically and bound, with a subject-card for each. The pamphlets so arranged have been of constant service.

Art Case.

The Library's art books are too valuable to be treated simply as picture books and worn out ; but that the public may know their titles and make judicious use of them, an art case with glass doors has been constructed in the Reading room. The key may be had upon application to the Librarian.

Privileges.

The point to which the freedom of use of books may be carried without detriment to the Library must always be debatable. Men who work all day have little time for study between dinner and the hour at which the Library closes. For them chiefly the Trustees voted to allow reference books to be taken out over night, Sundays, and holidays. Every reference book can be replaced by another copy, or by another book as good or better. A book goes out of the market only because a better one has come to occupy the field. The Library has taken a step forward in saying to the busy man : " There is no book in the Library which your hours of labor will prevent you from reading."

By means of the " Special privilege slip " a person may, upon giving sufficient reasons, be allowed more than the usual number of books, upon a particular subject, for a stated time, provided that these will be returned to the Library whenever they are wanted by others.

Schools.

To make the books in the Library serve the various classes in the schools, the Trustees voted to allow not more than twenty-five books to be reserved by a teacher for one month. By this arrangement one scholar does not keep a book from others. Whenever these books are wanted by anyone not connected with the schools they are allowed to go out of the Library. It was found necessary to place additional shelves in the Reading room to provide for these requests.

Special cards are now granted for the school year to children living outside of the town who pay tuition in the public schools.

We very much need a room on the ground floor where exhibitions of books and pictures can be held without disturbing students and readers. These exhibitions would attract to the Library many who stay away simply from a lack of sufficient incentive to make the first visit. As a means of education, also, collections of books and works of art are much more effective than the same books, etc., could ever be when seen one at a time.

Children's Shelf.

In April, fifty dollars were appropriated for books, not fiction, for boys and girls. These were placed on a shelf near the delivery desk, with the notice: "Books for Boys and Girls. You may take two of these books on one card, or one of these and one story." New books are added as they appear. In this way the children interfere less with older people, and they take special interest in having new books set apart for them. Parents, too, find the shelf useful in selecting books to read to their children.

Dummies.

Every book on the New-book shelves and the Children's shelf, with those reserved temporarily for teachers, are represented in their proper places in the Library by a wooden book-dummy. This dummy shows that the book sought may be in another part of the Library and locates it.

Minor Changes.

Among the minor changes may be mentioned the division of the delivery desk, one end for receiving books, and the other for giving out books; the formation of a Genealogical alcove in the Reading room, which decreased our statistics of circulation, but has made investigation much more easy and has doubled the use of the books; the purchase of many books mentioned in Sargent's Reading for the young; the arrangement of short bibliographical lists in covers by subjects; and the starting of a Library Bulletin.

Conclusion.

The granting of two books on a card and the rearrangement of fiction have increased the duties of the Library staff. But the members have, without exception, interested themselves in the new methods, and to this our success has been largely due.

Mr. O'Connor resigned his position of assistant janitor in September, and Mr. Charles Robie, who took his place, has arranged the books of fiction on the shelves very satisfactorily.

The two boys, Harry Cormerais and John Floyd, who come on alternate days to help us, have learned their somewhat difficult duties quickly and well.

CHARLES KNOWLES BOLTON,
Librarian.

APPENDIX A. GENERAL CLASSIFICATION OF THE CIRCULATION FOR 1894-5.

THE WATER BOARD.

WATER BOARD.

ORGANIZATION, 1894-95.

WILLIAM K. MELCHER, <i>Chairman</i> ,	.	.	.	Term expires 1895.
GEORGE H. JOHNSON,	.	.	.	Term expires 1896.
OSCAR B. MOWRY,	.	.	.	Term expires 1897.

ZEPH. R. FORBES, *Registrar and Clerk*.

FAYETTE F. FORBES, *Superintendent of Works*.

RICHARD J. FLINN, *Engineer at Low-Service Station*.

WILLIAM B. WEBBER, *Engineer at High-Service Station*.

REPORT OF THE WATER BOARD.

The Brookline Water Board herewith submits its annual report, being for the fiscal year ending January 31, 1895, and the nineteenth annual report. As in former years the reports of the Superintendent of the Water Works and the engineers at the pumping stations, with pumping statistics, accompany this report.

At the annual town meeting held March 29, 1894, Oscar B. Mowry was re-elected a member of the board for three years. The board organized by the choice of William K. Melcher as chairman and Zeph. R. Forbes as registrar and clerk. There has been no change in the regular employees of the department.

Special Extensions.

The Water Board have been engaged with the following special extensions during the past year :

1st. The completion of the high-duty pumping engine.

2d. Extension of the driven-well system at Cow Bay.

The Completion of the High-Duty Pumping Engine. — The high-duty pumping engine was contracted for with the Edw. P. Allis Company of Milwaukee, Wisconsin, July 25th, 1892, but owing to delays of the manufacturer it was not ready to run until March 8, 1894, at which time it was successfully started and has been in constant use since that date. The engine was guaranteed to pump 5,000,000 gallons of water in 24 hours and show a duty of 120,000,000 foot-pounds per 1000 pounds of steam consumed, and at the duty trial it largely exceeded the requirements of the contract.

A brief comparison of this engine with the one previously in use, in relation to amount of water pumped and coal consumed, is worthy of note.

During the month of July, 1895, the new engine pumped 57,695,841 gallons of water and consumed 84,057 pounds of coal. Had the old engine been used, 186,000 pounds of coal

would have been required to perform this work. By this comparison it will be seen that in the month of July alone a saving of 101,943 pounds of coal was made. In the future better results will be obtained, as during the past year many necessary experiments were made and some of the piping changed, etc., all of which tend to lower the economic results.

The general results obtained by the use of the new engine are very satisfactory, and by comparing our pumping records with those of different towns and cities, we find that for first cost, economy of fuel and duty obtained, our engine is second to none.

Extension of the Driven Well System at Cow Bay.—At a special town meeting held October 10, 1893, the Water Board was authorized to contract for cast-iron pipe and other materials to an amount not exceeding \$10,000, for additional wells and connecting pipes for increasing the water supply. An appropriation of \$35,000 was made for this work at the adjourned town meeting held April 20, 1894.

Contracts were made, and in the spring of 1894 the pipes and other material were on the ground, ready for use as soon as the weather permitted. The water on the meadows receded to a sufficient extent to allow the work to be commenced about the middle of May. The season was favorable, and the water in the river being very low, no great difficulty was experienced in sinking the trench to the proper grade; one rotary pump being sufficient to take care of the water encountered.

The $2\frac{1}{2}$ -inch wells were driven at intervals of 25 feet along the line of the main pipe, and at an average depth of 50 feet; each well being connected with the main pipe and provided with an independent shut-off. Special pains were taken to have all joints and connections air tight.

The work was completed October 15, at which time 4,206 feet of 20", 16", 10", and 8" pipe had been laid and 118 $2\frac{1}{2}$ " wells driven and connected with the gathering pipe.

The yield of these new wells has increased the supply to such an extent that the board feel that they have a supply of water that will be ample for many years to come.

General Extensions—Street Mains and Service-Pipe.

During the past year there has been a greater demand for street mains and service-pipe than in the year previous, and with the exception of extending the 6" pipe in Heath street, all applications for this kind of work have been promptly complied with.

In relation to the proposed extension in Heath street, the board would say, that this matter was brought before the town at the request of Arthur Finnegan and Patrick McCarty, and at the special town meeting held October 30, 1894, authority in accordance with the said request was granted, and the necessary sum appropriated to do this work. As there had been a large demand for street mains throughout the season, it was found that the pipe for this extension would have to be purchased; the delay that would ensue while the pipe was being cast, in addition to the fact that a large amount of rock excavation would be met with, led the board to postpone the work until the coming spring. As no work has been done, or material purchased for this extension, the appropriation of \$5,000 has not been drawn upon.

The number of service-pipes laid the past year was 152, making a total of 2,549 now in use.

A detailed account of the extension of street mains will be found in the Superintendent's report hereto annexed.

Meters.

There are in use in town 1,143 meters, 106 having been set the past season. The following table shows the make, number and size of all meters used by private citizens and those in the public buildings of the town:

NAME OF METER.	$\frac{5}{8}$ -inch.	$\frac{3}{4}$ -inch.	1-inch.	1 $\frac{1}{2}$ -inch.	2-inch.	3-inch.	Total.
Crown	533	18	8	7	1	.	567
Hersey	125	8	.	1	2	2	138
Thomson	285	1	1	.	.	.	287
Duplex	55	1	.	1	.	.	57
Union Rotary	30	.	2	.	.	.	32
Trident	24	.	.	.	.	.	24
Nash	6	.	.	.	.	.	6
Worthington	27	.	.	.	.	.	27
Metropolitan	4	.	.	.	.	.	4
Weir	1	.	.	.	.	.	1
Totals	1090	28	11	9	3	2	1,143

The use of the water-meter is growing in favor, and in nearly all cases where it is in use, a material saving has been made over the schedule-rate charges.

Quality of Water.

The quality of the water now supplied to the citizens of the town still remains at the same high standard as in previous years. The use of the covered reservoir and covered stand-pipe insures a water nearly if not wholly free from microscopic animal and vegetable growths detrimental to its quality.

Buildings.

During the past year a new floor has been laid in the old engine-room of the low-service engine house, where the relief engines are now situated. Heretofore considerable trouble has been experienced in keeping the floor in this part of the building in repair, on account of the damp condition of the earth directly underneath. To remedy this trouble in the future and to make the piping from the engines easy of access, a cellar has been excavated under this new floor.

All other repairs in the low-service pumping station, made necessary by the setting up of the new engine, have received proper attention.

The boiler taken from the low-service pumping station has been re-set at the high-service pumping station; with this extra boiler, and the relief engine purchased some years ago, the supply will not be endangered through accident to at least one set of pumping machinery.

All buildings connected with this department are now in good condition and will need few repairs the coming year.

High-Service Tank and Reservoirs.

The water in the high-service tank was drawn off in October last, and a careful inspection of the iron plates with which the tank is built, and the roof and its supports, was made. With the exception of needing a fresh coat of paint everything was found to be in first-class condition. The inside of the tank, after having been thoroughly scraped, was painted with the best grade of asphaltum; on the outside and roof ordinary oil paint was used.

The general condition of the stand-pipe is such that after ten years of use no signs of deterioration are discernible.

The covered reservoir was emptied once during the year, and on inspection was found to be in perfect condition.

The old open reservoir has remained filled for use in case of emergency, and has only been used while the covered reservoir was undergoing inspection.

Financial Statement.

EXTENSION ACCOUNT FOR THE YEAR ENDING JAN. 31, 1895.

RECEIPTS.

GENERAL EXTENSIONS, appropriated April 16th, 1894 :

For Service-pipe and connections (with receipts)	\$3,000 00	
“ Street mains likely to called for	4,000 00	
“ Gates and hydrants	1,000 00	
“ Meters and connections	2,500 00	
Appropriated Oct. 30th, 1894 :		
For Street mains	1,000 00	
“ Extension of street main in Heath street . .	5,000 00	
Receipts for special work (street mains and service-pipe)	8,876 93	
		\$25,376 93

SPECIAL APPROPRIATIONS, appropriated April 16th and 20th, 1894 :

For Extension of system of driven-wells at Cow Bay.	\$30,000 00	
Transferred from appropriation for new force-main to extension of driven-wells, as per vote of town.	5,000 00	
For Setting boiler, etc. at high-service pumping station.	1,000 00	
For New floor and cellar at low-service pumping station.	1,500 00	
		\$37,500 00

BALANCES on hand Feb. 1st, 1894, on account of appropriations :

For Covered Reservoir	\$280 17	
“ Addition to low-service pumping station . .	179 08	
“ New force-main	12,979 26	
“ New pumping engine	14,755 12	
		\$28,193 63

DISBURSEMENTS.

GENERAL EXTENSIONS.

For Street-mains	\$12,335 41	
“ Service-pipe and connections.	5,224 90	
“ Meters and connections	2,498 41	
*Unexpended Balances	5,318 21	
		\$25,376 93

SPECIAL EXTENSIONS.

For Addition to low-service pumping station . .	\$11 90	
“ Covered Reservoir	178 18	
“ Extension of system of driven-wells at Cow Bay	30,333 41	
†For New force-main	10,548 34	
“ New pumping engine	14,619 82	
“ New floor and cellar at low-service pumping station	1,262 10	
“ Setting boiler, etc., at high-service pumping station.	1,000 00	
		\$57,953 75
Total expenditures for extension of works during season of 1894, not including \$5,000.00 transferred from the New Force-Main account to that of Extension of the driven-well system	\$73,012 47	

MAINTENANCE ACCOUNT FOR THE YEAR ENDING JAN. 31, 1895.

RECEIPTS.

APPROPRIATED April 16, 1894:

For Maintenance low-service (including salaries of Superintendent and Water Registrar. .	\$15,500 00	
“ Maintenance high-service	2,500 00	
		\$18,000 00

DISBURSEMENTS.

For care of Buildings	\$565 52	
“ Boilers and furnaces	4 70	
“ Engine	6 77	
“ Grounds	142 21	
“ Hydrants	420 90	
“ Meters	375 82	
“ Reservoirs and high-service stand-pipe.	385 97	
“ Service-pipe.	46 00	
“ Telephone.	212 41	
“ Workshop and stable	327 35	
For Pumping expenses, low-service	9,175 10	
“ “ “ high-service	2,354 94	
“ Office expenses and salaries	3,713 82	
“ Turning off and on water	211 29	
“ Miscellaneous expenses.	29 70	
Unexpended balance.	27 50	
		\$18,000 00

*\$5,000.00 of this unexpended balance was appropriated for the extension of the water-main in Heath street; for reasons before stated this work was not done and the appropriation was not drawn upon. According to the by-laws of the town, this appropriation has now lapsed.

†Including \$5,000.00 transferred to account of Extension of the driven-well system at Cow Bay.

*Revenue.*RECEIPTS FROM WATER RATES FOR THE YEAR ENDING
FEBRUARY 15, 1895.

From private consumers	\$47,195 27	
Meter rentals	1,925 75	
		\$49,121 02
Charged to the Town of Brookline:—

		\$15,773 63
Total		\$64,894 65

Summary of Construction Account.

Total cost of the Brookline Water Works, as shown in the last annual statement, made up to February 1, 1894	\$1,130,045 58
Disbursements for the current year, as shown in the foregoing extension account, up to February 1, 1895	73,012 47
Settlements made for land during the current year and expenses attending the same	1,767 00
	\$1,204,825 05

Land Account.

Original appropriations	\$31,000 00
Appropriation made January 29, 1895	18,000 00
	\$49,000 00
Disbursements for land account as shown in the last annual statement, made up to February 1, 1894	\$21,853 63
Disbursements for land account, 1894-5	1,767 00
Unexpended balance to credit of land account	25,379 37
	\$49,000 00

Appropriations Required

FOR THE EXTENSION AND MAINTENANCE OF THE WORKS
FOR THE YEAR ENDING JANUARY 31, 1896.

EXTENSION ACCOUNT.

For Street mains likely to be called for	\$5,000 00	
“ Street mains, for stock	4,000 00	
“ Service-pipe and connections (with receipts)	3,000 00	
“ New gates and hydrants.	1,000 00	
“ Meters and connections	2,000 00	
“ Extension of water-main in Heath street .	5,000 00	
“ Extension of water-main in Dean road . .	580 00	
“ Extension of water-main in Winchester street	900 00	
		\$21,480 00

MAINTENANCE ACCOUNT.

For Maintenance of low-service	\$11,500 00	
“ Maintenance of high-service	2,500 00	
“ Salary of Superintendent	2,500 00	
“ Salary of Water Registrar	1,500 00	
		\$18,000 00

The amounts required for the general extension account show an increase over the appropriations made for this work last year. This is made necessary by the amount asked for pipe for stock, and for the proposed extensions in Dean road, Winchester and Heath streets. With the exception of the Heath-street extension—which has been previously reported on—the 5 per cent guarantees on cost of work are on file at this office.

It will be seen that the amount asked for the maintenance of the works for the coming year has not been increased, although the actual operating expenses—with the exception of those for pumping at the low-service station—will be larger than in previous years. This is owing to the general increase of the plant and the amounts payable for taxes on the land lately acquired for additional water supply. The use of the new engine will, for the coming year at least, reduce the cost of pumping to an extent sufficient to make up for the additional expenses mentioned above.

W. K. MELCHER,
GEORGE H. JOHNSON,
O. B. MOWRY,
Water Board.

SUPERINTENDENT'S REPORT.

BROOKLINE, January 31, 1895.

To the Brookline Water Board:—

GENTLEMEN,—I have the honor to present herewith the annual report of the Superintendent for the year ending January 31, 1895.

Extension of Water-Mains.

(1) Extension to Low-Service :

St. Mary's street from Ivy street to a point about 70 feet from Monmouth street . . .	576.2	feet	10-inch	pipe.
Beacon street from St. Mary's street	41.8	"	"	"
Kent street from end of pipe north of Aspinwall avenue	324.0	"	"	"
Washington street from Pond avenue	562.0	"	"	"
Washington street from end of 10-inch pipe to Morss avenue	280.0	"	8	"
Winchester street from Thorndike street north- erly	525.5	"	"	"
Abbotsford road	729.2	"	"	"
Naples road	892.0	"	"	"
St. Mary's street from end of 10-inch pipe to Monmouth street	90.5	"	"	"
Catlin street	91.0	"	"	"
Emerson street from end of pipe as before laid to Waverly street	301.8	"	6	"
Parkway towards Aspinwall avenue	195.0	"	"	"
Pond avenue from end of pipe as before laid, to Washington street	199.5	"	"	"
Private way off St. Mary's street	369.0	"	"	"
Station street from end of pipe as before laid .	163.0	"	"	"
Catlin street from Boylston street	432.9	"	"	"
Thorndike street from end of pipe as before laid to Winchester street	50.0	"	"	"
Manchester road	947.8	"	"	"
Sewall place from Sewall street	555.2	"	"	"
Private way off Cypress street	274.0	"	"	"
Chapel street from Aspinwall avenue	545.7	"	"	"
Glen road from Cumberland avenue	300.0	"	"	"
Washburn place from Auburn street	185.2	"	"	"

Beacon street from end of pipe as before laid to

St. Mary's street	32.3 feet 6-inch pipe.
Shailer street	358.0 " " " "

Monmouth street from end of pipe as before

laid to St. Mary's street	14.0 " " " "
-------------------------------------	--------------

Total	9,035.6 feet.
-----------------	---------------

(2) Extension to High-Service :

Middlesex road from end of pipe as before laid . 204.0 feet 6-inch pipe.

(3) Extension for driven wells :

Twenty-inch suction pipe	2,093.0 feet.
------------------------------------	---------------

Sixteen-inch suction pipe	531.0 "
-------------------------------------	---------

Ten-inch suction pipe	1,427.0 "
---------------------------------	-----------

Eight-inch suction pipe	155.0 "
-----------------------------------	---------

Total	4,206.0
-----------------	---------

Service-Pipe.

Number laid as per last report	2,397
--	-------

Laid the past season	152
--------------------------------	-----

Total to date	2,549
-------------------------	-------

Leaks.

In street mains	1
---------------------------	---

In service-pipe	8
---------------------------	---

In force-main	2
-------------------------	---

In the usual maintenance of the works, very little which is new or which has not been mentioned in former reports can be written at this time.

As the works grow older and larger it necessarily follows that the expense of caring for them must increase, and the past season bears full evidence that the above statement is a correct one. In addition to the regular work, the department has been exceedingly busy, not only the past year but for the three previous ones, in special extensions, the results of which are now apparent, and it can be truthfully said that the efficiency of the plant with these additions and extensions,—namely, new pumping engine, covered reservoir, force-main and driven wells, has never before been equalled.

Speaking briefly of the pumping engine, it may be said that its capacity is large in comparison with present needs,

and its record in coal economy is quite a remarkable one,—pumping the same amount of water as the old engine with considerably less than half of the coal. Further on in this report will be found a detailed account of its performance.

The second force-main gives the town two independent pipe lines from the pumping station to the reservoir, thus making the supply doubly sure. It is understood, however, that the old force-main is not large enough to supply all the water required in dry weather, but with the help of the water in the reservoir the supply would be sufficient while any ordinary repairs were being made to the other main.

A short account of the extension to the driven-well system is as follows :

The additions to the driven wells, for which the town appropriated \$35,000 at the last annual meeting, was carried out the past season under the most favorable conditions, viz., continued dry weather and consequently low river. If the season had been a wet one, the cost would have increased several thousand dollars. One hundred and sixty wells were driven, from thirty to ninety-five feet in depth, forty-two of which were failures. The pipes were pulled up from these latter and used for other wells. These failures were caused by the material being too fine at the right depth or the hard-pan coming too near the surface of the ground. The proper water-bearing stratum of gravel was usually found immediately overlaying a hard-pan,—this hard-pan probably extending to bed rock. This stratum was continuous, as a general thing, but here and there interrupted by pockets and veins of fine sand in which no well could be obtained, and to do the work in the most economical manner the well-driving was kept several hundred feet in advance of the pipe-laying, so that in case such unfavorable material should be encountered, a change in the line could be made with the least possible loss. All the wells retained were good ones, and they have considerably more than doubled our supply ; how much more can only be determined by continuous pumping twenty-four hours per day for several days. On the whole, better results were obtained than anticipated.

During the fall it will be necessary to remove the fine sand which will accumulate at the bottom of the wells, and this process must be repeated five years later, probably, or as soon as this fine sand interferes with the yield of the wells.

Returning to an account of the usual work, it will be noticed that nearly twice as many feet of street mains have been laid as during the previous year. The fire service has been improved by joining several dead ends and cutting fifteen hydrants in old mains in streets on which many buildings have lately been built. The main on the upper end of Harvard street has been relaid to conform to the new line of the street, also the main on Monmouth street from Monmouth court to St. Mary's street, brought to the right grade.

A second main has been laid on the south side of Washington street from Pond avenue to Morss avenue since the widening of this street.

The high-service tank has been painted inside and out, and the grounds around the low-service pumping station improved by extending the loam space.

The view from this station is a very pretty one, and it is hoped that many of our citizens will visit this station the coming summer.

Special notice is called to that part of the report of the engineer of the low-service pumping station which relates to the record of the new high-duty, triple expansion pumping engine. As far as we can learn, this record for economy has not been exceeded in other places in this country.

The coming season it is intended to further strengthen our fire service by adding several fire hydrants in localities built upon largely of late, and not covered by extra hydrants set to date.

It may be well to say, in closing, that the general condition of the works is most satisfactory.

I subjoin the following tables, the record of consumption, etc., all of which is respectfully submitted.

F. F. FORBES,
Superintendent.

List of Hydrants.

Number set as per last report connected with low service 256

Number set as per last report connected with high service 93

Total 349

The following have since been set in 1894:—

(1) Hydrants connected with low service:

One hydrant on Cypress street, about half way between Walnut street and Boylston street.

One hydrant on Cypress street, about half way between Boylston street and railroad bridge.

One hydrant on Toxteth street, about half way between Aspinwall avenue and Francis street.

One hydrant on Perry street, about half way between Aspinwall avenue and Francis street.

One hydrant on Francis street near schoolhouse.	
One hydrant on Ivy street near St. Mary's street.	
One hydrant on Prescott street near Mountfort street.	
One hydrant on Mountfort street near Prescott street.	
One hydrant on Kent street, about 300 feet from Harvard street.	
One hydrant on Kent street, about half way between Francis street and Longwood avenue.	
One hydrant on Freeman street near Ridgeway street.	
One hydrant on Washington street opposite postoffice.	
One hydrant on Emerson street, about 300 feet from Waverly street.	
One hydrant on Chapel street opposite station of B. & A. railroad.	
One hydrant on Washburn place at end of pipe.	
One hydrant on St. Mary's street near Monmouth street.	
One hydrant on Shailer street, about 200 feet from Harvard street.	
One hydrant on Sewall place at angle in place.	
One hydrant on Kent street, about 400 feet from Aspinwall avenue.	
One hydrant on private way off St. Mary's street.	
One hydrant on Winchester street near Thorndike street.	
One hydrant on Washington street near Pond avenue.	
One hydrant on Washington street near stable owned by James Driscoll.	
One hydrant on Abbotsford road, about 350 feet from Babcock street.	
One hydrant on Naples road near Boston line.	
One hydrant on Naples road, between Abbotsford road and Manchester road.	
One hydrant on Manchester road, about 500 feet from Naples road.	
(2) Hydrants connected with high service:	
Two hydrants near house owned by Charles F. Sprague.	
Two hydrants on the Poor Farm.	
One hydrant on Warren street opposite house owned by Wheelwright.	
One hydrant in rear of Beaconfield terrace.	
One hydrant on Fisher avenue, about 500 feet from Buckminster road.

LOW-SERVICE ENGINEER'S REPORT.

LOW-SERVICE PUMPING STATION,
WEST ROXBURY, MASS., Jan. 31st, 1895.

To the Brookline Water Board:—

GENTLEMEN,—I have the honor to present the report of the Engineer for the year ending January 31st, 1895.

The amount of water pumped is 481,374,636 gallons, an increase of 33,000,000 gallons over last year. The coal consumption shows a decrease of 292 tons, and the pumping time a decrease of 2,561 hours.

Pumping Engines.

Engines Nos. 1 and 2 are in good working order. An air-extractor—similar to that used on the long suction pipe at the old pumping station in 1879—has been connected to the air chamber on the 24-inch suction main and to the condenser of Engine No. 1, thereby enabling Engines Nos. 1 and 2 to draw the greater part of their water supply from the driven wells when working up to their full capacity.

Engine No. 3 was started on March 8th, and was run intermittently during March and April in order to get the bearings into proper condition and to adjust the valves. Since the middle of April all the water used by the town has been pumped by Engine No. 3, except two weeks in December when improvements were being made on the jacket piping and main steam-pipe. These improvements consist in placing a separator in the main steam pipe and in arranging the jacket piping so that each jacket and re-heater can be fed and drained independently of each other. Several duty-tests of the engine have been made by different experts, and they all show a far greater duty than that guaranteed by the builders of the engine, and in some respects a higher duty than that obtained from any pumping engine in the country. Daily indicator cards are taken from the cylinders and placed on file for future reference.

Boilers.

The boilers are in excellent condition. I would respectfully suggest that they be covered with magnesia, to replace the loam with which they are temporarily covered. This would increase the evaporative efficiency of the boilers. I subjoin the yearly record of the pumping engines.

Respectfully submitted,

RICHARD J. FLINN,
Engineer.

HIGH-SERVICE ENGINEER'S REPORT.

BROOKLINE, February 1, 1895.

To the Brookline Water Board:—

GENTLEMEN,—I have the honor to present herewith the report of the engineer of the high-service pumping station for the year ending January 31, 1895.

Boiler No. 1 is in good condition. Boiler No. 2—the one removed from the low-service station—was set and ready for use in May last. This boiler is giving good results, and will probably perform all the work required of it for many years to come.

Both engines are in an excellent state of repair, and the same can be said of the buildings and surrounding grounds. The duty of the engine will improve as the hours of pumping for each day increase. At present quite a percentage of the coal is used in heating up the engine and boiler to working temperature, and it can be plainly seen that the coal thus consumed will remain the same, whether the engine works one hour or twenty hours each day.

The following table will show the record of work done at this station the past year.

Respectfully submitted,

WILLIAM B. WEBBER,

Engineer.

1895.												

REPORT OF THE JOINT SPECIAL COMMITTEE ON THE EXTENSION OF THE WATER WORKS.

At a special town meeting held October 27th, 1891, the following vote was passed :

Voted, That a committee of five be appointed by the chair to receive and consider the plans and reports of the Water Board, with reference to increasing the pumping facilities and laying a second force-main, and to report with such recommendations as they may deem for the interests of the town, to a future town meeting.

The Moderator appointed the board of Selectmen, consisting of Messrs. Albert L. Lincoln, Jr., Horace James, James B. Hand, Tucker Daland and Theodore Pinkham, to compose this committee.

In February, 1892, this special committee made a report to the town, making the following recommendations :

First. The building of a covered reservoir on Fisher Hill, of a capacity of about 1,000,000 gallons, at an estimated cost of \$30,000.

Second. The enlargement of the low-service pumping station and building the engine foundations, at an estimated cost of \$20,000.

Third. The purchase of a high-duty pumping engine with two high-pressure boilers, at an estimated cost of \$30,000.

Fourth. The laying of a new twenty-inch force-main from the engine-house to the reservoir, at an estimated cost of \$100,000.

The report of the committee was favorably received by the town, and at the adjourned annual meeting, held April 13, 1892, the following vote was passed :

Voted, That a sum not exceeding \$50,000 be appropriated to build a covered reservoir and an extension to the low-service pumping station, both as recommended by the special committee on the extension of the water works, and that the Selectmen and Water Board be a special committee to take charge of the work.

At the same meeting it was —

Voted, That the Selectmen and Water Board be authorized to contract for a high-duty pumping engine and two boilers for the low-service pumping station, at a cost not exceeding \$30,000, as recommended by the special committee of the water works, no appropriation being required therefor at present.

At a special town meeting held July 15th, 1892, the joint special committee on the extension of the water works made the following report :

“In the report referred to in the report on the second article, authority was asked, and at the annual town meeting given, to contract for a high-duty pumping engine and two boilers at a price not exceeding \$30,000. This amount was sufficient for the size of engine then in view—one of 3,000,000-gallon capacity in twenty-four hours—but after the bids had been received for an engine of the above capacity, the committee had an unexpected opportunity to contract for a 5,000,000 vertical, triple expansion, high-duty pumping engine at about cost price, with the Edward P. Allis Company, of Milwaukee, Wis. After giving the whole subject of pumping engines the most careful consideration, the committee are unanimous in the opinion that it is for the best interests of the town to contract for the larger engine. In fact, if it had been supposed that a 5,000,000 triple expansion, high-duty pumping engine could have been bought for the price named by the Allis Company, such an engine would have been recommended in the original report. The large engine calls for an additional outlay of only \$4,000, which the committee think is much more than met by the greater pumping capacity and economy in the use of fuel. The committee, therefore, ask that they be authorized to contract for a 5,000,000-gallon, high-duty, triple expansion pumping engine, with two boilers, at an expense not exceeding \$34,000, and that the vote passed at the annual meeting be reconsidered.”

The town, acting in accordance with the recommendations of the special committee, passed at this special meeting the following vote :

Voted, That the vote passed at the last annual town meeting authorizing the joint special committee on the extension of the water works to contract for a 3,000,000-gallon high-duty engine and boilers, at a cost not exceeding \$30,000, be reconsidered.

It was then voted that the subject matter of the vote be indefinitely postponed. Immediately following, this vote was passed :

Voted, That the joint special committee on the extension of the water works be and they are hereby authorized to contract in behalf of the town, for a 5,000,000-gallon, vertical, triple expansion, high-duty pumping engine and boilers, at a cost not exceeding \$34,000.

At the same meeting it was—

Voted, That the joint special committee on the extension of the water works, consisting of the Selectmen and Water Board, be and they are hereby authorized to contract, in behalf of the town, for pipe necessary for a second twenty-inch force-main, to an amount not exceeding \$60,000.

At the adjourned town meeting, held April 17th, 1893, the following votes were passed :

Voted, That the sum of \$100,000 be appropriated to pay for the new second force-main for the low-service pumping station.

Voted, That the sum of \$34,000 be appropriated to pay for the high-duty pumping engine, to be erected at the low service pumping station.

In the spring of 1892, work on the first of these extensions—the building of the covered reservoir—was commenced. Plans and specifications for the covered reservoir were made, under the direction of F. F. Forbes, Superintendent of the Water Works, and in the latter part of April the special committee advertised for bids, as follows :

“Sealed proposals, addressed to the chairman of the special committee, and endorsed, ‘Proposal for Building a Covered Reservoir on Fisher Hill, Brookline,’ will be received at the office of the Selectmen, Town Hall, Brookline, until 5 o’clock P. M., of Tuesday, the 10th day of May, 1892, and at that time will be publicly opened and read.”

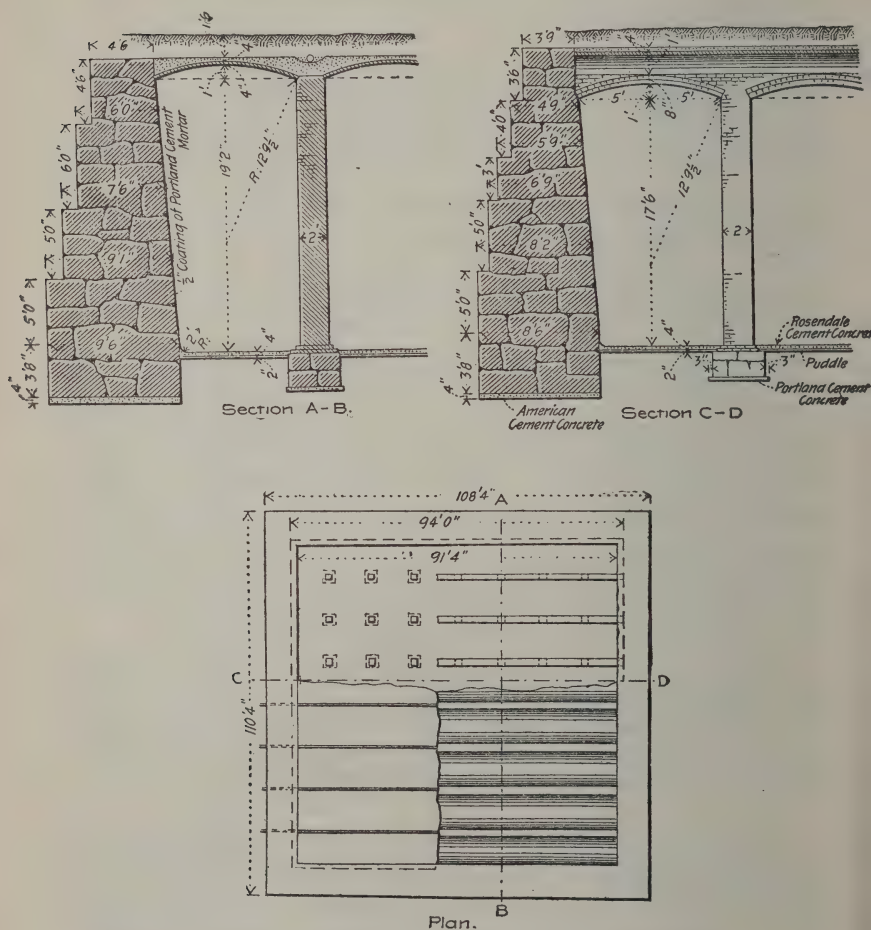

In response to the above advertisement, eleven bids were received, ranging in price from \$22,778.15 to \$28,260.20, made up from the estimated quantities of work to be done. The contract was awarded to D. Henry Cram, of Boston, Mass., the lowest bidder.

Mr. Cram commenced work on the reservoir in June, 1892, and carried the construction along with a good deal of

vigor and push till cold weather, when the reservoir was so near completed that it could be safely filled and used.

The following spring all the remaining work in his contract was done to the full satisfaction of the town. A most careful inspection was maintained during the construction, and we feel very sure that a thorough job has been secured.

The following is a description of the reservoir :

The Covered Reservoir.

The reservoir is simply a masonry chamber 91.33 feet square at the bottom, and 94.00 feet square at the springing line of the covering arches; with a depth of 19.2 feet from the overflow, giving a capacity of 1,200,000 gallons.

The batter of the walls is 1.34 feet. The roof is formed of a series of brick arches, and the bottom is covered with cement concrete. The inside of the walls are plastered with Portland cement. It will thus be seen that the whole inside of the reservoir can be cleaned as completely as an earthen dish.

No gate chamber is connected with the reservoir; the inlet pipe, which also serves as an outlet, and the drain pipe enter the reservoir directly through the walls. The gates controlling these pipes are 500 feet distant at a point where the pipes come to the usual grade for street mains.

The overflow discharges into the open reservoir immediately adjoining. The side walls are $9\frac{1}{2}$ feet and $8\frac{1}{2}$ feet thick at bottom, and are built of Roxbury pudding stone, laid in American cement mortar. They extend $3\frac{1}{2}$ feet below the bottom of the reservoir, and are started on 4 inches of American cement concrete. Great care was used to make certain that no spaces should be left in the wall, and to insure this, many barrels of cement in the form of thin gruel were poured down around the larger stone, and in fact it was the usual custom to grout thoroughly each course of stone.

The pier foundations, $3\frac{1}{2}$ feet square, built also of Roxbury pudding stone, were started on a Portland cement concrete base 5 feet square and 4 inches thick.

The piers, 2 feet square, were built of hard-burnt brick laid in American cement mortar to a point below the skew-back for the lintels, and above this in Portland cement mortar.

It might be stated here that all cement used above the foundation, except that in the walls and piers as above stated, was made of Portland cement.

The lintels of carrying arches are 24 inches wide and 8 inches thick. They have a span of 10 feet and a rise of 1 foot.

The skew-back for the covering arches is formed of one course of brick laid on top of the lintels. The covering arches have the same span and rise as the arch which supports them, and are composed of 4 inches of brick and 4 inches Portland cement concrete.

Suitable drains are provided to carry off all water from rain or snow which may reach these arches, and they are protected from frost by a covering of 18 inches of loam.

About 6 inches of clay puddle was placed back of the walls. The embankments were rolled or rammed in the usual manner. The bottom of the reservoir was first covered with 4 inches of clay puddle, and on this was placed 4 inches of American cement concrete. Great care was necessary not to mix the concrete and the puddle; the concrete was successfully laid, however, being placed in position with shovels, and smoothed off with the same tool. No ramming as usually done was allowed, for fear of driving the soft clay up through the concrete. The concrete was also brought up around the sides of the walls and piers for a few inches.

As before stated, the inside of the walls was plastered with Portland cement,—a difficult task, as the reservoir was mostly in excavation and adjoining the open reservoir, consequently wholly below the natural

water-line in the ground. However, the plastering was well done, as the later examination proved.

To determine whether or not the reservoir leaked to any appreciable degree, it was shut off last summer, when nearly full, for 24 hours. After this length of time we could detect no difference of the level of the water, with the means we had for measuring. We concluded, therefore, that the reservoir was practically tight.

The reservoir has now been in use over two years. At an examination made last summer, when the water was drawn from it, everything was found in perfect condition. The reservoir appears to be a success in every particular.

The water drawn from it has been uniformly good, containing no trace of algae or fungi growth, and always of the same excellent quality which characterizes it at the pump well.

The amount of work done by the contractor, the price for same, and all other expenses are now given. It is well to state that all pipe connections and grading of the grounds outside of the reservoir embankments were not a part of the contract. This work was done directly by the town. The earth excavation was much larger than estimated. This excess was caused by the necessary removal of a large amount of peat and other poor material found several feet below the surface of the ground. It appears that a bog hole had previously existed in this spot which had been covered over with good material when the open reservoir adjoining was built several years ago.

Addition to the Low-Service Pumping Station and Engine Foundations.

In June, 1892, work was first commenced on the foundations for the addition to the engine house and for the new pumping engine. As this was a difficult job, owing to the danger of letting down the old engine-house walls and also starting the masonry of the pump well, while making the necessary excavations for these foundations, it was decided to do all this work by the day, under the direct supervision of the Superintendent. The dimensions of this addition were determined by the room needed for two engines with their numerous pipes and connections, and it was found that this would require a building $61\frac{1}{2}$ feet by 41 feet. As it was very desirable to locate the pumps at a low level in comparison with the normal height of the water in the river, in order to be able to draw the maximum amount of water from the ground, the bottom of the pump pit, or top of the engine foundation, was put as low as deemed practicable. The grade established for the bottom of this pit was 80, or about one foot below the water in the river during the large part of the summer. The bottom of the engine foundations was carried nine feet lower, or to grade 71. The engine foundations, 31 feet by 23 feet, rested on the sand and gravel found at that depth. The first four feet was composed of concrete made of American cement. In this concrete were built two sets of old steel rails, one set being laid at right angles to the other, the individual rails being two feet apart measured from centers. This greatly stiffens the mass of concrete and makes it almost impossible to break in two. The brick-work in which the foundation bolts of the engine were anchored was started on this concrete and carried to a height of 4 feet and capped with granite stones one foot in thickness. The pumps of the engine rest directly on these granite stones. The foundations for the building were started at grade 79, or one foot below the top of the engine foundations, in order to make a water-tight connection between the two foundations and also make the building foundations more secure. The first five feet of these foundations were made of concrete, the remainder of ordinary stone.

The inside of the foundation walls in the pump pit were plastered with Portland cement mortar to make them water tight, and in this we were successful as the experience of two years demonstrates. All these foundations, with the many necessary changes to the old buildings, were finished without accident or damage to any part of the previously existing masonry.

Plans for the building were drawn by George F. Moffette, architect, of Boston. The last of August, 1892, the committee invited proposals from builders for the erection of this addition. The bids were opened on Monday, September 12th, and were as follows :

Johnson Bros.	\$9,718 00
W. H. Bowker	8,900 00
A. H. Bailey	7,895 00

The above sums did not include any granite. The granite was furnished by the town at an expense of \$998.00. The committee awarded the contract to Mr. A. H. Bailey, the lowest bidder. Mr. W. K. Melcher, chairman of the Water Board, was appointed by the committee to superintend its construction. Owing to a delay in the delivery of the granite the building was not completed as soon as expected, but by mid-winter it was practically finished.

The cost of all the foundations and the building was \$19,832.82. It must be borne in mind, however, that the above figures were somewhat increased by the many changes which it was absolutely necessary to make in and about the old station.

The New Twenty-inch Force-Main.

Plans and specifications for all straight pipe and special castings required for the new 20-inch force-main were prepared in November, 1892, and early in December bids were asked from several pipe firms for furnishing and delivering the necessary castings. Monday, December 19, the bids were opened by the joint special committee, and were as follows :

WARREN FOUNDRY & MACHINE CO.

For all straight pipe, per ton	\$25 90
For all special castings, per ton	53 00

RADFORD PIPE & FOUNDRY CO.

For all straight pipe delivered at Brookline, per ton	25 42
For all straight pipe delivered at Spring street, West Roxbury, per ton	26 10
For all special castings, per ton	50 00

R. D. WOOD & Co.

For all straight pipe, classes A and B, per ton	24 90
For all straight pipe, classes C and D, per ton	25 10
For all special castings, per ton	53 74

A. H. MCNEAL PIPE & FOUNDRY CO.

For all straight pipe delivered at Brookline	24 17
For all straight pipe delivered at Spring street, West Roxbury	24 62
For all special castings	50 40

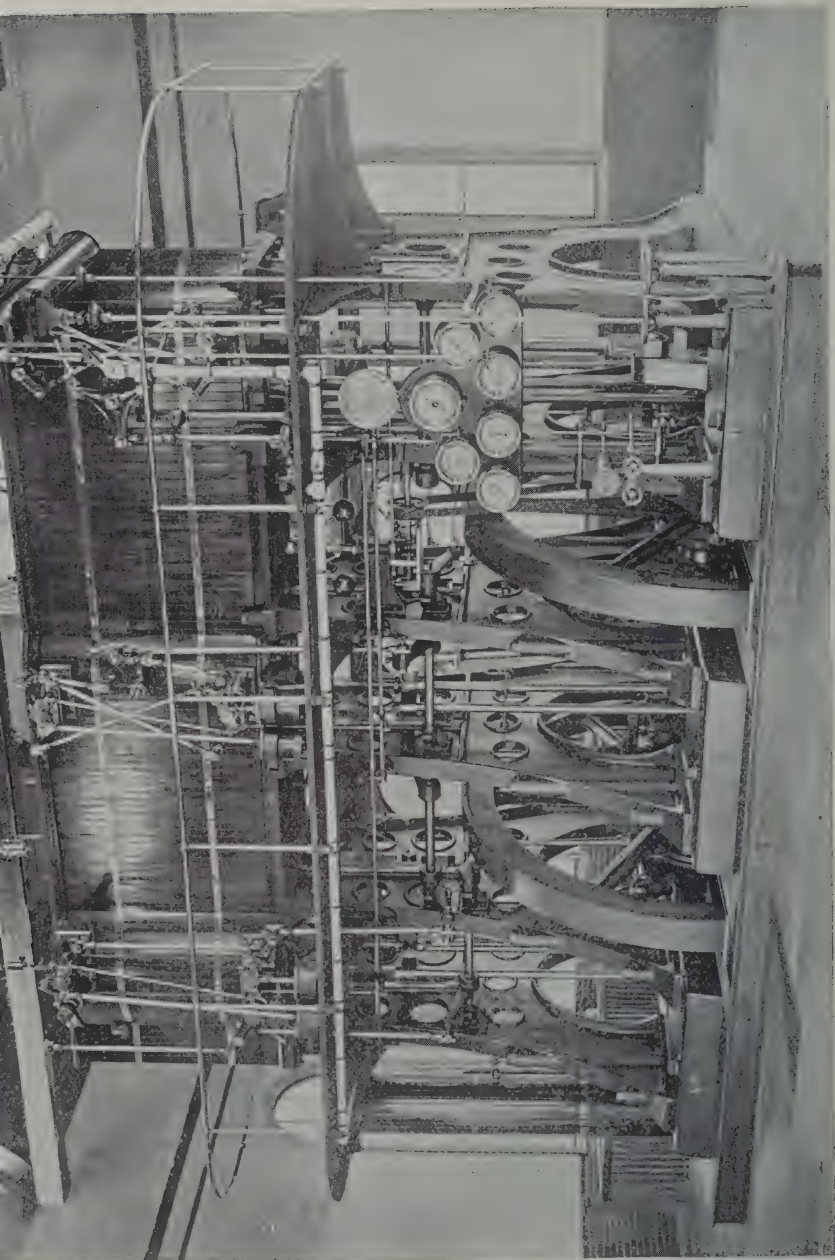

The contract was awarded to the A. H. McNeal Pipe & Foundry Co., the lowest bidders. The casting of this pipe commenced the last of February, 1893, and the first shipment was received May 24, 1893. The total sum paid the A. H. McNeal Pipe & Foundry Co. for pipes and specials on account of this contract was \$51,082.08.

The work of laying the force-main was begun May 25, 1893, and was continued without interruption until October 21, 1893, when the pipe laying was practically completed. The new force-main was laid about two feet from the old force-main for the entire distance. It will be remembered that the route of the old force-main from Grove street, Brookline, to Lagrange street, West Roxbury, is over private lands. When the works were built twenty years ago, a strip of land sixteen and one-half feet wide was secured for a location for this main for this distance. Quite a part of this line runs through cedar swamps in which the mud is very deep, with the normal water-level at the surface of the ground, and it was found practically impossible to lay the new main through the swamps without trespassing on the land adjoining this location. It was therefore desirable to secure a greater width and the town was fortunate enough to make a reasonable trade with the different owners along the line from Weld street to land of Atherton T. Brown, by which a strip of land forty feet wide was secured for this

distance. A lot of land fronting on Westover street and extending through to this location was also bought for the purpose of storing pipes and other materials, and also to give access from a public street to our pipe location. The amounts paid for these lands were as follows :

Heirs of Lucy Kingsbury	\$581 97
William B. Blakemore	1,100 00
Estate of A. D. Weld	736 96

A brief description of the pipe laying is as follows: As before stated, the pipe line passes through several swamps, with the normal water-level at the surface of the ground. In the swamp near the engine-house the mud is not very deep, and it therefore did not seem necessary to incur the large expense of driving piles, and the pipe was laid on a platform four feet wide, made of spruce planks two inches thick. This has proved a sufficient foundation for the pipe. In the cedar swamps the mud was not only deep, but very soft and the old force-main had been supported on piles. These same piles were used for the new main, the old main being jacked over to one side. These swamps were drained through the ditch excavated for the new force-main and consequently no great difficulty was experienced from water. The old force-main passed directly through the stand-pipe on A. T. Brown's hill; this structure was not large enough to admit the new force-main also, and as it was quite important to break the pipes at this point, the difficulty was overcome by taking the old main out of the stand-pipe and carrying it around on one side while the new main was carried around the other, making a connection from the top of each main with the stand-pipe. Formerly, all the water flowed through the stand-pipe, now none flows into it, the stand-pipe simply acting as a vent. The new and old mains were connected together at the low-service pumping station, stand-pipe on A. T. Brown's hill, high-service pumping station on Newton street, and Boylston street at Fisher avenue. These mains are used together, as a general thing, but one can be made independent of the other by simply shutting gates. Any one of the pumps at the low-service station can pump

HIGH-DUTY PUMPING ENGINE

through either of the mains, and the high-service pump can draw water from either or both. Blow-offs were placed at depressions along the line and air-cocks were located on all summits. All the work was done by the day by the Water Department and so far no leaks or other imperfections have been discovered. When we consider how many pipes were handled, and also that many of them were actually rolled one-half a mile over fields so rough and wet that no team could be used on them, it is quite fortunate that no accident to the men occurred. The cost of this 20-inch force-main with all expenses incidental thereto was \$92,569.08.

The New High-Duty Pumping Engine.

The aim in selecting a pumping engine was to secure a machine which would give the highest coal economy, coupled with an accessibility of all parts likely to need repairs at a reasonable price. It was also decided that the pumping engine should be a vertical one, that the pumps might be placed much lower than would be possible with a horizontal engine, so that the maximum amount of ground-water could be obtained. In the course of the investigation it was found that the triple-expansion pumping engine made by the Edward P. Allis Company, of Milwaukee, Wis., had given better results for economy, at duty trials, than any other engine made in this country. A personal examination of engines made by this firm, in daily use in the cities of Milwaukee and Chicago, was made by the Superintendent, and as far as could be learned from this examination, and from conversation with those in charge, it seemed quite plain that no better machine could reasonably be desired. The committee, acting favorably on the report of the Superintendent, entered into an agreement with the Edward P. Allis Company, of Milwaukee, on the 25th day of July, 1892, for a high-duty, triple-expansion, vertical pumping engine, with a capacity of 5,000,000 gallons in 24 hours, with a guaranteed economy of raising 120,000,000 pounds of water one foot high with each one thousand pounds of steam supplied to the engine, for the sum of \$26,000. This price included all the steam and water piping in the engine-room.

proper. The specifications were carefully drawn, and the work was commenced on the engine in November, 1892. In September, 1893, the engine was completed at the shop, and a thorough inspection was made of the different parts before shipment to Brookline, which was made in October, when work was begun on the erection of the same. This work consumed nearly all of the winter, and it was not until March 8th, 1894, that the engine was first started.

All the piping outside of the engine room and the new boilers were to be furnished by the town. July 13th, 1893, a contract was made with the Bigelow Co., of New Haven, Conn., for two horizontal, high-pressure, tubular boilers, 18 feet long and 5 feet in diameter, for \$2,600. The boilers were taken from the cars, and put in position by the town. They were set, however, by Sidney Smith of Boston, by contract, in accordance with his patent method, for the sum of \$1,322.40.

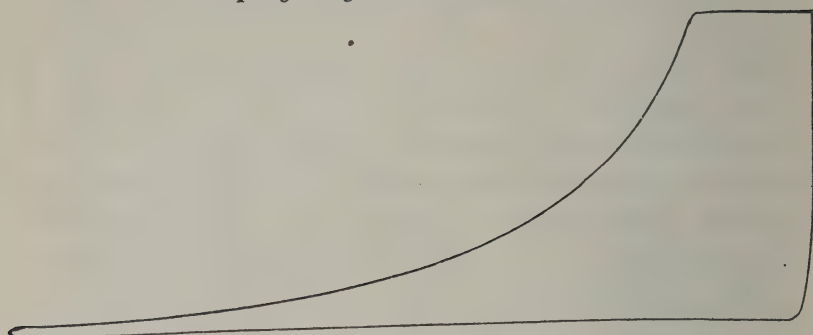

As these boilers were longer than the old ones it was necessary to extend the rear of the boiler-house about five feet. All the steam piping was done by the day, under the supervision of Mr. Flinn, the engineer at this station. Practically all the original piping in the old engine and boiler rooms, with the exception of the main steam pipe in the old engine-room, was torn out and replaced. As it was absolutely necessary to run the pumps every day, the work of making these changes was comparatively slow and expensive. As before stated, the engine was first started on March 8th, 1894, but it was not until the latter part of April that the engine was lagged in and ready for daily use. Since May 1st the engine has given a much better daily duty than that guaranteed by the maker, saving in July alone over fifty tons of coal. Several tests have been made by the Water Department, all showing that the engine is exceeding its contract duty from ten to twenty per cent. Its performance at slow speeds is also quite remarkable, running smoothly, and showing very little loss in economy, no exceeding that of a direct-acting duplex pump, and in some tests made showing even less.

The cost of the new engine and boilers was \$33,864.70. An illustration of this engine, made direct from a photograph, accompanies this report. Its dimensions and indicator cards are also presented, on pages following.

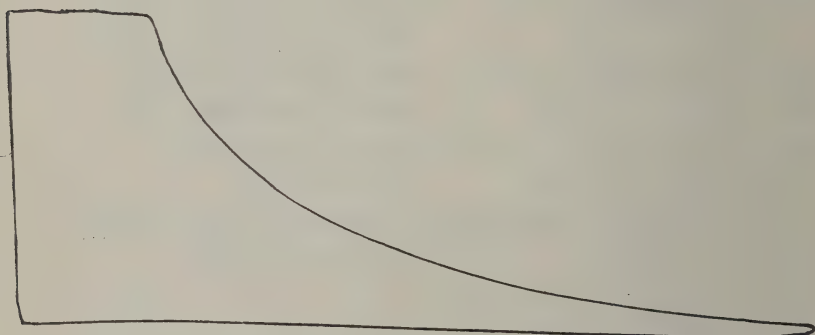

In closing, it seems no more than just to say that nearly all the plans for these extensions, except those for the building, were made and details worked out by Z. R. Forbes, the present Clerk and Water Registrar; and also, that much of the good quality of the work is due to the interest and care taken by the different employees of the Water Department. It is also pleasing to add that none of the estimates have been exceeded, and that the results obtained are most satisfactory.

ANNUAL REPORT OF THE SCHOOL COMMITTEE.

The School Committee of the town of Brookline respectfully submit their annual report for the year closing on the first of February, 1895.

The membership of the board, with the dates at which their several terms expire, is given on the opposite page.

At the first meeting of the board for the year now closing, Mr. William H. Lincoln was elected chairman, and Mr. Wm. T. R. Marvin secretary, and the following standing committees were appointed, viz. :—

HIGH SCHOOL—Wm. T. R. Marvin, John D. Runkle, Aaron H. Latham.

GRAMMAR SCHOOLS—William H. Lincoln, Michael Driscoll, Mrs. Annie E. Crane.

PRIMARY SCHOOLS AND KINDERGARTENS—Frederick B. Percy, George N. Carpenter, Mrs. Elizabeth Cabot.

TEACHERS—William H. Lincoln, Mrs. Elizabeth Cabot, George N. Carpenter.

FINANCE—Michael Driscoll, William H. Lincoln, Aaron H. Latham.

MUSIC—Mrs. Annie E. Crane, Michael Driscoll, Frederick B. Percy.

INDUSTRIAL TRAINING—John D. Runkle, Michael Driscoll, Mrs. Elizabeth Cabot, Mrs. Annie E. Crane, William H. Lincoln.

EVENING SCHOOLS—Aaron H. Latham, Michael Driscoll, Wm. T. R. Marvin.

PHYSICAL CULTURE—Frederick B. Percy, George N. Carpenter, Mrs. Elizabeth Cabot.

In the last annual report the committee referred to the remarkable growth in the number of scholars in attendance on our public schools for the year then closing. This growth has continued during the present year, in an even greater ratio.

In the months of October and November last, the number actually in attendance, as reported to the board through the returns of the teachers, varied from 2,580 to 2,600, which is an increase of more than twenty per cent over the number

in attendance in January, 1894. The number of names enrolled also shows a substantial gain. The prevalence of sickness in town, just before the Christmas holidays, necessitating a temporary closing of some rooms, reduced the attendance for a time, but on the re-opening of the schools after the winter vacation, it soon regained its former numbers. The total increase in the last five years has been almost exactly forty per cent.

	Assessed Valuation.	Expenditures.	Text Books and Supplies.	Whole Number Enrolled. Jan.	Number of Scholars in High School.
1884	\$25,822,900 00	\$39,100 00		1,363	87
1885	26,646,500 00	41,750 00	\$2,473 00	1,457	97
1886	29,955,700 00	42,995 00	1,997 00	1,555	105
1887	33,434,400 00	45,044 00	1,926 00	1,580	90
1888	38,640,500 00	47,990 00	1,774 00	1,628	79
1889	41,246,900 00	51,741 00	2,115 00	1,795	89
1890	42,533,300 00	59,992 00	2,925 00	1,914	103
1891	46,537,300 00	61,442 00	3,028 00	2,007	109
1892	50,729,500 00	70,773 00	4,247 00	2,180	127
1893	53,080,600 00	82,684 00	4,648 00	2,416	176
1894	56,299,000 00	90,349 00	5,513 00	2,597	220
1895	57,191,150 00	97,715 00	4,525 00	2,781	246

This increase holds good in the High School in very nearly the same proportion as in the lower grades; the last two years the increase has averaged about eighteen per cent, although its work has been carried on under very great disadvantages. When the new building is ready for occupancy on the opening of the new school year, in September next, we have reason to expect that a considerable number of scholars, now attending other institutions, public and private, in Boston and elsewhere, will enroll themselves on its books, in addition to those who will enter in regular course.

The opening of the Manual Training School has diverted a few from the regular High School course; but it has, to a certain extent, retained others who, but for the opportunities which that offers, would have left school on completing their Grammar course, and we look for considerable additions from this class in the immediate future.

The population of Brookline is growing rapidly, but the number of scholars in our schools is advancing with still greater rapidity; and this fact seems to afford the best evidence that our teachers and their work in every grade, have won, as we believe they fully deserve, the entire confidence of our citizens. With so great an advance in the attendance, there must inevitably follow an increased expenditure to provide for the larger number of teachers, the supply of free text-books, kindergarten work, industrial work, and the general equipment. In the estimates for the coming year we ask only for such appropriations as will enable us to maintain with due economy and careful supervision the highest efficiency in the work intrusted to our care. That we have not placed too high a value on the services of our teachers is clearly shown by the strenuous efforts which have been made to induce some of them to take positions elsewhere at increased salaries. In the High School, Mr. Sanford was urged to leave us to take the charge of a largely endowed institution in Connecticut; but the board are happy to report that we have succeeded in retaining his services, and he will continue to carry out in Brookline the various plans which he has so successfully introduced here; others, which we are confident will greatly enlarge the usefulness of the school, and especially in what is known as the "High School Extension," will be added with the larger opportunities we shall have in our new building. Further reference to these contemplated plans will be found in his report. Information on the present condition of the new building will be found in the Special Report of the Building Committee.

Teachers.

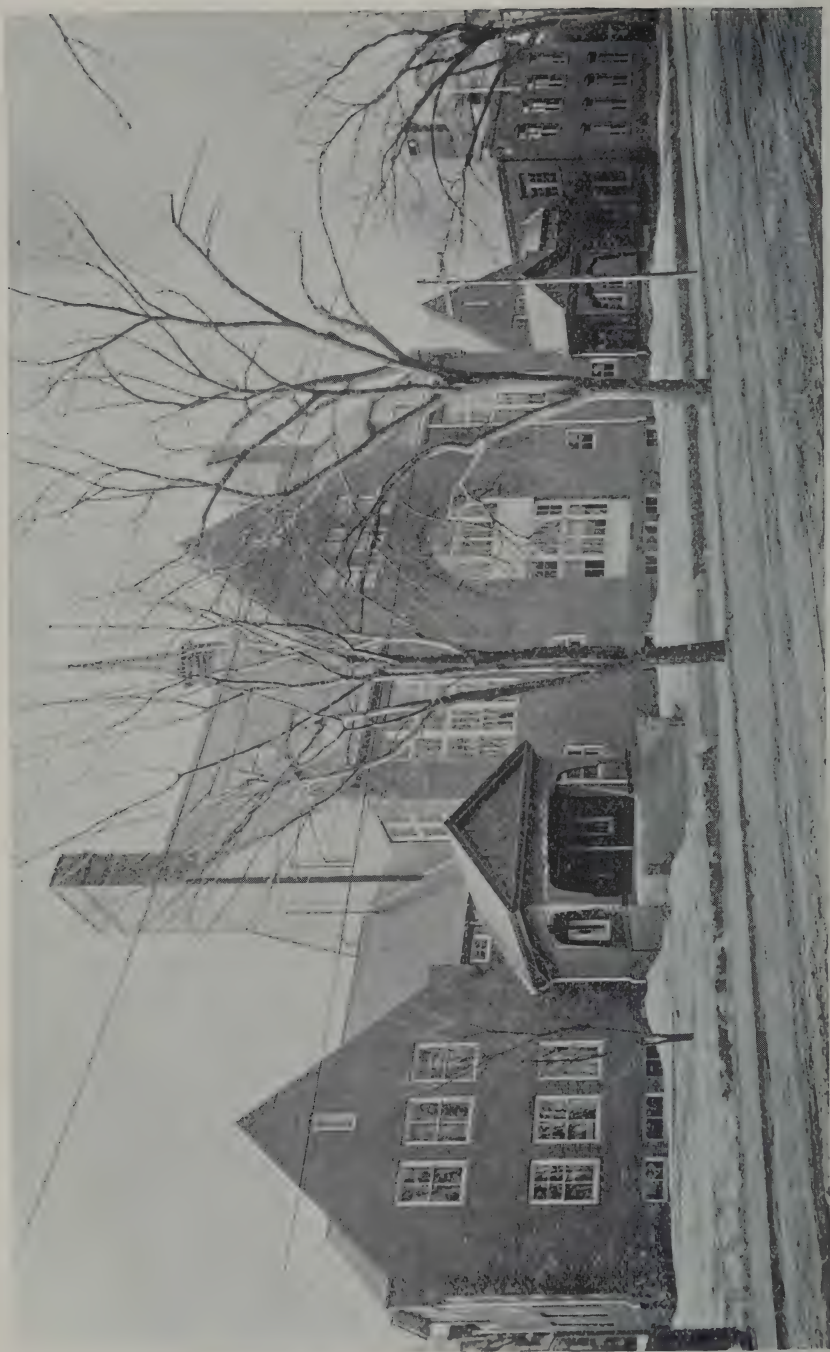

The changes for the year have been as follows:

Mr. A. C. Fay, of the High School, resigned at the close of the last school year, and Mr. G. B. Wilson has been appointed to succeed him. Miss Johnson, after an uninterrupted service of ten years, was granted leave of absence for a few months, in June last. She has spent the greater portion of the time in study abroad, and has now resumed her duties. During her absence Miss F. C. Goodwin took

her place in some of her classes, and by the temporary appointment of Miss Chapman we were able to arrange for the care of others, without much difficulty. Miss Goodwin will remain for the present year, and if the school continues to increase as it has recently done, we shall need her permanently. Mrs. Agnes M. Lindsay has had charge of the entering class, meeting for the present in the Bethany building. The large number of these scholars—about 100—has made her work very arduous, but she has done it to the great satisfaction of the board. One additional teacher is needed for the two lower classes, to lighten the work. Miss Helen P. Howell has been appointed instructor in Biology, and of Physical Culture for the girls, and has also given supervision to this work in other grades. During the absence of Mr. Cole, the instruction in Music, in this school, was admirably conducted for several months by Mr. Harry Fay, who most kindly consented to aid us in an emergency.

In the Pierce school, Miss Eleanor McKenzie, after a faithful service of fifteen years, found that her duties elsewhere compelled her to resign her post. She has left us with the sincerest esteem of her pupils, her associate teachers, and the board. Her place has been taken by Miss Palmer, who had the grade below, and who has in turn been succeeded by Mrs. E. W. Ransom. The resignation of Miss Utley was followed by the appointment of Miss Mary E. Raymond, and the vacancy made by the transfer of Miss Hutchinson to the Lincoln School was filled by Miss Lida J. Wilde.

In the William H. Lincoln School, Mr. D. S. Farnum has retired, after having been its principal for fifteen years. It seemed wise to appoint as his successor a gentleman who should also be principal of the Manual Training School, and Mr. M. W. Richardson, who has had considerable experience in High School work at the West, was placed in charge. Miss E. J. Munroe has been transferred to this school from the Cabot. Miss Clara E. Emerton has resigned, and Miss Elizabeth Gleason and Miss A. F. Rockwood (after her return from a year's leave of absence) have been appointed.

MANUAL TRAINING SCHOOL

From the Sewall School, Miss Fannie W. Kingsbury has been transferred to the new Kindergarten, opened in the Heath School. In the Robert C. Winthrop School, Mrs. I. Maude Powers has taken Miss Nowell's place (who resigned last March), and in the Longwood School, Miss Helen A. Smith, that of Miss Goodwin. Miss Grace R. Curtis has resigned at the Edward Devotion School, and Miss Helen A. Harris has succeeded her.

Miss Susan M. Thacher, of the Lawrence School, resigned in November, and Miss Eltinge has been assigned to that vacancy. Miss Dawson's leave of absence has been extended, and Miss Kingsbury, of the Cabot School, has found it necessary to take a short rest, but expects soon to resume her duties. We have reappointed in this school, Miss H. F. Wetherbee, who was formerly a teacher there. Miss Nettie M. Willey, Instructor in Cooking, has been succeeded by Miss M. E. Jubb, and Mr. C. J. Littlefield has been appointed an assistant in Manual Training, in the Lincoln and Lawrence schools. Miss Blaisdell has been appointed a permanent substitute teacher.

School Accomodations.

We referred in our last report to the necessity of providing additional school accommodations for citizens living in that part of the town lying west of Washington street, including Aspinwall and Fisher hills. The town has purchased a lot on Druce street, near its junction with Buckminster road. It is in contemplation first to erect a Primary school-house. Plans and estimates for this building will be submitted during the coming year. A committee of the board is also considering the subject of a better location and a more convenient building for primary scholars in the Longwood district.

Manual Training School Building.

This building was constructed for a two-fold purpose. The Boylston and Parsons schools required relief and the lower grammar classes in the Lincoln School had so increased that additional room was required. It was especially desired to extend the system of manual training so as to form

an advanced class from the graduates of the grammar schools. The new building was therefore enlarged from the original idea, and sufficient accommodations were provided to meet both wants. An additional appropriation from the town was obtained of \$5,000 for this purpose. The building is well arranged and adapted to its purpose, and the committee are especially indebted to one of its members, Professor Runkle, for many valuable suggestions.

It is fortunate the building is no smaller, as every room will be needed, and at no distant day. Admirable facilities will be afforded for instruction to advanced classes in all departments of manual training for girls, as well as for boys. One class-room was occupied as soon as it could be furnished and before the building was completed. The pupils were drawn from other schools and a new class formed last May. At the beginning of the term in September, the manual training school was organized, and an advanced class was started with twenty-four pupils, being graduates from three grammar schools. This was very encouraging, the number exceeding our estimate. Two class-rooms were also occupied by classes of the fourth and fifth grades, thus serving a purpose originally intended and relieving the Lincoln school building. The sewing classes have been transferred from the not very attractive room formerly used, to the well-lighted and spacious room in the new building,—a very important and beneficial change. The old drawing-room in the annex to the Lincoln School has been altered to serve other purposes, and the classes now receive their instruction in the training school building. The chemical laboratory has been completely fitted and furnished, and serves not only for the advanced classes but for several of the upper grades in the Lincoln School, to great advantage. The only hindrance to the work has been the very unsatisfactory and inadequate heating apparatus, the defects of which as well as the insufficiency must be remedied before another winter. It was fortunate it was not necessary to occupy the entire building at once. It is desirable now to equip the rooms intended for the work in metals, so that the advanced class may receive

instruction as soon as possible. An appropriation of \$2,000 will be necessary to provide the apparatus. It is believed a larger class will be formed in the fall, which with the class already existing will form a nucleus that will yearly increase and finally develop into a successful art school.

Music.

The Music Committee report a satisfactory year of work in the lower grades; but the work in the High School suffered somewhat on account of the four months' absence of Mr. Cole, and the lack of a competent substitute in the earlier months of the school year; but, beginning in November, Mr. Harry Fay, at considerable sacrifice to himself, gave his services for one morning a week, to the great pleasure and profit of the pupils, until the return of Mr. Cole in January.

The production of Cowen's "Rose Maiden," in May, shows there is good material in the school for work of a high order, and the little orchestra, while necessarily incomplete in parts, is an indication of the interest taken in instrumental music. It is hoped as new pupils enter from the lower schools that they will be inspired to take up some of the instruments which are now lacking, and thus form a creditable part of the school music.

The report of the Music Teacher will be found herewith.

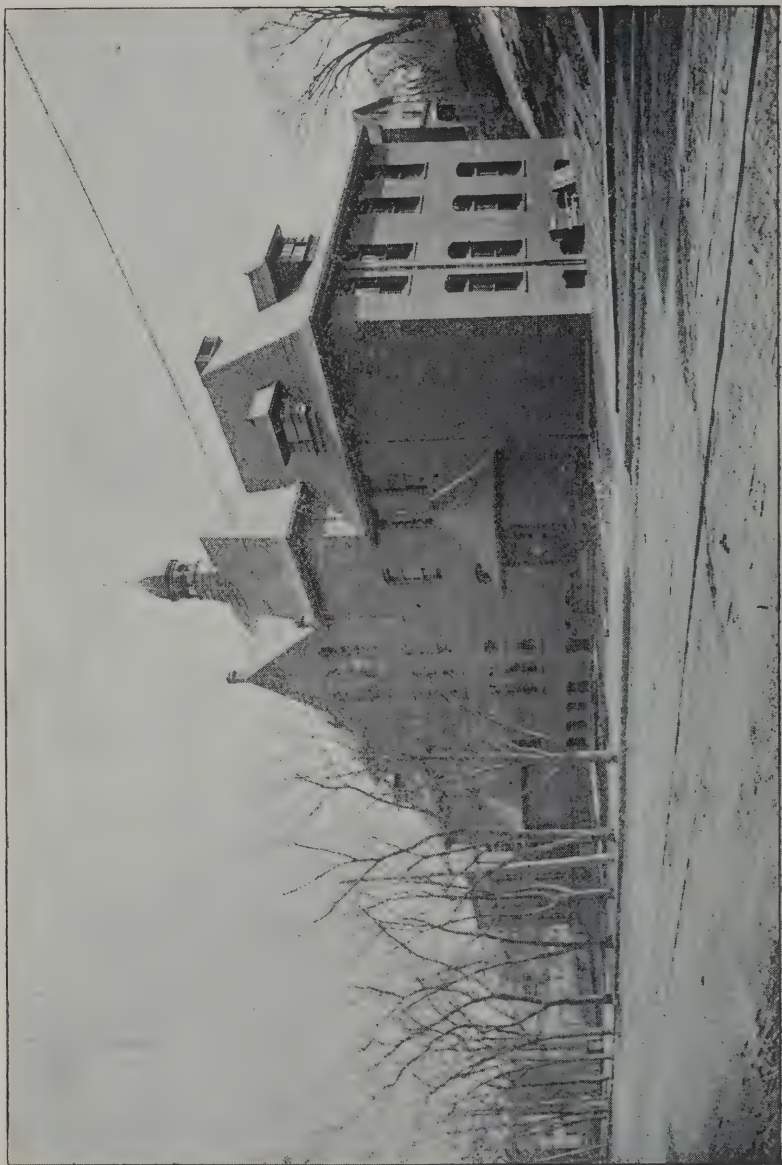

Estimate of Expenses for 1895.

In the following estimate of expenses provision has been made for heating and janitor service in the new High School building, from the time of its completion until the beginning of the next financial year:—

For Salaries of teachers	\$74,250 00	
Instructor in military drill	200 00	
Superintendent	3,750 00	
Clerk in Superintendent's office	450 00	
Truant officer	1,000 00	
Janitors	8,100 00	
Fuel	7,000 00	
Sunday expenses	7,000 00	
		\$101,750 00
Text-books, supplies, and reference books	5,000 00	
Evening schools	1,000 00	
Interior repairs	3,000 00	
Fitting up and furnishing forge-room in Manual Training School	2,000 00	
		\$112,750 00

THE WILLIAM H. LINCOLN SCHOOL

Summary of Statistics.

Number of children in town between five and fifteen years of age, May 1, 1894	2,376
Valuation of school buildings and grounds, May 1, 1894	\$552,648.00
Approximate value of other school property, as desks, pianos, books of reference, etc.	\$18,515.00
Assessed valuation of real and personal estates of Brookline, May 1, 1894	\$57,191,150.00
Amount expended for support of day schools, including repairs	\$97,715.28
Additional amount expended for text-books and supplies	\$4,525.71
Total expenditure for the schools for the year, including text-books and supplies	\$102,765.04
Percentage of assessed valuation expended for schools	.0018
Cost of instruction for each pupil, based on the number enrolled week ending Jan. 25th, 1895, including incidentals, text-books, and supplies	\$36.96
Cost of test-books and supplies for each pupil, based on the number enrolled week ending Jan. 25, 1895	\$1.63
Whole number of different pupils enrolled in all the schools for the year ending July 1, 1894, including the kindergartens	2,774
Average whole number for the year	2,247
Percentage of attendance in all the schools, based on the average whole number	92
Number of pupils over fifteen years of age	355
Number of pupils between eight and fourteen years of age	1,329
Number of pupils under five years of age	211
Number of pupils enrolled in all the schools for the week ending Jan. 25, 1895 (boys, 1,373; girls, 1,408)	2,781
Of which there are in the High School	246, or 8.8 per cent.
Grammar schools	1,228, or 44.2 per cent.
Primary schools	913, or 32.8 per cent.
Kindergartens	394, or 14.2 per cent.
Average number of pupils to each teacher in the High school	20
Average number of pupils to each teacher in the Grammar schools	41
Average number of pupils to each teacher in Primary schools	40
Average number of pupils to each teacher in Kindergartens	25
Number of teachers in High school	12
Number of teachers in Grammar schools	30
Number of teachers in Primary schools	23
Number of teachers in Kindergartens	16
Special teachers: drawing, 2; music, 2; sewing, 3; cooking, 2; manual training, 3; military drill, 1; instructor in French, 1; substitutes, 2	16
Total number of teachers in day schools	97

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of Brookline:—

In presenting my fifth annual report, I desire to call attention, in the first place, to some matters touching the business side of the school interests of the town.

School Accommodations.

Many towns and cities in Massachusetts are inadequately supplied with school buildings. Growth in population has been so rapid, and the standards of requirement respecting space and ventilation are so high that it has been next to impossible to meet the exigency. Notwithstanding the comparatively liberal policy pursued by Brookline in this regard, there is much yet to be accomplished. Let us take a brief survey of the field and see what the present condition of our buildings is, and what more will be needed in the near future.

The new High School has been designed to provide generously for all the requirements of a modern institution conducted upon broad lines. In respect to physical training, drawing, and science instruction, it will have facilities that are unsurpassed by any high school in the Commonwealth. While the outward appearance of the building is plain and unpretentious, the inside will unquestionably be well adapted to the great work to which it is to be dedicated. As it approaches completion, too much pains cannot be taken in respect to all appointments and details to make the building complete and attractive. The members of the building committee will find ample opportunity for the exercise of self-sacrifice as regards the expenditure of time and labor. Unless there is the most constant care and oversight, mistakes and omissions will occur that will be very expensive in the end. For a building so costly and intended to fill so large a place in the social and educational economy of the town, nothing should be approved as apparatus or furnishings except the very best of their kind.

The Pierce Grammar School has well served its day and generation, but, like an ancient castle, it is stronger in its traditions than in its present utility. The four class-rooms are large and fairly well lighted. But were the building to be examined, and its fitness measured by modern standards, it would be found to fall far short of what could be desired. A new, better, and larger building is needed, in which the conditions for health and comfort are present, and where, consequently, school work can be accomplished with less wear and tear. The completion of the new High School building will afford temporary accommodation to the pupils of the Pierce School while a new structure is being reared.

The Pierce Primary is an excellent building, but it has long been overcrowded. When the pupils of the High School shall have been transferred to the new building, I would recommend the opening of a kindergarten in the old as well as in the new High School. The room in the Pierce Primary now occupied by the kindergarten can then be opened to primary pupils.

Were a new grammar school to be built, the number of pupils per room could readily be reduced.

The William H. Lincoln School is admirably adapted to its purposes. The ventilation is not equal to that in the buildings more recently erected, but all the rooms are supplied with transoms, which afford an effective means of obtaining fresh air. The care that has been taken to preserve the building from injury of all kinds is creditable to its occupants.

The Lawrence is a very cheerful building and, with the later addition to its heating plant, is usually comfortable.

The new portion of the Heath School provides two pleasant, sunny rooms. The rest of the building is far from being satisfactory in respect to light and ventilation. It is to be regretted that an entirely new building was not erected when changes were made four years ago.

The Winthrop and Cabot buildings are all that could be desired. It may become necessary to enlarge the latter in the near future.

The Boylston and Parsons school-houses, while not equal to the best, may be rated as fair in respect to the two most essential qualities, viz., light and ventilation. It is understood that much needed changes are to be made in the plumbing of the Parsons School.

The new Sewall and Devotion houses are in advance of all the others in those particulars that affect health, comfort and convenience. In such surroundings, teachers and pupils labor with relatively more pleasure and profit. The more fresh air per pupil in any room, the better the quality of brain work that is accomplished.

The Longwood School, with the improvements made one year ago, answers well the needs of the immediate present. No time should be lost, however, in securing the proper site for a larger building, more centrally located, to meet the requirements of this rapidly growing section.

Upon one of the charming thoroughfares of the town stands the Newton Street School. It is a connecting link between the present day of wealth and progress and the primitive days of simplicity and poverty. This one-room edifice, with a small shed attached, is a perfect type of the country school-house of fifty years ago as it existed in the sparsely settled portions of New England. Here it seems out of harmony with its environment, surrounded as it is by the estates of the wealthy, and standing under the shadow of the engine-house, which, in comparison, is a veritable palace. If it is wise to continue a school in that locality, a pleasant cottage should be erected whose graceful architecture would be an ornament to the street, and would be in keeping with the educational standards of the town. The present edifice, with all its belongings, including piano, would hardly bring one hundred dollars if offered at auction. The average cost of plant for each pupil in the town is at least from one hundred and fifty to two hundred dollars. The attendance at Newton street averages fifteen; that would warrant an expenditure of two thousand dollars, which would go far toward providing a suitable building of two rooms.

The Manual Training School will provide for the growth of grammar school pupils for some time to come, as well as for the advanced classes. Whatever faults the building may have in its construction, there is reason to believe that they will not seriously hinder the work, for which it is intended.

The purchase of a lot for a school in the westerly portion of the town, is an act of justice to a large number of citizens who have hitherto been obliged to send a long distance. Large expenditure for free education can only be justified when equal advantages are furnished to all.

When the new High School shall have been completed, the long anticipated occupation of a portion of the old building for offices will add greatly to the efficiency of our system.

The question will naturally arise whether provision for shop-work and cooking, in connection with the Pierce School, can best be made in the old High School, or in the Drill Shed.

Salaries of Teachers.

Whatever of excellence the schools have attained is due largely to the high quality of talent represented in the teaching force.

One of the most important duties of the Superintendent has been the nomination of candidates for positions where vacancies have occurred. No pains or labor have been spared in finding persons who, by their culture and experience, were fitted to do successful work.

It has been increasingly difficult to find good nominees for positions in the higher grades. Several reasons conspire to make it so. One is the greater expense of living in Brookline, board costing from one to three dollars per week more than in neighboring communities. Then, again, the salaries of teachers in higher grades have been increased in many places, while little change has been made here. With the so-called enrichment of the Grammar School course, it is found desirable to have teachers in the three upper grades equal, in scholarship and teaching power, to those employed in the High School. The teachers of these grades

have been obliged to study diligently to prepare themselves for the broader work required. Several have taken courses at the Institute of Technology. While it may be no more important to have a high order of instruction in the higher grades than in the lower, it is still true that to deal successfully with older pupils, and to grasp all the problems that present themselves, requires more maturity, more scholarship, a riper judgment, and a stronger personality. The range of subjects is so broad and the skill required in correlating them is so great, to say nothing of the high quality of personal control demanded, that some change is necessary in order to hold our best teachers and to be able to command superior talent as vacancies occur.

On the other hand, it is relatively easy to secure competent young teachers for the lower grades. The range of selection is much larger, and many are found who are glad to come to Brookline because of the ample opportunities here for professional growth.

The question naturally arises whether the present scale of salaries is the best that can be devised, in view of the facts to which attention has been called above. The subject is vital to the best interest of the schools. The town cannot afford to permit the best teachers in the higher grades to leave its service because of inadequate compensation. These suggestions are made in the hope that your Committee on Finance may be able to deal with the subject as it deserves.

School Expenditures.

Every town and city in the Commonwealth is a sort of foster parent to all the children growing up within her border. They are her first and most important care. Upon her rests a solemn responsibility respecting the welfare of human souls. "To whom much is given, of him much shall be required."

Again, it is of the utmost consequence to the social welfare of our Republic that the children of the rich and poor be educated together. That the schools be made so excellent in their instruction and equipment that the wealthy and cultured, who are taxed for their support, may be glad to

patronize them. This you have done. The number of children in private institutions is small and is steadily decreasing.

The cost per pupil in Brookline is greater, therefore, not only because of the extra cost of living and the necessity for schools in many different parts of the town, but because of the extra expense attending the superior facilities you have made. In no other town or city have the Kindergarten, Manual Training, Domestic Economy, Needlework, and Science Instruction, been so universally introduced. All these branches require skilled teachers, expensively furnished accommodations, and the use of various materials and supplies. I believe the sentiment of citizens is almost unanimous in favor of these studies.

There remains then only one question to be answered to satisfy any reasonable enquiries concerning school expenses: Is proper care taken in the various items of expenditure? First, concerning teachers' salaries. The stipend received by the average teacher in Brookline ranges from fifty to one hundred and fifty dollars more than is paid in other towns. Board in Brookline ranges from six to ten dollars per week, while elsewhere it can be had for from three to seven dollars per week. The average difference is fully equal to the difference in salary. Second, the books in which are entered the expenditure for books, supplies, etc., are open to the inspection of any citizen. It will be found that much care has been taken to make every dollar expended render the best return. Discounts have often been solicited and obtained when a private purchaser would not think of asking for them.

In closing this portion of my report, it may be said that many towns are proceeding to do what you have done sometime since toward enriching and broadening the course of study. In many cases, what has been accomplished here easily and with no sense of burden, will be done in other places not without struggle and sacrifice.

School Legislation.

The legislatures of 1893 and 1894 passed certain statutes that bear directly upon school practice and should be brought

to the knowledge of the Committee, teachers and citizens. I propose for publication, in connection with this report, only those that are of importance to this town.

Some Events of the Year.

It is impossible to record here all matters of interest that enter into the school life. So broad and varied are the means employed, and so earnest and inventive are all the workers, that every day witnesses something noteworthy. The relations which the schools have to the home, to the state and to the community as a whole are seldom forgotten.

It is the policy once each year to throw open the doors of the schools and invite parents and friends to inspect the regular work. These occasions serve as one means of bringing about cordial and sympathetic relations between teachers and parents. Many visitors from abroad have been attracted hither, and in many cases their presence has been a healthy stimulus. Teachers have been specially enjoined not to change their plan of procedure upon such occasions.

Meetings for mothers have been held recently in the several kindergartens, at which the methods and means of teaching have been explained, and a more cordial interest has been secured. The reports of these conferences made at the grade meetings of teachers have been most encouraging. It is proposed to hold similar meetings in some of the grades above the kindergarten.

On Memorial Day, a very interesting meeting was held in the upper Town Hall, which was attended by the older pupils of the grammar and high schools, who sang patriotic songs. Addresses were made by the chairman of the School Committee, Judge Drew, Mr. E. H. Marsten, Master of the Phillips School, Boston, and Col. C. E. Hapgood. Expressions of approval were heard from several citizens, and, also, the wish that such a meeting might be held annually as a good means of teaching patriotism.

The High School extension courses, addresses to the school upon civic questions, public debates, prize speaking, concerts and exercises of graduation, constitute a sort of contribution to the social and ethical life of the community

and at the same time react strongly upon the schools. Such events also invoke the attention of men and women too much absorbed by the care and stress of a busy life, and recall the fact that, after all, education is a life process in which old and young may happily and successfully work together.

On June 5th and 6th, an exhibition was made in the lower Town Hall of some of the results obtained in drawing and various forms of manual training or handcraft. It was seen by a large number of people, and elicited much favorable commendation. The exhibit of water-color work from the grammar and high schools was a surprise as well as a revelation to all.

It is proposed to hold in June of this year an exhibition to be confined entirely to results in nature study and experimental science.

The performance of "The Rose Maiden," by the High School chorus and orchestra, under the direction of Mr. Cole, was a most enjoyable occasion.

On April 26th, Dr. J. M. Rice gave a helpful lecture upon the scientific method of teaching, as seen in the German schools. As Dr. Rice has since gathered much new material in Germany, I would recommend that he be invited to give a second lecture to our teachers.

During the autumn a course of six educational lectures was given on alternate weeks, and they were well attended by both teachers and citizens. The speakers and topics were as follows: Dr. James McAlister, "Pestalozzi;" Dr. Charles W. Eliot, "The enrichment of the course of study;" Mr. James L. Hughes, "The schools and school-masters of Dickens;" Prof. E. H. Russell, "Child study;" Prof. Josiah Royce, "Imitation in children;" Dr. Edward M. Hartwell, "The place and scope of physical training." The expenses of the lectures, amounting to about \$175, were fully met by sale of tickets.

In February last, with your permission, I attended a meeting of the National Association of Superintendents, at Richmond, and then paid a visit to the Tuskegee School, situated in the Black Belt of Alabama. Such opportunities for

keeping in touch with educational effort elsewhere are fully appreciated and help in keeping our policy true to the highest ideals.

The general teachers' meetings have been fully attended. Weekly grade meetings have been held, in which special attention has been given to geography and to correlation. Thanks are due to Messrs. Sanford, Packard and Richardson, and Miss Howell, for special instruction given to the teachers in science. Similar service was rendered during the first half of the year by Miss Willey and Miss Gaines.

The graduating exercises of the grammar schools, held in June, deserve particular mention. They made a profound impression upon some, at least, of those present. There was a skilful grouping of geography, history and literature, as well as of science, language and drawing. Instead of stilted declamations and compositions, there were original exercises, which in breadth of thought and gracefulness of treatment would have done credit to much older pupils.

Educational Progress.

The past year has witnessed unusual activity in educational endeavor throughout the country.

Early in the year was published what is known as the report of the Committee of Ten, — being the result of conferences by a committee of ten gentlemen appointed by the National Educational Association as well as of nine subcommittees to whom was assigned the task of considering the several subjects belonging to the course of study in the secondary schools. This document of two hundred and fifty pages contains much solid meat for the nourishment of teachers of all grades. It not only treats of educational values, the correlation of studies and methods of teaching, but presents programs adapted to the various courses of secondary schools. It also suggests how subjects may be treated in the grammar schools, so that the best and richest scholarship may be secured. It takes a fresh, hopeful and business-like view of things, and regards the child as though he were a living soul, endowed with tastes and capacities for

grasping and appreciating what is great and inspiring in human knowledge, and recognizes that his mental growth and health are dependent on the quality of the food he receives. The report is fully up to date in such matters as the correlation of studies, the importance of resuscitating the dead languages, the need of introducing at least one modern language in the grammar school, the introduction of elementary science, training in English in connection with other studies, the curtailment of arithmetic, and the substitution of elementary geometry and algebra. The report declares that it is better to omit history altogether, than to teach it by setting pupils painfully to reproduce the words of a text book.

Perhaps the most far-reaching declaration made in the main report, and endorsed by the sub-committees, is that the secondary schools of the United States, taken as a whole do not exist for the purpose of preparing girls and boys for college. Their main function is, to prepare for life. The preparation of a few pupils for college or scientific school should in the ordinary secondary school be the incidental and not the principal object.

No less valuable than the report itself have been the discussions upon it that have been held throughout the country.

The educational exhibit at the World's Fair has been another means of stimulating thought and endeavor.

Viewed in the light of the report of the Committee of Ten, and what was seen at Chicago, the schools of Brookline cannot be counted as backward in adopting new lines of effort, neither can they be said to have gone too fast. As is the case in many other towns and cities, we are passing through a transitional state, attempting to hold fast to what is good in the old while seeking to adapt the new.

In view of the efforts made by our teachers to secure a closer unity in all their work, the official award made to the Brookline schools at the World's Fair is worthy of notice. The terms of that award were as follows :

“For thorough coördination of the literary courses in all grades, with manual training, sewing, drawing and domestic

economy, and for attainments of the primary and grammar grades."

Diplomas were also awarded the High School.

It is gratifying to know that results reached two years ago, though less substantial than what can be seen in the schools today, were such as to call forth the intelligent and discriminating judgment cited above.

The High School.

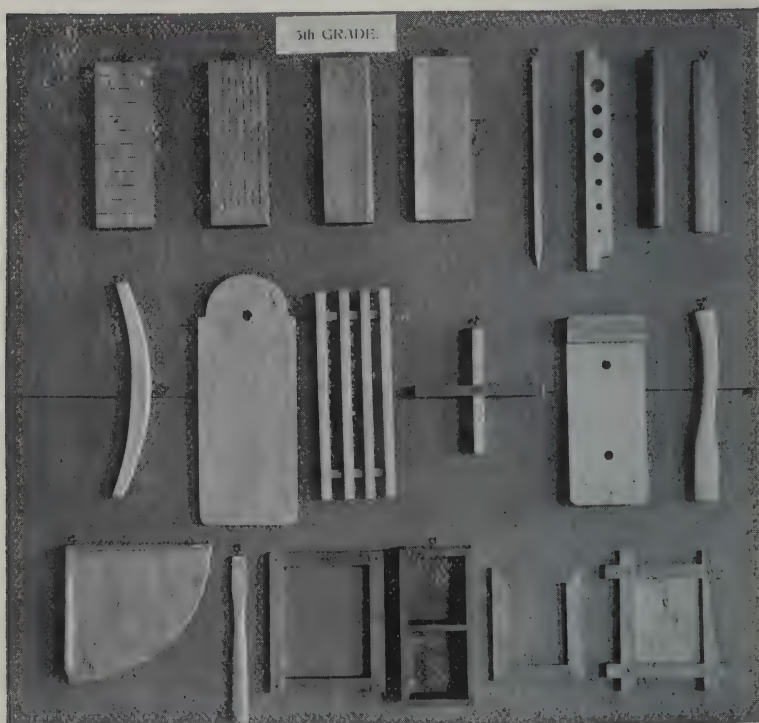

The progress of affairs in the High School will be treated by the Principal, so I need only refer to a few matters of general interest. While the expectation and hope of the community concerning the school has found expression in the solid masonry of a substantial edifice, designed as its future home, pupils and teachers have worked heartily together to make good their sense of obligation. The school and the new building will be worthy of each other. It is difficult to predict just what may be attained under the new conditions. One thing is clear, the school may become the centre of many educational and social interests. It may stand as an incentive to every child growing up in the town, urging him to do his best in striving for this goal. It may foster high ideals of honor, manliness, loyalty, patriotism and civic duty. It may kindle such a love for high things in literature, science, music and art, as to sweeten and enrich many lives. It may promote sound scholarship and send on to higher institutions those who shall be leaders in the state.

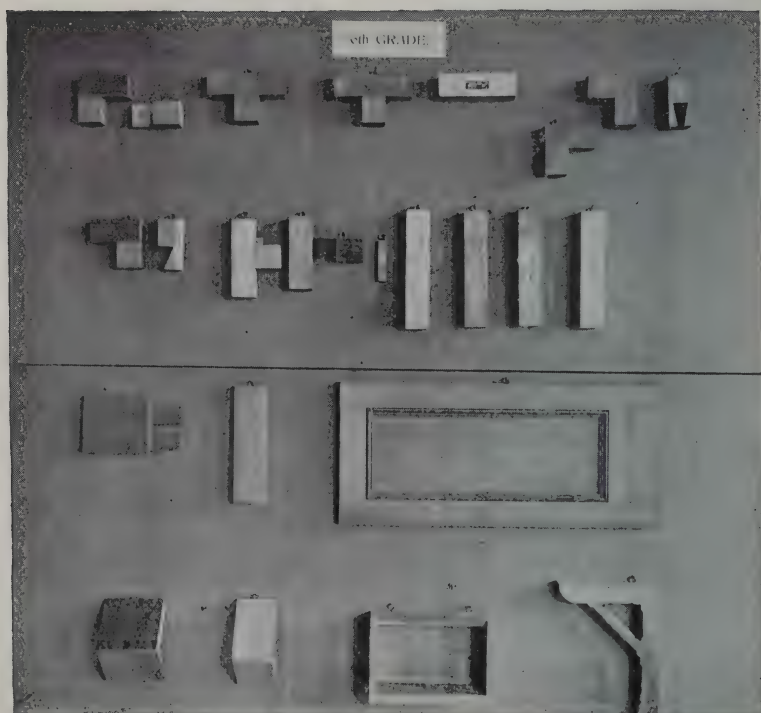

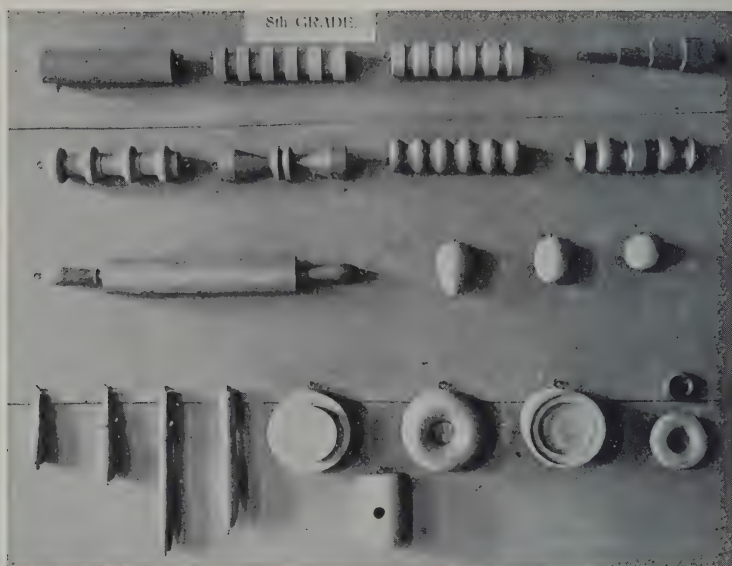

On the other hand it will surely be remembered by its friends who have been blessed with wealth and who look for worthy objects of benefaction. Although a public high school, let it become as soon as may be an endowed school, so well endowed, so fully equipped in its several departments, and offering such breadth and richness of opportunity to the students, that it may have no competitor in this vast community.

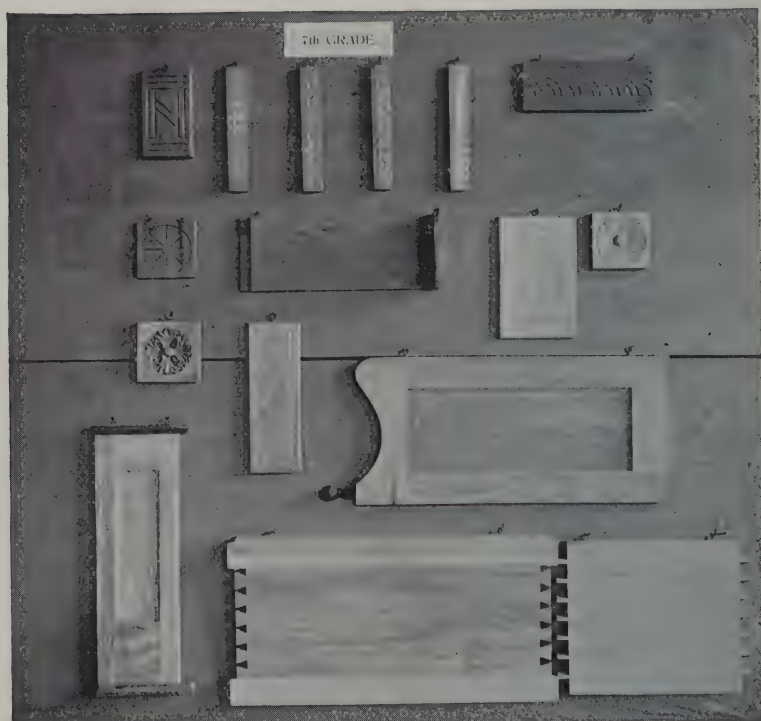

I want to quote a few words from the address made by your chairman, Mr. William H. Lincoln, upon the occasion

CHEMICAL LABORATORY -- MANUAL TRAINING SCHOOL

when the town was asked to appropriate money for the new building. They are applicable not merely to the building considered externally, but to its inner adaptation and adornment, and the special aims that are to be sought in a modern high school:

“This building is to stand in all human probability for generations to come. May it endure for a hundred years,—not only as a school where thousands of our youth shall be well equipped for the duties and responsibilities of life, prepared to meet its exigencies, but also as a witness to the present and succeeding generations of the labor, the zeal, and the intelligence of the people.

“Considering the World's Fair from the educational standpoint—for it is through education that civilization grows and advances—it seems to me it has taught us a lesson of great importance. That in all education, the highest ideal is to be looked for in the direction of the beautiful. If beauty, rightly conceived and considered, is the expression of harmony in what is present and actual and of aspiration toward the higher and better; if art has for its mission to lead us to the recognition of the beautiful in life, to teach us to turn our actions into harmony, then beauty must be the essential aim and purpose of education, and art its guide and inspiration.”

Manual Training School.

According to announcement, the first class was received in September. The building was not as fully equipped as could have been desired, and the teaching force was inadequate, so that several of the class of twenty-five that entered, have retired. Nevertheless, a good beginning has been made.

A chemical laboratory has been thoroughly furnished for fifty pupils, and is used not only by the advanced class, but also by the ninth grade and the two eighth grade classes from the William H. Lincoln School. This will prove an interesting experiment, as well as being an exceptional provision for grammar pupils. A forge-shop is now needed

in order to carry out the manual training scheme. Plans and estimates will soon be submitted for your approval.

After considerable experimenting I am led to recommend that, hereafter, manual training in the grammar school be carried no farther than wood-turning, and that pattern-making be the first course taken up in the Manual Training School proper. This will permit the laying of a stronger foundation in bench-work.

At the close of last year, Mr. D. S. Farnum retired from the principalship of the Lincoln School. It is a pleasure to record my sense of his friendly aid and loyalty in helping on every plan for more progressive work. Mr. M. W. Richardson, the new principal of the William H. Lincoln and Manual Training Schools, has entered the field with great zeal and earnestness.

A course of study for the Manual Training School is in preparation. It must be regarded as tentative, and may need considerable modification. The more closely the Manual Training School is coördinated with the High School, the better it will be for both. I would therefore recommend that, beginning with next year, courses in shop-work be provided for the boys, and courses in advanced cookery for the girls in the High School. I trust that, also, it may be found feasible to afford the pupils of the Manual Training School the advantages furnished at the High School in music, art and physical training.

Art Instruction.

Your attention is invited to the interesting report of Miss Weir, the supervisor of drawing. It is a very moderate statement of what has been done during the past year and a half, to awaken an interest in the study of art on the part of both teachers and pupils. By the use of water colors, pen and ink and other media the subject has been put upon a higher and broader plan.

Drawing as a means of expression has been freely used in connection with all subjects. No less important are the efforts made by the Supervisor to bring a true art spirit into

the schools and to make available for this purpose the art collections that are near at hand.

The report of last year contained a list of works of art placed in the Lawrence School by the ladies' art committee of that district. Following are the titles of the reliefs and casts provided for the hall of the Lincoln School by the generosity of Mr. William H. Lincoln.

1. Frieze of the Parthenon, from the British Museum.
2. Bas relief from the Greek temple at Pergamos, representing the battle of Minerva with the giants. From the Royal Museum at Berlin.
3. Statue of Minerva. From the British Museum.
4. Statue of Cæsar Augustus. From the British Museum.
5. Statue of Urania. From the Louvre Museum.
6. Bust of Marcus Aurelius, British Museum.
7. Bust of Julius Cæsar, British Museum.
8. Bust of Cicero, British Museum.
9. Bust of Demosthenes, British Museum.
10. Bust of Homer, British Museum.

Physical Training.

Under the direction of Miss Helen P. Howell, exercises have been introduced that have greatly increased the interest and pleasure of physical training. While the Swedish exercises have been largely retained, these have been supplemented, especially in the lower grades, by movements that partake more the nature of play than of work. The doctrine of Froebel that the child's instinctive love of play should be recognized in all studies, has never yet been proven to be erroneous. On the other hand, much that is bright and wholesome in our schools today is based upon this principle. But the question may be raised, How long does this playful period in a child's life continue, and how far is it to be recognized in a system of education? The first query was answered long ago. It continues well into manhood and womanhood, and, in healthy cases, even to old age. To what extent we may utilize this fact in the processes of education is yet a matter of experiment and

even of debate. I venture to affirm, however, that the ideal school has little that depresses and much that enlivens, and no one can deny that physical health is best conserved by conditions favorable to enjoyment and happiness.

Instruction in Music.

The report of Mr. Cole contains all that is of interest in this department. The methods used are such as to promote good taste and the refinement of mind and heart. In these latter days of the century, when moral culture is widely recognized as the highest end of education, too much emphasis cannot be given to the cultivation of an art that elevates and enriches the home life while tending to individual cultivation and enjoyment.

The Evening School.

The report of Mr. Andrews calls attention to the need of a better classification of the Evening School. I trust it may be possible in the future to do more for those pupils whose circumstances have prevented their completing a course in the day schools. The work accomplished the past winter has been fully equal to that of previous years.

During the remainder of the year oral and written tests will be given in all grades to supplement what is done by the teachers. It is believed that all the grammar classes are further advanced and have a capacity for work that is in excess of what has hitherto been attained.

The teachers are working unitedly to make the schools all that they should be. There is an increasing pride on the part of the pupils also in doing well, and in adding, if may be, to the good name which the schools have already achieved.

I will close by expressing the wish that the members of the committee might visit the schools more frequently, and so become intimately acquainted with the aims of the work and the spirit that prompts the workers.

Respectfully submitted,

SAMUEL T. DUTTON.

February 11th, 1895.

REPORT OF THE MASTER OF THE HIGH SCHOOL.

MR. S. T. DUTTON,

Superintendent of Schools :

In submitting my fourth annual report it gives me pleasure to testify to the skill and earnestness of my co-workers at the High School. It is their ambition to become experts in the adaptation of right means to noble ends, ever preserving a greater interest in the individual pupils than in the subjects they teach.

The sympathetic attitude of the committee and the freedom of action allowed to us in shaping the school are of incalculable value.

A good school is of gradual growth; it cannot be forced. As the growing plant is directly dependent upon the soil from which it springs and the atmosphere in which it expands, so the development of a high school is conditioned by the character of the lower schools and the attitude of the community towards it. I need not say that both conditions are favorable in Brookline. The many excellent changes introduced into the lower schools involve no less important changes above. The High School, too, is vitalized thereby. And the people of Brookline would be inconsistent, if in their attitude towards their High School they forgot their accustomed loyalty to local institutions. All the considerations which prompt them to an intelligent interest in the management of their roads, their water supply, their town government, have even greater weight with reference to their High School. That they are not indifferent to it, is clearly evidenced by the rapid growth of the school and the liberal provision they have made for its future.

The close of the present year will mark an important epoch in the history of the school. The old building, which has been its home for almost forty years, will be abandoned for the new structure. Such a change, so big with consequences, warrants me in outlining briefly what I conceive to be the policy which should be followed in the future development of the school. It is contrary to the genius of the institution that it should be conducted in the interest of any class. It should be as thoroughly democratic in the future as it has been in the past, a place where merit alone shall win preferment. It should be a place where graces of the heart should be more prized than intellectual attainments; and, finally, a place where there shall be set up, as ideals, high aims and noble purposes.

Without doubt, the best feature of the school in the past has been its spirit. This is to be preserved at any cost. It would be, indeed, a pity if, in the larger life of the future, there should be any diminution of cordial relationship between teachers and scholars, of the *esprit de corps* and common loyalty for the school, which has furnished an additional motive for study.

Too frequently a utilitarian spirit has dominated our American schools, commercial ideals have dictated courses of study, and specific requirements for college have substituted educational standards which are quantitative rather than qualitative. We believe that preparation for college, or business, or usefulness in one's home, is perfectly consistent with the pursuit of the largest culture, which shall enrich one's life with generous sympathies and intellectual resources wherever his lot may be cast.

Broad students of educational questions are greatly dissatisfied with the traditional high school. They call it an anomalous institution, arbitrarily limited to a period of four years, with little organic connection with the lower schools, narrowly developed in the interests of the higher institutions, which, in the academic standards set, think not at all about the boys and girls who are not going to college. Education should be continuous. There should be no rude breaks or abrupt transitions, but an ascending road of easy gradients through school, or school and college; and self-culture should be recognized as one of the permanent interests of life. In no one particular did the school of the past more signally fail. Study, except for professional men, came to be regarded as belonging solely to the years of childhood. The school was a thing apart, stereotyped, unprogressive, between which and the world there was a great gulf fixed. Now the disposition is to bring the school up to date, to establish connections with the present, and to correlate all the educational forces of our modern life.

The school and the community should react, each upon the other, and there should be a blending of adult and juvenile interests, which, by more thoroughly identifying the school with the world of thought and activity about it, would make the transition from the one to the other an easy and a natural one.

Pupils of high school grade are not too young to be introduced to most of the social and political problems which are vexing their elders, and no opportunity to bring before them leaders in thought and in action should be lost.

AIMS OF SECONDARY EDUCATION.

The aims of secondary education have been well formulated by Professor Hanus. They are:

1st. To discover and systematically develop a human being's interests and capacities, intellectual, moral, æsthetic, manual and constructive.

2d. To gradually emancipate him from external restraint and guidance, and make him self-directive, *i. e.*, mentally and morally stable, alert, vigorous and active.

3d. To promote his normal physical development, *i. e.*, make him physically stable, alert, vigorous and active.

4th. To enable him to realize that the prizes of life—wealth, leisure, honor,—to possess lasting value, must be earned, or, if inherited, must be deserved. Finally, that a man's highest and most permanent ideal is service.

CHANGES OF STUDIES.

The most noteworthy changes have been the introduction of astronomy for the third class, and of daily English themes during the first half of the present year for the seniors. The results of this experiment in English composition have proved so satisfactory that it is our intention to give each class in turn the benefits of a similar course.

The course in modern history, started a year ago, has been continued and extended in its scope; and the physical training for the girls has been made more attractive by the introduction of many new features.

The book-keeping class, much larger than ever before, has been so fortunate as to receive weekly instruction from the chairman of the school committee, Mr. Lincoln, who kindly volunteered his services when we were at a loss to find a competent teacher.

The very suggestive development of the Art department along many new lines is described in Miss Weir's report.

TEACHERS' MEETINGS.

Our bi-weekly teachers' meetings have been mainly devoted to the consideration of individual pupils. Such topics as the class recitation, examinations, note taking and the marking system have also been discussed.

Other meetings, the most valuable, perhaps, have been conferences, to formulate aims and harmonize methods, between those engaged in teaching the same subject.

I have also had frequent conferences with parents to determine the standing of their children.

OBJECT TEACHING.

The position of the school so near the capital of the state and within easy reach of the Natural History and Art collections of Cambridge and Boston, gives us inexhaustible resources for studying history, art, science, and government. The teachers frequently conduct their pupils to the museums and picture galleries; the civil government class goes in a body to the state nominating conventions and General Court, and, recently, the senior class began their preparation for their historical prize essays, by spending a day in Concord and Lexington. Through the courtesy of Mr. Tolman, they were hospitably entertained in the rooms of the Concord Antiquarian Society. On this expedition, which it is hoped is but the first of many historical pilgrimages, we were greatly indebted to Miss Ellen Chase, who has given a new impetus to the school's interest in local history.

THE SAGAMORE.

The school paper, a monthly periodical, recently started, well illustrates the enterprise and capabilities of our pupils. It seems destined to fill an important place, giving practice in composition and faithfully reflecting the life of the school. Altogether unique features of such a paper, are the diaries of two Brookline girls, written more than one hundred years ago, and edited by Miss Chase, and the valuable notes upon the history of the school by its former principal, Mr. J. Emory Hoar.

THE DEBATING CLUB.

The Debating Club has continued its practice of holding annually a public mock meeting of some governmental assembly, by reproducing a session of the United States senate. On this, as on former occasions, the club was greatly indebted to the unflagging interest of Mr. W. G. Nash.

LECTURES.

Mr. Thos. H. Talbot, Mr. A. H. Latham, Captain R. G. F. Candage, Mr. Geo. H. Worthley, Mr. Harry W. Lamb and Mr. Charles H. Utley have given practical talks to the civil government class, and the following gentlemen have spoken more or less formally to the school: Prof. Felix Adler, Mr. Booker T. Washington, Dr. H. B. Frissell, Mr. Virchand R. Gandhi and Mr. Percival Lowell.

THE HAMPTON SCHOLARSHIP.

That is a defective education which makes no appeal to the generous impulses of those with whom it deals. The correlative and complement of self-culture is self-sacrifice. There is danger that in striving for the one we forget the other. So when our boys and girls were prompted to raise by small, individual contributions the seventy dollars needed annually to defray the school expenses of a colored boy at Hampton Institute, they were encouraged to do so. A promising lad has been assigned to the school who will receive the benefit of what is to be known as the Brookline High School scholarship.

ATTENDANCE.

Whole number enrolled for school-year ending July, '94	238
“ “ “ for present year up to date, Jan. 31, '95	256
Number of boys belonging to school Jan. 31st, '94	101

“ III.	16 “ 2 “		16 “ 5 “
“ IV.	15 “ 5 “		15 “ 4 “

The graduating exercises of the Class of '94 were held in the Town Hall, Thursday evening, June 21. Prof. Oren Root of Hamilton College delivered a thoughtful address upon “Education of the Individual.”

Of the twenty-seven graduates, two entered Harvard, one entered Williams, another entered Tufts, three were admitted to the Massachusetts Institute of Technology, two to Smith, two to Boston University (special courses), one to the Bridgewater Normal School, one to the Boston Normal School; one is studying at the Museum of Fine Arts, another at a private school, and two have entered commercial schools.

Eight have already found employment.

Business men in need of assistants will find it to their advantage to apply at the school, as we are prepared to give detailed information concerning the character and capabilities of all our students.

Five of the second class took preliminary examinations for Harvard, three for the Institute, two for Radcliffe, four for Smith and one for Tufts.

Credits were taken at Harvard and at Radcliffe in the following subjects: 7 in Greek, 2 in German, 1 in Algebra, 1 in History.

PRIZES.

The winners of the J. Murray Kay prizes for the year 1893-'94 were as follows:

HISTORICAL ESSAYS.—Agnes Andrews, Mary Maloney.

ELOCUTION.—Girls' prize, Katherine M. Hall. Boys' prize, W. Norris Magoun.

THE WM. H. LINCOLN MEDALS.

For excellence in English.—Gold medal won by Nathan R. Wood.

For excellence in French.—Silver medal won by Bessie C. Wood.

For excellence in Latin.—Silver medal won by Agnes Andrews.

For excellence in Physics.—Silver medal won by James B. Niver, Jr.

For excellence in Mathematics.—Silver medal won by Frederick B. Taylor.

ATHLETICS.

We have not escaped the athletic fever which is raging in all the schools and colleges of the country. Our school, comparatively small though it is, has won an honorable record in track athletics and football. Three years ago we ranked second in the interscholastic sports, and two years ago we won second place, although competing with much larger schools. This year, the foot-ball team, successful in every game, won the junior league championship.

The teachers have felt no disposition to discourage these interests, although not indifferent to the dangers attendant upon foot-ball. Fortunately, in our experience as a school, there were no serious casualties. Before another season opens it is probable that such modifications of the game will be made by its friends as will correct its most objectionable features.

The valuable lessons learned on the playground in self-control, courage, presence of mind, and independent as well as coöperative effort, are

a sufficient justification for our sympathetic attitude towards these sports. They are a legitimate, natural and wholesome manifestation of youthful vigor; they promote bodily strength and health; they supplement our best efforts to inculcate principles of manliness. The danger that some will over-exert themselves in this direction is not greater than that another portion of the school will fail to take exercise enough or will study too much. Both tendencies are to be guarded against.

The school is fortunate in numbering among its teachers one who, from practical knowledge of athletics, is qualified to direct the boys in these interests. No one neglecting his studies is allowed to play on a school team, a regulation which the sentiment of the school endorses.

It is significant that the scholarship of many when they were playing foot-ball was better than at other times, a fact which is attributed by the boys themselves to the good effects of systematic exercise and regularity of home study during the foot-ball season.

I am convinced that infinitely greater harm is done by excessive piano practice during school life than by any intemperance in athletics, and all my observation goes to prove that, in Brookline, social distractions, parties and evening entertainments are a far greater hindrance to satisfactory progress at school than organized sports can be. Parents could do the school and its pupils, their children, no greater service than by relegating such events to the latter part of the week, and by insisting at all times upon early hours and uninterrupted home study.

The school of the future will take much more account of the physical well-being of its scholars than it does now. Besides furnishing gymnastics, which shall be as discriminating and progressive as the best schemes for mental training, it will recognize all youthful sports and pastimes, estimating each at its proper value. It will encourage in girls as well as boys the freest out-door life, and closely correlate the prescribed gymnastics with the sports of the playground. It is reasonable to hope that in our new quarters we may make some progress towards the realization of these ends.

I would respectfully recommend that a physical examination be provided for all members of the school; that the gymnasium be equipped with apparatus suitable for individual assignments in exercise; that the gymnasium be open for this purpose certain afternoons in the week; that the rear of the lot be devoted to a playground for the girls, and that participation in all highly competitive sports be made contingent upon the pupil's physical condition.

ALUMNI ATHLETIC CUP.

The graduates of the school, at the suggestion of Mr. Benjamin Hurd, Jr., have presented it with a handsome cup, to be held each year by the class winning the greatest number of points in the annual sports.

Number of boys participating in foot-ball	20%
Number of boys participating in base-ball	15%
Number of boys participating in track-athletics	15%
Number of boys and girls who play tennis	40%

About 50% take part in no athletic games.

EXTENSION COURSES FOR THE WINTER OF 1895.

The Drama	Miss Anna M. Johnson.	Six lectures
The Women of Shakespeare, } Macbeth—An Interpretation, }	Rev. Reuen Thomas, D. D.	Two lectures
Astronomy		
	Mr. Prentiss Cummings.	
The Relation of the Public Library to the Schools and the Community	Mr. Charles K. Bolton.	Two lectures

Syllabus of Miss Johnson's Course.

February 5.

THE PRE-ELIZABETHAN DRAMA.

- (a) The Drama distinguished from the Epic and the Lyric.
- (b) The Drama of England briefly contrasted with that of
 - 1. Greece.
 - 2. Rome.

I. MYSTERIES.

- (a) Origin.
- (b) Illustrative Plays.

II. MORALITIES.

- (a) Illustrative Plays.
 - (b) Readings.
- Interludes, Farces, Masques.

February 12.

THE ELIZABETHAN DRAMA: HISTORY.

- I. Marlowe: Edward II (Extracts).
- II. Shakespeare: Henry V.

*February 19.*THE ELIZABETHAN DRAMA (*continued*): COMEDY.

The term "Comedy" discussed as to

- (a) Derivation.
- (b) Misuse when applied to certain Shakespearean plays.

- I. English Comedy before Shakespeare.
- II. Shakespeare: "The Merchant of Venice."

*February 26.*THE ELIZABETHAN DRAMA (*continued*): TRAGEDY.

Origin of the term "Tragedy."

- I. Marlowe: "Faust" (contrasted with Goethe's "Faust").
- II. Shakespeare: "Macbeth."

*March 5.*THE ELIZABETHAN DRAMA (*concluded*): ROMANCE.

The term "Romance" considered.

- I. Shakespeare: "The Winter's Tale."
 - II. Shakespeare: "The Tempest."
- The Last Elizabethan Dramatists.

March 12.

THE POST-ELIZABETHAN DRAMA.

The Closing of the Theatres.

- I. The Drama of the Restoration.

II. Dramatic Composition in the Eighteenth Century.

- (a) Addison: "Cato."
- (b) Goldsmith:
 1. "The Good-natured Man."
 2. "She Stoops to Conquer."
- (c) Sheridan:
 1. "The Rivals."
 2. "The School for Scandal."

III. The Nineteenth Century Drama.

- (a) Dialogue:
 1. Byron.
 2. Tennyson.
- (b) Monologue:
 - Browning.

Since the works of Shakespeare are easily obtained, members of the Class will be expected to familiarize themselves with his plays. At the meetings Miss Johnson will read from writers whose compositions are less accessible.

The class will meet in the High School Building at half-past seven on successive Tuesday evenings.

REFERENCE BOOKS.

- Shakespeare: Plays.
- Æschylus: Plays.
- Sophocles: Plays.
- Euripides: Plays.
- Scott: "Kenilworth."
- Goadby: "Shakespeare's England."
- Emerson: "Representative Men" (Essay on Shakespeare's).
- Carlyle: "Heroes and Hero-Workship" (The Hero as Poet).
- Hudson: "Shakespeare's Life, Art and Characters."
- Dowden: "Shakespeare, His Mind and Art."
- "Shakespeare Primer."
- Craik: "The English of Shakespeare."
- Corson: "Introduction to the Study of Shakespeare."
- "Introduction to the Study of Browning."
- Shairp: "The Poetic Interpretation of Nature."
- Pollard: "English Miracle Plays."
- Abbott: "Shakespearean Grammar."
- Palgrave: "The Golden Treasury."
- Bullen: "Lyrics from the Drama of the Elizabethan Age."
- Lowell: "Among my Books" (Essay on Shakespeare).
- Green: "History of the English people."

The Epic and the Lyric were studied the first two years. It is proposed to consider in future years the Novel and the Essay.

Respectfully submitted,

D. S. SANFORD.

REPORT OF THE TEACHER OF MUSIC.

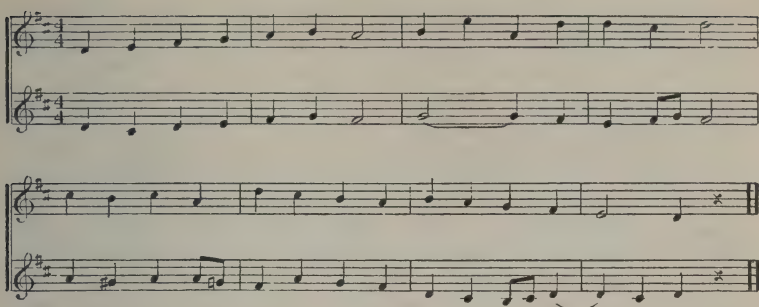

MR. S. T. DUTTON,

Superintendent of Schools:

The musical instruction in the primary schools and the lower grades of the grammar schools, has been in charge of the Assistant Music Teacher, Miss Ella F. Story. The same degree of faithfulness and intelligence which has characterized her work from the first, has been manifested during the past year. The course of study in these grades was carefully planned with reference to its bearing upon the entire course, and with the definite object of giving the children that which is necessary to make music a life-long blessing, and of furnishing them with the proper foundation for a higher musical education later in life. My conception of the province of these lower schools comprises something more than a consideration for the present pleasure of the child, though that should never be overlooked. We have studiously endeavored so to conduct the instruction in these grades as to accomplish the greatest good of the greatest number for the longest time. It can be truthfully said that the method employed in these grades has in it less drudgery and more singing than that in use in any other schools within my knowledge. It has ever been my aim to counteract the idea which prevails to a very large extent among children, that noise is music, and to insist on musical sounds in all our work.

The work in the upper grammar grades has been conducted in the same manner as in previous years. The study of intervals, to which I alluded in my last report, has been continued with still better results, and it is probable that the subject may be so simplified as to be introduced at least a year earlier, in the seventh grade.

On the nineteenth of January last, occurred the annual conference of the New England Educational Workers, in the hall of the English High School, Boston. Educators to the number of about one thousand were present, and the entire day was devoted to the interests of public school music. Two classes from the Brookline schools appeared; one from the Parsons School, in charge of its teacher, Miss Hattie L. Carr. This class was introduced by a short address from our Superintendent, Mr. Dutton, and did themselves and their teacher much credit by their tuneful singing. The other class was the sixth grade from the Pierce School, Miss Adeline Dodge, teacher. This class was present to take part in sight-singing tests, furnished by the committee of the conference, and drawn by lot. The following exercise, in two parts, was sung correctly at the first trial:

The work was favorably noticed in the Boston Herald of January 20, by some one unknown to me.

In my last report mention was made of a work then in preparation by the High School—"The Rose Maiden," by F. H. Cowen. This was given in the upper Town Hall, Thursday evening, May 24, 1894. The school had the assistance of several well-known artists, for the leading parts and in the orchestra. A large and enthusiastic audience was present, and very favorable mention of the work of the school was made by the musical critic of the Boston Daily Advertiser. The work in patriotic music, to which allusion was made in my last report, had a hearing on Decoration Day in connection with the memorial services. The High School chorus and orchestra also furnished the music at the meeting in aid of the Hampton Institute, the Prize Speaking contest, and the High School Graduating exercises, so that the year has been an exceedingly busy one for the musical department of the High School.

Since the close of schools in June last, I have had ample opportunity to observe the work in music in Germany, France and England; as I propose to visit quite extensively both East and West before the close of this school year, I will defer particular mention of what I witnessed abroad until my next report. Meantime, I am using all the information gained during my absence, for the improvement of our own work.

It is earnestly desired that parents and friends will visit the schools for the purpose of hearing the music, for it is in the school-room, as a rule, that the best exhibition of methods and results can be seen.

Respectfully submitted,

SAMUEL W. COLE.

Feb. 27th, 1895.

REPORT OF THE SUPERVISOR OF DRAWING.

Mr. S. T. DUTTON,

Superintendent of Schools :

In the report which follows, it is my endeavor to show the aims and purposes of our work, rather than the methods and details of accomplishment. The test of the value of any work lies in the answer to the question, "How does it affect the individual?" rather than "What material results can be shown?" and, as individual growth is always a slow and often a secret process, we cannot yet, perhaps, lay our finger on results.

The character of the study of art as it is being developed in the public schools in Brookline, is of a two-fold nature. It seeks first to help every child to feel and see the beauty in the world of nature and art, and to recognize his own kinship with it; and next, to give him by careful training, the power to express through color and line, that which he feels and sees, and the meaning of it to his own soul.

NATURE STUDY.

During the autumn and spring, a large part of the work done in all the grades comes under the head of nature study. Correlated with the sciences, it means a powerful awakening of the child's natural interest and delight in the world of nature about him. The love of beauty is inherent in every heart, and through the child's desire to lovingly study the growth of plants and vegetable life, and his attempt to express his discoveries, a power is gradually unfolded that means a life-long blessing to him.

THE USE OF COLOR.

The utter inadequacy of pencil drawing alone to express the grace of form and charm of colors as seen in every flower and leaf and bud, has led to the almost universal use of water-colors for this part of our work. In all departments of education we aim to produce the best result by the most direct and effective means. If we want to bring to the mind of another, even so simple a thing as a rail fence, we may choose one of four methods,—written or oral language, outline drawing, or color. Which is the most complete expression of the idea? Written or oral language but brings to the mind the memory of some rail fence already seen; the pencil institutes a search for imaginary edges, and requires the drawing of at least twelve lines; the brush filled with color expresses the whole thing, form, surface, color, in half as many strokes. No other defence for the use of color in our school rooms seems necessary, although there are many advantages beside those of directness and simplicity, for which it stands. The most telling argument, perhaps, is this: that the children, from the oldest to the youngest, love it so well, that to be deprived of the opportunity of painting is considered one of the severest punishments.

OBJECT DRAWING.

In addition to the nature study, we are attempting many other things. The drawing of the so-called type solids is but a very small part of the whole scheme. It is life, and the ordinary, yet beautiful things about us, which furnish us with the most abundant material. Everything appeals to the child, and he has a vital interest in drawing the book from which he reads; the plant, whose daily unfolding he eagerly watches; or the vase or pitcher, the fan or rose jar, which he uses. But we aim to draw always things beautiful, and choose rather the plant in the flower-pot, than the tin can of common use. The pretty, live creatures brought in for science study, come in as well in their place: the rabbit, the pigeon in its cage, the gold-fish, and even the dog and cat.

ILLUSTRATIVE DRAWING.

The illustrations of science and literature reveal, perhaps better than anything else, our limitations. It is curious to observe how few children have any idea of drawing a living person. It does not seem to occur to them to draw from each other; and so, to familiarize them with the living human beings about them, we are introducing occasional sketching lessons, in which they can draw from a person standing in front of a window, where the figure is silhouetted against the light and thus simplified. Sketches of corners of a room, views out of a window, or glimpses of a hillside, help greatly in training the powers of observation and pictorial expression. Perhaps we are losing the accuracy of former days, by enlarging our boundaries; but, if so, are we not gaining a finer spirit, a truer interest, a larger power, by giving the child that which he loves to do?

GRADE MEETINGS.

The experiment has been followed, since my coming to Brookline, of laying out the plan of work by means of monthly grade meetings. In this way, the teachers, from all parts of the town, have opportunity of comparing their results with each other, of discussing various methods of lesson-giving, of receiving the new monthly scheme with explanations and illustrations, of keeping in touch with High School work, and of feeling, in a measure, the relation of each part to the whole. This method is in use in various other places, and is economical both for time and strength. It is supplemented by occasional visits to the schools by the Supervisor, when special color and drawing lessons have been given.

The meetings are well attended, and most hearty thanks are due to the teachers for their earnest, appreciative and helpful spirit, without which little could be accomplished.

OUTLINE OF THE HIGH SCHOOL WORK.

Of the plan of instruction here followed, a few words must be said. The subject is required at present only during the first year, but a large proportion of students elect it during the second and third years. The first year's work is similar in character to what has already been de-

scribed. The nature study has been improved by a few books of good Japanese color prints for reference. These have been helpful in giving standards of good color, the massing of blacks and whites, and in delicate line-rendering. The brush is so flexible that it responds immediately to the thought, and as a matter of training, its use gives facility and dexterity that can be acquired in no other way. To Prof. Ernest Fenollosa, of the Museum of Fine Arts, and to Mr. Arthur Dow, we are indebted for their interest and occasional criticism in the new methods we are attempting. The winter and spring work is mainly drawing from objects and their surroundings, as hallways, corners of rooms, streets, houses, and the beginnings of out-door sketching. When our location is less cramped than at present, this feature of the subject can be greatly enlarged.

PEN-AND-INK WORK, AND THE HISTORY OF ART.

The second year's work is divided into two parts, the first half being devoted to a pen-and-ink course. This course, by Mr. D. A. Gregg, instructor of pen-and-ink rendering in the Institute of Technology, has held the enthusiasm of the students completely. They at first imitate line renderings, and then select or invent their own methods for reproductions from photographs. It leads directly into the second half year work on the history of art.

This course correlates with the general history. It consists of a series of brief lectures with notes, which are illustrated by the pupils from books and photographs. Through the kindness of Mr. Charles K. Bolton, librarian of the Brookline Public Library, the classes meet weekly in one of the rooms in the library, and thus have at their command all the books on a given subject for reference and illustration. Frequent visits to the Museum of Fine Arts are made possible by a permit from General Loring, Director of the Museum, admitting the classes on a private week-day. These visits are a valuable part of the work. The Assyrian collection at Harvard College will also be visited, through the courtesy of Professor Lyon.

A hope has been expressed that this course on the history of art may sometime be made available to other teachers and students than those directly connected with the High School.

GIFTS TO THE ART DEPARTMENT.

To Mr. William H. Lincoln we are indebted for two very beautiful plaster models of the gold medal given by him for the English prize. A portfolio of valuable photographs and engravings was given last spring to the school by Mrs. Elizabeth Cabot. It is hoped that this may be the nucleus of a collection which will give the museum in the new High School an equipment second to no other. There is a large field for its usefulness here.

THE GREAT PRESENT NEED.

We need pictures, photographs and reliefs. If the arts stand for anything they stand for the culture of the highest side of the nature. Their influence is always toward refinement and purity. This means a direct

result on the character of the individual, and the character of the individual is what we are trying to mould. Beauty and goodness go hand in hand. The picture speaks constantly, insistently, and is a silent monitor. "I could not be naughty with Uncle Philip's eyes looking down upon me, so I crept under the table," echoes the thought of many a child, or even an adult.

Color and form, poetry, music, physical culture, nature study, and all things which minister to the highest physical, mental and spiritual well-being of the child, are what education stands for, and not one can be slighted without unfavorable reaction upon the others. A noble beginning has already been made in Brookline in art decoration, largely through private enterprise, but it is as yet so small in comparison with what may and ought to be done, that I speak of this as our great present need.

In conclusion, I would express my appreciation of the faithful and efficient work of my associate, Miss Annie Chamberlain, whose supervision of the primary schools has so largely contributed to their standard of excellence. Moreover, I would add my thanks to the Board for the opportunity of serving in a field so well prepared for a large and strong art development. The sympathy and interest of the Board are necessary for the furtherance of such an undertaking.

Respectfully,

March 1, 1895.

IRENE WEIR.

REPORT ON THE EVENING SCHOOL.

MR. S. T. DUTTON,

Superintendent of Schools:

The attendance at the evening school for the year 1894-95 has been as follows: Average attendance up to the Christmas vacation, 60; from Christmas to March 1, 42; for the entire time, 54. This includes the members of the drawing class. We regularly registered about 140, leaving out of the account those members who came for a few nights only.

Although I cannot of my own knowledge compare the condition of the school with that of other years, yet numerically, at least, it has been larger this year than ever before. The great majority of the members are earnest in their work, and have shown a desire to learn. There has been advancement in nearly every case, and in some instances the advancement has been marked.

I think a mistake was made in not having the extra teacher at the beginning of the year instead of at the close. For the first two or three months the classes were so large, and the demands upon the teacher so

great, that it was absolutely impossible to meet the needs of all. The work done by the advanced classes has been fully equal to, and in some subjects in advance, of that done in the Boston evening school. I believe the best work can be accomplished by having three distinct grades, with a definite course outlined for each. By having one course lead up to another, a student can, by attending the school during two or three successive winters, complete a definite line of study.

Respectfully submitted,

March 1, 1895.

L. H. ANDREWS.

REPORT OF THE TRUANT OFFICER.

MR. S. T. DUTTON,

Superintendent of Schools;

The following statistics show somewhat the work performed by the Truant Officer during the past year :

Number of cases of absence investigated	1,789
Number found to be truants	63
Number of arrests	4
Number of convictions	3
Number acquitted	1
Number on probation	1
Number found on street and returned to school	27

Two boys have been returned from the Union Truant School, at Walpole, Mass., during the past year, on account of expiration of sentence, and it was also found necessary to send two more to the same place.

During the past three months, the Board of Health have deemed it wise, on account of the prevalence of contagious diseases, to have, as nearly as possible, every case of absence investigated.

This has occasioned a somewhat greater amount of work than usual, but I am able to state that at present the schools are not seriously troubled by any contagious disease.

Respectfully submitted,

FRED. H. ROBINSON,

Truant Officer.

February 20, 1895.

SCHOOL LEGISLATION OF 1893 AND 1894.

ACTS OF 1893, CHAPTER 108.

SECTION 24. No person shall employ or permit to be employed, a minor under fourteen years of age, or over, who cannot read and write in the English language, and who resides in a city or town in this Commonwealth wherein public evening schools are maintained, and is not a regular attendant of a day school, or has not attained an attendance of seventy per cent or more of the yearly sessions of the evening school.

SEC. 25. Whenever it appears that the labor of any minor who would be debarred from employment under section twenty-four of this act is necessary for the support of the family to which said minor belongs, or for his own support, the school committee of said city or town may, in the exercise of their discretion, issue a permit authorizing the employment of such minor within such time or times as they may fix: *provided*, such minor makes application to said school committee, or some person duly authorized by said committee, for such a permit before the opening of the yearly session of the evening school of said city or town; and the provisions of said section twenty-four shall not apply to such minor so long as said permit is in force; *provided, also*, that if such minor has been prevented by sickness or injury, from attending said evening school, as provided in said section, the school committee shall issue to such minor the permit provided for in this section, upon the presentation of the following blank properly filled and signed:—

To the School Committee of the

I hereby certify that I have attended from to ;
that said was sick or injured with ; and that said
 was not in suitable physical condition to attend evening
school for the term of days. (Signed.)
(Dated)

ACTS OF 1893, CHAPTER 208.

An Act authorizing cities and towns to provide free evening lectures.

SECTION 1. The school committees of cities and towns maintaining free evening schools are hereby authorized to employ competent persons to deliver lectures, on the natural sciences, history and kindred subjects, in such places as said committees may provide.

SEC. 2. Said committees are hereby authorized to provide cards or pamphlets giving the titles and names of authors of books of reference contained in the local public libraries, on the subject matter of said lectures.

ACTS OF 1894, CHAPTER 151.

An Act relating to vivisection and dissection in the public schools.

SECTION 1. No teacher or other person employed in any public school of this Commonwealth shall, in the presence of any scholar in said school, or any child or minor there present, practice vivisection, nor, in such presence, exhibit any animal upon which vivisection has been practiced.

SEC. 2. Dissection of dead animals or of any portions thereof, in the public schools of this Commonwealth, shall in no instance be for the purpose of exhibition, but shall be confined to the class-room and to the presence of pupils engaged in the study to be illustrated by such dissection.

SEC. 3. Any person violating the provisions of this act shall be punished by a fine of not less than ten nor more than fifty dollars.

ACTS OF 1894, CHAPTER 188.

An Act relating to school attendance and truancy.

SECTION 1. Every person having under his control a child between the ages of eight and fourteen years, and, in cities and towns where industrial training is taught between the ages of eight and fifteen years, shall annually cause such child to attend some public day school in the city or town in which he resides, for at least thirty weeks, if the schools are kept open that length of time, with an allowance of two weeks' time for absences not excused by the superintendent of schools or the school committee; such period of attendance shall begin within the first month of the fall term of school, and for each five days of absence of any such child thereafter, in excess of the above allowance, before the completion of the required annual attendance of thirty weeks, the person having such child under his control shall, upon the complaint of the school committee or any truant officer, forfeit to the use of the public schools of such city or town a sum not exceeding twenty dollars; but if such child has attended for a like period of time a private day school approved by the school committee of such city or town, or if such child has been otherwise instructed for a like period of time in the branches of learning required by law to be taught in the public schools, or has already acquired the branches of learning required by law to be taught in the public schools, or if his physical or mental condition is such as to render such attendance inexpedient or impracticable, such penalty shall not be incurred.

ACTS OF 1894, CHAPTER 230.

An Act to authorize the board of education to establish an educational museum.

This Act authorizes a museum, the basis of which shall be the Massachusetts educational exhibit at the World's Columbian Exposition, the sergeant-at-arms to provide suitable rooms, and the annual appropriation for care and maintenance to be \$1,500.

ACTS OF 1894, CHAPTER 320.

An Act relating to instruction in the use of tools and in cooking in public schools.

This Act provides that the use of tools and the art of cooking shall be taught, by lectures or otherwise, in all the public schools in which the

school committee deem it expedient, and that wherever such instruction is given, the tools, implements and materials required for such instruction may be purchased by the school committee at the expense of the city or town, and loaned to pupils, free of charge, subject to such rules as the committee may prescribe.

ACTS OF 1894, CHAPTER 329.

An Act to provide for the examination and certification of school teachers by the State Board of Education.

SECTION 1. The State Board of Education shall cause to be held, at such convenient times and places as it may from time to time designate, public examinations of candidates for the position of teacher in the public schools of the Commonwealth. Such examinations shall test the professional as well as the scholastic abilities of candidates, and shall be conducted by such persons and in such manner as the board may from time to time designate. Due notice of the time, place and other conditions of the examinations shall be given in such public manner as the board may determine.

SEC. 2. A certificate of qualification shall be given to all candidates who pass satisfactory examinations in such branches as are required by law to be taught, and who in other respects fulfill the requirements of the board, such certificate to be either probationary or permanent, and to indicate the grade of school for which the person named in the certificate is qualified to teach.

SEC. 3. A list of approved candidates shall be kept in the office of the secretary of the board, and copies of the same, with such information as may be desired, shall be sent to school committees upon their request.

SEC. 4. The certificates issued under the provisions of this act may be accepted by school committees in lieu of the personal examination required by section twenty-eight of chapter forty-four of the Public Statutes.

SEC. 5. A sum not exceeding five hundred dollars may be annually expended for the necessary and contingent expenses of carrying out the provisions of this Act.

ACTS OF 1894, CHAPTER 471.

An Act to provide for manual training in cities and towns of more than twenty thousand inhabitants.

After the first day of September, in the year eighteen hundred and ninety-five, every city of twenty thousand or more inhabitants shall maintain as part of its high school system, the teaching of manual training. The course to be pursued in said instruction shall be subject to the approval of the State Board of Education.

REPORT OF COMMITTEE ON NEW HIGH SCHOOL BUILDING.

The town, at a meeting held January 25th, appropriated the sum of fifty thousand dollars toward the construction of a High School Building, with the understanding that the entire expense, exclusive of furnishing, should not exceed \$200,000. The building committee was also appointed by the town, to consist of the boards of Selectmen and School Committee.

The committee first advertised for bids for the foundation of the proposed building, in order to expedite the construction, and at a meeting held April 5th the contract was awarded to Messrs. Norcross Brothers, being the lowest bidders, for the sum of \$16,616. Subsequently, the committee advertised for bids according to the plans and specifications prepared by the architects for the entire structure completed above the foundations, and the lowest bid would have brought the entire cost far in excess of the amount authorized by the town. All the bids were therefore rejected, and the architects were requested to make such modifications in the plans as would reduce the cost so as to come fairly within the appropriation. Many consultations were had with the architects and a plan was finally agreed upon and bids were again solicited. The changes principally related to the external construction, as the size of the building could not be reduced, and the committee did not wish to make any changes in the internal arrangement, which was so admirably adapted to its purpose. The committee gave much time to the consideration of the style of bricks to be used in the construction, and quite a number of walls were put up showing the effect of the different kinds and colors of brick proposed.

Taking into consideration the difference in cost, and having in view the fact that this building is to stand for a long

period of time, the committee decided in favor of the brick recommended by the architects, and we believe it will stand the test of time and the choice that was made be approved in the future.

The contracts embodying these changes were awarded as follows :

For the construction of the building by Messrs.	
Norcross Brothers, for the sum of	\$136,018 00
Heating and ventilating, Kenrick Brothers	17,964 00
Plumbing, James Tucker & Son	6,237 00
Total	<u>\$160,219 00</u>

As the work progressed, the architects informed the committee that it would be desirable to make some changes and restore certain features which had been eliminated from the original plans. The committee held several meetings and acted upon these changes and adopted such as seemed desirable, and would bring the entire cost within the limit.

The total amount of the changes proposed will add to the above cost about \$10,000. To this must be added the architects' commissions, say \$10,000, which, with the sum paid for the foundations, will bring the total cost to \$196,835.

Your committee are not aware of any further changes that will involve additional expense, but it is quite likely that before the building is completed some addition may be made to advantage, and which will require only a small expenditure of money. The committee, therefore, see no reason why the entire cost should not be within the amount authorized by the town. The construction has not progressed as rapidly as the committee expected and desired. There were several causes that delayed the beginning of the work, and since that time the contractors have been obliged to suspend operations in consequence of various disappointments in regard to material. The severity of the weather has also hindered the progress of the work. We hope, however, that the building will be ready for occupancy, as promised, in the fall. That it will completely fill the requirements, and not only that, but furnish an example of what a high school building should be in all its appointments and facilities, your committee do not entertain a doubt.

The external appearance will also satisfy all proper demands, though possibly not so ornamental as many have expected from the appearance of the plans exhibited at the town meeting. The building is not intended for show, but utility. No money has been wasted upon useless adornment or ornate construction, but it will stand as a fitting expression of its adaptability to its lofty purpose, thus representing art in one of its highest forms. As an institution of learning it will be a source of pride to the citizens of the town and an enduring monument of their zeal and generosity.

REPORT OF COMMITTEE ON MANUAL TRAINING SCHOOL BUILDING.

The Building Committee submit their final report upon the completion of the work with the exception of the heating and ventilating, which is incomplete and unsatisfactory. No money has been paid on this contract, and the Committee do not propose to pay until the whole matter is settled.

We annex a statement showing the appropriations that have been made and expenses incurred. It will be noticed there is a deficiency of \$240.32, and we ask the town to appropriate this amount to balance the account.

BENJAMIN F. BAKER, *Clerk.*

REPORT OF TRUSTEES OF WALNUT HILLS CEMETERY.

The Trustees of Walnut Hills Cemetery herewith submit their report for the year ending January 31, 1895.

The avenues and walks have been resurfaced, and about forty feet of avenue made. Eighteen lots and fifty-four single-grave lots have been trenched, graded and finished. Eleven lots and nine single-grave lots have been sold. A new shed, thirty-three by ten feet, has been attached to the office building, for the storage of vehicles and tools. The following is a statement of the work for the year :

Number of interments	36
Number of interments in single graves	17
Number of interments in private lots	19
Placed in the receiving tomb	13
Whole number of lots trenched and graded	281
Whole number of lots sold	208
Whole number of grave lots trenched and graded	215
Whole number of grave lots sold	164
Total interments	634

The financial account of this work is as follows :

General Fund.

DR.

To cash balance on hand from previous year	\$44 94	
for sale of lots and graves	1,514 00	
for interments	114 00

Cash balance on hand		\$642 44

The avenues and paths have been kept in good order and the grounds well cared for; and we have endeavored to have the place made to conform to the wants of the people and the requirements of the town. In consequence of the small income received from the Perpetual Care Fund investment, we are under the necessity of asking for an appropriation of \$3,000, in order to make needed improvements and to enlarge the cottage.

HORACE JAMES,

Chairman ex-officio.

REPORT OF COMMITTEE ON PLANTING TREES.

There were planted the past season one hundred and thirty-five Elm, twelve Rock Maple and nine Oak trees ; chiefly on University and Circuit roads and Stetson street.

The season was an extremely dry one, and never was the importance and economy of watering newly planted trees more strikingly proven,—viz., by the small loss of stock.

Much good pruning was accomplished ; the gale in October, however, extending the ordinary period of such work considerably.

Arrangements have been made to care for upwards of fifteen hundred young trees next year, to be established in nursery form on land owned by the town, and it is confidently expected that better stock, at reduced cost, will soon be at our disposal therefrom.

The committee respectfully ask for an appropriation of twenty-four hundred dollars (\$2400). The additional four hundred is (all but a small sum) only a portion of this year's available balance already pledged to the purchase of the young trees referred to above.

This money cannot be properly paid until the delivery of the stock next April, and hence is suffered to lapse on the 1894 appropriation, though it is of course a direct town obligation.

WILLIAM STEARNS,
JAMES H. BOWDITCH,
EDWARD W. E. TOMPSON,
Committee on Planting Trees.

REPORT OF SPECIAL COMMITTEE ON DISPOSAL OF WASTE MATERIAL.

OFFICE OF THE BOARD OF HEALTH,
BROOKLINE, MASS., Feb. 7, 1895.

A radical change from the present system of disposal of our garbage becoming more imperative every year by reason of the abolishing of hog farms in neighboring towns,* it was voted at the last annual town meeting to reappoint the committee appointed October 31, 1892, to gather information on the subject, advise with the Selectmen and form with the latter a special committee on disposal of waste material.

The citizens so appointed were H. Lincoln Chase, M. D., Agent of the Board of Health; William K. Melcher, Inspector of Buildings; Charles H. Stearns, of the Board of Assessors; Michael Driscoll, Superintendent of Streets and Sewers; and Desmond FitzGerald, Civil Engineer.

At present our swill is collected by a contractor who removes it to out-of-town farms where it is fed to hogs. Under the contract which expires April 30, 1895, he receives \$4200 per year, the garbage to be collected and removed from the town daily, except Sundays and legal holidays, from May 1st to November 1st, and three times weekly the remainder of the year, except that from markets and large boarding-houses it is to be collected daily throughout the year.

Three systems of local garbage disposal have received the special attention of the committee the past year, and all three deserve consideration. The cremation of garbage and dry waste material, exemplified in the cremator at Lowell, has been investigated on the ground, and, excepting the great expense, seems, under certain circumstances, to be

*Our swill at present is carted to Dover and other distant towns.

fairly satisfactory. Its advantages were fully described in the report of this committee two years ago. By the courtesy of Dr. Field, chairman of the Lowell Board of Health, the committee has had every opportunity to investigate the cremator at Lowell for two years, and the following letter gives the latest information as to cost of operation :

OFFICE OF THE BOARD OF HEALTH,
LOWELL, MASS., Feb. 5, 1895.

DEAR DR. CHASE:—

I have not at hand the figures for the entire cost last year, but from early spring until freezing weather the cost for labor and fuel ran from \$1.02 to \$1.20 per ton. The total cost for the year was less than that of last year. I give the figures for our largest week: 186,145 lbs. = 93+ tons, also three dogs, one cat, and eleven badly infected mattresses.

Cost, 15 tons coal at \$4.70	\$70 50
Labor, { One man at \$2.25, 7 days	15 75
{ One man at \$2.00, 6 days	12 00
	27 75
	\$98 25

This gives \$1.05 as the cost of cremation of each of the 93 tons of swill disposed of in that week.

Last autumn we sold two (2) car-loads of ashes, getting \$7.50 per ton for ashes not exposed to rain or dew, and screened and barreled. About 5% of our garbage is ash, therefore it is possible, if the ashes are properly looked after, to realize a little from them.

Very truly yours,
JAS. B. FIELD.

The second system worthy of consideration is one that seems to have worked well in Washington, D. C., till the plant was burned down. The system, with some improvements, is now on trial by the city of Boston.

Nearly all of the committee visited, some months ago, the experimental works of the friends of this system at Wakefield Junction, and quite recently visited the not unsightly plant now in actual operation on Gibson street, Dorchester. If the claims of its friends prove, after a fair trial, to be well grounded, this system may be as good as any for us to adopt. At all events it is worthy of thorough investigation.

By this system the garbage is taken by the collecting carts to an enclosed dump and is immediately delivered into air-tight digesters, where it is subjected to steam under

pressure of 50 lbs. for six or seven hours, which, of course, destroys all germs of fermentation or disease, and expels all the water and grease, and the practically dry residue is removed, compressed, and ground up into fertilizer. The committee can see absolutely no objection on the ground of health to persons living in the immediate vicinity. No very objectionable odors were perceived, even inside the works during the most exposed part of the process, and no odor at all outside the building, except at times a faint coffee-like or kitchen smell very near the building. We can see no valid objection to the establishment of such a plant in Brookline other than what would be urged against any municipal department works by the owners of neighboring lands, who might consider the prospective value of their land for certain purposes to be adversely affected. The most reasonable objection yet heard is to the constant passing of the swill carts in front of houses on the main roads to the works, and this objection we think could be met by an improved method of delivery. We have reason to believe that certain improvements would be made in a new plant, as a result of the present experiments, thus lessening the possibilities of its proving objectionable. If a longer trial of this plant should justify us in recommending the same system for adoption here, the matter can then be brought before the town for action.

The third system under consideration is one of home disposal of swill by means of a simple and comparatively inexpensive apparatus for carbonizing it by waste heat from kitchen stoves, thus converting it into fuel useful for kindling purposes. The apparatus is manufactured by a well-known Boston firm and can be attached to any stove. This system, proposed by an eminent sanitarian and exhibited by him before the American Public Health Association at its last meeting, is now on trial in houses in Boston and elsewhere, as well as in houses of members of this committee, and would, if generally adopted, take care of all kitchen refuse, thus relieving the town from the great expense and annoyance of swill collection, transportation,

crematories or reduction plants. We fully recognize, however, the practical difficulties in the way of adopting such a system, desirable as it would be.

Meanwhile we shall continue our investigations and in the near future shall probably submit a final report, with a recommendation for action by the town. Until the reduction system now on trial in Dorchester has been accepted or rejected, we unanimously recommend that no action be taken in adopting any new system of garbage disposal.

Respectfully submitted,

	\$659,600 00
--	--------------

There was borrowed \$604,600, as follows:—

Anticipation of Taxes \$300,000 00

At the adjourned annual meeting, April 20, 1894, it was—

Voted, That the Town Treasurer be authorized to borrow in anticipation of the taxes of the current municipal year, such sums of money, not exceeding three hundred thousand dollars (\$300,000) in all, as may be needed from time to time for the expenses of the town, paying therefor such rates of interest as may be found necessary, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Said sums so borrowed are hereby expressly made payable from said taxes.

Availed of as follows:—

April 30, 1894.	Blake Bros. & Co., Boston, 4 notes payable	
	Nov. 5, 1894, discounted at $2\frac{1}{2}$ per cent	
	per annum	\$225,000 00
April 30, 1894.	Commissioners of Brookline Sinking Fund,	
	demand note bearing 3 per cent per	
	annum interest, paid Feb. 14, 1895 . . .	75,000 00
		\$300,000 00

The total cost of these loans was \$3,603.12.

Water Works; Additional Driven Wells \$30,000 00

At the adjourned annual meeting, April 20, 1894, it was—

Voted, That the Treasurer be authorized to borrow, when so directed by the Selectmen, to pay for the extension of the system of driven wells at Cow Bay, the sum of thirty thousand dollars (\$30,000), paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, and giving therefor the notes of the town, to be denominated on their face "Brookline Water Scrip," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same within thirty years from the date of the delivery of said notes.

June 15, 1894, \$30,000 was borrowed of the Provident Institution for Savings, Boston, on one note bearing $3\frac{3}{8}$ per cent per annum interest, payable semi-annually, the principal payable in thirty successive annual payments of \$1,000 each, beginning June 15, 1895.

Longwood Park Construction \$4,000 00

Village Brook Channel 8,000 00

Hospitals 5,000 00

At the adjourned annual meeting, April 16, 1894, it was—

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Park Commissioners, the sum of four thousand dollars, appropriated at this meeting, at a rate of interest not exceeding four per cent per annum, the bonds or certificates of indebtedness to be given therefor to be denominated upon their face, "Public Park Construction Loan," and to be made payable in such annual proportionate payments as will extinguish the same in or within ten years from their date; the bonds or certificates to be signed by the Treasurer and countersigned by a majority at least of the Selectmen; and the said Park Commissioners are authorized to expend the said sum of four thousand dollars for the improvement of the Longwood Park Playground.

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of eight thousand dollars (\$8,000), paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen; such indebtedness shall be made payable in such annual proportional instalments as will extinguish the same within ten years from the date of delivery of said note or notes. The said sum is to be applied to the payment for the completion of the new covered channel for the brook in the village as accepted by the town on May 15th, 1893.

At the adjourned annual meeting, April 20, 1894, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of five thousand dollars (\$5,000), paying therefor a rate of interest not exceeding four per centum per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen; such note or notes to be made payable in such annual proportional instalments as will extinguish the same within ten years from the date of delivery of said note or notes. The said sum is to be applied to the erection of buildings to serve as hospitals for persons having diseases dangerous to the public health, as appropriated at this meeting.

June 15, 1894, the above \$17,000 was borrowed of the Provident Institution for Savings, Boston, on one note bearing $3\frac{9}{16}$ per cent per annum interest, payable semi-annually, the principal payable in ten successive annual payments of \$1,700 each, beginning June 15, 1895.

Harvard-street Widening	\$75,000 00
Washington-street Widening	61,000 00
High School Building	50,000 00

At the special meeting, May 29, 1894, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of seventy-five thousand dollars (\$75,000), paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same within twenty years from the date of delivery of said note or notes. The said sum is to be applied to the payment of land or other damages, and to pay for the construction of the alteration and widening of Harvard street.

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of sixty-one thousand dollars (\$61,000), to pay for land or other damages, and for the construction of the alteration and widening of Washington street, as reported to and accepted by the town at this meeting, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving the note or notes of the town therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportional payments as will extinguish the same within twenty years from the date of delivery of said note or notes.

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of fifty thousand dollars (\$50,000), paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportionate payments as will extinguish the same within twenty years from the date of the delivery of said note or notes. The said sum is to be applied towards the payment of the cost of erecting the new High School building.

June 15, 1894, the above \$186,000 was borrowed of the Provident Institution for Savings, Boston, on one note bearing $3\frac{9}{16}$ per cent per annum interest, payable semi-annually, the principal payable in twenty successive annual payments of \$9,300 each, beginning June 15, 1895.

High School Building \$50,000 00

At the special meeting, October 30, 1894, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of fifty thousand dollars, appropriated January 25th, 1894, towards the construction of a new High School Building, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen; such indebtedness shall be made payable in such annual proportionate payments as will extinguish the same within twenty years from the date of the delivery of said notes. This authority to be a substitute for the authority to borrow said sum so appropriated which was given by a vote of the town January 25th, 1894, which vote is hereby rescinded.

January 1, 1895, \$50,000 was borrowed; \$12,500 of the Commissioners of the Sinking Fund of the town of Brookline, and \$37,500 of the Provident Institution for Savings, Boston, on two notes bearing $3\frac{1}{2}$ per cent per annum interest, payable semi-annually, the principal payable in twenty successive annual payments of \$2,500 each, beginning January 1, 1896.

Riverdale Park Construction \$21,600 00

At the special meeting, October 30, 1894, it was —

Voted, (under the authority of Chapter 427 of the Acts of 1892) That the Town Treasurer be authorized to issue from time to time, when directed by the Park Commissioners, negotiable bonds or certificates of indebtedness to the amount of twenty-one thousand six hundred dollars (\$21,600), bearing interest at a rate not exceeding four per centum per annum, payable semi-annually, to be denominated on the face thereof "Brookline Park Construction Loan," and to be made payable in such annual proportionate payments as will extinguish the same in or within twenty years from their date, said bonds to be signed by the Treasurer and countersigned by a majority at least of the Selectmen. Said bonds are to be issued for the purpose of finishing the construction of Muddy River or Riverdale Park, and the Park Commissioners are authorized to expend said amount, as appropriated at this meeting, for the above purpose.

Voted, That the votes appropriating nineteen thousand four hundred dollars for Park Construction and authorizing the Treasurer to borrow the same, which were passed at the annual town meeting held on March 29th, 1894, be and the same are hereby rescinded.

January 1, 1895, \$21,600 was borrowed; \$5,400 of the Commissioners of the Sinking Fund of the town of Brookline, and \$16,200 of the Provident Institution for Savings, Boston, on two notes bearing $3\frac{1}{2}$ per cent per annum interest, payable semi-annually, the principal payable in twenty successive annual payments of \$1,080 each, beginning January 1, 1896.

Land for Additional Water Supply \$7,000 00

" " " " " 18,000 00

At the adjourned special meeting, Nov. 14, 1888, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, to pay for the land necessary for securing an additional water supply for the town, and for the purpose of defraying in part the cost and expenses which may be incurred under the provisions of Chapter 343 of the Acts of 1872 and Chapter 131 of the Acts of 1888, the sum of seven thousand dollars, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, and giving therefor the notes or scrip of the town, to be denominated on their face "Brookline Water Scrip," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be payable in such annual proportional payments as will extinguish the same within ten years from the date of the delivery of the first of said notes.

Nothing has been borrowed under this vote; the expenditures under the appropriation amount to \$5,189.86, which have come from the general fund.

At the special meeting, January 29, 1895, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of eighteen thousand dollars (\$18,000), appropriated at this meeting to pay for land taken under the provisions of Chapter 343 of the Acts of 1872 and Chapter 131 of the Acts of 1888, for securing an additional water supply for the town, paying therefor a rate of interest not exceeding four per centum per annum, payable semi-annually, giving therefor the note or notes of the town, to be denominated on their face "Brookline Water Scrip," signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be payable in such annual proportionate payments as will extinguish the same within thirty years from the date of the delivery of said note or notes.

Nothing has been borrowed under this vote.

Druce Street School-house Site \$30,000 00

At the special meeting, January 29, 1895, it was —

Voted, That the Town Treasurer be authorized to borrow, when so directed by the Selectmen, the sum of thirty thousand dollars (\$30,000), appropriated at this meeting for the purchase of land at or near the corner of Buckminster road and Druce street for Primary School and Grammar School buildings, paying therefor a rate of interest not exceeding four per cent per annum, payable semi-annually, giving therefor the note or notes of the town, signed by the Treasurer and countersigned by a majority at least of the Selectmen. Such indebtedness shall be made payable in such annual proportionate payments as will extinguish the same within twenty years from the date of delivery of said note or notes.

Pending the examination of the title and preparation of deed, nothing has yet been borrowed under this vote.

THE LIMIT OF INDEBTEDNESS.

Under the existing statutes governing municipal indebtedness, the amount which the town can borrow, in addition to its present debt, is as follows:

<i>Valuation</i> for the assessment of taxes for 1894 . .	\$57,191,150 00
<i>Gross Capacity</i> (Pub. Stat., chap. 29, sec. 3) 3% is .	\$1,715,734 00
<i>Present Debt</i>	\$2,146,284 00
Deductions allowed:	
Water debt	\$727,684 00
Amount of sinking fund other than that appli- cable to Water debt, par value	128,016 00
	855,700 00
<i>Net Debt</i> for the purpose of this calculation	\$1,290,584 00
<i>Available Margin</i> between the present net debt and the 3 per cent statutory limit	\$425,150 00

TOWN DEBT.

The Total Debt at the beginning of the year was . . . \$2,165,685 00

There was borrowed during the year :

In anticipation of taxes	\$300,000 00	
High School Building	100,000 00	
Harvard Street Widening	75,000 00	
Washington Street Widening	61,000 00	
Water Works	30,000 00	
Riverdale Park Construction	21,600 00	
Village Brook Channel	8,000 00	
Hospitals	5,000 00	
Longwood Park	4,000 00	
		604,600 00
		\$2,770,285 00

The Payments were the amount borrowed

in anticipation of taxes \$300,000 00

and the following described notes :

Mar. 1, 1892, Riverdale Park Construction, 4%	4,000 00

(E. and O. E.)

BROOKLINE, Feb. 15, 1895.

GEO. H. WORTHLEY.

Treasurer.

REPORT OF THE AUDITORS.

The Auditors report that they have examined the accounts of George H. Worthley, Treasurer of the Town of Brookline, of the Warren Tree Fund, and of the Walnut Hills Cemetery, and have found them correct, and with the proper vouchers and warrants.

They have also examined the Treasurer's account with the Sinking Fund, and find it as reported to the Commissioners, together with the securities belonging thereto.

WILLIAM E. LINCOLN,
GARDNER C. BROOKS,
CHARLES A. W. SPENCER,

Auditors.

BROOKLINE, MASS., March 19, 1895.

REPORT OF THE ASSESSORS.

REPORT OF THE ASSESSORS.

The Assessors of the town of Brookline submit their report for the year 1894.

The organization of the board has been the same as the previous year, viz., R. G. F. Candage, chairman, and Albert Cushman, clerk.

Under the vote of the town, with consultation with the Selectmen, Roslin Cottage was rented as an office for the use of the Assessors, at \$600 per annum, and the office of the board was removed there in June last, where the work of the year has been carried on, to the advantage not only of the board, but of all having business with it. An arrangement was made by the board, with Mr. Charles E. Riley, to occupy a part of the rooms, with his wife and child, and to take care of the premises, sweep and keep them clean, take care of the grounds, attend to the heating, etc., for his rent, the cost of fuel for heating to be equally shared by him and by the town. That arrangement has worked highly satisfactory thus far, and we would recommend to the town its continuance upon the same terms.

As required by statute, legal notices were printed, posted and published in the Brookline Chronicle, and printed slips were left by members of the board at all dwellings and places of business in town, requesting tax-payers to bring in true lists of their polls, real and personal estates.

The work of visiting dwellings, places of business, and examination of property, began on May 1st and was completed early in June. Notwithstanding the general depression in business circles, and a slight loss in personal estate, the board was pleased to note a steady growth in new buildings, in polls, and in prices of real estate in the town.

The probate records have been consulted; corporation and bank stock lists at the state house have been examined, and due care has been exercised to make an equitable and just tax levy. The board has striven to do its duty in accordance

with the statutes as they are understood by its members, knowing that any other course would be wrong, and that it would be impossible to please all, or to escape the criticism and fault-finding of some.

The male polls assessed were 4,163; the female polls, 55; transfers of real estate, 451; resident tax-payers, 2,413; estates, trusts and firms, 322; non-resident individuals, 263; non-resident estate trusts, 63; total 3,061. Males who pay poll-tax only, 2,730; female polls, 55; total tax bills, 6,846; horses, 1,515; cows, 474; sheep, 125; hens, 300; dwelling-houses, 2,247; other buildings, 696; acres of land, 3,761.

Valuation of Personal Estates	\$15,353,700 00
Valuation of Real Estate	41,837,450 00
Total	<u>\$57,191,150 00</u>

To the above amount add value of bank and corporation stocks assessed at the State House—say, \$9,300,000.00, in round numbers, and we have a grand total of \$66,491,450.00.

The total town appropriations were \$847,126.00; State tax, \$46,500.00; County tax, \$53,293.09; Metropolitan sewer tax, \$11,244.01; and overlay, \$798.89; total, \$958,961.99. There was no cash in the treasury. The estimated receipts, \$230,000.00, deducted, left to be raised by taxation \$728,961.99, which made the rate \$12.60 per \$1,000,—an increase of \$1.60 on \$1,000, over the rate of 1893.

Increased appropriations carry with them increased tax-rates and, not infrequently, increased town debt. It is too late to find fault with the taxes and tax-rate after the appropriations are made; the subject should be well considered before that, by the citizens.

In 1853, when the total valuation of the town was but \$7,185,600.00, and the tax-rate \$2.50 on \$1,000, the town chose three principal, and three assistant Assessors. At the present time the town's valuation is \$57,191,150.00, more than eight times greater, while the tax-rate has increased five times, and there are only three Assessors with a clerk, to do all the work.

The time has arrived when the board think Assistant Assessors should be chosen, and the block system of valuations should be introduced into the town, which will necessitate dividing the town into districts and an increase in the Assessors' force.

Assessors of Brookline from 1705 to the Present Time.

The town of Brookline was incorporated in 1705, and in 1706 a separate board of Assessors was chosen, consisting of "Samuel Aspenwall, Joseph Gardner and Rogger Adams to serve for this present year currant." Rogger Adams declined to serve and it was "Voted that John Winchester, sen'r, should serve as an Assessor for this present yeare in Rome of Rogger Adams who refused to serve."

"John Winchester, sen'r, Samuel Aspenwal and Joseph Gardner being chosen Assessors of the province Tax to be levied on this Town for this present yeare, mad Oath to perform the work, and office of Assessors as the Law Directs adminis'r to them by Josiah Winchester, Town Clark, on March 25, 170 $\frac{6}{7}$."

"upon July ye 21, 1707, Leut. Thomas Gardner, Ens'n Benjamin White & John Winchester, sen'r, had the oath appointed by Law, to be taken by assessors of ye Province Tax Administered to each of them by Josiah Winchester, Town Clark."

From that time until 1712, no mention is made of Assessors in the records, but on that year, and until 1715, it was "Voted that the Select men Sarve as assessors." In 1715, "Voted that Josiah Winchester, Samuel Aspinwall & John Seaver be assessors." The following year "Samuel Aspinwall, Thomas Stedman and John Winchester, Jun'r, were sworn Assessors."

"Josiah Winchester, Sen'r, Samuel Aspinwall & Benjamin White, Jun'r, Sworn Assessors for this year 1717."

In the years 1718, 1719, 1720, 1721 and 1722, "voted that the Select men be Assessors & Sworn."

In 1722 "Voted, Mr. Henery Winchester, first Select-man." "Voted, Lieu. Caleb Gardner, second Select man." "Voted, Mr. Peter Boylstone, third Select man." "Voted, Select men, Assessors."

From 1718 to 173 $\frac{5}{8}$ the Selectmen, as appear from the records, were also Assessors, but in the latter year a separate board of Assessors was chosen, consisting of "Samuel White, Cap. Edward White, Cap. Robert Sharp, Assessors."

In 173 $\frac{6}{7}$ the town voted "the Select Men Assessors—Sworn."

173 $\frac{7}{8}$, "Voted Cap. Sharp, Benjamin Gard, Thomas Aspenwall, Assessors Sworn."

173 $\frac{8}{9}$, "Voted the Select Men to be Assessors for the Ensuing year," and until 174 $\frac{3}{4}$ the Selectmen acted as Assessors, but in this year a separate board was chosen, consisting of "Benjamin Gardner, Ebenezer Davis, Nathaniel Seaver, Assessors for the ensuing year, Sworn."

The separate board lasted but one year, for in 174 $\frac{4}{5}$ "Voted that the Select Men be Assessors the Ensuing year, Sworn."

In 174 $\frac{6}{7}$ the town went back to a separate board and "Voted Ebene'r Davis, Mr. Natha'll Seaver, Mr. Sam'll Croft, Assessors, Sworn."

In 174 $\frac{7}{8}$ the same persons were chosen Assessors, "Sworn."

In 174 $\frac{8}{9}$ the Selectmen acted as Assessors and continued to do so until 1753, when the town "Voted Mr. Eben'r Davis, Mr. Nathaniel Sever, and Mr. Wm. Davis, Assessors, Sworn."

In 1754 The Selectmen were Assessors, and the board continued to be Assessors until 1783, when it was "Voted to chose Assessors Separate from the Selectmen," but at an adjourned meeting "the Selectmen were chosen Assessors." The Selectmen continued to act as Assessors until 1842, when a separate board of Assessors was elected, consisting of Timothy Corey, Charles Stearns, Jr., and Abijah W. Goddard. In 1843, the same gentlemen were chosen Assessors by unanimous vote, and in 1844 they were re-elected, but not unanimously.

In 1845, Charles Stearns, Jr., Isaac Cook and Jesse Bird were elected Assessors, and served also in 1846.

In 1847, Charles Stearns, Jr., Thomas Griggs and Royal McIntosh, 1st, were elected; they were re-elected in 1848, and the two first named, with Abijah W. Goddard in place

of Royal McIntosh, were elected in 1849. In 1850 the town elected Thomas Griggs, Charles Stearns, Jr., and John N. Turner, Assessors; the same gentlemen were re-elected in 1851. In 1852 an entire new board was chosen, consisting of Wm. I. Bowditch, A. H. Newell and W. A. Humphrey.

In 1853 the town chose Charles Stearns, Jr., W. A. Humphrey and Augustus W. Seamans as a board of Assessors; and in 1854, W. A. Humphrey, A. W. Seamans and James Robinson were elected, and the same meeting chose E. C. Emerson, Wm. H. Jameson and George F. Homer as Assistant Assessors.

In 1855 the town chose Willard A. Humphrey, Jerathmael Davenport and Frederick J. Williams, Principal Assessors, and Wm. H. Jameson, Thomas B. Hall and George Craft, Assistant Assessors. The board of Assessors for 1856 was the same as that of the preceding year, and remained the same during the year 1857.

In 1858 the town voted to choose three Assessors, and Willard A. Humphrey, Jerathmael Davenport and Thomas B. Hall were elected; they also served the town in 1859, but in 1860 Mr. Humphrey dropped off and John N. Turner was elected in his place.

In 1861, Jerathmael Davenport, Thomas B. Hall and John N. Turner were re-elected and served together during 1862, but in 1863 John N. Turner gave place to Wm. B. Towne.

In 1864, the board consisted of Thomas B. Hall, Wm. B. Towne and Albert W. Smith, they serving through 1865 and 1866. In 1867, Thomas B. Hall, Austin W. Benton and Timothy Corey were elected, but the latter declined to serve, and Wm. B. Towne was elected in his place. In 1868, the town chose Thomas B. Hall, Austin W. Benton and Marshal Stearns, and they were re-elected for 1869.

In 1870, Thomas B. Hall, Austin W. Benton and Wm. I. Bowditch were chosen Assessors; Mr. Bowditch declined to serve, and Wm. Aspinwall was elected to fill the vacancy, and served two years on this board with Messrs. Hall and Benton.

In 1872, Thomas B. Hall, Austin W. Benton and Wm. Lincoln were elected Assessors. In 1873, Wm. Lincoln,

Frederick W. Prescott and R. G. F. Candage were chosen, but the latter declined to serve, and Thomas B. Hall was chosen in his place. Thomas B. Hall, Frederick W. Prescott and Wm. Lincoln were chosen in 1874, 1875, 1876 and 1877.

In 1878, Wm. Lincoln, J. Anson Guild and Thomas B. Hall were chosen; and in 1879, Wm. Lincoln, J. Anson Guild and Wm. D. Coolidge; also in 1880, 1881, 1882 and 1883.

In 1884, Wm. Lincoln, J. Anson Guild and R. G. F. Candage were elected Assessors and were re-elected for 1885, 1886, 1887, and 1888.

In 1889, J. Anson Guild, R. G. F. Candage and George F. Joyce were chosen, but owing to the illness of the former the two latter performed the duties of the board.

In 1890, R. G. F. Candage, George F. Joyce and Nathaniel A. Francis were chosen, and were re-elected for the year 1891.

In 1892, R. G. F. Candage, Nathaniel A. Francis and Charles H. Stearns were chosen. In 1893 and 1894 the board consisted of R. G. F. Candage, Charles H. Stearns and Thomas H. Talbot.

Herewith is presented the condensed statement of the taxation for the year 1894, and a table of aggregates of debt, expenditures, valuation and rate, from February 1, 1847, to date.

R. G. F. CANDAGE,
CHARLES H. STEARNS,
THOMAS H. TALBOT,
Assessors.

BROOKLINE, Feb. 1, 1895.
